EE Sangham

Plat of Township 15:3 South of the Base line, in Range 1 West of the 3rd principal Meridian

Surveyor's Office
St Louis 17th January 1835.

The above plat of Township 15:3 South of the Base line Range 1 West of the 3rd principal Meridian is conformable to the field notes of the Survey thereof on file in this Office

E. J. Loringham

Plat of Township 11th 4 South of the Base line in Range 1st West of the 3rd principal Meridian.

4

Surveyor's Office

St Louis 17th January 1885.

The above plat of Township 4 South of the Base line Range 1 West of the 3rd principal meridian is conformable to the field notes of the survey thereof on file in this Office.

Scale of 40 chains to an inch
(Aggregate area = 23015.24 acres)

E. J. Sangham

Map of Township n: 5 South of the Base Line Range n: 1 West of the 3^d Principal Meridian

5

Surveyors Office

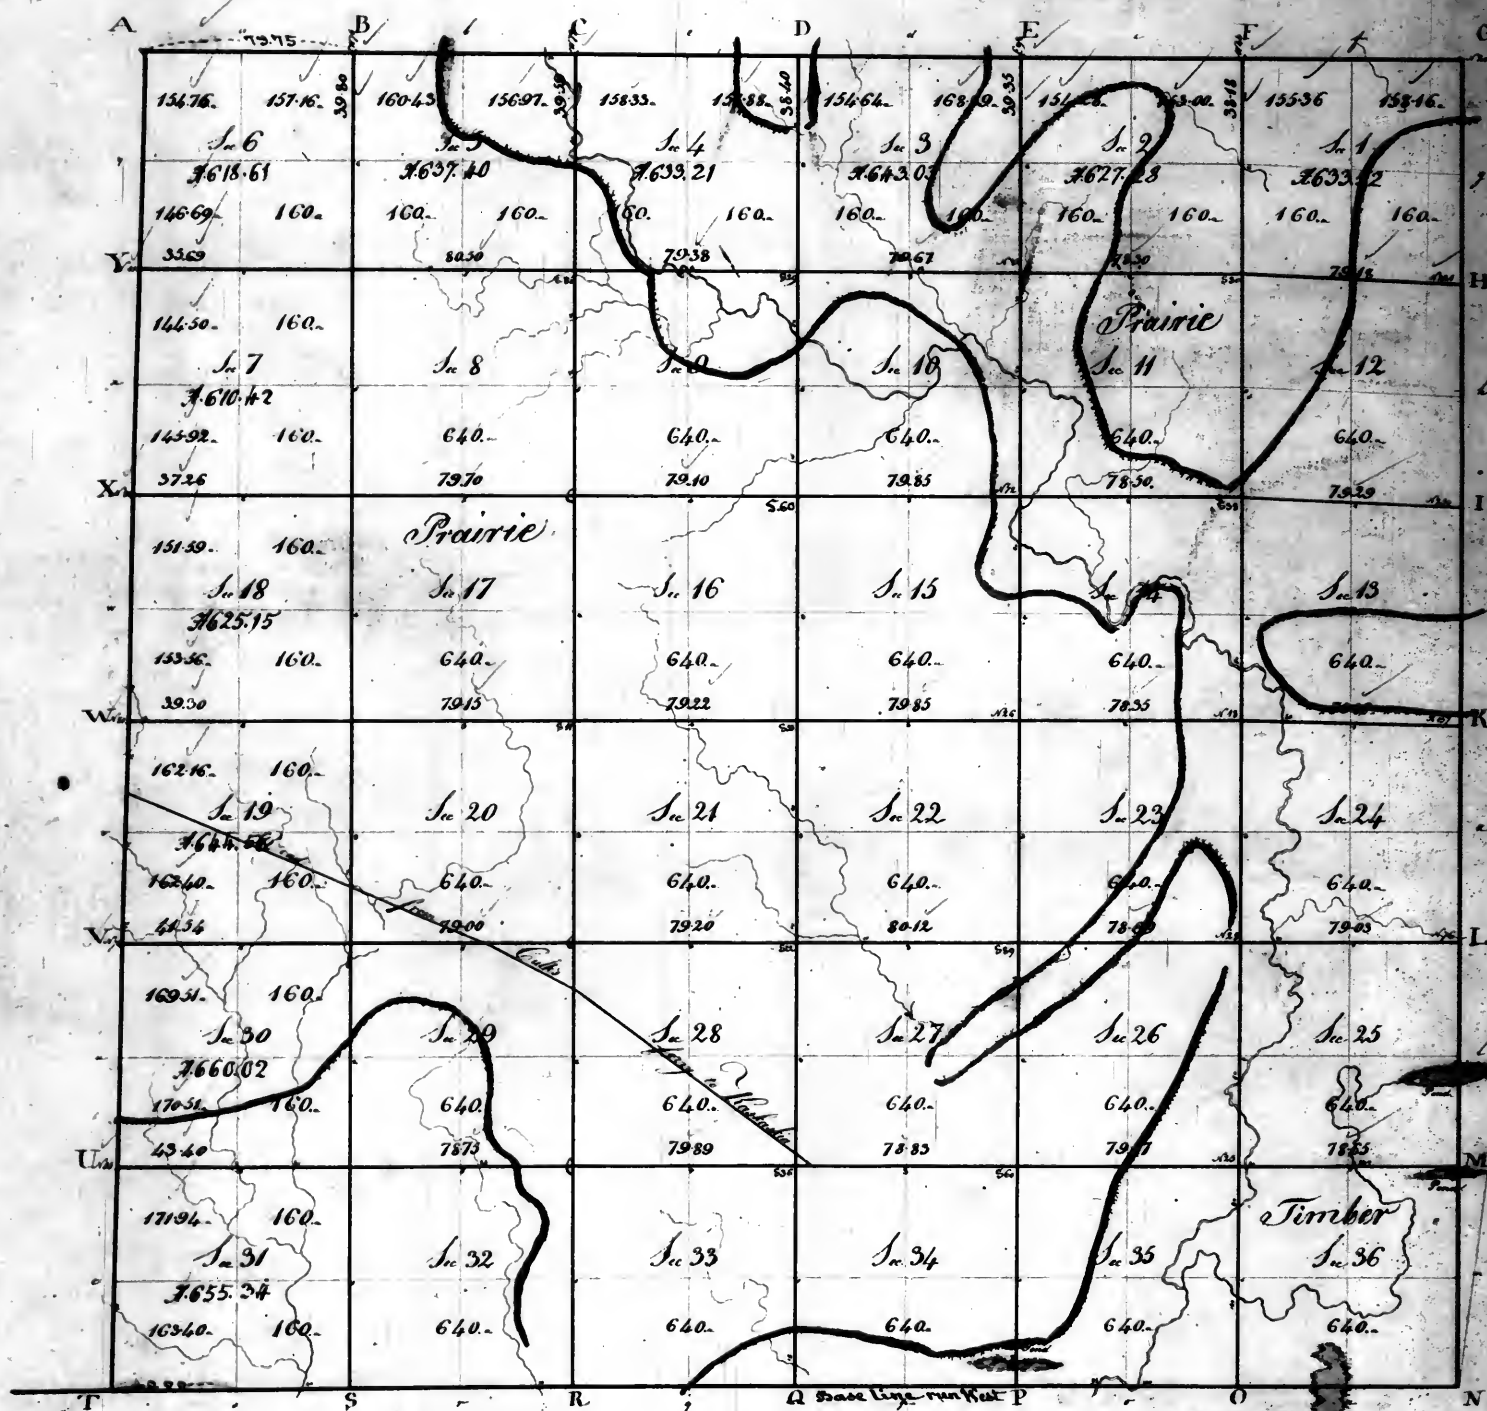

St Louis 17th January 1855.

The above plat of Township 5 South of the Base line Range 1 West of the 3^d principal meridian is conformable to the field notes of the survey therefore file in this Office.

E. J. Laughman

Plat of Township n: 6 South of the Base line in Range n: 1 West of the 3 principal Meridian.

6

Surveyors Office
St Louis 17th January 1835.

The above plat of Township 6 South of the Base line Range 1 West of the 3 principal Meridian is conformable to the field notes of the survey thereof on file in this Office.

E. J. Sanghorne

Plat of Township n. 7 South of the Base line, in Range n. 1 West of the 3rd principal Meridian.

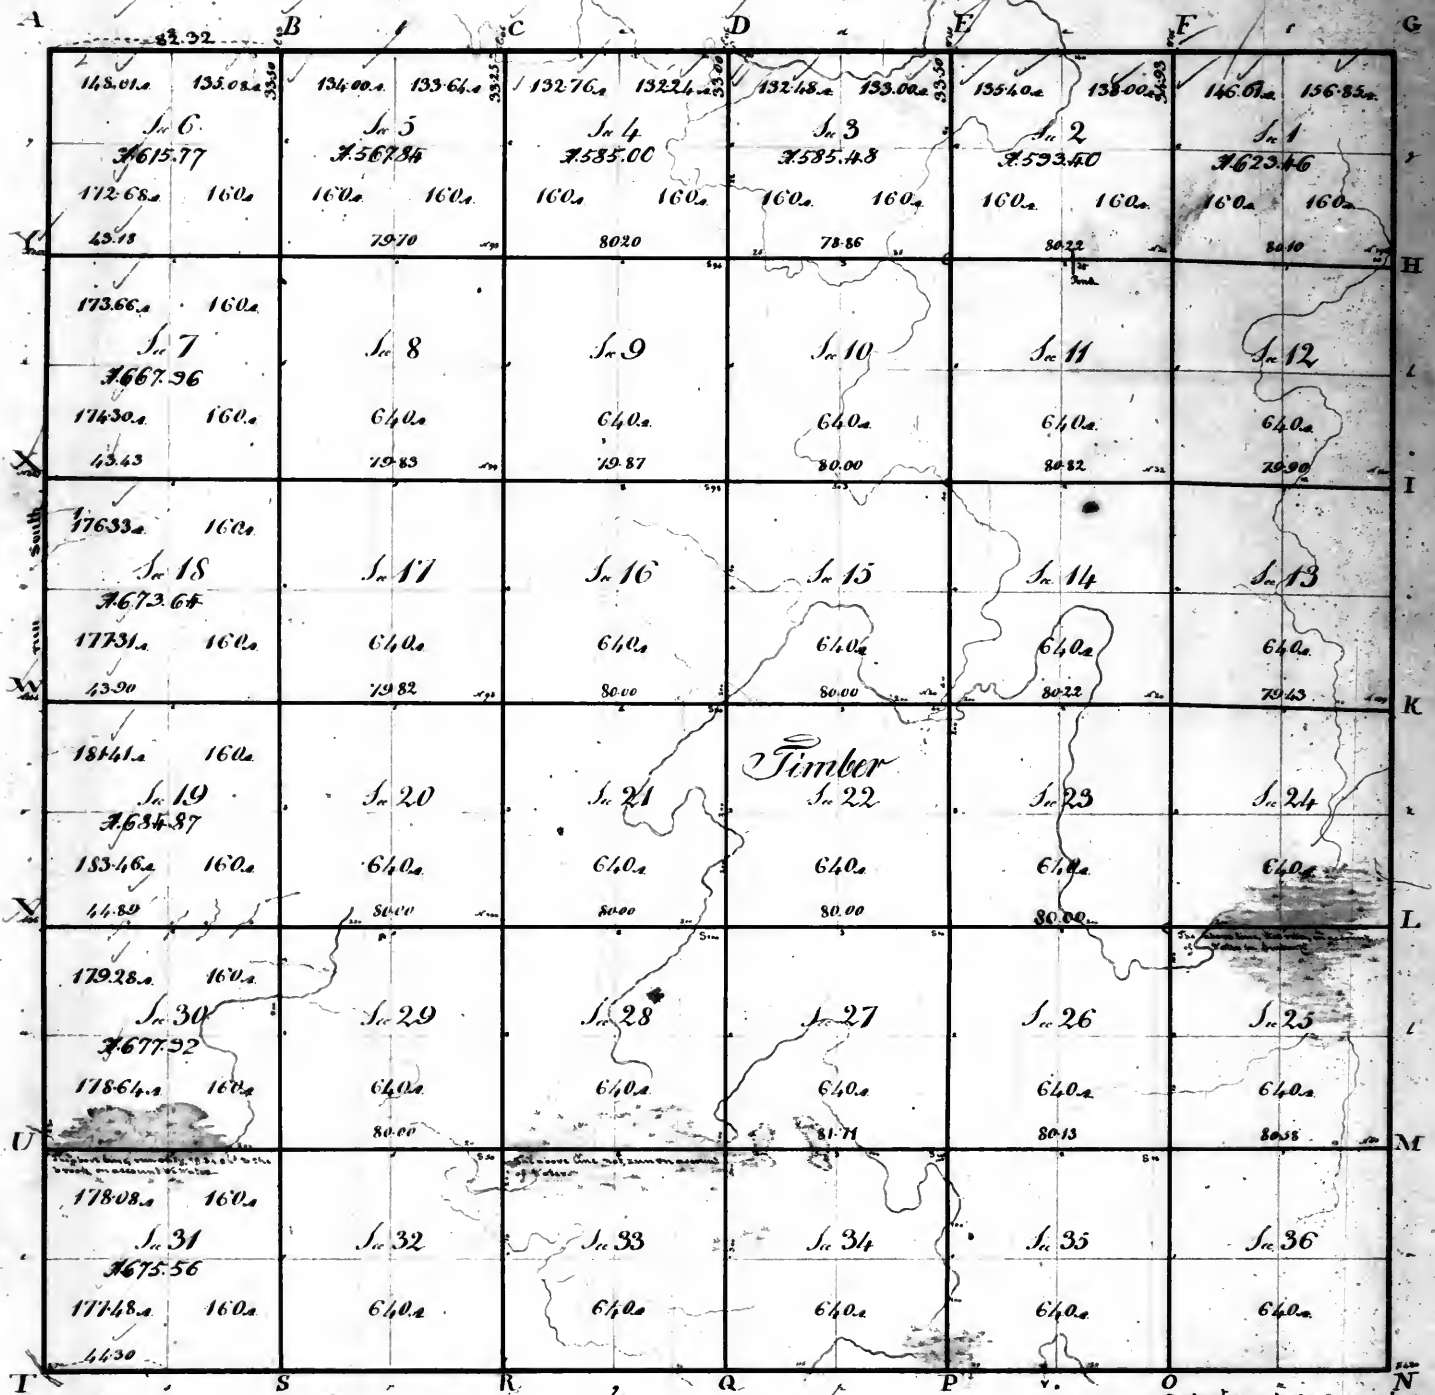

Scale of 40 chains to an inch.
Aggregate area = 23244.30 acres

Surveyors Office
St Louis 19th January 1835.

The above plat of Township 7 South of the Base line Range 1 West of the 3rd principal meridian is conformable to the field notes of the survey thereof on file in this Office.

E. J. Singham

Plat of Township 10 S South of the Base line in Range N. 1 West of the 3rd principal Meridian.

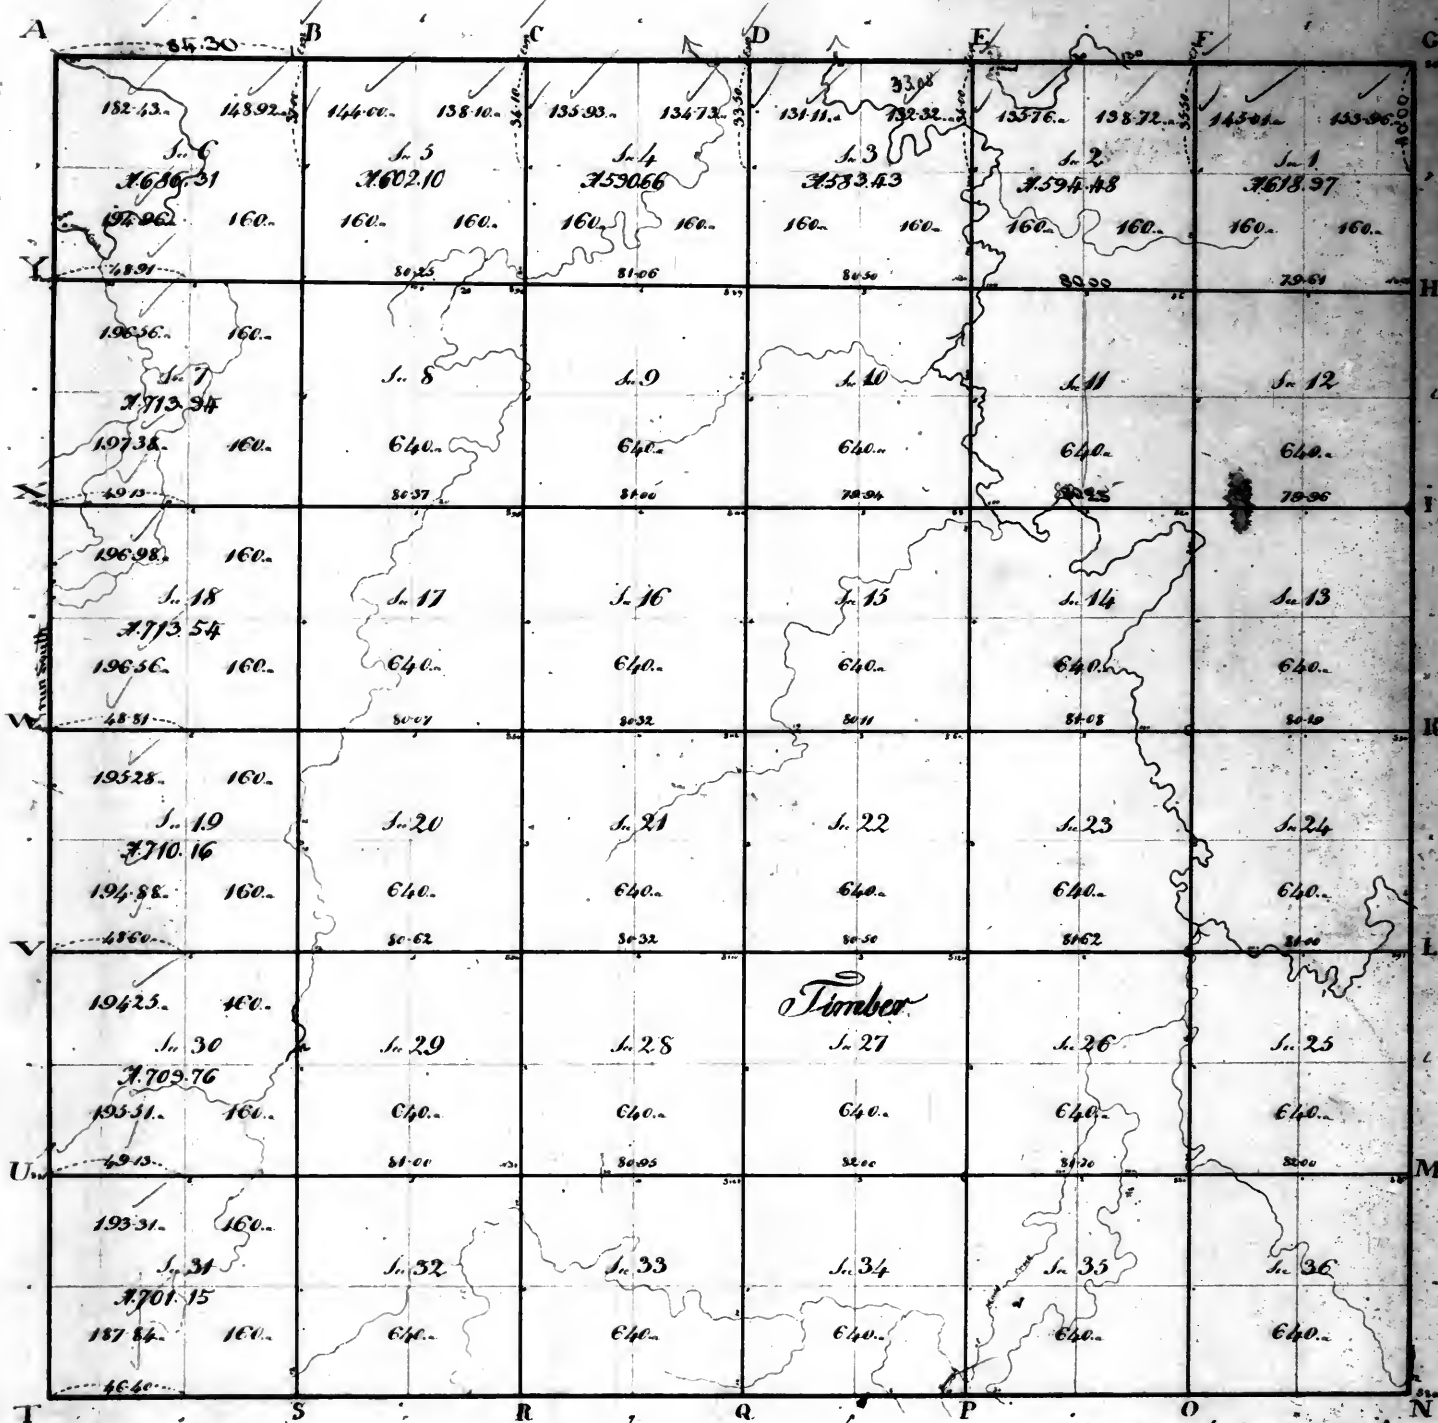

Surveyors Office

St. Louis 17th January 1835.

The above plat of Township 10 South of the Base line Range N. 1 West of the 3rd principal Meridian is conformable to the field notes of the Survey thereof on file in this Office.

E. J. Langham

Plat of Township n: 9 South of the Base Line, in Range n: 1 West of the 3^d principal meridian.

Surveyors Office

St Louis 19th January 1835

The above plat of Township 9 South of the Base line Range 1 West of the 3^d principal meridian is conformable to the field notes of the survey thereof on file in this Office.

Scale of 40 chains to an inch
Aggregate area: 23224.50 acres

E. J. Sangham

Plat of Township n: 10 South of the Base line Range n: 1 West of the 3^d principal Meridian

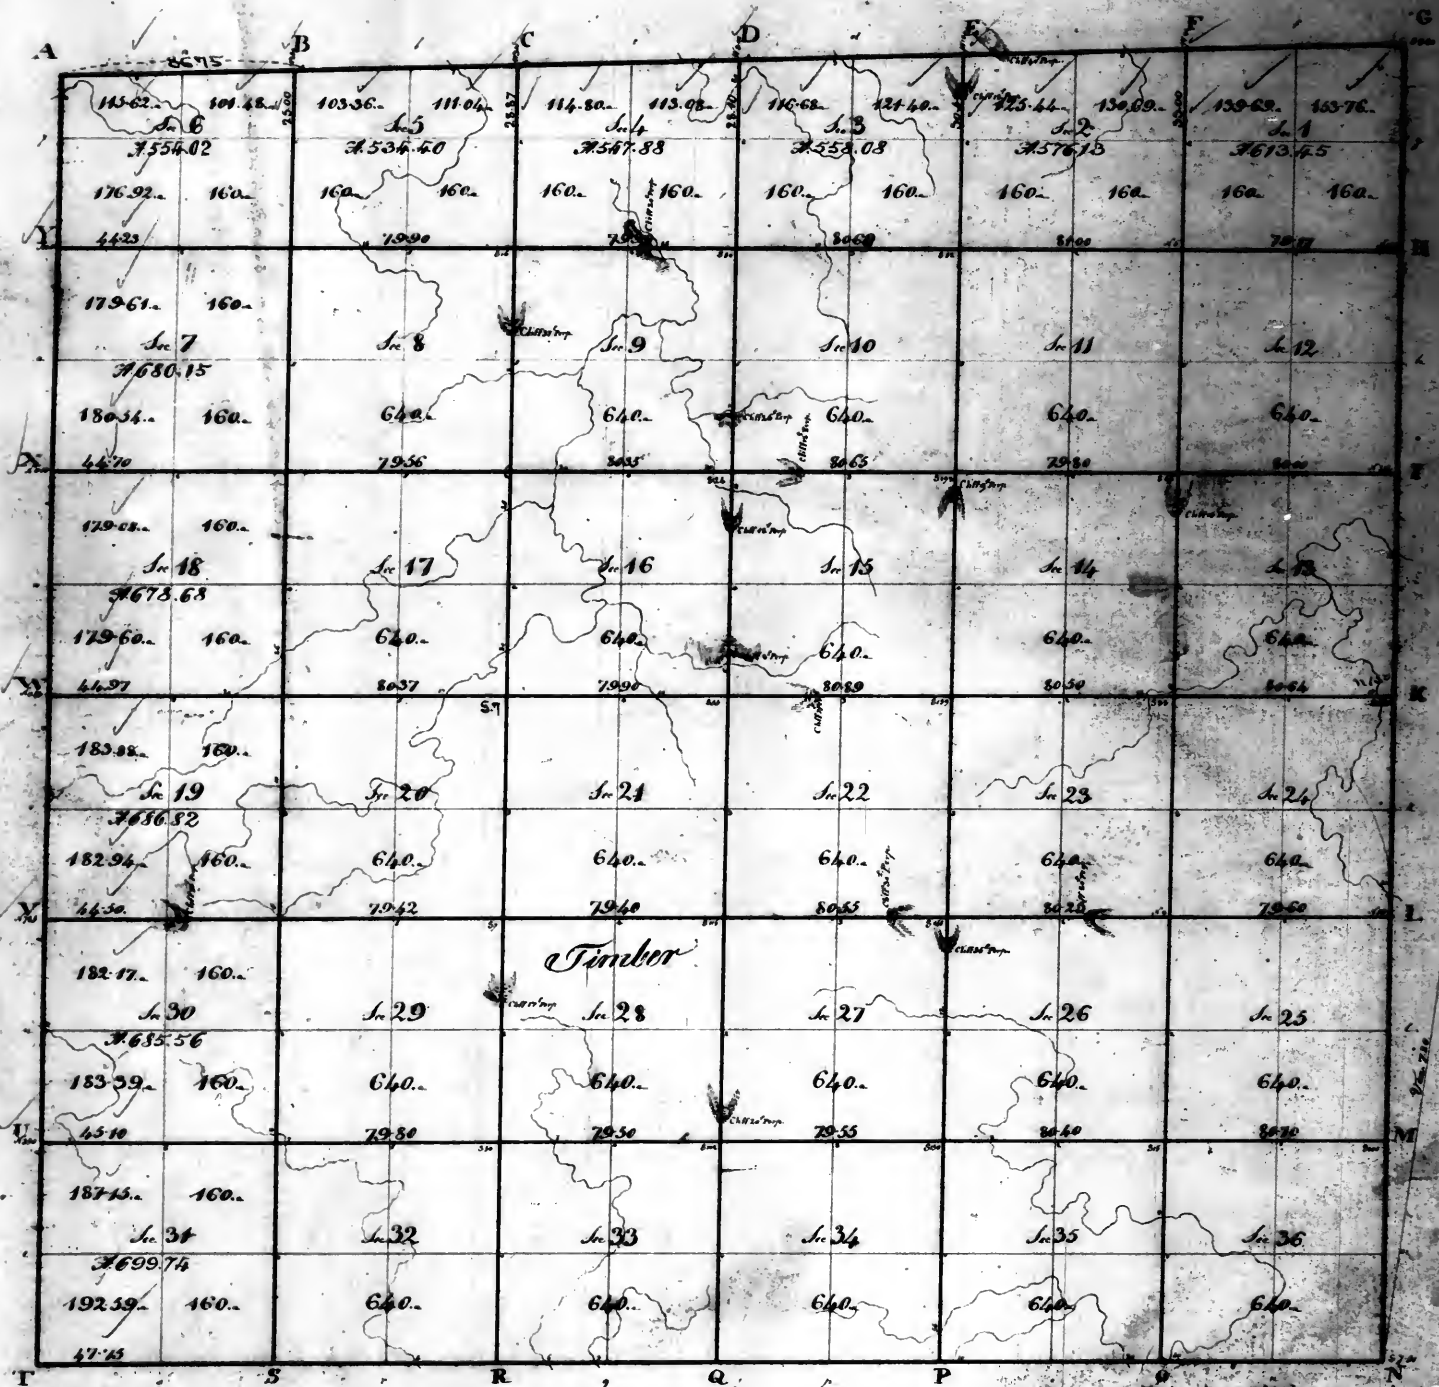

Surveyor's Office
St. Louis 19th January 1835.

Scale of 50 chains to an inch
Aggregate area - 23176.63 acres

The above plat of Township 10 South of the Base line Range 1 West of the 3^d principal Meridian is conformable to the field notes of the survey thereof on file in this Office.

Rector in Sub. 125 & dated January 10th 1863 Subdivision by P. H. Rector for Wm. Rector in Sub. 125 & dated the 1st to the 23rd May

Surveyors Office
St. Louis 22nd February 1836

The above plat of Township 2 South of the Base line Range 2 West of the 3^d principal meridian is conformable to the field notes of the survey, therefore file in this Office.

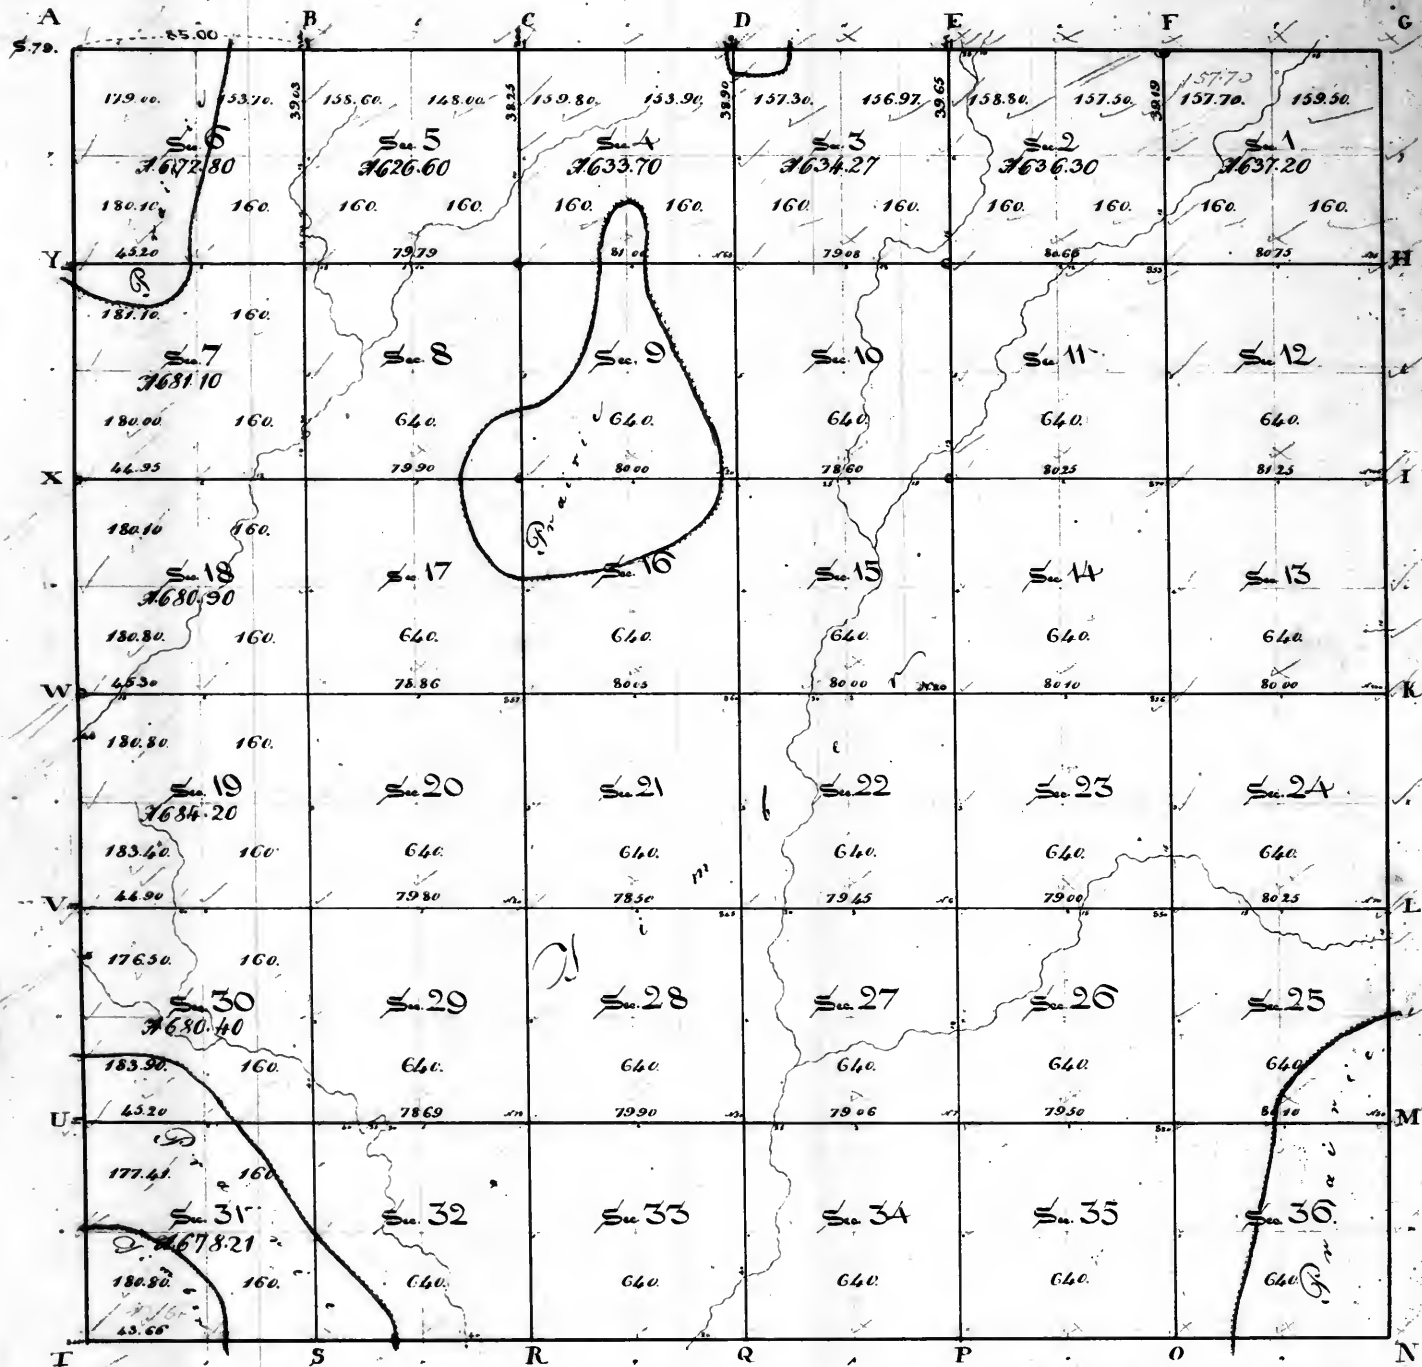

Aggregate area = 23454.65 acres.
Scale of 40 chains to one inch.

E. J. Longhorn

Plat of Township No. 3 South of the Base line in Range No. 2 West of the 3^d principal Meridian

Reference to the field notes used in the construction of this plat of the East & North boundaries in Subdivision book No. 126 - of the West boundary in Subdivision book No. 110 and of the South boundary in Subdivision book No. 127, of the Subdivision in book No. 126.

20

Aggregate area = 23245.68 acres
Scale of 40 chains to one inch

Surveyor's Office
St. Louis 22^d February 1886

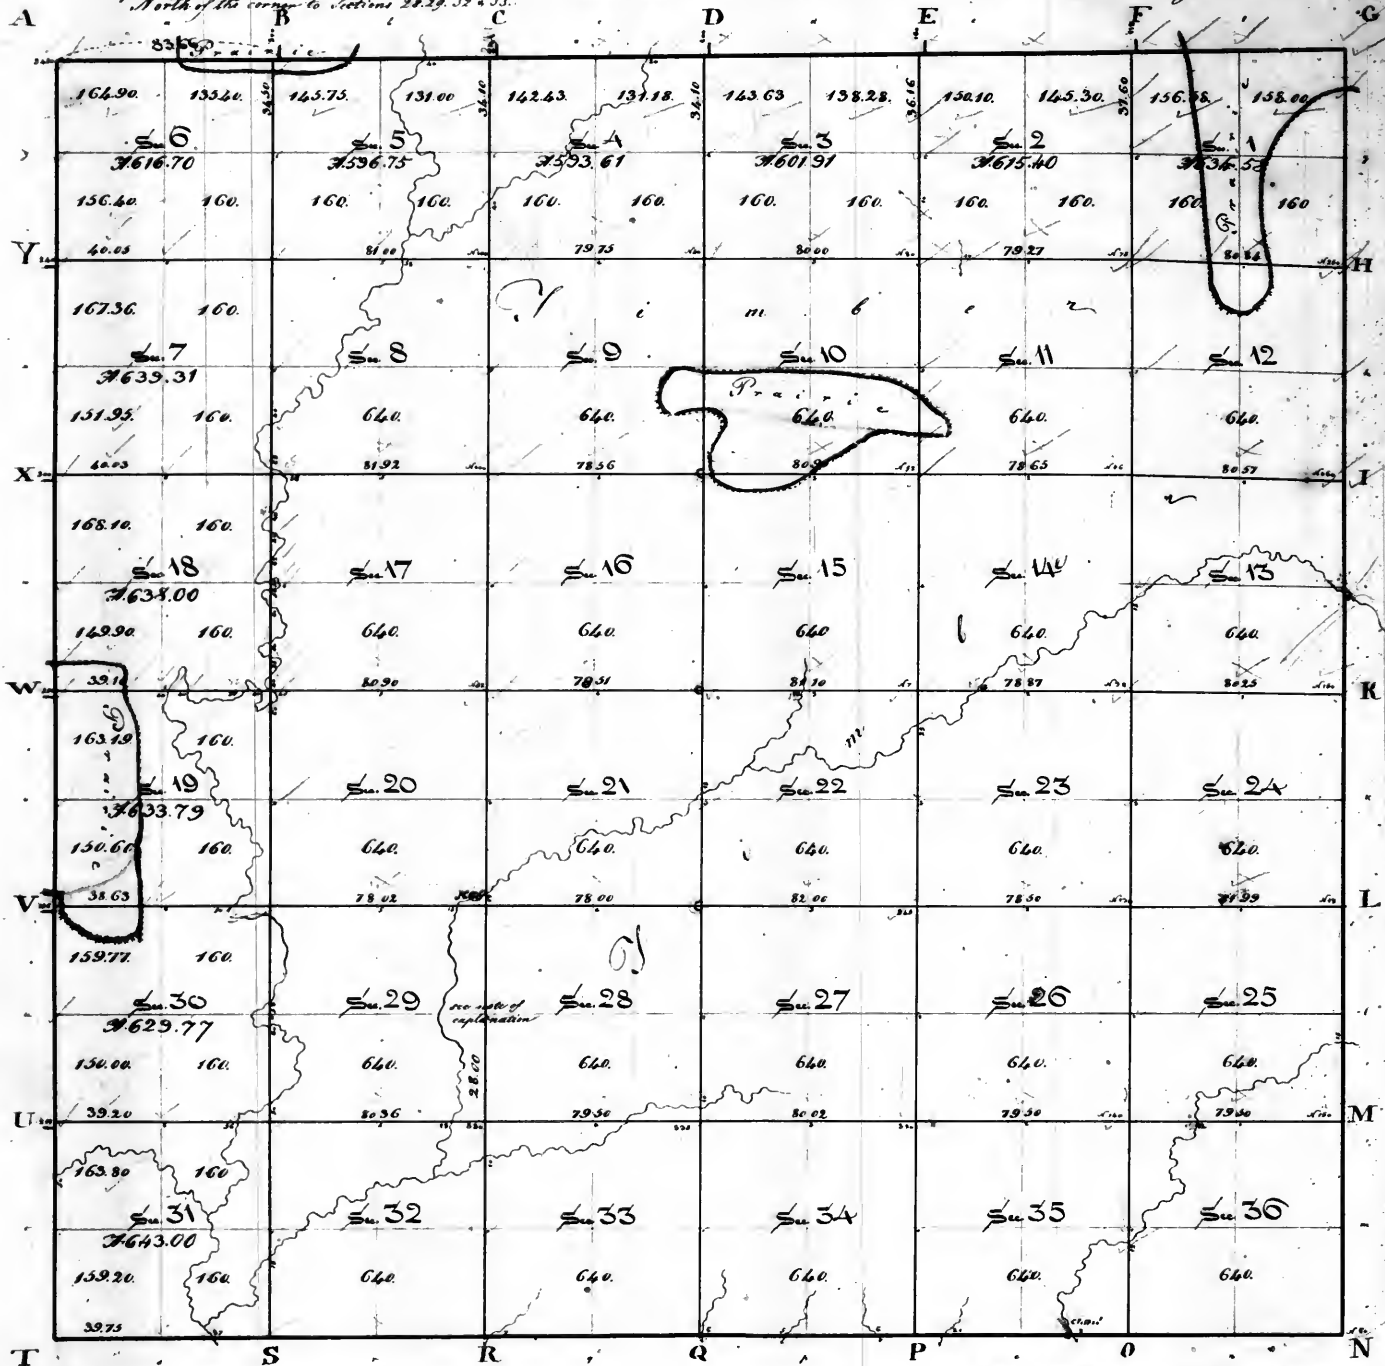

The above plat of Township No. 3 South of the Base line Range No. 2 West of the 3^d principal meridian is conformable to the field notes of the survey thereof file in this Office

E. J. Longfellow

Plat of Township 4 South of the Base line in Range 2 West of the 3^d Principal Meridian.

Reference to the field notes used in the construction of this plat of the North & East boundaries in Subd. book No. 127 - South boundary in eastern book No. 42. - West boundary in Subd. book No. 111. - Subdivision in book No. 127. -

Note - It is stated in the field notes, that the quarter section corner on the line between Sections 28 & 29 is established at 28.00 chains North of the corner to sections 28 29 32 & 33. - This error is supposed to be in the field notes and not in the survey. The plat is therefore constructed under the expectation, that the said quarter section corner is properly established viz. at 40.00 ch. North of the corner to sections 28 29 32 & 33.

Aggregate area = 22842.82 acres
Scale of 40 chains to one inch.

Surveyors Office
St. Louis 22^d February 1836

The above plat of Township 4 South of the Base line Range 2 West of the 3^d Principal Meridian is conformable to the field notes of the survey thereof on file in this Office.

E. J. Longhorn

Reference to the field notes used in the construction of this plat of the exterior boundaries in exterior book No. 42 of the Subdivision in books No. 128 A, B.

Aggregate area = 22936.043 acres
Scale of 40 chains to one inch.

Surveyors Office
St Louis 22nd February 1836.

The above plat of Township 5 South of the Base line Range 21 West of the 3d principal meridian is conformable to the field notes of the survey thereof on file in this Office.

Office.
E. J. Langham

Plat of Township No. 6 South of the Base Line, in Range No. 2 West of the 3^d Principal Meridian.

Reference to the field notes used in the construction of this plat of the North, East & West boundaries in Section book No. 42, - of the South boundary in section book No. 38, - of the Subdivision of the Survey No. 459 of the claim No. 4410 (from to the magnetic Meridian) in book No. 129. -

The courses by which the private Survey No. 459 is laid down on this plat are according to the true Meridian - allowing a magnetic variation of 7° 20' East.

Scale of 36 chains to an inch.
Aggregate area = 23045.53 acres of public land
private survey No. 459 = 100.00
Total = 23145.53

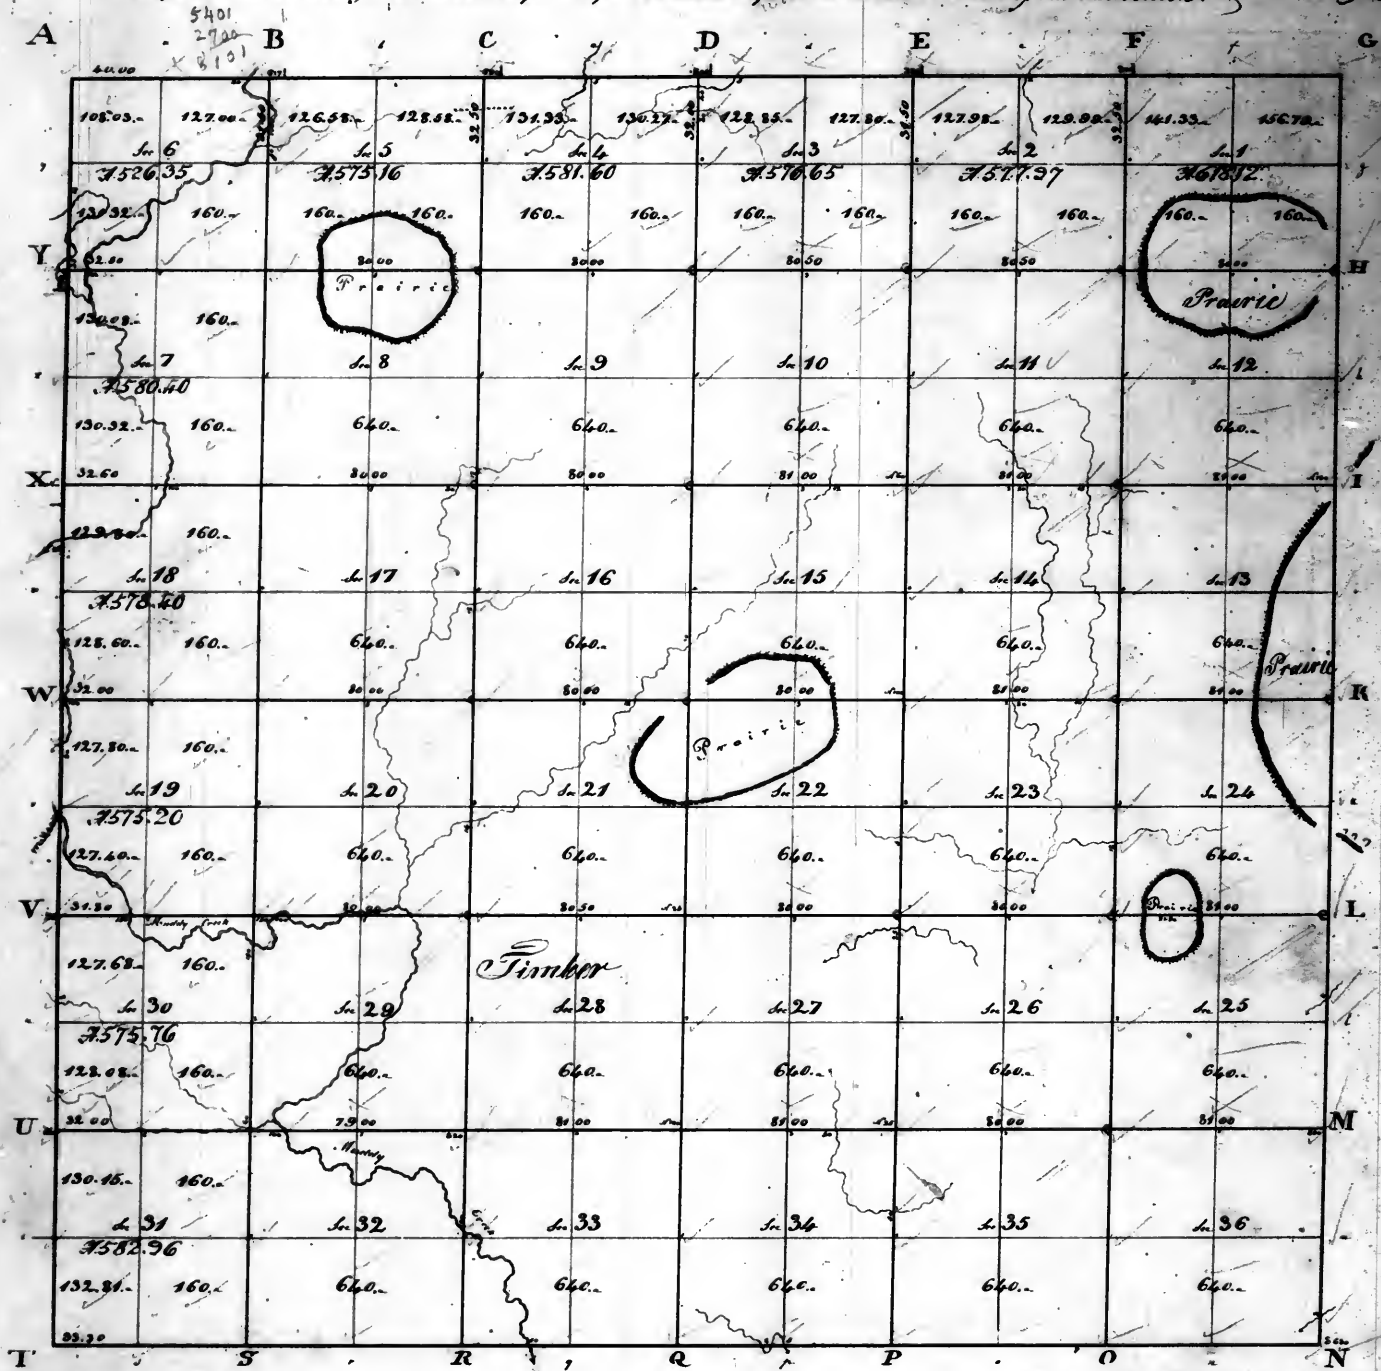

E. J. Somphorn

Plat of Township No. 7 South of the Base line in Range No. 2 West of the 3^d Principal Meridian.

Reference to the field notes used in the construction of this plat: of the East boundary in exterior book 70: 37, of the South boundary in exterior book 70: 38, of the North West boundaries in exterior book 70: 38, of the Subdivision in book 130.

Notes. The line between Sects 7 & 18 intersects the Range line N of the corner, but the amount of its falling therefrom is not given in the field notes. The field notes of the line between Sects 18 & 19 call for intersecting the Range line in the creek, but the notes of the survey of the Range line do not call for the creek, except as represented on the plat to the North & South of this intersection.

24

Aggregate area = 223 & 8.57 acres
Scale of 40 chains to one inch.

Surveyor's Office
St. Louis 22^d February 1836.

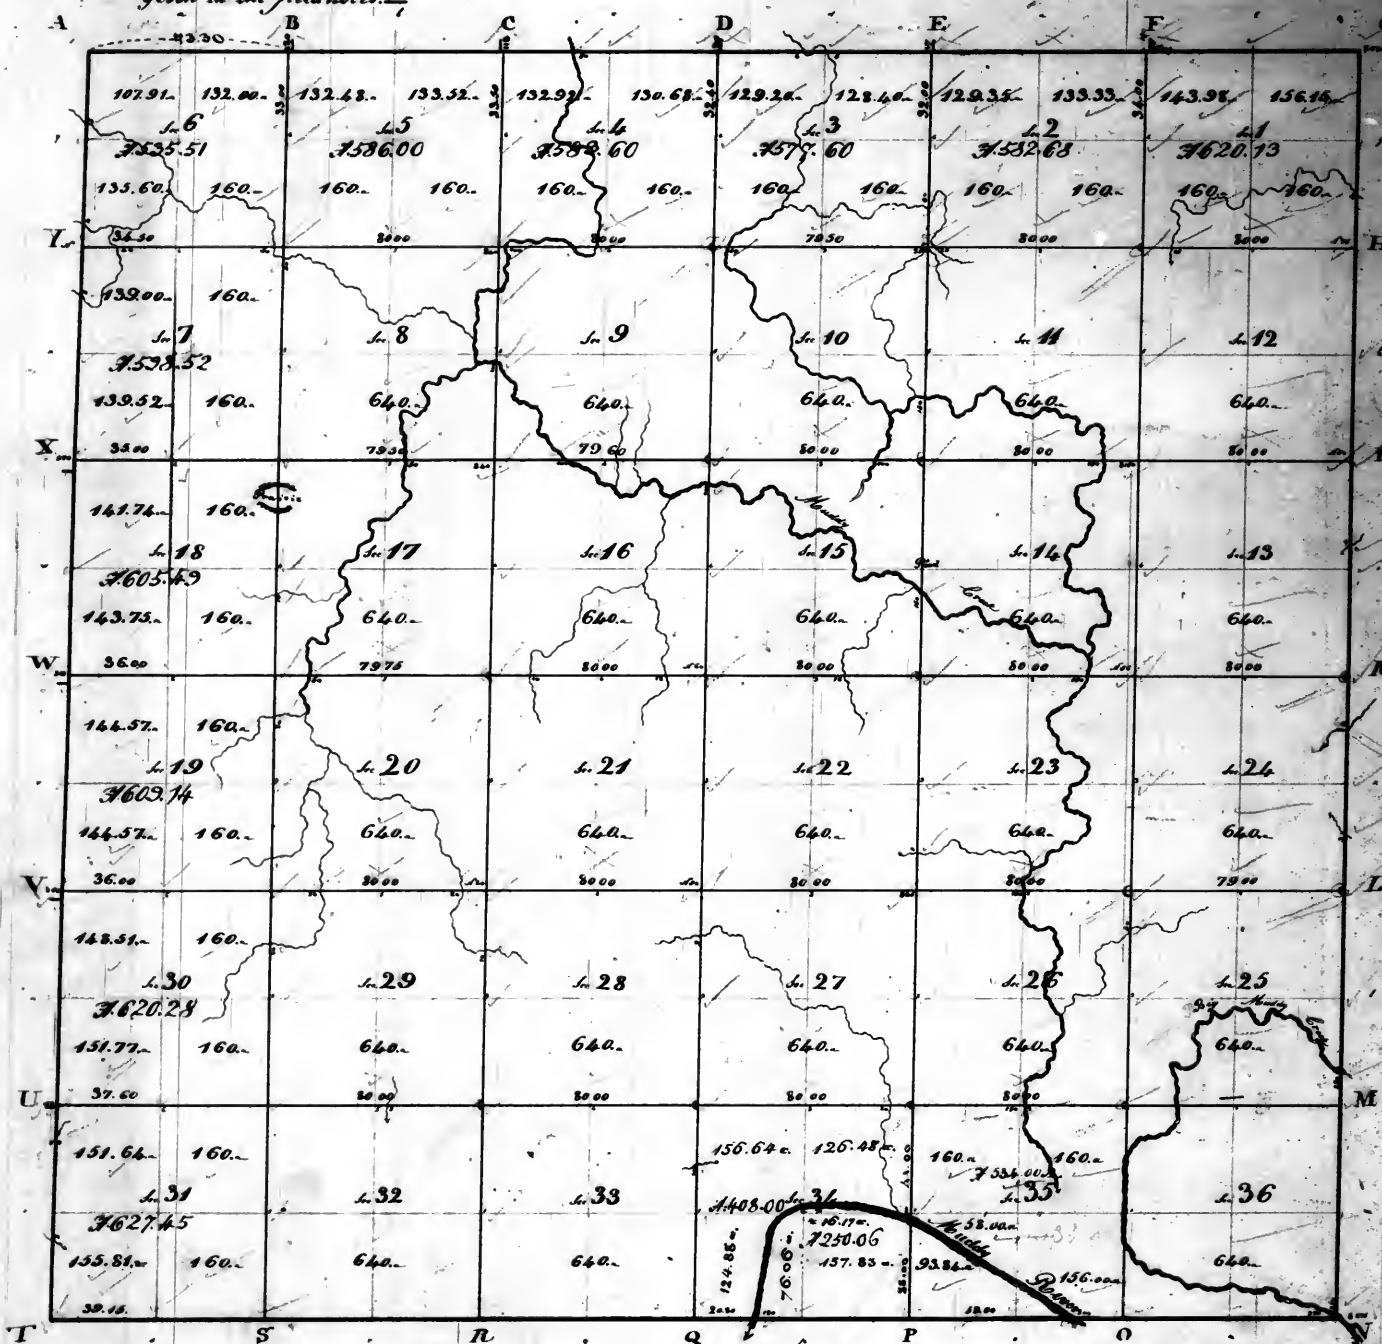

The above plat of Township 7 South of the Base line Range 2 West of the 3^d Principal Meridian is conformable to the field notes of the survey thereof on file in this Office.

E. J. Singshorn

Plat of Township 8 South of the Base line Range 2 West of the 3^d Principal Meridian

Reference is the field notes used in the construction of this plat of the North by, in exterior book 70:38 & Subd. book 70:131, of West & South boundaries in exterior book 70:38, of East by, in exterior book 70:37, of the subdivision in book 70:131, of the meanders of the Muddy River in book 70:106 C.

Notes. The line between Sects 6 & 7 intersects the Range line N. of the corner, but the amount of the falling therefrom is not given in the field notes. The length of the line between Sects 25 & 36 and the point of the intersection on the Range line are not given in the field notes.

Surveyor's Office
St. Louis 29th February 1886.

The above plat of Township 8 South of the Base line Range 2 West of the 3^d Principal Meridian is conformable to the field notes of the survey thereof on file in this Office.

E. J. Langham

Plat of Township No. 9 South of the Base line in Range No. 2 West of the 3rd Principal Meridian

Reference to the field notes used in the construction of this plat of the North, West & South boundaries in exterior book 74 38, - of the East boundary in exterior book No. 37, - of the Subdivision in book No. 132, - of the Meanders of the Muddy River in books No. 116 City No. 132

Notes. The line between Sections 7 & 18 intersects the Range line N. of the corner, but the amount of the falling therefrom is not given in the field notes. - The intersecting points of the lines between Sects 1 & 2 and 2 & 3 on the Townline and of the line between Sects 30 & 31 on the Range line are not stated in the field notes.

Surveyors Office.
St. Louis 29th February 1836.

The above plat of Township 9 South of the Base line Range 2 West of the 3rd Principal Meridian is conformable to the field notes of the survey thereof file in this Office.

E. J. Symphon

Aggregate area = 22366.36 acres
Scale of 40 chains to one inch.

Map of Township 10 South of the Base line in Range 2 West of the 3^d Principal Meridian.

Reference to the fieldnotes used in the construction of this plat, of the North & West boundaries in the exterior book 71:352 of the South boundary in exterior book 71:34- of the East by in exterior book 71:37- of the Subdivision in book 71:133-

Notes. The line between Sections 18 & 19 intersects the Range line N of the corner, but the falling therefrom is not given in the fieldnotes. - The intersecting point of the line between Sects 24 & 25 on the Range line is not stated in the fieldnotes.

27

Surveyors Office
St Louis 22^d February 1836

Aggregate area - 22695.08 acres
Scale of 40 chains to one inch.

The above plat of Township 10 South of the Base line Range 2 West of the 3^d Principal Meridian is conformable to the field notes of the survey thereof on file in this Office.

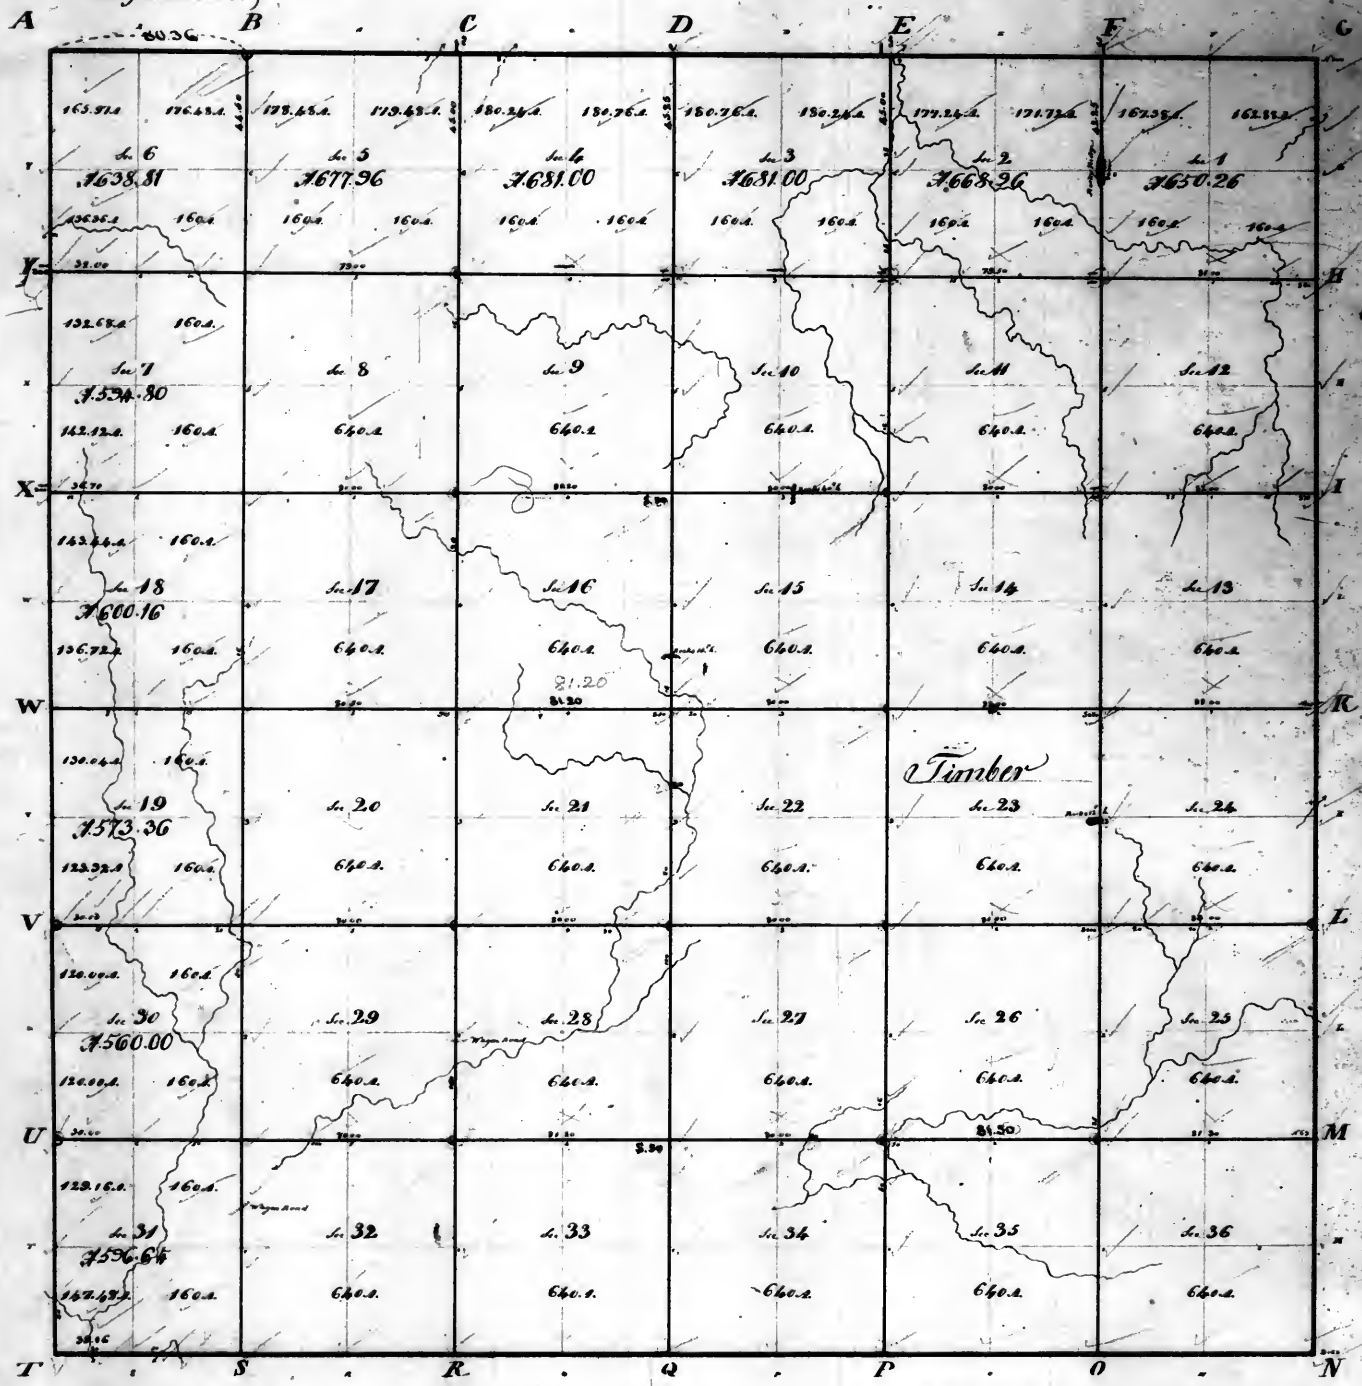

E J Symphorn

Plot of Township 11 South of the Base Line Range 2 West of the 3^d Principal Meridian.

Reference to the fieldnotes used in the construction of this plan. North, West & South boundaries in the exterior book 214 34 - of the East by in exterior book 214 35 - of the subdivisions in book No 134.

Notes. The line between Sects 3 & 4 intersects the Town line E. of the corner, but the amount of the falling therefrom is not given in the fieldnotes. - The length of the line between Sects 4 & 9 and its intersection on the line between Sects 9 & 10, the length of the line between Sects 3 & 4 and its intersection on the line between Sects 10 & 11, and the point of intersection of the line between Sects 11 & 14 on the line between Sects 13 & 14, - also the length of the line between Sects 18 & 19 and its point of intersection on the Range line are not stated in the fieldnotes.

 of the N. E. first quarter of Sec. 10, of the East first halves of
 first Secs. 15 & 23, of first Secs. 17, 24 & 26, of the S. E.
 first quarter of Sec. 16, of the S. W. first quarter of first 22, and
 of the N. W. first quarter of Sec. 27, sent this day to the Commr.
 the General Land Office.

Surgeon's Office
St. Louis 8th August 1840.

A duplicate of the plot of island
was this day sent to the Comm^r of the Gen^l Land Office

William Melburn
Surveyor of the public land
the State of Illinois & Co.

Surveyor's Office

St Louis 29th February 1836.

Scale of 40 chains to one inch.

The above plot of Township N. 17 South of the base line in Range N. 2 West of the 3^d principal Meridian

is conformable to the fieldwork of the survey thereof on file in this Office.

E. J. Langham

Reference to the fieldnotes used in the construction of this plat of the North, East in Subd. book 7: 108.- of the South boundary in Subd. book 7: 109.- of the West boundary in exterior books 7: 49, 50 & 55.- of the Subdivision in book 7: 108.-

4294

235

The above plat of Township 7N: 1 South of the base line in Range 7W: 3 West of the 3^d principal Meridian is conformable to the field notes of the Survey thereof on file in this Office.

E. J. Snyghorn

Reference is the fieldnotes used in the construction of this plat of the North & East boundaries in Subdivision book 70: 109, - of the West boundary in exterior book 70: 56, - of the South by in Subdivision book 70: 110, - of the Subdivision in book 70: 109, -

Note It is stated in the fieldnotes that the quarter section corner on the line between Sections 30 & 31 is established at 4.00 chains West of the corner to Sections 29, 30, 31 & 32. - it is supposed however that this error is in the fieldnotes only, & that the said quarter section corner is at the proper distance viz. 40.00 chs West of the section corner & this plat is constructed accordingly.

The above plat of Townships 4th 2nd South of the base line in Range 3rd West of the
reformable to the field notes of the survey thereof on file in this Office.

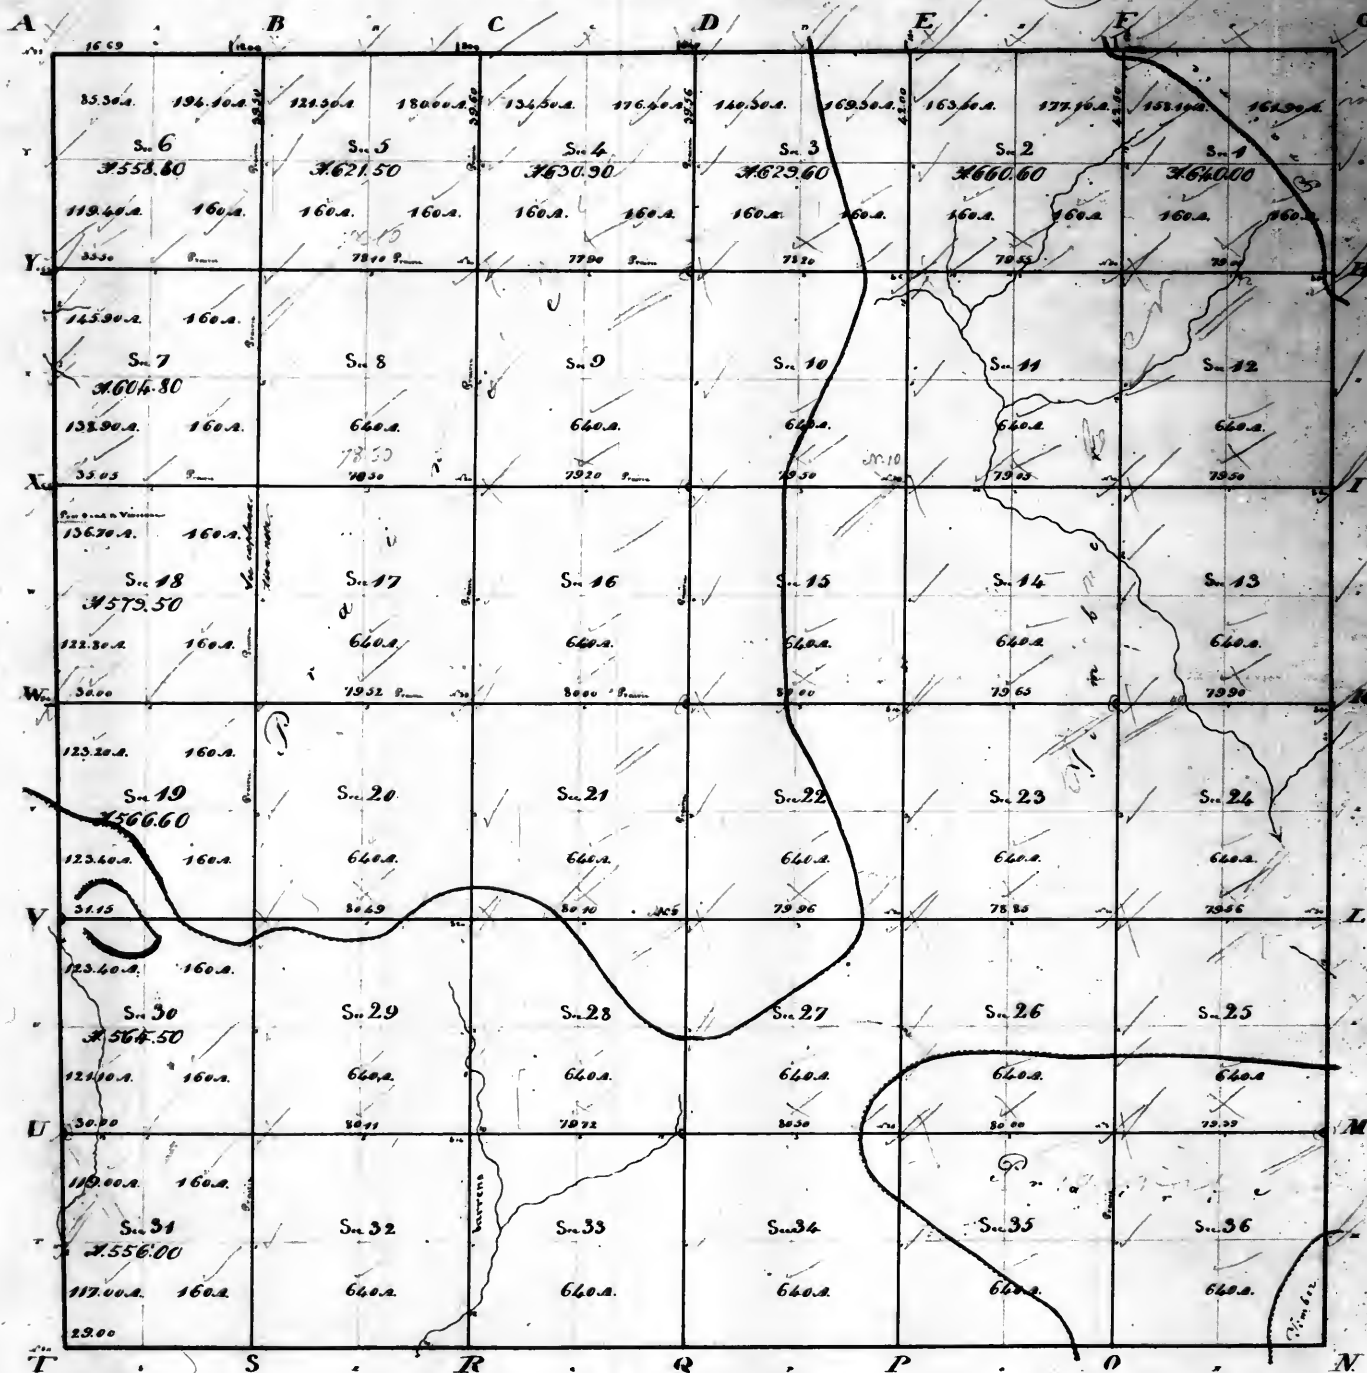

E. J. Sangham

Plat of Township No. 3 South of the Base Line in Range No. 3 West of the 3^d principal Meridian

Reference to the fieldnotes used in the construction of this plat of the North & East boundaries in Subdivision book 70: 119, South boundary in Subdivision book 70: 111, West boundary in exterior book 70: 50, Subdivisions in book 70: 110.

Note: There are no fieldnotes of the survey of the line between Sections 17 & 18 North of the quarter Section corner, - it is conjectured however, that the said line is surveyed, because the proper lines run from the corner to Sections 7, 8, 17 & 18, which could not have been established, if the survey of the line between Sections 17 & 18 was as defective as the fieldnotes thereof.

37

Surveyors Office
St. Louis 22 February 1836.

The above plat of Township No. 3 South of the base line in Range No. 3 West of the 3^d principal Meridian is conformable to the fieldnotes of the survey thereof on file in this Office.

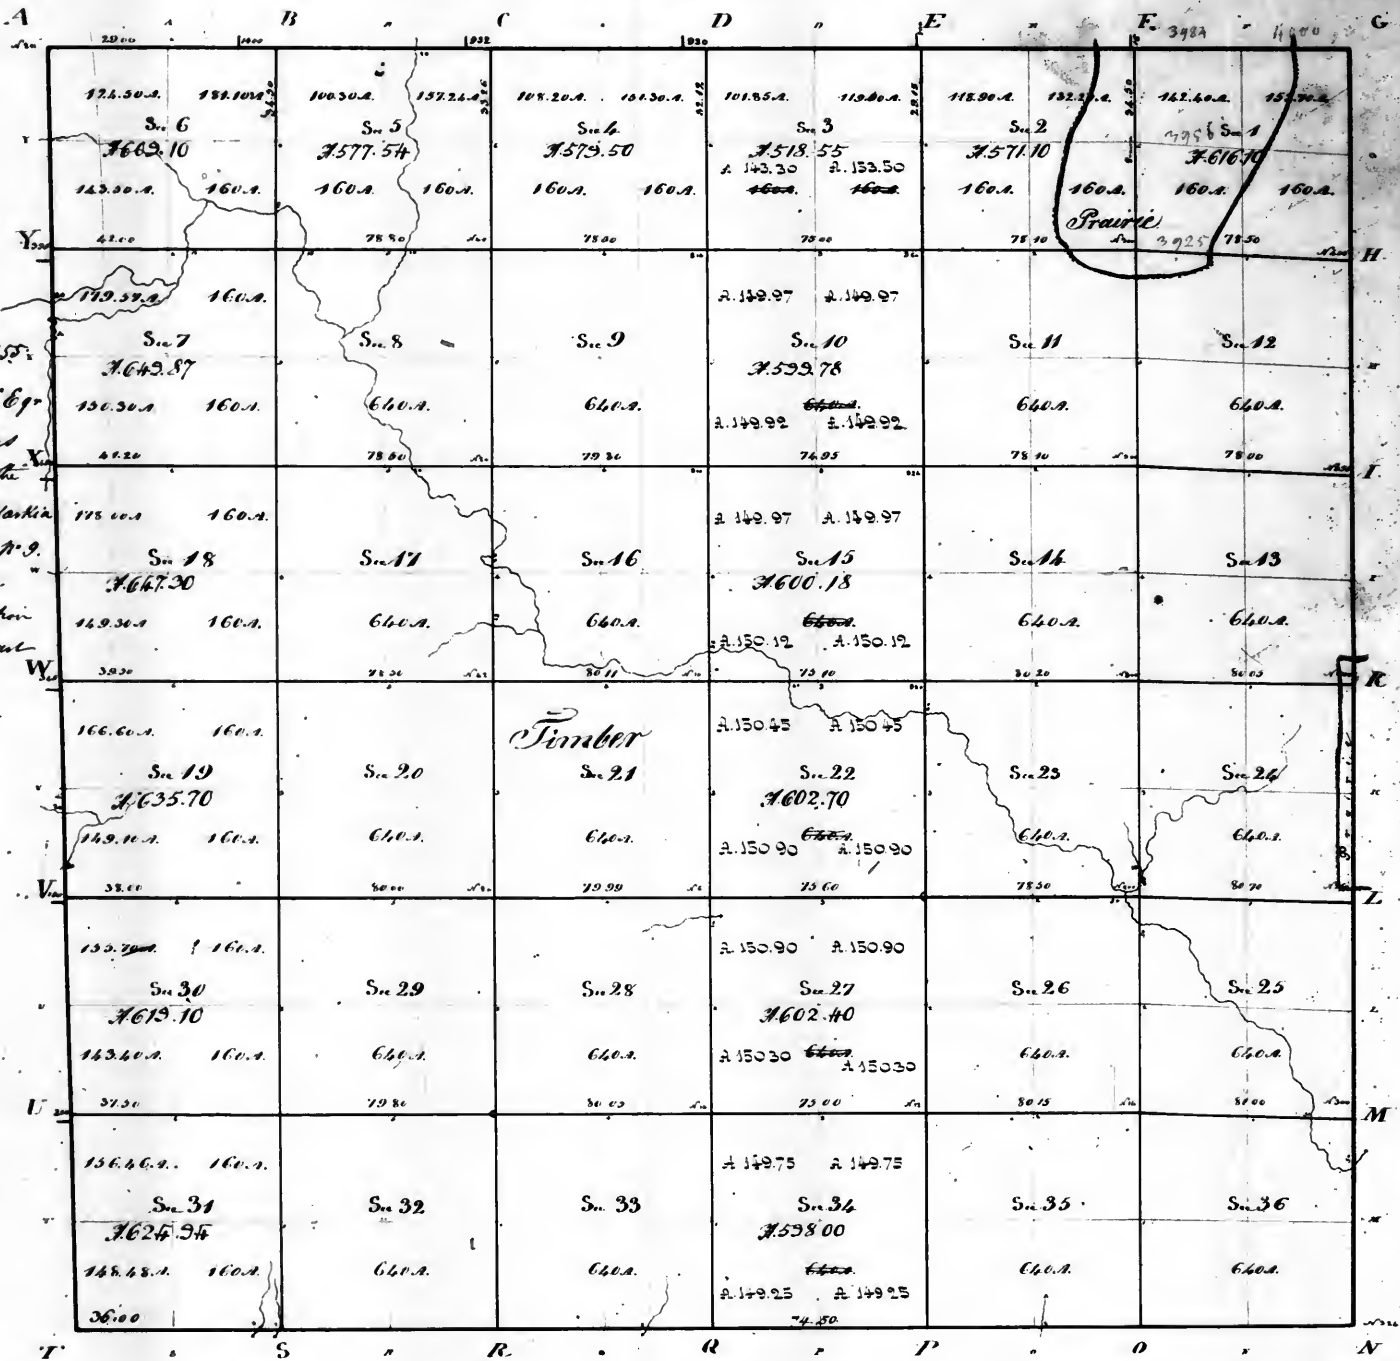

E. J. Longhorne

Map of Township No. 4 South of the Base Line in Range No. 3 West of the 3^d principal Meridian.

Reference to the fieldnotes used in the construction of this plat, of the North & East boundaries in Subdivision book No. III, - of the South boundary in exterior book No. 44, - of the West boundary in exterior book No. 49, - of the Subdivision in book No. III. - *Note.* The true areas of the S.E. & S.W. quarters of Sect 3 and of the several quarters of Sects 10, 15, 22, 27 & 34 are set down on this plat. The old plat represents said quarter sections as containing the full quantity of 160 acres each. Such of them as have not been entered will be sold as containing the quantities here represented.

38

16 January 1855.
The South 1/2 of S.E. q. Sec. 9. (8 acres) was sold this day to the Register at Kaskaskia as per Certificate No. 9. at 12 1/2¢ per acre under the Graduation act of 4 August 1854.

Surveyors Office
St. Louis Mo. February 1836.

Scale 1/4 inch = 1 mile.
Aggregate area = 2345.186 acres

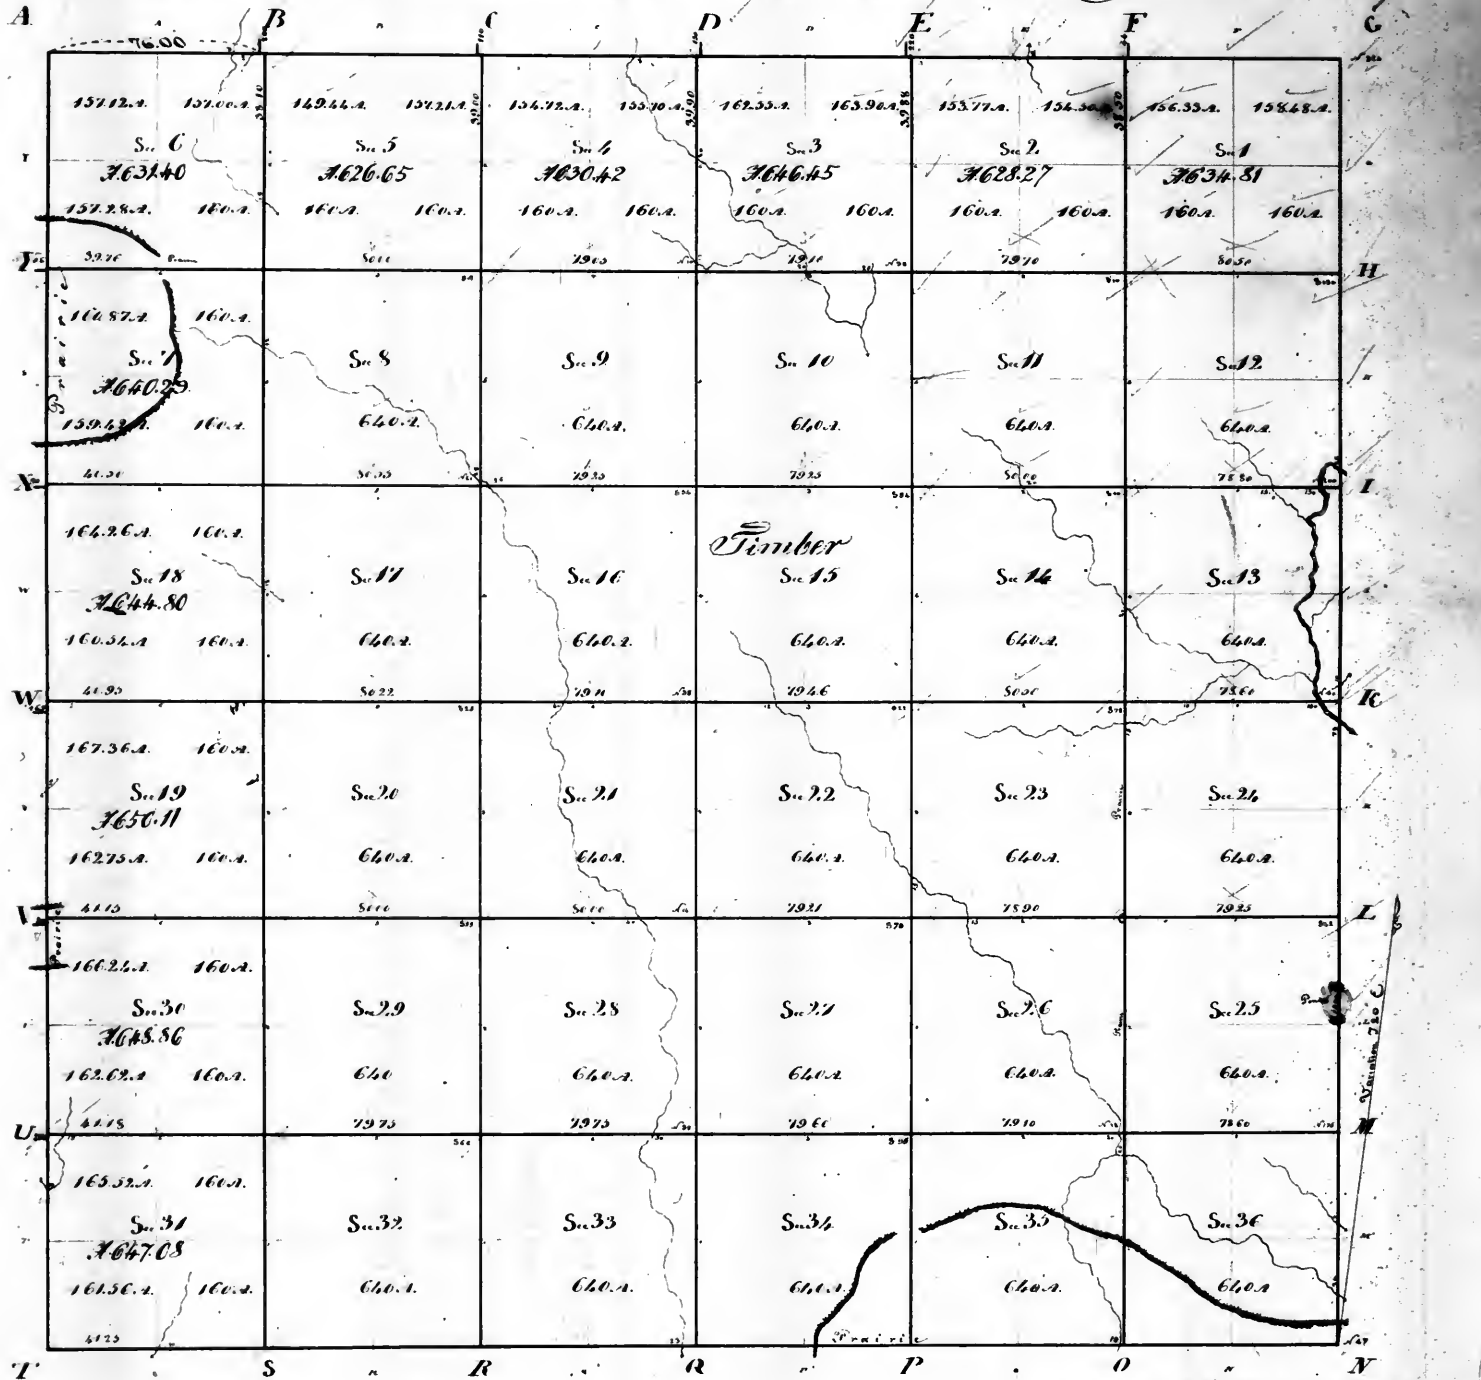

The above plat of Township No. 4 South of the base line in Range No. 3 West of the 3^d principal Meridian is conformable to the fieldnotes of the survey thereof on file in this Office.

E. J. Sangham

Plat of Township No 5 South of the Base Line in Range No 3 West of the 3^d principal Meridian.

Reference to the fieldnotes used in the construction of this plat of the North boundary in exterior book 70:44, - of the Eastern boundary in exterior book 70:42, - of the South & West boundaries in exterior book 70:45, - of the Subdivision in books 70:112 A & B. -

As the boundary (boundary of T. 5 S. - R. 3 W.) & the South boundary of this Township were surveyed East on random line & corrected West, but the notes of the true line on the South of each section do not state the distances, at which the several corners were established. In the construction of this plat and in estimating the areas of the quarter sections adjoining said line, it is considered, that they were run in the usual manner & the corners established in their proper places.

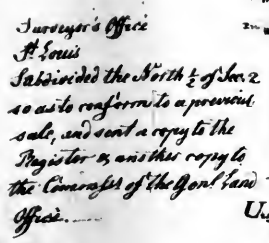

Surveyors Office
St. Louis 29 February 1830.

The above plat of Township No 5 South of the base line in Range No 3 West of the 3^d principal Meridian is conformable to the fieldnotes of the survey thereof on file in this office.

E. J. Langham

40

It is not stated at what section any Township was established, after the passing of the Ohio boundary of 35 S. 36 S. East as a standard line. The notes of the Trust for the boundary of each state after the ratification of the compact do state the direct moral course used as construction of public place the course of the great arc line, it is designated in the usual manner established in their portions 34 35 being either a mound or a R. The line between sections 34 and 35 was surveyed in 1819, and the Township of 36 S. 37 S. was not line of the right in the construction of the areas of the S. 36 S. sections 38, other believed as approximated is used. - This course line runs straight from 35 36, to the corner of an equal distribution other lines of the section field noted goes 77.9 length of the line between and among the parts. I. between the said S. 36 S. sections 38, the would intersect the East of the township 34 35. 35 S. 36 S. West. The corner established for East boundary of 36 S. 37 S. either a mound or a R. between sections 38 and 39. Surveyed (West) said foot corner to sections 38 the Ranged line could be (with mound or R. (conveniently) at at S. 38 to said sections 38 39. - sections 38 39, with said by said foot at 38. 39 at continued to its intersection line is no further. -

A copy of this plat was sent to the Commissioner and
another to the Register on the 5 February 1851.

Office of the Surveyor General for Illinois and Missouri: St. Louis 5 February 1851.
The above plat of sections 6. 7. 18. 19. 30 & 31, of Township 3 South of the base line and range 6 west of the 3 principal meridian, is hereby confirmed to the field notes of the Survey thereof on file in this office which have been measured and approved. The east boundary of T. 3 R. 7, was run in 1808, by John Messenger, and the subdivision lines of Sp. 3 R. 6, were surveyed by A. Reiter in 1814. From his field notes, it appears that he ran the lines between sections 6 & 7. 7 & 8. 18 & 19. 19 & 20. and 30 & 31, West 80 or chains, where he stopped without connecting them with Messenger's line, leaving thereby vacant the strip which is shown on the plat west of the dotted line a b. This office having been informed of that fact, Jonathan Moore, was on the 5 of June 1850, instructed to extend the said section lines to the east boundary of T. 3 R. 7, and to connect them with its corners. The work was executed during the said month of June 1850, and Mr. Moore found himself under the necessity of running besides the lines of the aforesaid sections, the other lines delineated in the above statement for the purpose of identifying or renewing old corners, and closing his survey; his distances not agreeing with the old distances given in Reiter's notes. In all 22 miles 50.37 chains, which are paid out this day to Mr. Moore and will be charged in any account current. During the 2 years 1851, under the appropriation of \$1200 of the 3 March 1850, for the correction of surveys and defective surveys in Illinois and Missouri, at a rate not exceeding \$40 dollars per mile, page 65 act 2d session of 30 Congress.

M. Lewis Clark
Surveyor General.

Surveyors Office
St. Louis 14th May 1836.

Aggregate area of public land = 76120.36 acres

This plat of Township 12 South of the base line in Range 18 West of the 3^d principal Meridian is conformable to the fieldnotes of the survey thereof on file in this Office.

E. J. Langham

Plat of Township 13 South of the base line in Range 18 West of the 3rd principal Meridian Reference to the fieldnotes used in the construction of this plat - of the North, West & South boundaries in vol. 15 & 16 - of the East boundary in vol. 16 & 17 - of the subdivision in book 15 & 17.

39.

Surveyors Office
St. Louis 14th May 1836.

Aggregate area: 20627.6 acres

The above plat of Township 13 South of the base line in Range 18 West of the 3rd principal Meridian is conformable to the fieldnotes of the survey thereof on file in this Office

E. J. Shingham

Reference to the following used in the construction of this plat:—of the Northern West boundaries in sec. book N-48, of the East boundary & sec. book N-47,—of the Northboundary in nat. books N-40, 41, 46 and Subdivision book D-68A,—of the Subdivision in book N-69A.

Note. The Northboundary of this Township was run East on random line a corrected West, but the notes of the true line on the do not state the distances, at which the several corners were established. In the construction of this plat and by attending to the course of the quarter sections adjoining said line, it is considered, that it was corrected in the usual manner & the corners established in their proper places.

Aggregate area of public land = 22539.16

E. J. Sanghorn

Map of Township 5 South of the Base line in Range 8 West of the 3^d principal Meridian

Reference to the fieldnotes used in the construction of this plat, of the North boundary in sec. 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, W. E. M. D. S. S.

a copy of Mr. Johnston's letter
to Regulator on 10 May 1856.

Office of the Surveyor General for the State of Tennessee.
 dated June 20th May 1858.

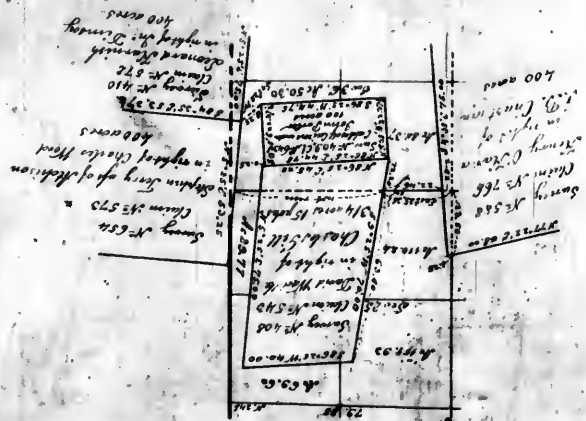

of said Court 20th May 1856.

The certificate of John D. H. 36 (last of Aug.) of County of Sullivan, N. Y. is
of the 3rd legal marriage of Henry Coffinville to the full wife of the same, Mary, as full
in the office which has been examined and approved. It was received by John Coffinville
under subscription of 11 December 1851 and 14 August 1853. The money 8 notes \$1.97 value
is attached to the account approved by me, received by said Coffinville, and transmitted
this day to the Comptroller of the General Land Office for the collection of 24 March 1856,
for a receipt still issued with that of the appropriation for the purchase of services
and disbursements of the public and private money in the said 18th January, at the office of the

Reference to the field notes used in the construction of this plat of the North-South-East boundaries in one book No. 47 of the Subdivision
 in book No. 33 of the Subdivision of the Mississippi River in book No. 32 A.
 The metes and bounds of the survey of the land at 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000, 1001, 1002, 1003, 1004, 1005, 1006, 1007, 1008, 1009, 1010, 1011, 1012, 1013, 1014, 1015, 1016, 1017, 1018, 1019, 1020, 1021, 1022, 1023, 1024, 1025, 1026, 1027, 1028, 1029, 1030, 1031, 1032, 1033, 1034, 1035, 1036, 1037, 1038, 1039, 1040, 1041, 1042, 1043, 1044, 1045, 1046, 1047, 1048, 1049, 1050, 1051, 1052, 1053, 1054, 1055, 1056, 1057, 1058, 1059, 1060, 1061, 1062, 1063, 1064, 1065, 1066, 1067, 1068, 1069, 1070, 1071, 1072, 1073, 1074, 1075, 1076, 1077, 1078, 1079, 1080, 1081, 1082, 1083, 1084, 1085, 1086, 1087, 1088, 1089, 1090, 1091, 1092, 1093, 1094, 1095, 1096, 1097, 1098, 1099, 1100, 1101, 1102, 1103, 1104, 1105, 1106, 1107, 1108, 1109, 1110, 1111, 1112, 1113, 1114, 1115, 1116, 1117, 1118, 1119, 1120, 1121, 1122, 1123, 1124, 1125, 1126, 1127, 1128, 1129, 1130, 1131, 1132, 1133, 1134, 1135, 1136, 1137, 1138, 1139, 1140, 1141, 1142, 1143, 1144, 1145, 1146, 1147, 1148, 1149, 1150, 1151, 1152, 1153, 1154, 1155, 1156, 1157, 1158, 1159, 1160, 1161, 1162, 1163, 1164, 1165, 1166, 1167, 1168, 1169, 1170, 1171, 1172, 1173, 1174, 1175, 1176, 1177, 1178, 1179, 1180, 1181, 1182, 1183, 1184, 1185, 1186, 1187, 1188, 1189, 1190, 1191, 1192, 1193, 1194, 1195, 1196, 1197, 1198, 1199, 1200, 1201, 1202, 1203, 1204, 1205, 1206, 1207, 1208, 1209, 1210, 1211, 1212, 1213, 1214, 1215, 1216, 1217, 1218, 1219, 1220, 1221, 1222, 1223, 1224, 1225, 1226, 1227, 1228, 1229, 1230, 1231, 1232, 1233, 1234, 1235, 1236, 1237, 1238, 1239, 1240, 1241, 1242, 1243, 1244, 1245, 1246, 1247, 1248, 1249, 1250, 1251, 1252, 1253, 1254, 1255, 1256, 1257, 1258, 1259, 1260, 1261, 1262, 1263, 1264, 1265, 1266, 1267, 1268, 1269, 1270, 1271, 1272, 1273, 1274, 1275, 1276, 1277, 1278, 1279, 1280, 1281, 1282, 1283, 1284, 1285, 1286, 1287, 1288, 1289, 1290, 1291, 1292, 1293, 1294, 1295, 1296, 1297, 1298, 1299, 1300, 1301, 1302, 1303, 1304, 1305, 1306, 1307, 1308, 1309, 1310, 1311, 1312, 1313, 1314, 1315, 1316, 1317, 1318, 1319, 1320, 1321, 1322, 1323, 1324, 1325, 1326, 1327, 1328, 1329, 1330, 1331, 1332, 1333, 1334, 1335, 1336, 1337, 1338, 1339, 1340, 1341, 1342, 1343, 1344, 1345, 1346, 1347, 1348, 1349, 1350, 1351, 1352, 1353, 1354, 1355, 1356, 1357, 1358, 1359, 1360, 1361, 1362, 1363, 1364, 1365, 1366, 1367, 1368, 1369, 1370, 1371, 1372, 1373, 1374, 1375, 1376, 1377, 1378, 1379, 1380, 1381, 1382, 1383, 1384, 1385, 1386, 1387, 1388, 1389, 1390, 1391, 1392, 1393, 1394, 1395, 1396, 1397, 1398, 1399, 1400, 1401, 1402, 1403, 1404, 1405, 1406, 1407, 1408, 1409, 1410, 1411, 1412, 1413, 1414, 1415, 1416, 1417, 1418, 1419, 1420, 1421, 1422, 1423, 1424, 1425, 1426, 1427, 1428, 1429, 1430, 1431, 1432, 1433, 1434, 1435, 1436, 1437, 1438, 1439, 1440, 1441, 1442, 1443, 1444, 1445, 1446, 1447, 1448, 1449, 1450, 1451, 1452, 1453, 1454, 1455, 1456, 1457, 1458, 1459, 1460, 1461, 1462, 1463, 1464, 1465, 1466, 1467, 1468, 1469, 1470, 1471, 1472, 1473, 1474, 1475, 1476, 1477, 1478, 1479, 1480, 1481, 1482, 1483, 1484, 1485, 1486, 1487, 1488, 1489, 1490, 1491, 1492, 1493, 1494, 1495, 1496, 1497, 1498, 1499, 1500, 1501, 1502, 1503, 1504, 1505, 1506, 1507, 1508, 1509, 1510, 1511, 1512, 1513, 1514, 1515, 1516, 1517, 1518, 1519, 1520, 1521, 1522, 1523, 1524, 1525, 1526, 1527, 1528, 1529, 1530, 1531, 1532, 1533, 1534, 1535, 1536, 1537, 1538, 1539, 1540, 1541, 1542, 1543, 1544, 1545, 1546, 1547, 1548, 1549, 1550, 1551, 1552, 1553, 1554, 1555, 1556, 1557, 1558, 1559, 1560, 1561, 1562, 1563, 1564, 1565, 1566, 1567, 1568, 1569, 1570, 1571, 1572, 1573, 1574, 1575, 1576, 1577, 1578, 1579, 1580, 1581, 1582, 1583, 1584, 1585, 1586, 1587, 1588, 1589, 1590, 1591, 1592, 1593, 1594, 1595, 1596, 1597, 1598, 1599, 1600, 1601, 1602, 1603, 1604, 1605, 1606, 1607, 1608, 1609, 1610, 1611, 1612, 1613, 1614, 1615, 1616, 1617, 1618, 1619, 1620, 1621, 1622, 1623, 1624, 1625, 1626, 1627, 1628, 1629, 1630, 1631, 1632, 1633, 1634, 1635, 1636, 1637, 1638, 1639, 1640, 1641, 1642, 1643, 1644, 1645, 1646, 1647, 1648, 1649, 1650, 1651, 1652, 1653, 1654, 1655, 1656, 1657, 1658, 1659, 1660, 1661, 1662, 1663, 1664, 1665, 1666, 1667, 1668, 1669, 1670, 1671, 1672, 1673, 1674, 1675, 1676, 1677, 1678, 1679, 1680, 1681, 1682, 1683, 1684, 1685, 1686, 1687, 1688, 1689, 1690, 1691, 1692, 1693, 1694, 1695, 1696, 1697, 1698, 1699, 1700, 1701, 1702, 1703, 1704, 1705, 1706, 1707, 1708, 1709, 1710, 1711, 1712, 1713, 1714, 1715, 1716, 1717, 1718, 1719, 1720, 1721, 1722, 1723, 1724, 1725, 1726, 1727, 1728, 1729, 1730, 1731, 1732, 1733, 1734, 1735, 1736, 1737, 1738, 1739, 1740, 1741, 1742, 1743, 1744, 1745, 1746, 1747, 1748, 1749, 1750, 1751, 1752, 1753, 1754, 1755, 1756, 1757, 1758, 1759, 1760, 1761, 1762, 1763, 1764, 1765, 1766, 1767, 1768, 1769, 1770, 1771, 1772, 1773, 1774, 1775, 1776, 1777, 1778, 1779, 1780, 1781, 1782, 1783, 1784, 1785, 1786, 1787, 1788, 1789, 1790, 1791, 1792, 1793, 1794, 1795, 1796, 1797, 1798, 1799, 1800, 1801, 1802, 1803, 1804, 1805, 1806, 1807, 1808, 1809, 1810, 1811, 1812, 1813, 1814, 1815, 1816, 1817, 1818, 1819, 1820, 1821, 1822, 1823, 1824, 1825, 1826, 1827, 1828, 1829, 1830, 1831, 1832, 1833, 1834, 1835, 1836, 1837, 1838, 1839, 1840, 1841, 1842, 1843, 1844, 1845, 1846, 1847, 1848, 1849, 1850, 1851, 1852, 1853, 1854, 1855, 1856, 1857, 1858, 1859, 1860, 1861, 1862, 1863, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, 1872, 1873, 1874, 1875, 1876, 1877, 1878, 1879, 1880, 1881, 1882, 1883, 1884, 1885, 1886, 1887, 1888, 1889, 1890, 1891, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908, 1909, 1910, 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930, 1931, 1932, 1933, 1934, 1935, 1936, 1937, 1938, 1939, 1940, 1941, 1942, 1943, 1944, 1945, 1946, 1947, 1948, 1949, 1950, 1951, 1952, 1953, 1954, 1955, 1956, 1957, 1958, 1959, 1960, 1961, 1962, 1963, 1964, 1965, 1966, 1967, 1968, 1969, Fractional Township 18 North of the base line, Range 1 West of the 4th principal meridian

Surveyor's Office, Saint Louis 18th May 1846.

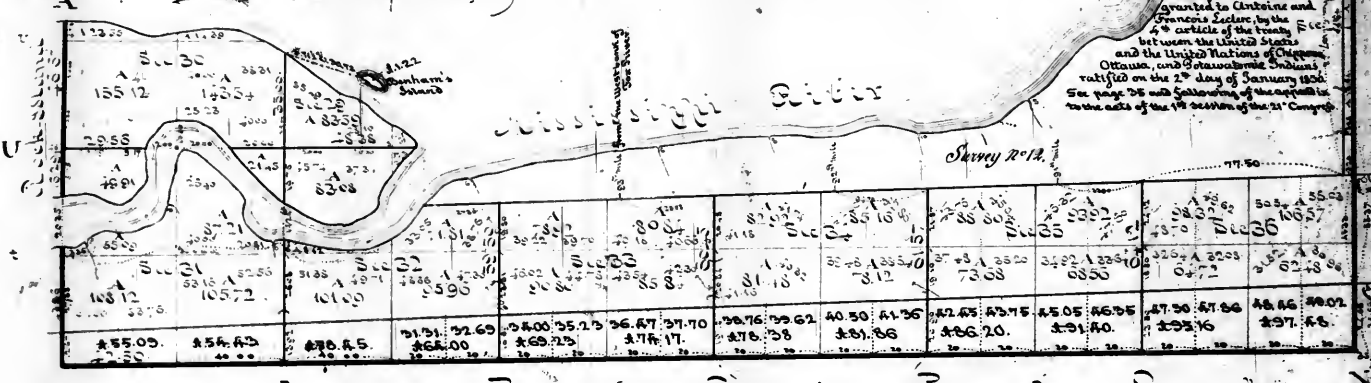

Bohman's Island is this day laid down in Section 29, partly conformable to the field notes of the Survey thereof on file in this office, which have been examined and approved. It was created with the line between Sections 29 & 30, and measured by George D. Dargent on August 1845, under instructions of 20th May of the same year. The surveying amounts to 50 43 chains, and it is paid out of the appropriation for surveying the public lands of the 2nd March 1843, and charged in favor of the 2nd quarter of 1846.

See for notes of Bohman's Island Volume 127 of St. Louis surveys.

A. R. Donnan
Surveyor of the public lands in the State of Missouri
(List of Island in favor of Bohman's)
(See St. Louis Register on 11th May 1846.)

The quantity 34.00 set down in the first half of the 1st E. 1/4 of Section 36 includes the area of that part of said quarter section which lies North of the Indian boundary as surveyed by Sullivan, Duncan and Brown. The land north of said section

1280 acres of land being one section each granted to Catherine and Francis Leclerc, by the 4th article of the treaty between the United States and the United Nations of Ottawa, and Ottawa and Indians ratified on the 2nd day of January 1806. See page 26 and following of the appendix to the acts of the 1st Session of the 21st Congress.

Surveyor's Office, Saint Louis 23rd November 1858

The above part of fractional township 18 North of the base line, range 1 West of the 4th principal meridian, is partly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The line designated 'the Indian boundary as surveyed by Sullivan and Duncan' was surveyed by John C. Sullivan, Surveyor, assisted by James M. Duncan, in the first quarter of 1819, under the authority of a letter of appointment from William H. Rector, Surveyor of the lands of the United States in Missouri and Wisconsin, dated October 12, 1818, authorizing them to survey certain Indian boundaries under the direction of Commissioners Graham and Phelps, appointed by the President of the United States, to run out the lines of the tract called by the treaty of Saint Louis of the 24th of August 1804, in this being the line agreed to be run due West from the Southern extremity of Lake Michigan to the Mississippi. (Page 1st and following of said letter of appointment of 1818.) The line designated 'Indian boundary as surveyed by Black and Brown' was run by John Black and John Brown, in the 2nd quarter of 1821, while engaged in executing the contract of Stephen Rector and Thomas C. Rector, of the 20th of March 1821, and was intended as a recovery of the line by Sullivan and Duncan, in consequence of not being able to close the public survey to said line of Sullivan and Duncan. (Other than the mile corner.) The exterior and subdivision lines of that part of the fractional township which lies South of the 'Indian boundary as surveyed by Black and Brown' were surveyed in the year 1823, by the said John Black and Brown, under the special contract of Stephen Rector and Thomas C. Rector of the 20th of March of that year. That part of the East boundary of the fractional township, which lies South of the Indian boundary as surveyed by Black and Brown (2 miles 49.36 chains), was surveyed and connected with the Indian boundary of 'Sullivan and Duncan' by Lewis Ryan, in the 2nd quarter of 1833, under instructions of the 2nd day of October 1831, and was paid for in the first quarter of 1832, and charged in the account of the Surveyor General for that quarter (Booker 14th 2nd). The Survey of Sullivan and Duncan's section, and of that part of the West boundary and subdivision lines of the township, which lie North of the 'Indian boundary as surveyed by Black and Brown' was the measure of the river, embracing the East end of Rock Island, were surveyed in the 4th quarter of 1833, by Charles R. Donnan, under the joint contract of himself and Luther H. Brown, dated 20th of August 1833.

David L. Donnan

Range 1 West of the principal Meridian

Office of the Surveyor General for Illinois & Missouri
 Saint Louis October 15th 1855

Bellevue A. & D. were this day laid down on this plat. They were surveyed in April 1853 by John Wilson Williams under instructions of the 27th February 1854 issued under authority of the letter from the Commissioner of the General Land Office dated October 19th 1853. The surveying amounted to 3 miles 57.25 chains which is charged for at \$500 per mile in the account approved by and accepted for by said Williams and this day transmitted to said Commissioner for a direct settlement at the Treasury Department with that Deputy in conformity with the general instruction of 20th September 1844; and plat of said islands are this day furnished to the General and local Land Office.

Jno Loughborough
 Surveyor General.

Surveyors Office
 Saint Louis 20th of November 1850.

Scale of 40 chains to an inch.
 Quantity of public land = 1206.68 acres
 estimated area of Forest & navigable Slough = 160.00
 Aggregate area = 1206.68 acres.

The above plat of fractional township 2nd north of the base line, in range 1 west of the 4th principal meridian, is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The east boundary, being 45.45 chains, was surveyed in the 4th quarter of 1831, by Lucius Lyon, under instructions of the 2nd of October 1831 - paid for in the 1st quarter of 1832, and charged in voucher N^o 2 of account current of the Surveyor General for said quarter: - The north boundary being 64.00 chains - the subdivisional lines being 16.00 chains - and the measures of, the left bank of Mississippi river, both banks of Fever river - the lower part of an island in section 12 - and the island in section 15 - in all 11 miles 40.00 chains, were surveyed in the 4th quarter of 1832, by Charles R. Bennett, under contract of the 9th of September of that year; - The surveys by Bennett were paid for in this 4th quarter of 1840, and they will be charged in the account current of the Surveyor General, during said quarter, under the general appropriation for surveying the public lands - Voucher N^o 5.

William Milburn
 Surveyor of the public lands in
 the States of Illinois and Missouri.

Township 28 North of the true line Range 1 West of the 4th principal Meridian

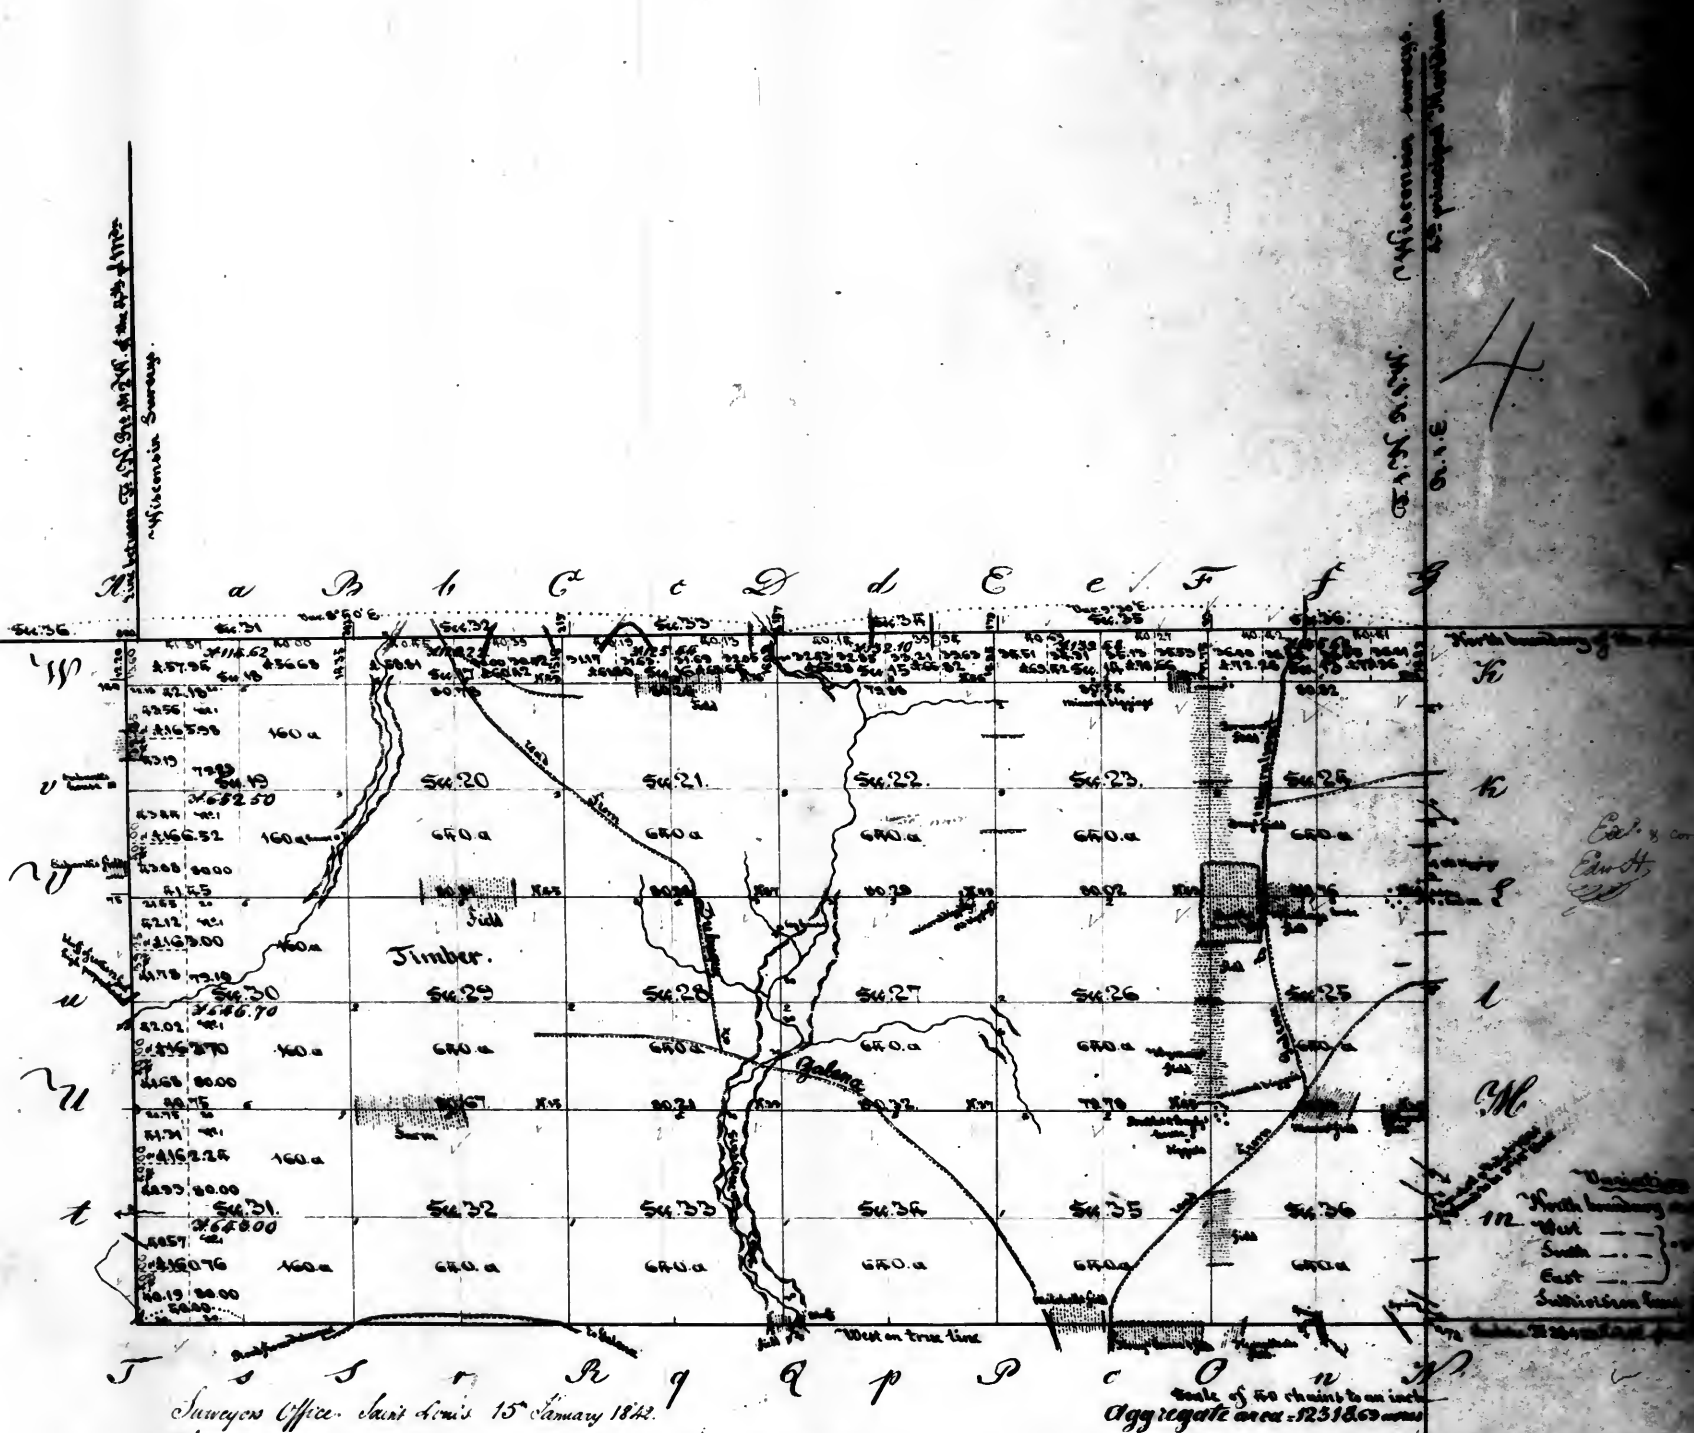

3

The above plat of fractional township 28 north of the true line, range 1 west of the 4th principal meridian, except sections 13, 14, 20, which are omitted because the survey of the town of Galena has not been connected with the line of the public survey, is strictly conformable to the field notes of the survey of the said fractional township on file in this office, which have been examined and approved. The east boundary was surveyed in the 4th quarter of 1831, by Isaac Lyon, under instructions of the 2nd of October of that year. It was paid for in the 1st quarter of 1832, and charges in the account of the Surveyor General for that quarter. Voucher No. 2. The north boundary line 64.90 chains and the north boundary 6 miles were surveyed in the 4th quarter of 1833. The west boundary 3 miles - the subdivision line 47 miles 36 chains - the measure of the left bank of the Mississippi river - both banks of lower river - both banks of the main river in sections 21, 16, and to the head of navigation in section 9, so much of an island as lies in sections 17, 18, 19, 20 & 21 - an island in sections 27, 28 & 29 - and so much of the upper part of an island as lies in sections 34, 35 & 36 - together 34 miles 6.44 chains, were surveyed in the 4th quarter of 1833, and the 1st quarter of 1840, by C. R. Bismet, under contract of the 9th of September 1833. They were paid for in this 4th quarter of 1840, and they will be charged in the account current of the Surveyor General, during the same quarter, under the general appropriation for surveying the public land, Voucher No. 5.

William Melbourne
Surveyor of the public land in
the States of Illinois & Missouri.

Township 29 North of the base line Range 1 West of the 4th principal Meridian

The above plat of Township 29 north of the base line range 1 west of the 4th principal meridian is strictly conformable to the field notes of the Survey thereof on file in this office which have been examined and approved. The east boundary was surveyed in the 4th quarter of 1831, by Lucas Lyon, under instructions of the 2^d of October of that year. It was paid for in the 1st quarter of 1832, and charged in the account current of the Surveyor General for that quarter, Voucher N^o 2. The north boundary was surveyed in 1832 & 1833, by Lucas Lyon, Commissioner on the part of the United States, as cede to this office by M^r. T. Williams, Surveyor General of Ohio, Indiana and Michigan. This line being a part of the boundary between Illinois and Michigan, now Wisconsin. The south boundary 6 miles, and the west boundary 3 miles 12.20 chains, were surveyed in the 4th quarter of 1839, by C. E. Bennett, under contract of the 6th of May of that year. They were paid for in the 4th quarter of 1840; and charged in the account current of the Surveyor General for that quarter, Voucher N^o 5. The subdivision lines 3 miles 11.53 chains, were surveyed in the 2^d quarter of 1841, by C. E. Bennett, under contract of the 6th of October 1840. They were paid for in the 4th quarter of 1841, and charged in the account current of the Surveyor General during that quarter, Voucher N^o 6.

Jos. C. Brown
 Surveyor of the public lands for
 the district of Illinois & Michigan.

T. 18. N. 2. W. of the 7th pl. M. 22

On the line between the South and North fractional half of Section 36, a corner was established at 1825 1/2 feet west of the E. 1/2 corner on the East boundary of the 1/2 section from which corner (at 1825 1/2 ft) a line was run North 88° 41' to the river, where an other corner was established. on the said line North 88° 41' 1/2 ft in the proper place, it, and the corner at each end thereof are to be considered as well and void, in the calculation of the area of the two parts of the 1/2 section of an imaginary N.E. line 1825 ft West of the East boundary of the fractional section between adopted.

A copy of this plat was sent to the Commissioner of the Register on 20th June 1865.

Surveyor's Office
St. Louis, 20th June 1865
Subscribed this day the S.E. 1/4 of Sec. 36 (North of Indian City)
I sent a copy to the Commissioner of the General Land Office, by another of the Surveyor, in compliance with the Commissioner's instructions of the 9th (25th) August 1864.

Statements referred to in the certificate below.

	2	56	83

Variation = 1° 55' E.
Scale of 80 chains to an inch

Surveyor's Office. Saint Louis 20th of June 1865.

The above plat of the fractional half of Section 36 (on the river shore of the Mississippi river) of Township 18 North of the base line, range 2 East of the 1st principal meridian, is hereby confirmed to the first act of the 34th Congress in 1864 in this office which has been examined and approved. The said fraction was originally surveyed by C. R. Stewart in 1833, under the contract of himself and L. H. Brown of 20th August of that year. But there appearing to be error in his survey, it was re-surveyed in October 1844 by R. S. Rogers, under instructions of the 21st September of that year, in virtue of the directions of the Commission of the General Land Office, contained in his letters of 31st March 1841, 2nd of April and 1st of June 1844. The survey by Rogers was returned above. 8 miles 66.51 chains, which will be paid for, out of the appropriation of \$3000, made on the 3rd of March 1863 (page 85 of act of the 3rd Session of the 27th Congress) for the survey of unperfected and detached land in Missouri and Arkansas; at a rate not exceeding 16¢ dollars a mile.

J. R. Crossman
Surveyor of the public lands in the State of Missouri N. W. 1865.

Wilson's Island Sec 25
Page 427
16.29

Surveyors' office, St. Louis 30th January 1849.
Wilson's island is this day laid down on this plat, strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. It was surveyed in August 1846, by Geo. D. Sargent, under instructions of 9th May of that year. The surveying 63.86 cts, is paid this day to said Sargent, and will be charged to the U. S. holds in my account current bearing the 1st quarter of 1849, under the appropriation of \$1200 of 12th August 1848, for the correction of erroneous lvs. p. 157 acts 1st sess. 30th Congress.

A plat of Wilson's island was sent to the Commr. of the Register on 30th January 1849.

See for the field notes of Wilson's island Volume 427 p. 427.

J. R. Conway
Surveyor Genl.

See Commissioners letter of the 20th August 1845.

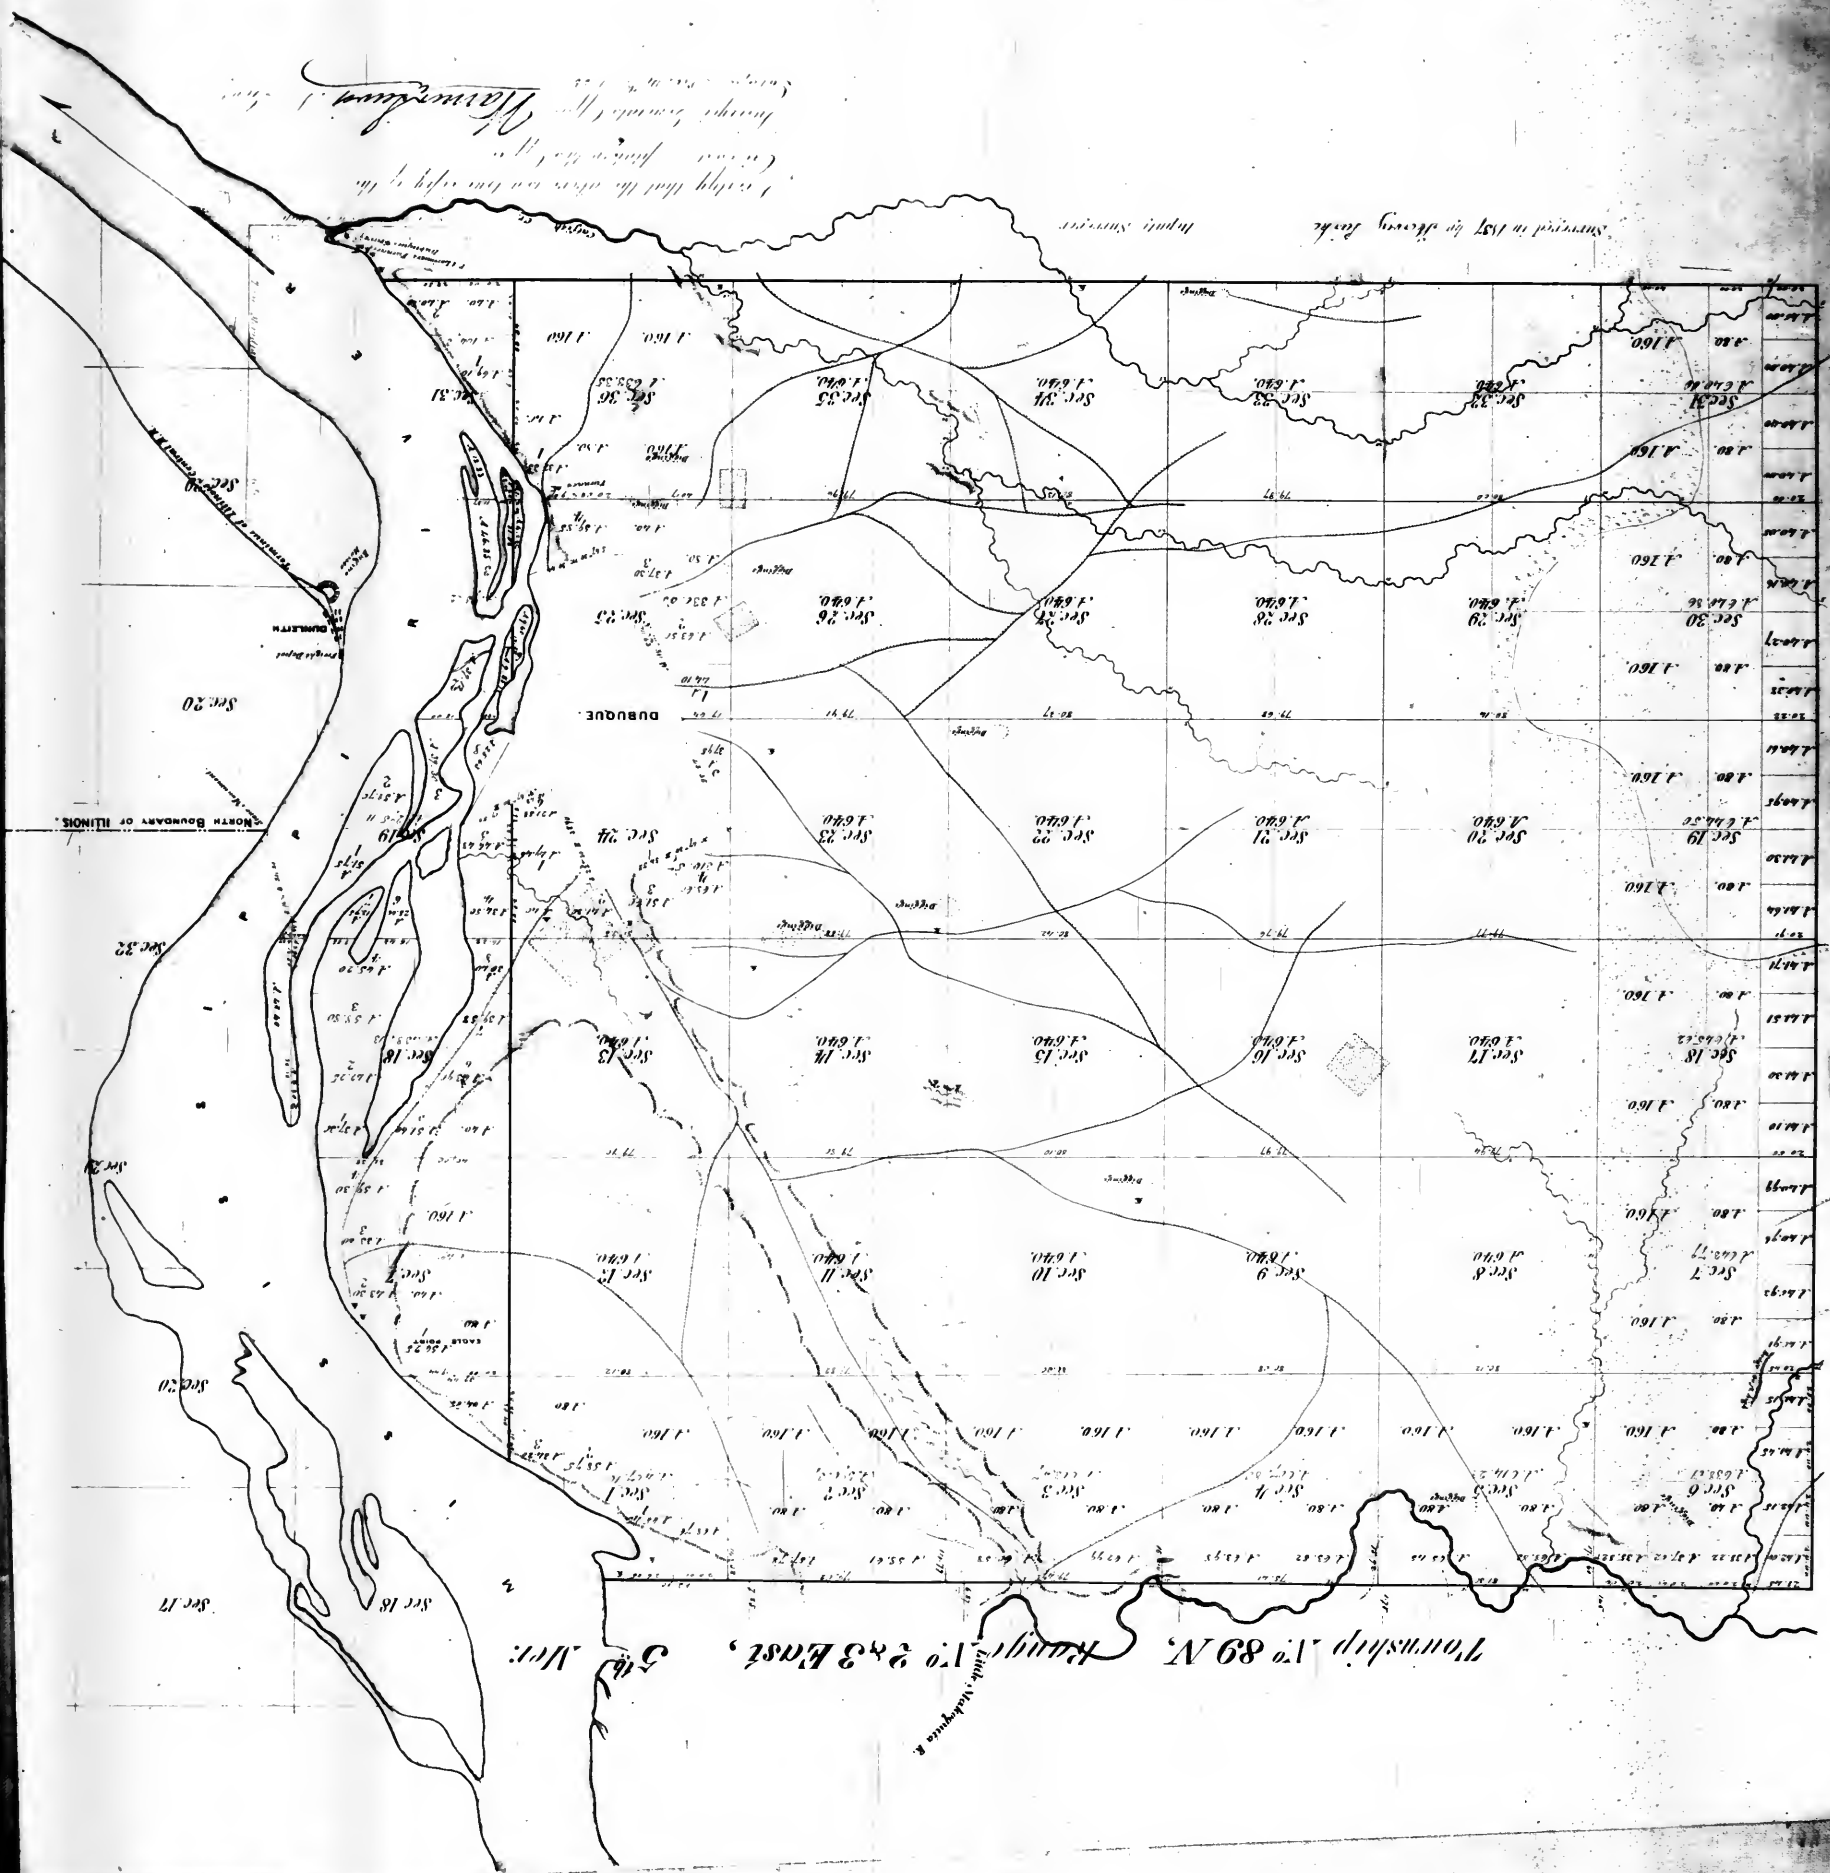

Indian boundary as removed by Frank & Dean See statement on plat of S. 16 N. 2. 10.

Surveyors' office.
St. Louis 23rd November 1838

The above plat of Fractional Township 13 North of the base line range 2 West of the 4th principal meridian is strictly conformable to the field notes of the survey thereof, on file in this office, which have been examined and approved. The Indian boundary line as removed by Black and Dean, and the exterior and subdivision lines, and meanders to the South thereof, were surveyed in the year 1821, by Abner Black and J. W. Dean, under the command of Stephen Rector, and Thomas C. Rector of the 20th of March 1821; and that part of the exterior and subdivision lines, and meanders of the township, which lie North of said "removed Indian boundary", and including the West end of Rock island, were surveyed in the 4th quarter of 1835, by Charles W. Bennett, under the joint contract of himself and L. D. Bowen, Sept 20th of August - 1835.

David M. Smith
Sur. Genl.

On the 22nd of August 1844 a plat of the tract S. E. q. of Sec. 25, copied from the above Township plat, was sent to the Register at Dixon.

Fractional Townships 28 & 29 North of the base line Range 2 West of the 4th principal Meridian

Surveyors Office.
Saint Louis 20th of November 1840.

Quantity of public land in T. 28. N. 2. W. of the 4th principal Meridian
estimated area of Lake, Outlet and Big Menominee rivers = 172.
Aggregate area = 2785.

The above plat of townships 28 & 29 north of the base line, in range 2 west of the 4th principal meridian is strictly conformable to the field notes of the survey thereof, on file in this office which have been examined and approved. These townships were surveyed as follows:—T. 28. N. 2. = the north boundary, in 1832 & 1833 by Rufus Lyon commissioner on the part of the United States, as certified to this office by E. C. Williams, Surveyor General of Ohio, Indiana & Michigan:—the said line being a part of the boundary between Illinois and Michigan, now Wisconsin—the south boundary 3 miles 48.45 chains—and the east boundary 3 miles 12.20 chains, were surveyed in the 4th quarter of 1833—the subdivisional lines, 28 miles 34.8 chains, and the meanders of the left bank of the Mississippi river, and so much of a navigable lake as lies in sections 33 & 34—together 3 miles, 29.80 chains, were surveyed in the 1st quarter of 1830, by Charles R. Bennett, under contract of the 6th of May 1829:—and T. 28. N. 2. was surveyed viz: The east boundary 3 miles—the subdivisional lines 3 miles 10.22 chains,—the meanders of the left bank of the Mississippi river, of both banks of the Big Menominee river, from the head of navigation in section 2, to its confluence with the Mississippi river in section 12—so much of a lake as lies in sections 33 & 34—the cut lot of said lake, in said sections 33 & 34, and the upper part of an island in section 12, together 12 miles 68.40 chains, were all surveyed in the 4th quarter of 1829, by Charles R. Bennett, under contract of the 6th of May 1829—the surveys by Bennett in both townships were paid for in this 4th quarter of 1840, and they will be charged in the account current of the Surveyor General during the said quarter, under the general appropriation for surveying the public land. Voucher A*5.

Surveyor Office, Saint Louis 26th May 1855.

Aggregate area, 18117.66 acres.

The above plat of fractional township 18 north of the base line, range one east of the 4th principal meridian, is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The line designated "Old Indian boundary as surveyed by Sullivan and Duncan" was surveyed by John C. Sullivan assisted by James Duncan in the 8th quarter of 1819, under the authority of a letter of appointment from William B. Reister Surveyor of the lands of the United States in Illinois and Missouri dated October 15th 1818, authorizing them to survey certain Indian boundaries under the direction of Commissioners Graham and Phelps appointed by the President of the United States to run out the lines of the tract ceded by the Treaty of Saint Louis of the 24th of August 1804, between the United States and the United Tribes of Ottawa, Chippewa and Delaware Indians: - this being the line agreed to be run due west from the southern extremity of state Michigan to the Mississippi: (page 177 and following of land laws, edition of 1823) - The line designated "Indian boundary as resurveyed by Black and Down" was run by Abner Black and J. D. Down, in the 5th quarter of 1821, under engaged in executing the contract of Stephen Reister and Thomas C. Reister of the 20th of March 1821, and was intended as a resurvey of the line by Sullivan and Duncan, in consequence (as is stated in their field notes) of not being able to close the public surveys to said line of Sullivan and Duncan, further west than the one mile corner - The eastern and subdivision lines of this part of the township which lies south of the Indian boundary as resurveyed by Black and Down, were surveyed in the year 1821 by the said Black and Down, under the contract above said of Stephen Reister and Thomas C. Reister of the 20th of March 1821 - The survey of this part of the township which was run out as aforesaid in 1821, and which lies on the left and south east side of Rock river, was renewed, and the river was re-measured (except through Indian lands) in the 2nd quarter of 1854, by Charles R. Downer because the old land marks could not be sufficiently identified to continue and complete the survey of the township, under the contract before specified. - This part of the west boundary which lies east of the old Indian boundary, as resurveyed by Black and Down (2 miles 49.55 chains) was surveyed and connected with the Indian boundary of Sullivan and Duncan, by Lewis Chapman, in the 4th quarter of 1851, under instructions of the 2nd of October 1851, and was paid for in the 5th quarter of 1852 and charged in the account of the Surveyor General for that quarter under No 2. - The north boundary was surveyed in the 4th quarter of 1855 - the east boundary, north of the resurveyed Indian boundary, was surveyed in the 2nd quarter of 1854, and the subdivisions and meadows north of the said resurveyed boundary, were surveyed in the 2nd and 5th quarters of 1854 - all by Charles Downer under the joint contract of himself and Arthur H. Brown, dated 26th of August 1853

The above plat of township 18 North, range 2 east of the 4th p.m. north of the old Indian boundary conformable to the field notes of the file in this office, which have been approved.
S. J. Christian
Surveyor of the State

The line designated 'Old Indian boundary line' has been surveyed by John C. Sullivan, assisted by James M. Duncan, in the 1st quarter of 1819, under the authority of a letter of appointment from William T. Recker, Surveyor of the Lands of the United States in Illinois and Missouri, dated October 18 1818, authorizing him to survey certain Indian boundaries, under the direction of Commissioners Graham and Phillips appointed by the President of the United States to run out the lines of the tracts ceded by the treaty of Saint Louis of 24th August 1804, between the United States and the United Tribes of Chippewa, Ottawa and Pottawatamie Indians. This being the line agreed to be run due West from the Southern extremity of Lake Michigan to the Mississippi river (p. 178 Land laws edition of 1823) — in the 3rd quarter of 1821, Abram Black and S. L. Dean, while engaged in the execution of the contract of Stephen Recker and Thomas C. Recker of the 20th March 1821, Small of said line, were unable to close their survey to the said line of Sullivan and Duncan further west than the mile from its beginning in consequence of which they resurveyed it 50 miles 14.31 chains, West to the Mississippi river — their line along this township was resurveyed as detailed above by Saunders & Christian, as well as along sec. 31 to establish a new corner on the bank of the river, and repair the corner to sections 31 & 32; and along sections 34 & 36, to prove the correctness of the surveys of the lines closing thereon.

The line designated "Old Indian boundary line" had been surveyed by John C. Sullivan, assisted by James M. Duncan, in the 1st quarter of 1819, under the authority of a letter of appointment from William Rector Surveyor of the land of the United States in Illinois and Missouri, dated October 13. 1818, authorizing them to survey certain Indian boundaries under the direction of Commissioners Graham and Phelps, appointed by the President of the United States to run out the line of the tract ceded by the treaty of St. Louis of the 20th of August 1816, between the United States, and the United Tribes of Ottawa, Chippewa, and Potawatomi Indians. This being the line agreed to be run one mile west from the southern extremity of Lake Michigan to the Mississippi river. (pp. 178 of law laws within of 1823) - In the 2nd quarter of 1821, Horner Black and J. A. Bean, whilst engaged in the execution of the contract of Stephen Rector and Thomas C. Rector of the 20th of March 1821, South of said line, were under a duty to close their survey to the said line of Sullivan and Duncan further west than the mile from its beginning - in consequence of which they surveyed 50 miles 14.31 chains west to the Mississippi river - their line along this township was resurveyed as detailed above by Dams and Christian for the purpose of re-establishing corners at the several intersections of the range lines and the section line the north.

The above plat of township 18 north of the base line, range 4 east of the 4th principal meridian, north of the Indian boundary line, is strictly conformable with the field notes of the survey thereof on file, which have been examined and approved.
John G. Samsen
Surveyor of the public lands in the State of Missouri

The line designated "Old Indian boundary line" has been surveyed by John C. Sullivan, assisted by James M. Duncan, in the 1st quarter of 1813, under the authority of a letter of appointment from William B. Bevier, Surveyor of the lands of the United States in Illinois & Missouri, dated Oct. 18, 1813, authorizing to survey certain Indian boundaries under the direction of Commissioners Graham and Phelps, appointed by the President of the United States, to run out the line of the treaty made by the treaty of Saint Louis of the 20th of August 1816, between the United States, and the United Tribes of Ottawa, Chippewa and Sauk and Fox Indians. This being the line agreed to be run one west from the line of Lake Michigan to the Mississippi river (p. 178. Land laws of 1833) - In the 3rd quarter of 1821, John H. Allen and J. L. Brown, whilst engaged in the execution of the contract of Stephen Bevier and Thomas C. Bevier of the 20th of March 1821, failed to close their surveys on the said line of Sullivan & Duncan farther west than the mile corner from its beginning - in consequence of which they reconveyed it 50 miles 14.81 chains, west to the Mississippi river - Their line along this township was reconveyed, as detailed above, by Samsen & Christian for the purpose of re-establishing corners at the several intersections of the range lines, and sectional lines therewith.

the old indian boundary line, is strictly conformable
the field notes of the Survey thereof on file in this
which have been examined and approved.

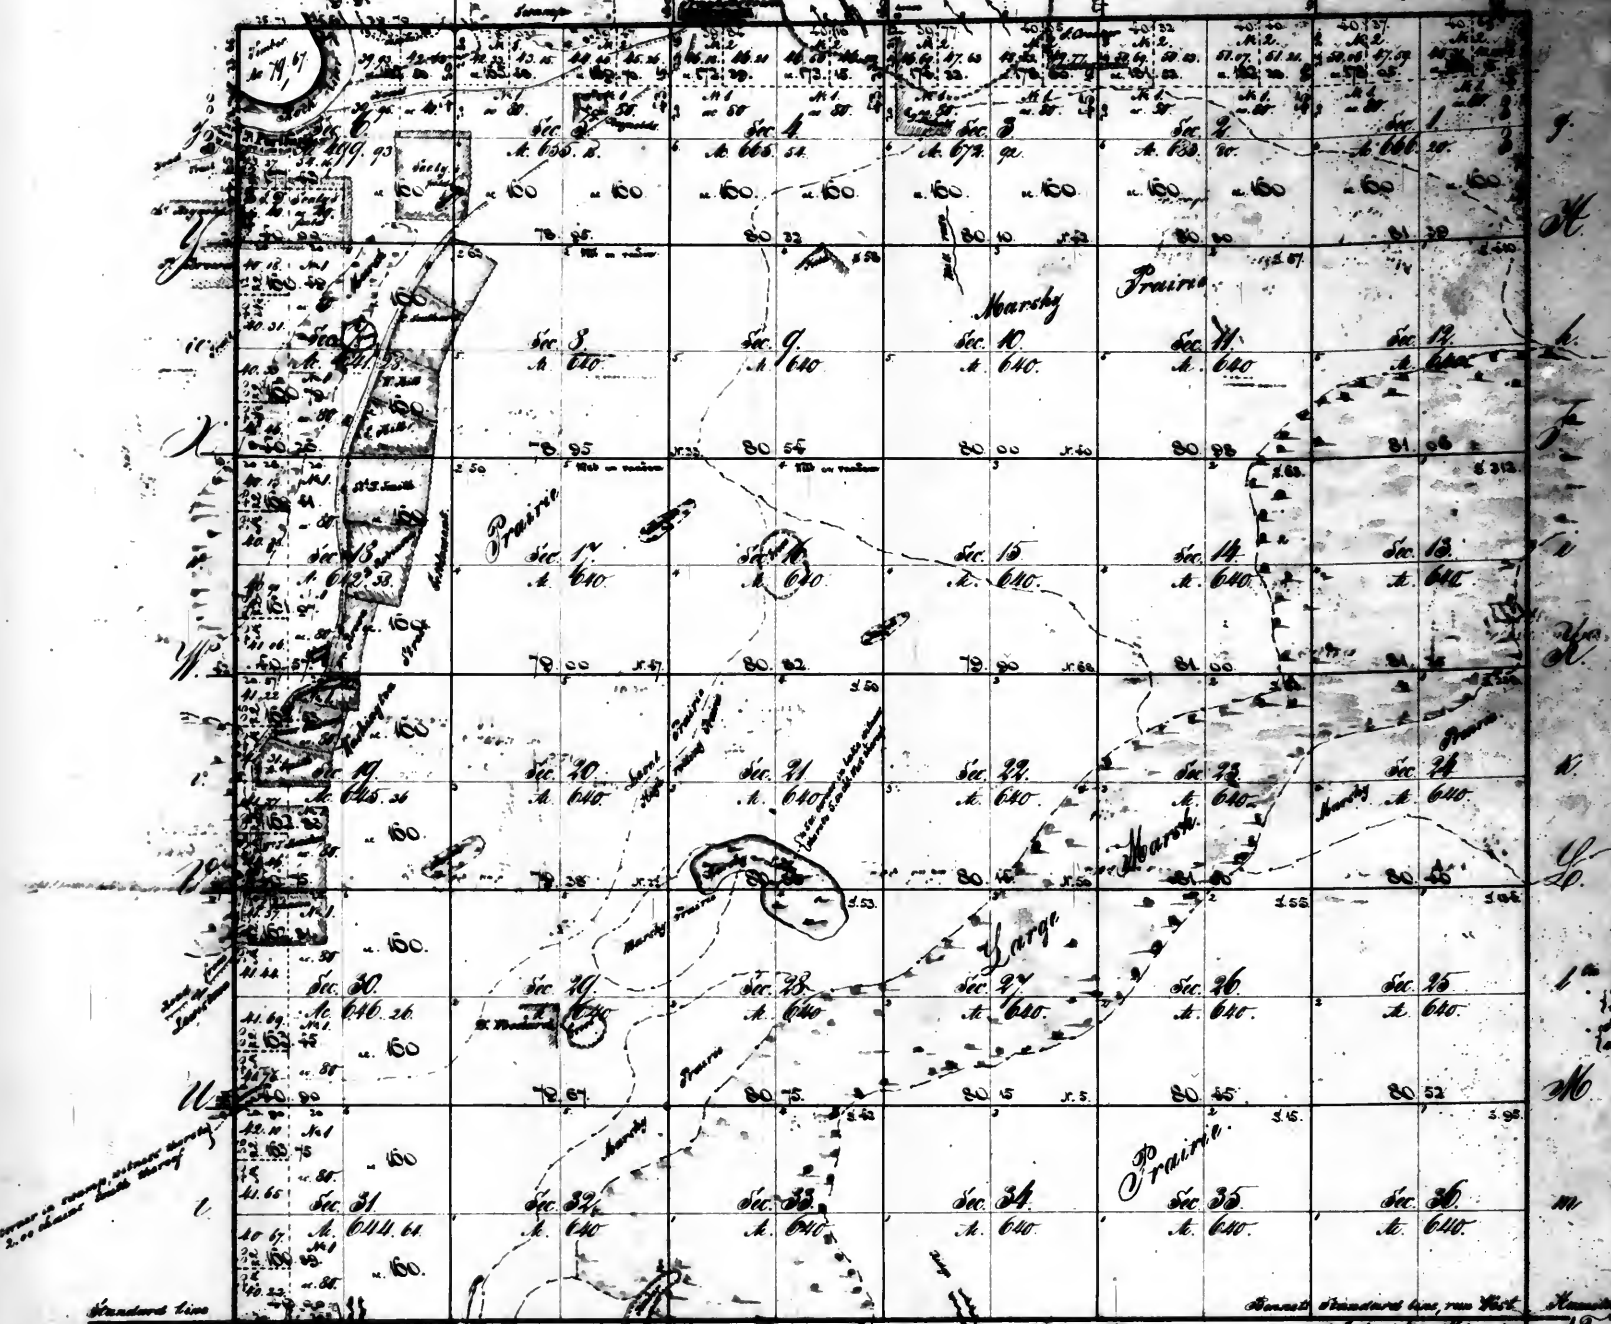

Silas Reed
Surveyor of the public lands
the State of Missouri.

The line designated "Old Turo's boundary line" has been surveyed by John C. Sullivan, assisted by James M. Duncan, in the 1st quarter of 1819, under the authority of a letter of appointment from William Hector, Surveyor of the Land of the United States in Illinois and Missouri, dated October 18-1818, authorizing him to survey certain Indian boundaries under the direction of Commissioner Graham and Thayer, appointed by the President of the United States to run out the lines of the tract ceded by the treaty of Saint Louis of the 24th of August 1804, between the United States and the Indian tribes of Ottawa, Chippewa and Ojibbawia nations. This line agrees to be run due west from the southern extremity of Lake Michigan to the Mississippi river (pp. 175. Land laws within of 1828) - In the 3^d quarter of 1822, Major Reade and J. C. Sullivan, while engaged in the execution of the contract of Stephen Hector and Thomas C. Reeder of the 20th of March 1821, south of said line, were unable to close their surveys to the said line of Sullivan and Duncan farther west than the mile crosser from its beginning - in consequence of which, they surveyed it 50 miles 14-51 chains west to the Mississippi river - Their line along this boundary was surveyed as described above by Reade and Christian, for the purpose of re-establishing corners at the several interjunctions of the range lines and sectional lines therewith.

Silas R.
Surveyor of the public lands in the State of Missouri.

Township 20 North of the base line Range 5 East of the 5th principal meridian

Office of the Surveyor General for Illinois & Missouri.
 11 May 1852.

Oster's island, in section 13, is this day laid down on the plat. It is conformable to the field notes of the Survey thereof on file in this office which have been examined and approved. It was surveyed in September 1851, by Wm. Pollock, under instructions of the 4th August 1851, to wit: "to survey the island, 7th. 15. 24. 15. 30. 41. and connecting line S 49° 55' E. 6. 75. ch. which are paid for the 7th. 15. 24. 15. 30. 41. charges for 1/2 the 1/2 States, as per voucher No 2 of account current for 1st quarter 1852, under the appropriation of \$ 2000. filed 3rd March 1851, for the creation of erroneous and defective lines at \$ 6.00 per mile.

A copy of the plat of Oster's island was sent to the Commr & Register on 11 May 1852.

M. Lewis Clarke
 Surveyor General

Scale of 40 chains to an inch.
 Quantity of public land - 2053156 acres, including the island of Oster's
 estimated area of Oster's island - 1927.78
 appropriate area - 2236836 acres

Surveyors Office. Saint Louis 8th of January 1842.

The above plat of township 20 north of the base line, range 5 east of the 4th principal meridian (except the west halves of sections 16 & 18, which are omitted because the line between these sections is intersected by an inaccessible swamp, and not connected with the west boundary of the township) is strictly conformable to the field notes of the Survey thereof on file in this office, which have been examined and approved. The south boundary 6 miles and 30 links - and the west boundary 6 miles, were surveyed in the 4th quarter of 1833, by C. A. Deane, under the joint contract of himself and father H. Deane of the 2nd of September 1833 - The east boundary 6 miles was surveyed in the 3rd quarter of 1833, by W. S. Hamilton, under contract of the 19th of July 1833 - it was paid for in the 3rd quarter of 1833, and charged in the account current of the Surveyor General during the said quarter, Voucher A & 4 - The north boundary 5 miles 77.74 chains - was surveyed in the 4th quarter of 1840, and the subdivision lines (except the line between 16 & 18, for the reason above stated - and the line between sections 15 & 22, the whole length of which would fall in Rock River) 56 miles 66.00 ch. and the meander of Rock river, including that part of an island in section 21, 23 miles 63.35 chains were surveyed in the 3rd and 4th quarters of 1840, by John Milton Moore, under contract of the 12th of September 1840 - They were paid for in the 4th quarter of 1841, and charged in the account current of the Surveyor General during the said quarter, Voucher A & 18.

Jos. C. Brown
 Surveyor of the public land for
 the District of Illinois & Missouri.

Scale of 50 chains to an inch

Note. The field notes state that from the corner to Sections 7, 8, 17 & 18 in T. 20. N. P. 5. E. of the 5th prl Mdn, the line between Sections 7 & 18 was run West 55.00 chains to the edge of an inaccessible swamp. Therefore in calculating the areas of the West halves of Sections 7 & 18, the place of the corner to Sections 7 & 18 on the Orange line was assumed to be at an average distance between Sections 6 & 7 and 18 & 19 on said Orange line, that is at a point 42 links North of the corner to Sections 12 & 13 in T. 20. N. P. 5. E. of the 5th prl Mdn, and the length of the line between said Sections 7 & 18 was assumed to be an average of the length of the lines between Sections 6 & 7 and 18 & 19, that is 79.18 chains

Saint Louis, August 6th 1852.
This day were calculated the West halves of Sections 7 & 18, and a copy sent to the Register and another copy to the Commissioner of the General Land Office

Township 20 North of the base line Range 5 East of the 4th principal Meridian

Office of the Surveyor General for Illinois & Missouri.
 Given 11 May 1852.

Cetera island is shown 1/2 in this day laid down on the plat. Strictly conformable to the field notes of the Survey thereof on file in this office which have been examined and approved. It was surveyed in September 1831, by W. S. Clark, under instructions of the 4th August 1831, to wit: "measures across the island 74 1/2 ch - line bet 4th 13 1/4 24 15 50 ch - and crossing line 1st 29 55 5 8 85 ch. which are paid for the 7th of March 1832, and charged for to the 16 States, as per voucher 112 of account current for 1st quarter 1832, under the appropriation of \$7000 of the 3rd March 1831, for the creation of temporary and respective lines at \$0.01 per mile.

A copy of the plat of Cetera island was sent to the Comm'r in Register on 11 May 1852.

N. Lewis Clark
 Surveyor General.

Silas Reed
Surveyor of the public lands in the State of Missouri.

Notes: The line designated 'old Indian boundary line' has been surveyed by John C. Sullivan, assisted by James M. Watson, in the 1st quarter of 1819, under the authority of a letter from William Rector, Surveyor of the lands of the United States in Illinois and Indiana, dated October 19, 1819, authorizing them to survey certain Indian boundaries with the directions of Commissioners Graham and Phelps, appointed by the President of the U. States to run out the line of the tract ceded by the treaty of Indian Lands, of the 24th of August 1808 between the U. States, and the united tribes of Ottawa, Chippewa, and Pottawatimie Indians. This being the line agreed to be run due west from the Southern extremity of Little Michigan to the Mississippi river (pp. 173. 6. 11. 12. of 1808) - on the 3rd gr. of 1821, Aaron Black, and J. G. Bean, who engaged in the execution of the contract of Stephen Rector and Thomas C. Rector of the 2nd March 1821, south of said line, were unable to close their survey to the said line of Graham and Watson for other west than the - note-point from the beginning; in consequence of which, they surveyed it 50 miles 14. 51 chains, west to the Mississippi river - See for G. S. Walker's surveys along this line, the above statement.

Township 20 North of the base line Range 6 East of the principal meridian

Surveyors Office.

Saint Louis, 20th of September 1840.

Aggregate Area ... 21831.27 acres of Public Land
1111.25 acres of Private Land
Total 22942.52 acres

The above plat of Township 20 north of the base line range 6 east of the 4th principal meridian, is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The West boundary 6 miles, was surveyed in the 3rd quarter of 1839. The east boundary 6 miles - The South boundary, reports to be 5 miles 76.69 chains, and the north boundary reported to be 5 miles 79.26 chains were surveyed in the 3rd quarter of 1839, all by William S. Hamilton, under contract made the 19th of July 1839 - They were paid for in the 3rd quarter of 1839, and charged in the account current of the Surveyor General for that quarter, Voucher N^o 4 - Whilst John Milton Moore, was subdividing in the 4th quarter of 1839, Township 21 north, range 6 east, under the joint contract of himself and Clark A. Moore, of the 21st of September 1839 - he remeasured the South boundary of section 35 of that township which lies in a north bend of Rock river, and found it (as set down on the plat) 46.25 chains: Hamilton's measure being 47.25 chains - In the second quarter of 1840, 1840 Moore remeasured the South boundary of section 31 T. 20. N. R. 6 E, and found it (as represented on the plat) 72.60 chains; Hamilton's measure being 76.69 chains. These 72.60 and 46.25 chains, were paid to Moore in this 3rd quarter of 1840, and they will be charged in the account current of the Surveyor General, during the said quarter, under the general appropriation for surveying the public lands - Voucher N^o 14 - The subdivision lines 58 miles 76.32 chains and the meanders of both banks of Rock river, 18 miles 64.87 chains, were surveyed in the 4th quarter of 1839, and the 2nd quarter of 1840, by John Milton Moore, under the contract above designated of the 21st of September 1839. They were paid for in this 3rd quarter of 1840, and they will be charged in the account current of the Surveyor General during the said quarter, under the general appropriation for surveying the public lands, Voucher N^o 14.

The above plat of township 28 north of the base line range 6 east of the 4th principal meridian is strictly conformable to the field notes of the Survey thereof on file in this office which have been examined and approved. The east boundary 6 miles was surveyed in the 4th quarter of 1833, and 2nd quarter of 1834, by W. S. Hamilton, under contract of the 19th of July 1833. It was paid for in the 3rd quarter of 1839, and charged in the account current of the Surveyor General for that quarter, Voucher N: 4. The west boundary 6 miles was surveyed in the 4th quarter of 1839, by C. R. Deane, under instructions of the 9th of September of the same year: it was paid for in the 4th quarter of 1840 and charged in the account current of the Surveyor General for that quarter, Voucher N: 5. The south boundary 5 miles 68.23 chains - the north boundary 5 miles 73.35 chains - the subdivisions lines 59 miles 23.46 chains, and the meanders of Peoria river 3 miles 23.73 chains, were surveyed in the 4th quarter of 1840, by Francis Sprigg, under contract of the 19th of September of that year. They were paid for in the 4th quarter of 1841, and charged in the account current of the Surveyor General during that quarter, Voucher N: 16.

Jos. C. Brown,

Surveyor of the public lands for
the district of Illinois & Missouri.

Township N^o 29 North of the Baseline in Range N^o 6 East of the 4th principal Meridian.

68

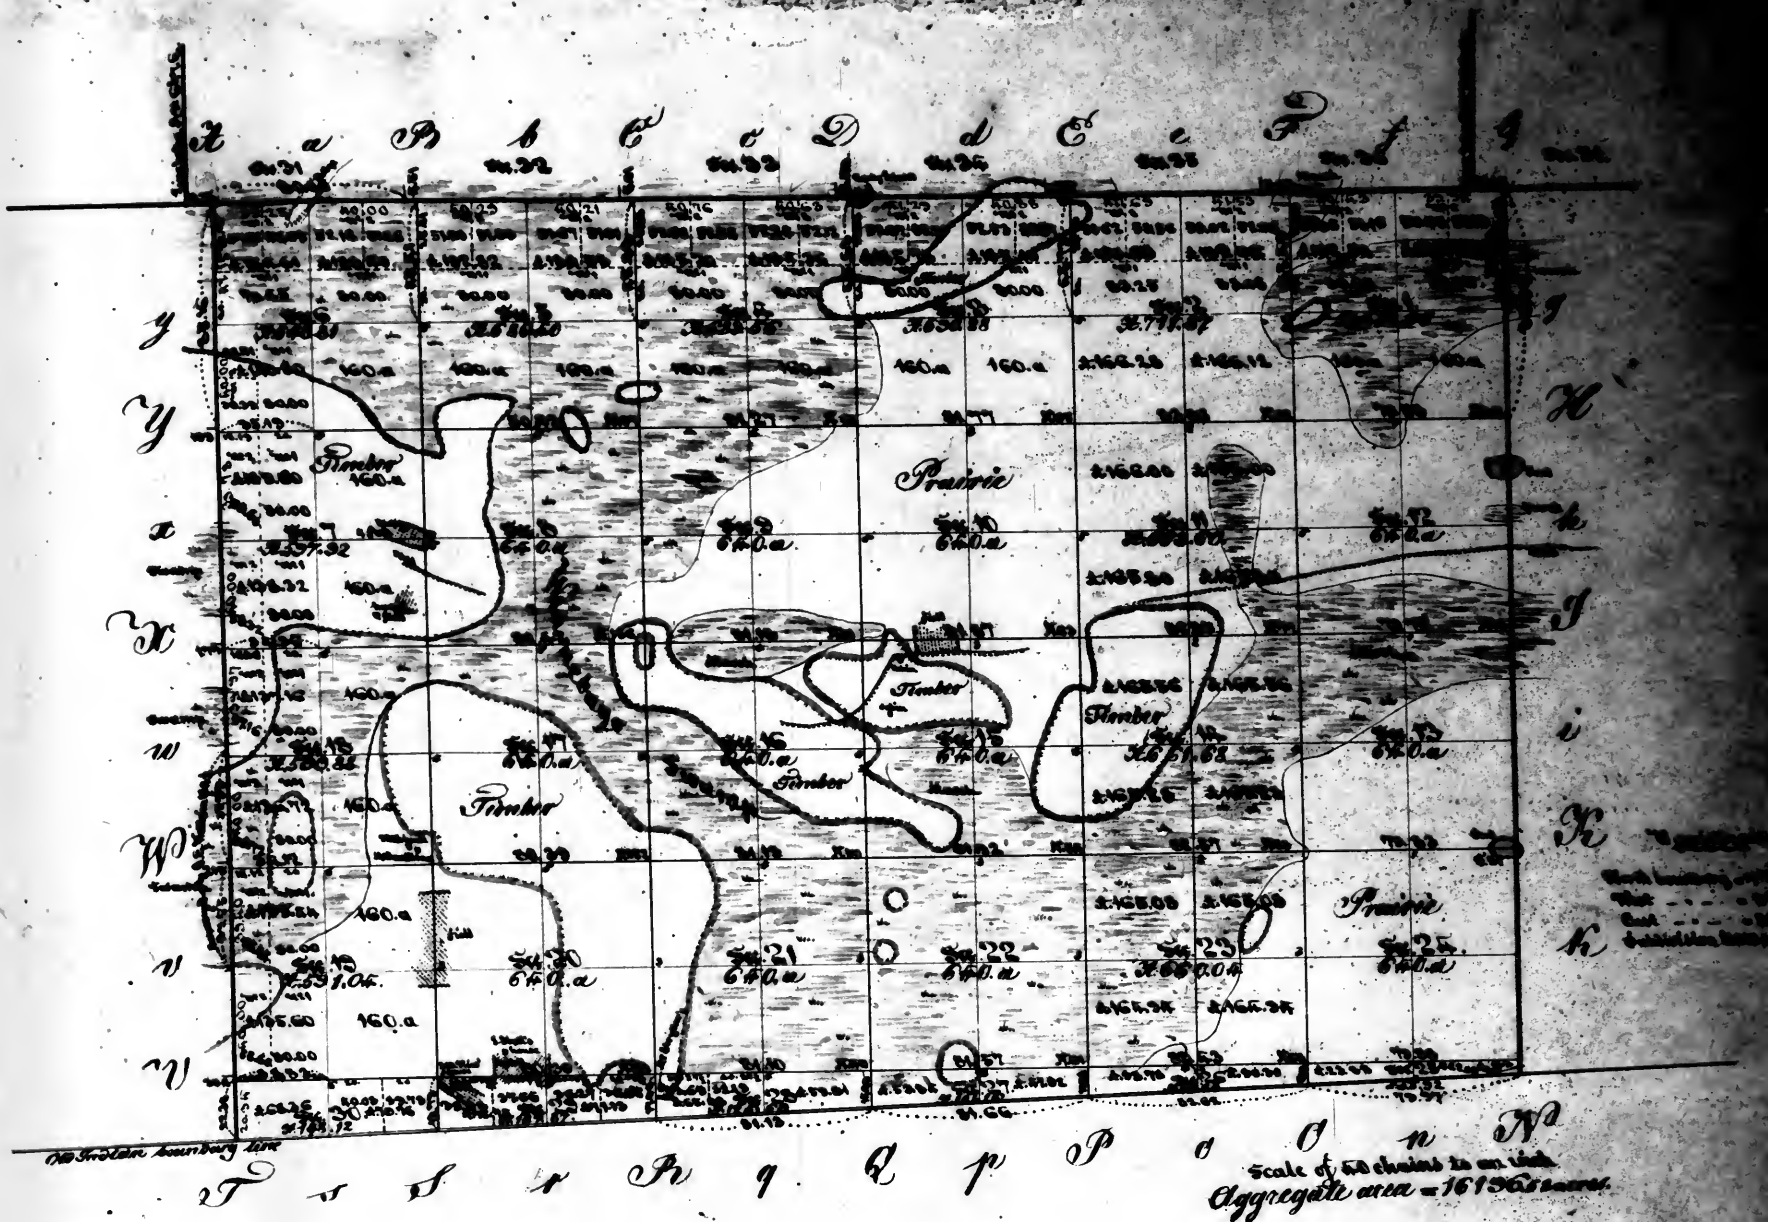

Scale of 40 chains to one inch
 Aggregate area of public lands 11903.45 acres
 Estimated area of river 165.31 a.
 Aggregate area of Township 12069.36 acres

Surveyors Office, Saint Louis 2nd of January 1842.

The above plat of Township 29 North of the base line in range 6 East of the 4th principal meridian is strictly conformable to the field notes of the Survey thereof on file in this office, which have been examined and approved. The north boundary was surveyed in 1824 & 1825 by Andrew Lyon, Commissioner on the part of the United States as certified to this office by A. C. Williams Surveyor General of Ohio, Indiana & Michigan; this line being a part of the boundary between Illinois and Michigan, now Wisconsin. The east boundary 3 miles 17.50 chains, was surveyed in the 2nd quarter of 1824, by W. S. Hamilton under contract of the 12th of July 1823; it was paid for in the 3rd quarter of 1829, and charged in the account of the Surveyor General for that quarter, Voucher N^o 4. The west boundary 3 miles 14.50 chains was surveyed in the 4th quarter of 1829 by C. S. Bennett, under instructions of the 9th of September of that year; it was paid for in the 4th quarter of 1830, and charged in the account current of the Surveyor General, being that quarter, Voucher N^o 5. The South boundary 5 miles 10.50 chains - the subdivision lines 33 miles 21.25 chains - and the meanders of Kaskaskia river 12 miles 4.65 chains, were surveyed in the 4th quarter of 1830, by Jonathan Longg, under contract of the 19th of September of that year. They were paid for in the 4th quarter of 1841, and charged in the account current of the Surveyor General, being that quarter, Voucher N^o 16.

Jos. C. Brown,
 Surveyor of the public lands for
 the district of Illinois & Missouri.

Township 18 North of the base line
North of the Old Indian boundary line

Surveyor's Office.
Saint Louis, 25th of November, 1843.

The above plat of township 18 north of the base line, range 7 east of the 4th principal meridian, north of the old Indian boundary line, are strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The line designated "Old Indian boundary line" has been surveyed by John C. Sullivan, assisted by James M. Duncan, in the 1st quarter of 1818, under the authority of a letter from William Recker, Surveyor of the lands of the United States in Illinois 14th March, dated October 13, 1818, authorizing them to survey certain Indian boundaries under the directions of Commissioners Graham and Phelps, appointed by the President of the United States to run out the lines of the Grants made by the treaty of peace made of the 24th of August 1816, between the United States and the United Tribes of Ottawa, Chippewa, and Ojibwa Indians. This being the line agreed to be run due west from the northern extremity of Lake Michigan to the Mississippi river (p. 171. L. L. action of 1822) - In the 3rd quarter of 1821, Moses Harts, and J. H. Dean, white captives in the execution of the contract of Stephen Tector, and Thomas C. Reiter, of the 26th March 1821, south of said line, were unable to close their surveys to the said line of Sullivan and Duncan, further west than the $\frac{1}{2}$ mile point from the beginning; in consequence of which they surveyed 2.50 miles 14.81 chains, west to the Mississippi river. In the 1st quarter of 1843, John Moore, under contract of 26th October 1842, surveyed along sections 25-26-27-28, 4 miles 5.38 chains, which were paid for in the 3rd q^r of 1843, and charged in the account current of the Surveyor General during the said quarter, voucher N^o 28. The west boundary 4 miles 27.44 chains, was surveyed by J. H. Hamilton, in the 2nd quarter of 1843, under contract of the 19th of July 1843; but owing to some discrepancies, it was rejected in his account; it was however, adopted without a survey, except the measurement, in the 2nd quarter of 1843, on the west boundary of sections 18 & 19, by Geo. E. Waller, under his contract of the 20th of May 1843, 79.10 chains, which were paid for in the 3rd q^r of 1843, and charged in the account current of the Surveyor General during said quarter, voucher N^o 23. The north boundary 5 miles 77.10 chains, was surveyed by the said Hamilton, under his said contract, in the 2nd quarter of 1843; it was paid for in the 3rd quarter of 1843, and charged in the account current of the Surveyor General, during the same quarter, voucher N^o 24. The east boundary 4 miles 10.39 chains, was surveyed, in May 1843, under instructions of the 23rd of April of the same year; they were paid for in the 3rd q^r of 1843, and charged in the account current of the Surveyor General during the same quarter, voucher N^o 25. The subdivision lines, 45 miles 17.18 chains were surveyed by John Moore, in the 1st quarter of 1843, under contract of the 26th of October 1842. They were paid for in the 3rd quarter of 1843, and charged in the account current of the Surveyor General during the same quarter, voucher N^o 26.

this township, by Leonard H. Woodworth,
1862 & 1865, under instructions of Genl.
of April 1862.

Sanborns Office
Saint Louis 16th of July 1845.
That part of an island which lies in the
North West quarter of Sec. 30, of this
township, was this day laid down on the
plot strictly conformable to the Genl
note of the survey, heretofore on file in his
office, which has been examined & approved.
"The said island was surveyed in March
1844, by L. W. Woodruff, senior
and brother of J. W. Woodruff, of the same
year, and the surveying money will be
charged to the account of the San. Sch.
until the general appropriation made
prior to 17 June 1844.

J. R. Bourne
Surveyor Genl.

Total 22996.51 acres

The above suit, I transmit, a sketch of the true line of range. First of the 4th principal meridian, is strictly conformable to the field notes of the survey, there being no file in this office which have been examined and approved. The west boundary reported to be 6 miles — The south boundary 6 miles and 24 links — The east boundary reported to be 6 miles — and the north boundary 6 miles and 13 chains, were all surveyed by Wm. S. Hamilton in the 3rd quarter of 1834, under contract of the 1st of July 1830 — Two were laid out in the 3rd quarter of 1839, and changed in the account rendered to the Surveyor General. During that quarter, Drucker set — a third. The William Moore also executed the surveying contract of himself and Clarke & Co. of the 2nd of September 1839, he transmitted for the purpose of re-establishing one of Hamilton's corners (that has been destroyed) so much of the east boundary of section 25, T. 21 S. R. 6 (which is the east boundary of section 20 of this township, and lies in a line of 6 miles and 13 chains, as shown in the plat T. 21 S. R. 6) — The former measure by Hamilton being 6 miles — he also re-measured the west boundary of this township from the section corner on the east boundary of section 20, to the re-established corner section corner on the east boundary of section 1 of Twp 21 S. and Range 6. The corner is between sections 25 and 20, having been destroyed, and a considerable error in the old measurement, found on the east boundary of section 25, each of them was — Then 15 miles and 5 miles and 11 links and 1 mile and 10 chains — the 3rd quarter of 1839, and changed in the account rendered to the Surveyor General in that quarter. Drucker 1844 — He also measured, and set 5 miles 10 chains the west corner of section 25, section 20, 22 chains, and the west corner of the block in sections 20 & 25, 1 mile 55.77 chains, and in the same in sections 20 & 25, 1 mile 25.48 chains, were surveyed in the 3rd quarter of 1839, and 2nd quarter of 1840, by Wm. William Moore, under the contract above transmitted on the 2nd of September 1839 — They were laid out in the 3rd quarter of 1840, and changed in the account rendered to the Surveyor General during that quarter, under the general name now put, regarding the above suit, under 1844.

Township 25 North of the base line Range 7 East of the 4th principal Meridian

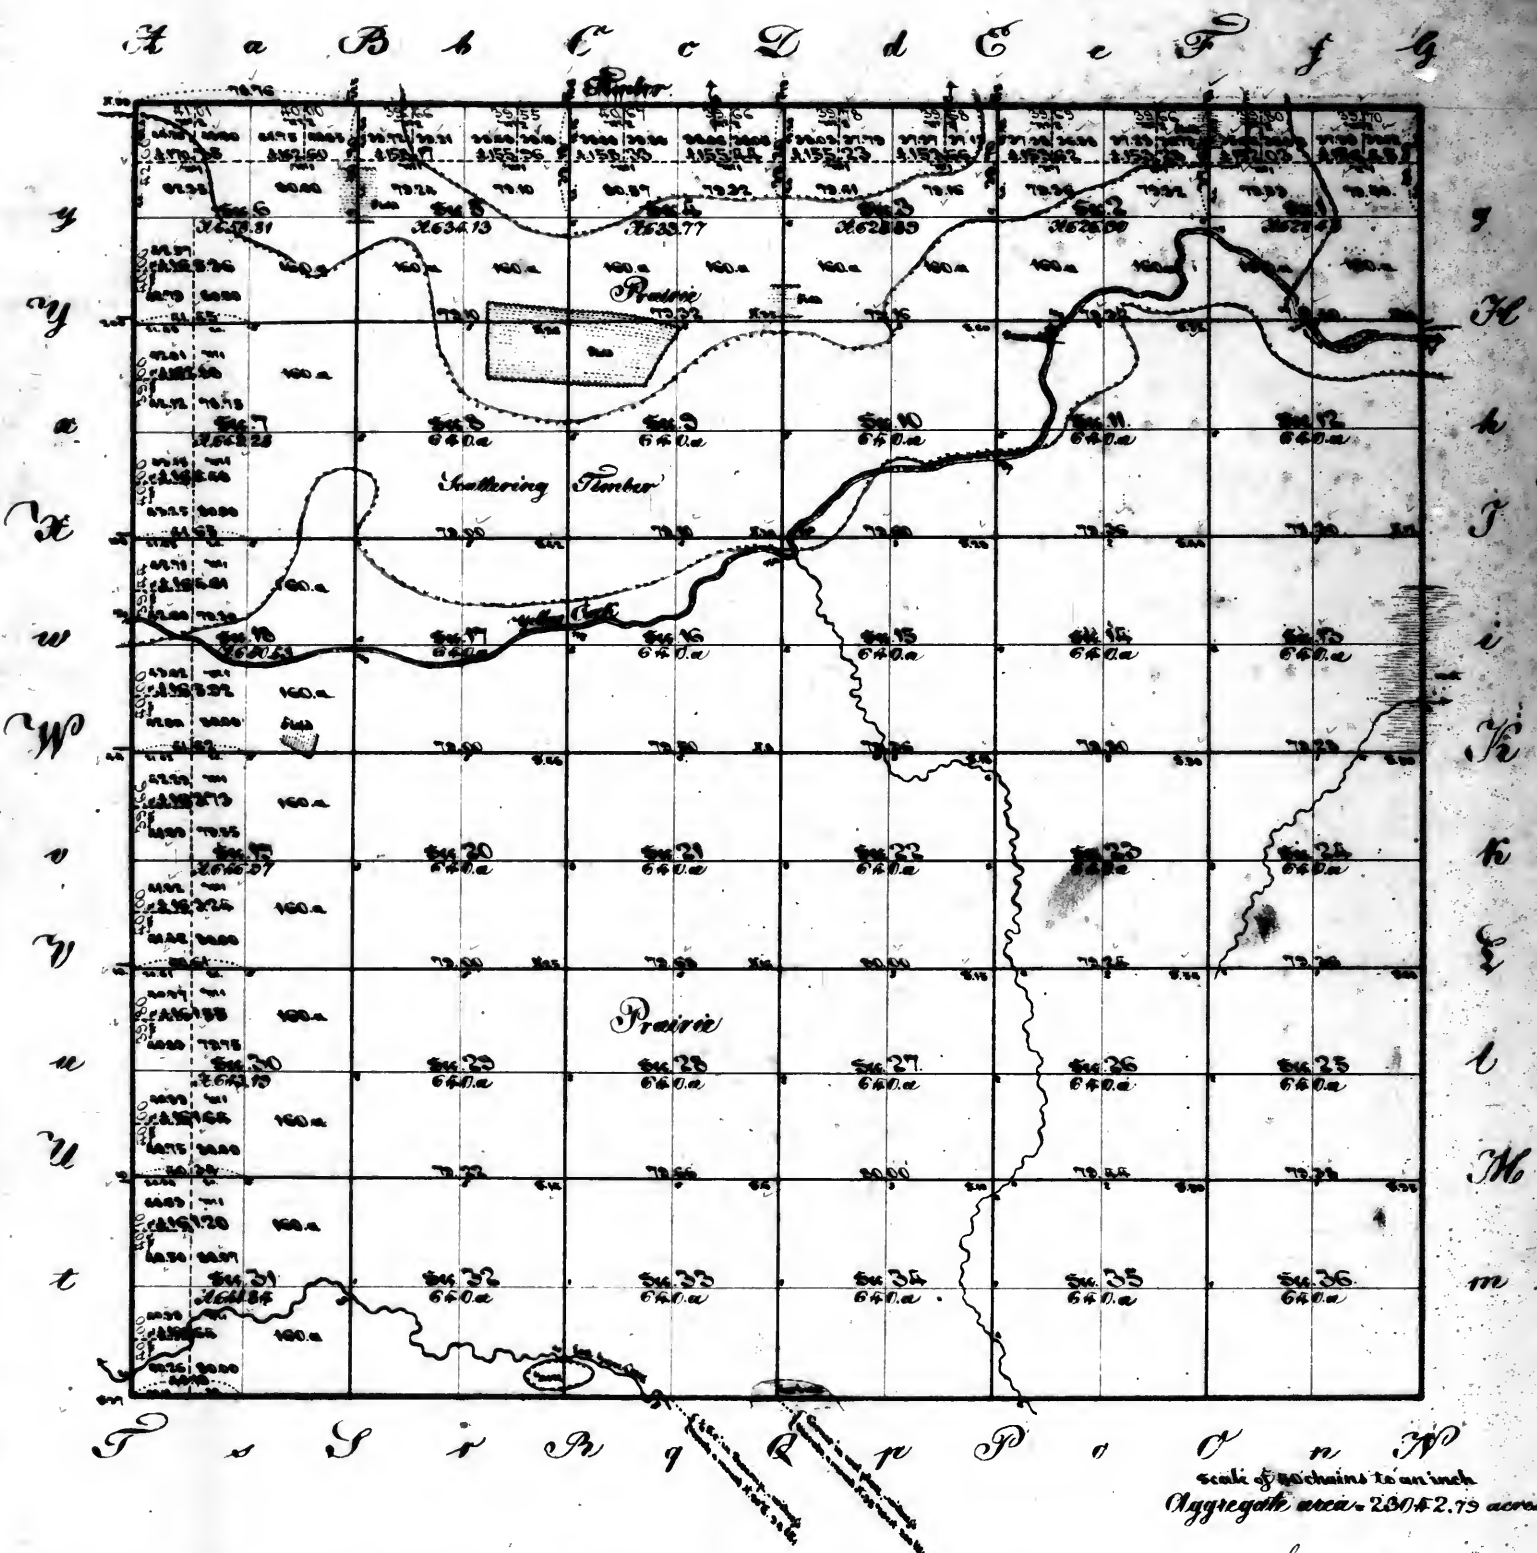

Surveyors Office. Saint Louis 20th of March 1844.

The above plat of township 25 north of the base line range 7 east of the 4th principal meridian, is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The south boundary 6 miles and 20 links; - the west boundary 6 miles, were surveyed in the 4th quarter of 1833; the east boundary 6 miles and the north boundary 6 miles and 10 links were surveyed in the 2^d quarter of 1834, all by W. J. Hamilton, under contract of the 19th of July 1833; they were paid for in the 3^d quarter of 1839, and charged in the account current of the Surveyor General during the same quarter Voucher N^o 4 - The 79.24 claims, along the east boundary of section 31, were surveyed by Geo. W. Harrison, in the 3^d quarter of 1843, under his contract of the 27th of October 1842, and subsequent instructions; they were paid for in the 4th quarter of 1843, and charged in the account current of the Surveyor General during the same quarter, Voucher N^o 2. The subdivisions of the township was contracted for by William Gordon on the 23rd of September 1839, and it was executed by him; but owing to discrepancies, his surveys thereof were responsive for correction upon the ground; but he having failed to attend to this business, and he being no longer heard of, Geo. W. Harrison, was on the 28th of November 1842, and 15th of July 1843, instructed to put in order Gordon's subdivisions, in order to enable the Surveyor General to comply with the directions of the Commissioner of the Land Office of the 28th of September 1842, for the completion of the public surveys in the northern part of the State of Illinois - In consequence of the said instructions, Harrison repaired to the ground, in the 3^d quarter of 1843, and completed the subdivisions of the township, and surveyed the east boundary of the township from the quarter section corner on the east boundary of section 25, north to the N.E. corner of the township - He was paid for his services, the hire of hands & other expenses, \$46.75, out of the amount due Gordon for the subdivisions of the township. See Voucher N^o 3, of account current during the 4th quarter of 1843. These subdivisions amount to 59 miles 72.01 chains, which comes to \$179.70 - After deducting the payment to Harrison, there remained \$132.95, which were paid to F. B. Conway of Saint Louis on said Gordon's account, for the reasons detailed in voucher N^o 10 of account current during the 1st quarter of 1844.

Township 18 North of the base line Range 8 East of the 4th principal Meridian.

(North of the Old Indian boundary line)

12

Scale of 40 chains to an inch.
Aggregate area = 1560.220 acres.

Surveyor's office.
Saint Louis, 23rd of November, 1843.

The above plat of township 18 north of the base line, range 8 east of the 4th principal meridian, north of the old indian boundary line, is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The line designated "old indian boundary line" was surveyed by John C. Sullivan, assisted by James M. Duncan, in the 1st quarter of 1819, under the authority of a letter from William Recker, Surveyor of the lands of the United States in Illinois and Missouri, dated October 18-1819; authorizing them to survey certain indian boundaries, under the direction of Commissioners Graham and Phelps, appointed by the President of the United States to run out the lines of the tracts ceded by the treaty of Saint Louis of the 24th of August 1804, between the United States, and the united tribes of Ottawa, Chippewa and Saukumutima indians - This being the line agreed to be run due west from the southern extremity of Lake Michigan to the Mississippi river (p. 178. Act of 1803) - The north boundary 6 miles 2.38 chains, was surveyed in the 2nd q^r of 1824 by W^m S. Hamilton, under contract of 19th July 1823; it was paid for in the 3rd quarter of 1829, and charged in the account of the Surveyor General during that quarter, Voucher N^o 4 - The east boundary 4 miles 10.39 chains, and the west boundary 4 miles 2.38 chains, were surveyed in the 2nd quarter of 1843, by John Morse, under instructions of the 22nd of April of the same year - They were paid for in the 3rd quarter of 1843, and charged in the account current of the Surveyor General during that quarter, Voucher N^o 24 - The subdivision lines 36 miles 67.55 chains, were surveyed in the 2nd quarter of 1843, by John Morse, under contract of the 26th of October 1842; they were paid for in the 3rd quarter of 1843, and charged in the account current of the Surveyor General during said quarter Voucher N^o 24.

Total 22984.90 acres

The above plat of township 21 north of the base line, range 8 east of the 4th principal meridian is strictly conformable to the field notes of the Surveyor General on file in this Office which have been examined and approved. The north boundary 6 miles 3.20 chains, the east boundary 6 miles, the south boundary 5 miles 70.35 chains, and the west boundary reported to be 6 miles were all surveyed in the 3rd quarter of 1834, by William S. Hamilton, under contract of the 13th of July 1833. They were paid for in the 3rd quarter of 1833, and charged in the account of the Surveyor General during said quarter, Quarter 1st. A. - While John Milton Moore was executing the first establishing contract of himself and Clark H. Moore of the 21st of September 1833, he surveyed the East boundary of S. 21 & 22 (which is the West boundary of the township) from the quarter section corner on the east boundary of section 26, to the re-established quarter section corner on the east boundary of section 1, 5 miles and 11 chains, the corner in sections 25 & 26 having been destroyed, and an error detected in the measurement of the east boundary of section 25, South of Rock river - These 5 miles and 11 chains were paid to Moore in the 3rd quarter of 1833, and charged in the account current of the Surveyor General for that quarter, Quarter 1st. A. - The subdivision lines 5.35 miles 40.04 chains and the meanders of Rock river 17 miles 50.02 chains, were surveyed in the 4th quarter of 1833, and 2nd quarter of 1834, by John Milton Moore, under the contract above designated of the 21st of September 1833, they were paid for in the 3rd quarter of 1834, and charged in the account current of the Surveyor General during said quarter, under the general appropriation for surveying the public lands, Quarter 1st. A.

Surveyors Office.
Chart No. 6 of January 1841.

Surveyed and laid out
August 1843 - 23112.00 acres.

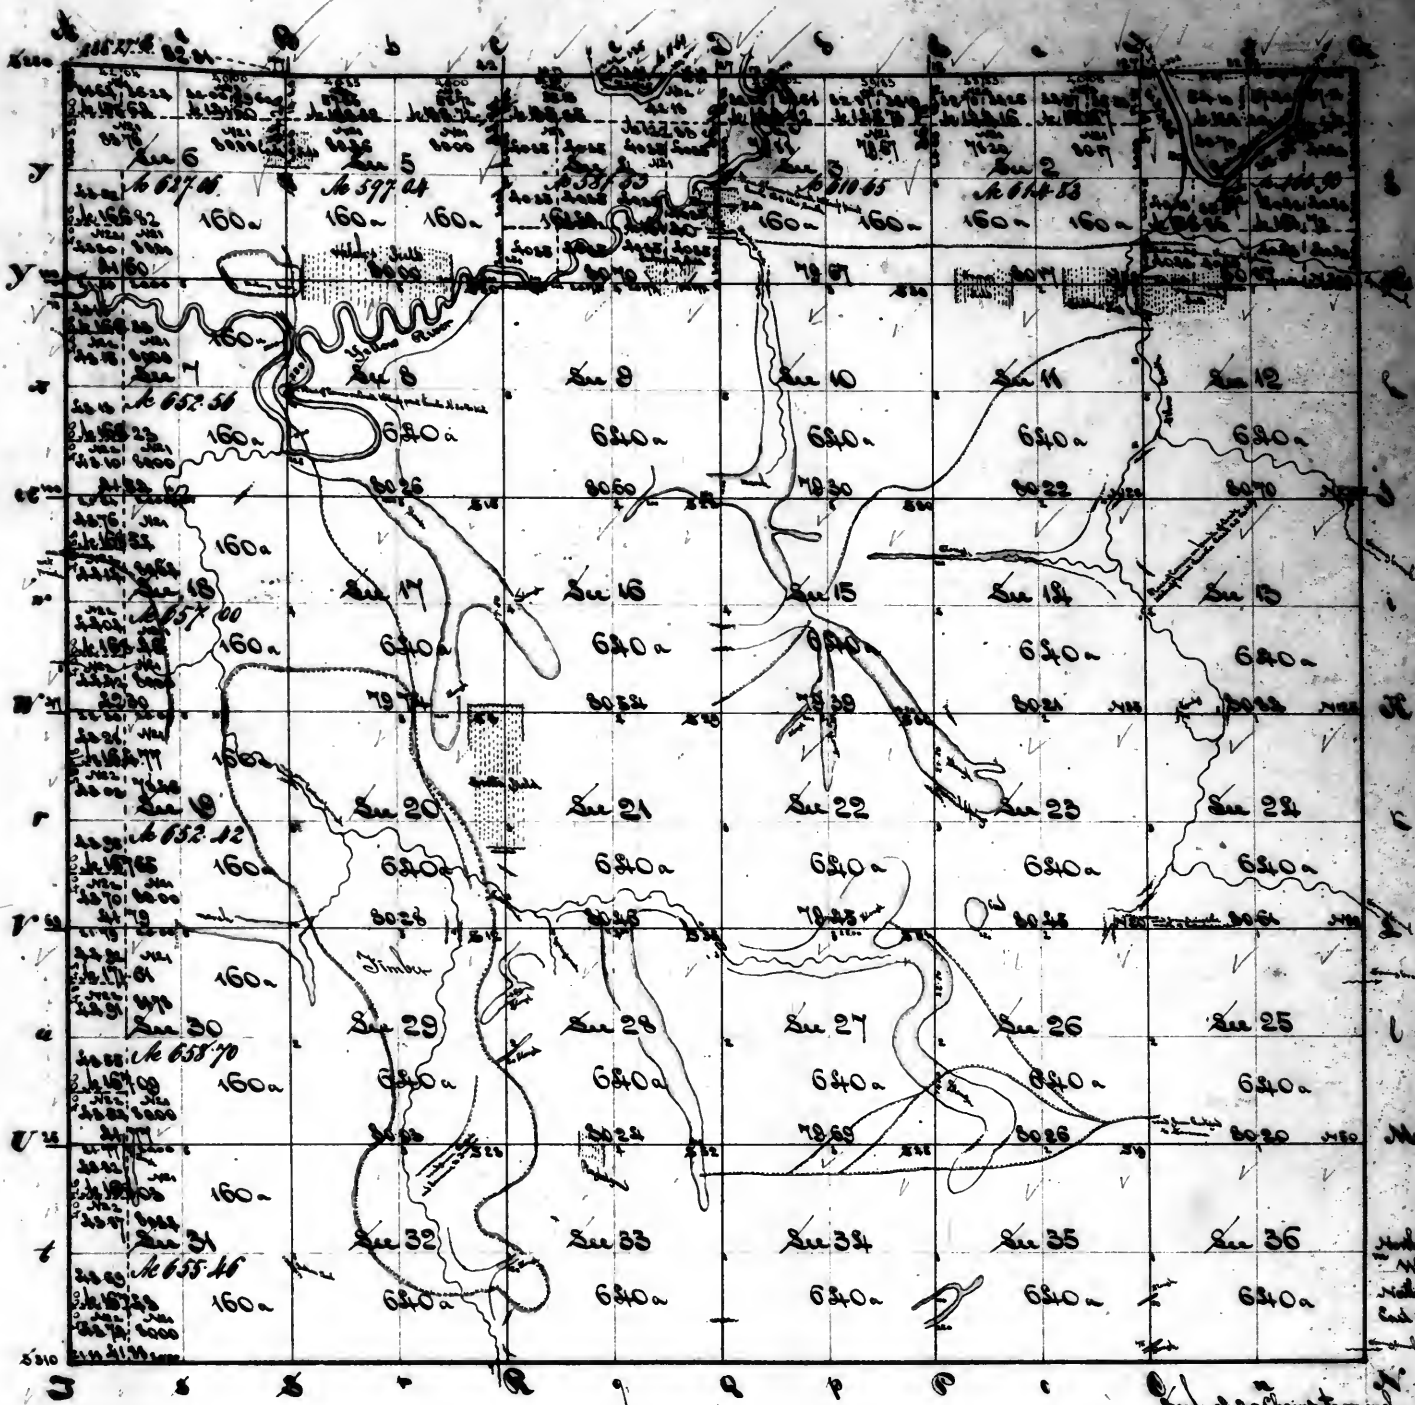

The above plat of township 25 north of the base line, in range 8 east of the 4th principal meridian, is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The north boundary 5 miles 79.22 links was surveyed in the 4th quarter of 1832. The west boundary 6 miles - the north boundary 6 miles 1.89 chains; and the east boundary 5 miles, were surveyed in the 2nd quarter of 1834, all by Wm. S. Hamilton, under contract of the 19th of July 1833. They were paid for in the 3rd quarter of 1839, and charged in the account current of the Surveyor General. During that quarter, Voucher N^o 4 - the subdivisional lines 60 miles and 2 links, were surveyed in the 1st quarter of 1840, by John B. Clark, under contract of the 23rd of October 1839. They were paid for in the 4th quarter of 1840, and charged in the account current of the Surveyor General. During that quarter, under the general appropriation for surveying the public land, Voucher N^o 2. In subdividing this township John B. Clark found an error in the east line of sec 25 & 26 & 27, north of the section corner, it being 44.84 ch. as represented on this plat, and not 40 ch. as reported by Hamilton.

Tract Township 18 North of the base line Range 3 East of the 4th principal Meridian
North of the Old Indian boundary line

Surveyor's office:
Saint Louis 3rd of November 1863.

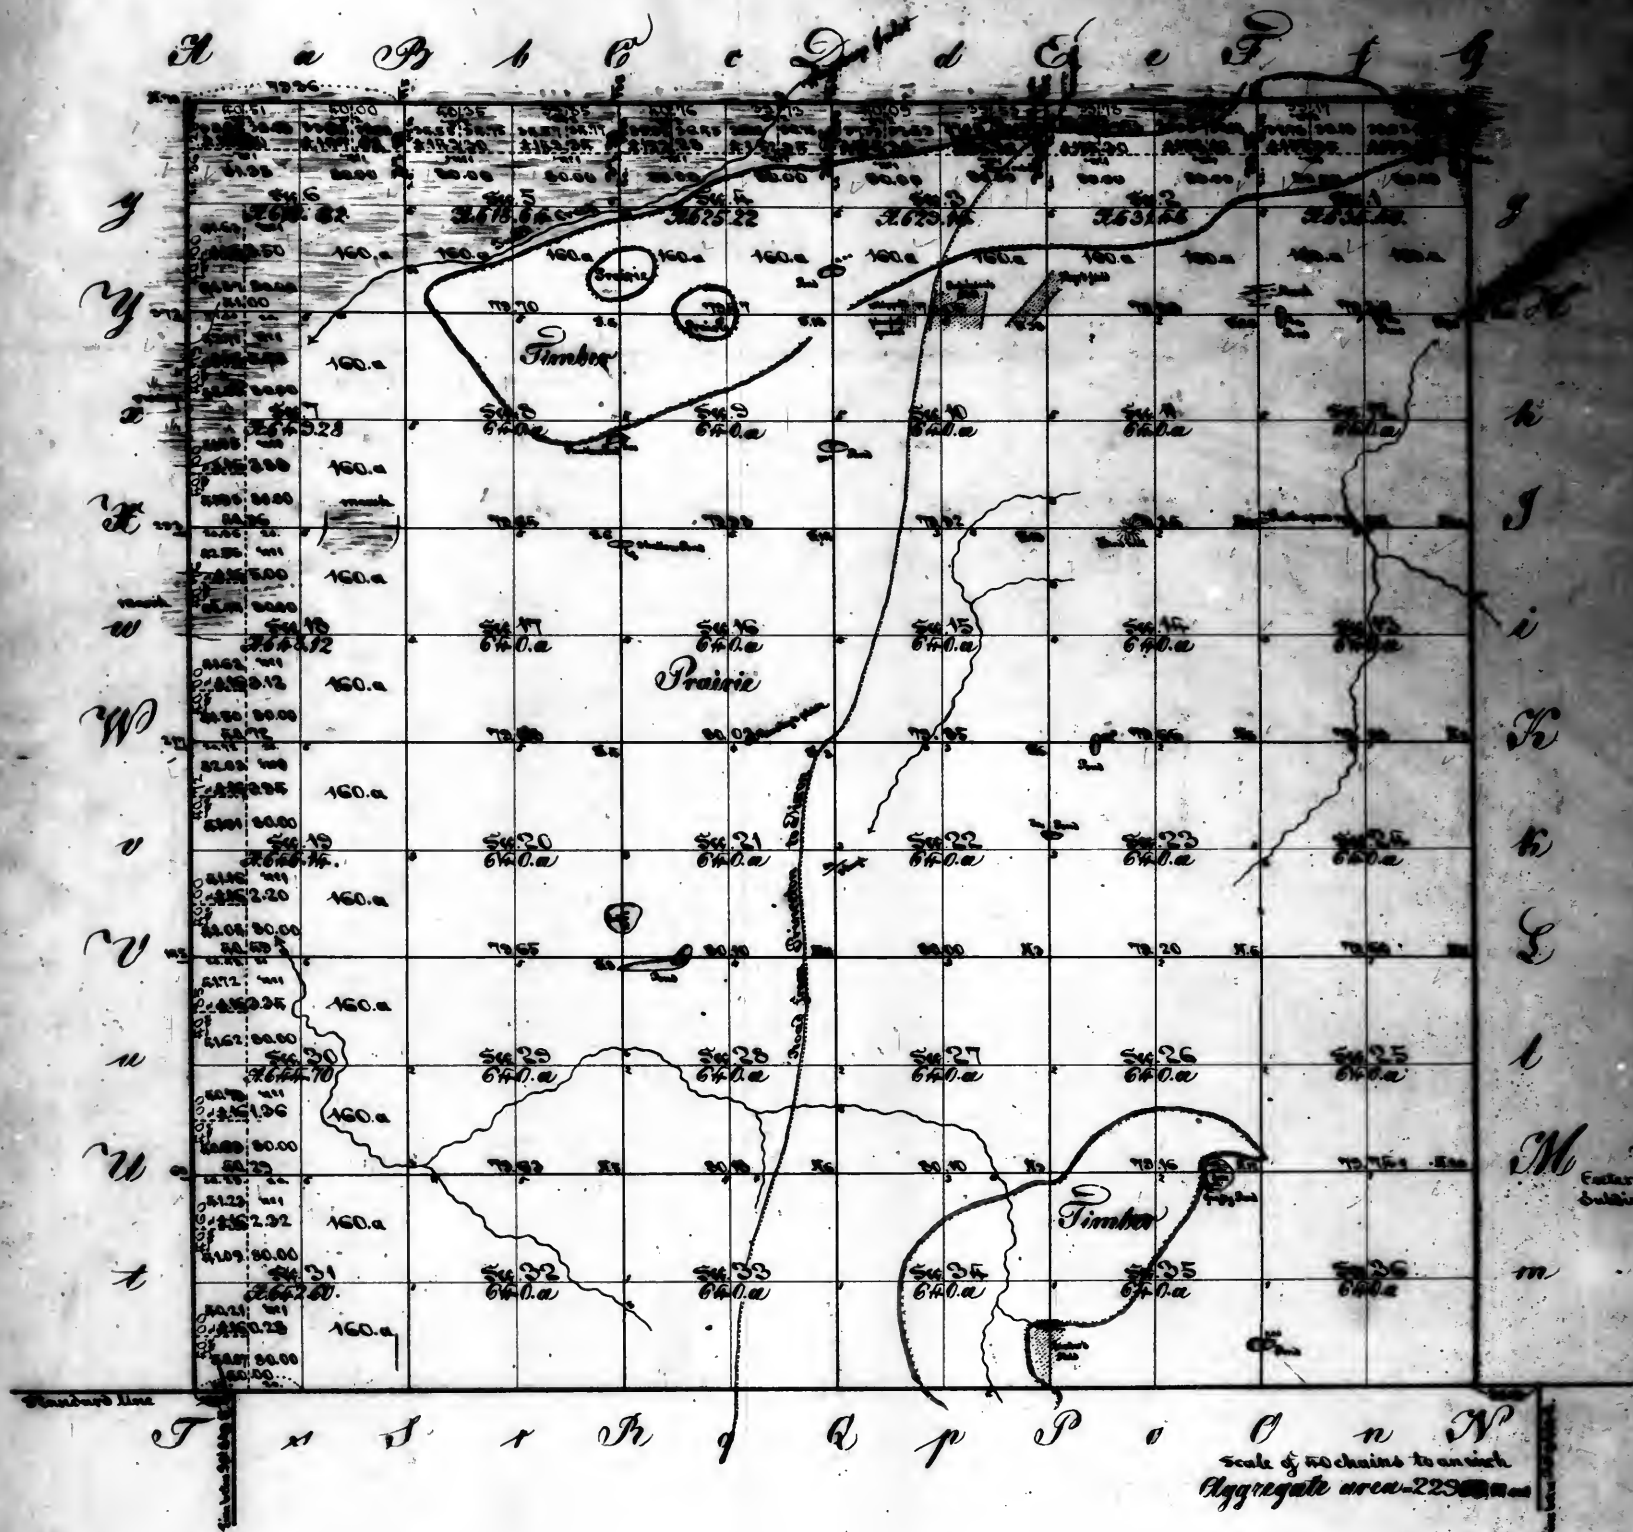

The above plat of township 18 north of the base line range east of the 4th principal meridian, north of the old Indian boundary line, is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The line designated "Old Indian boundary line" was surveyed in the 1st quarter of 1819, by John C. Williams, assisted by James M. Duncan, under the authority of a letter of appointment from W^m Becher Surveyor of the lands of the United States in Illinois and Missouri, dated October 18, 1818, authorizing them to survey certain Indian lands now under the direction of Commissioners Graham and Phelps appointed by the President of the United States to run out the lines of the tracts ceded by the treaty of Saint Louis of the 26th of August 1804 between the United States and the United Tribes of Ottawa, Chippewa & Sauk & Fox Indians. This being the line agreed to be run one mile from the Southern extremity of Lake Michigan to the Mississippi river (a 1786 edition of 1828). The east boundary 3 miles 65.05 chains was surveyed in the 2nd quarter of 1824, by W^m J. Hamilton under contract of the 19th of July 1823; but owing to some discrepancies, it was repeated in his account under the said contract, and the subdivision lines of this township having been closed thereto, it was accepted without a remedy. The north boundary was surveyed in the 2nd quarter of 1828, by W^m J. Hamilton under the same contract, and it was paid for in the 3rd quarter of 1830, and charged in the account of the Surveyor General during that quarter, Voucher 174. That part of the said north boundary which is a portion of the south boundary of sec. 31 5.10 to 10 was surveyed 26.10 chains by John Johnson and John W. Russell, in the 3rd q^r of 1842, under their joint contract of the 31st of October 1842; it was paid for in the 3rd quarter of 1843, and charged in the Surveyor General's account during said quarter, Voucher 1720. The west boundary 4 miles 2.30 chains was surveyed by John Hume under instructions of the 22nd of April 1843 in May of the same year; it was paid for in the 3rd quarter of 1843, and charged in the account current of the Surveyor General during the said quarter, Voucher 1720. - The subdivision lines 35 miles 70.10 chains were surveyed in the 2nd quarter of 1843, by John Johnson and John W. Russell, under their joint contract of the 31st of October 1842. They were paid for in the 3rd quarter of 1843, and charged in the account current of the Surveyor General during the same quarter, Voucher 1720.

Surveyors Office.
The above map of Township 22 North of the base line, Range 9 East of the 2d principal Meridian, is strictly conformable to the field notes of the survey thereof on file in this office which has been examined and approved. The South boundary reported to be 5 miles 78.21 chains; the east boundary reported to be 6 miles; the north boundary 5 miles 78.70 chains and the west boundary 6 miles, were surveyed in the 3rd quarter of 1834, by Wm. S. Hamilton, under contract of the 10th of July 1830. They were paid for in the 3rd quarter of 1835, and charged in the account current of the Surveyor General, during the said quarter, Voucher No. 1. Under the said contract of Wm. S. Hamilton, Charles R. Bonner in the 3rd quarter of 1835, reconnoitered that part of the South boundary of Section 32, East of Rock River, and found it to be 25 chains, as set down on the plan. Hamilton's measurement of the same line, being 14 chains. In the 4th quarter of 1835, 20.1 chains being under the joint contract of John D. Whitesides and Charles R. Bonner of the 20th of September 1835, reconnoitered from the corner in Section 12 & 13 on the East boundary of the township North to the northern boundary of the island, 40.98 chains of which the 35.43 chains North of the South bank of the River were paid to J. D. Whitesides in the 3rd quarter of 1840, and charged in the account current of the Surveyor General during said quarter, Voucher No. 11, leaving 5.55 chains of the said survey not paid for. The subdivision line 58 miles 54.52 chains - the meanders of both banks of Rock River, except the left bank in Section 12, 27 miles 52.30 chains, and the meanders of an island in Sections 32 & 33, 1 mile and 30 chains were surveyed in the 4th quarter of 1835, by John D. Whitesides, under the aforesaid joint contract of himself and Charles R. Bonner of the 20th of September 1835. These surveys by Whitesides were paid for in the 3rd quarter of 1840; and they were charged in the account current of the Surveyor General, during the said quarter, Voucher No. 8. The meanders of the left bank of Rock River in Section 12, 20.36 chains, were surveyed by the above named John D. Whitesides, in the 4th quarter of 1835 - under the contract above mentioned of John D. Whitesides and Charles R. Bonner - these 20.36 chains are not paid for. The meanders of that part of an island which lies in Section 12, 51.24 chains, were also surveyed in the 4th quarter of 1835, by the said Whitesides under the same contract - they were paid for in the 3rd quarter of 1840, and charged in the account of the Surveyor General, during the said quarter, Voucher No. 11.

Surveyor's Office
St. Louis 17th Nov. 1835
The distance on the line between sec. 29 & 32
is this day laid down, according to the field notes
of the survey made by St. Louis and under contract
one of the 25th January 1835, which have been
examined & approved, and are on file in this office.
The line 17.62 chains, to the top of
for 6th Ferguson in the 4th q^r of
1835, are changed to the account of the
Surveyor General, during that quarter,
under the appropriation of 3rd March 1835.
A. R. Hamilton
Surveyor General

17th Nov. 1835.
Plat of the 4th q^r of sec. 32
to 5th sec. 29, sent to the
N^o Commissioner & Register.

Surveyor General's Office.
Saint Louis 8th of August 1839.

The above plat of Township 21 north of the base line, range 9 east of the 4th principal meridian, except the north fractional half of section 5 - the south east and south west quarters of section 29 - and the north east and north west quarters of section 32 (which are omitted because of error in the meanders of Rock river through section 5, and for the want of the field notes of the survey of the true line between sections 29 & 32) is strictly conformable to the field notes of the survey of said township on file in this office, which have been examined and approved. The south boundary 5 miles 77.20 chains - the east and west boundaries 5 miles each - and the north boundary 5 miles 78.21 chains - were surveyed in the 3rd quarter of 1834 - the subdivision lines, except the line between sections 29 & 32 - 58 miles 43.73 chains, and the meanders of Rock river through section 6 - 2 miles 17.44 chains, were surveyed in the 3rd quarter of 1834 - all by William S. Hamilton, under contract of the 19th of July 1833 - they were paid for in the 3rd quarter of the present year (1839) and will be charged in the account of the Surveyor General for that quarter - Voucher B. 4.

William Hamilton
Surveyor General

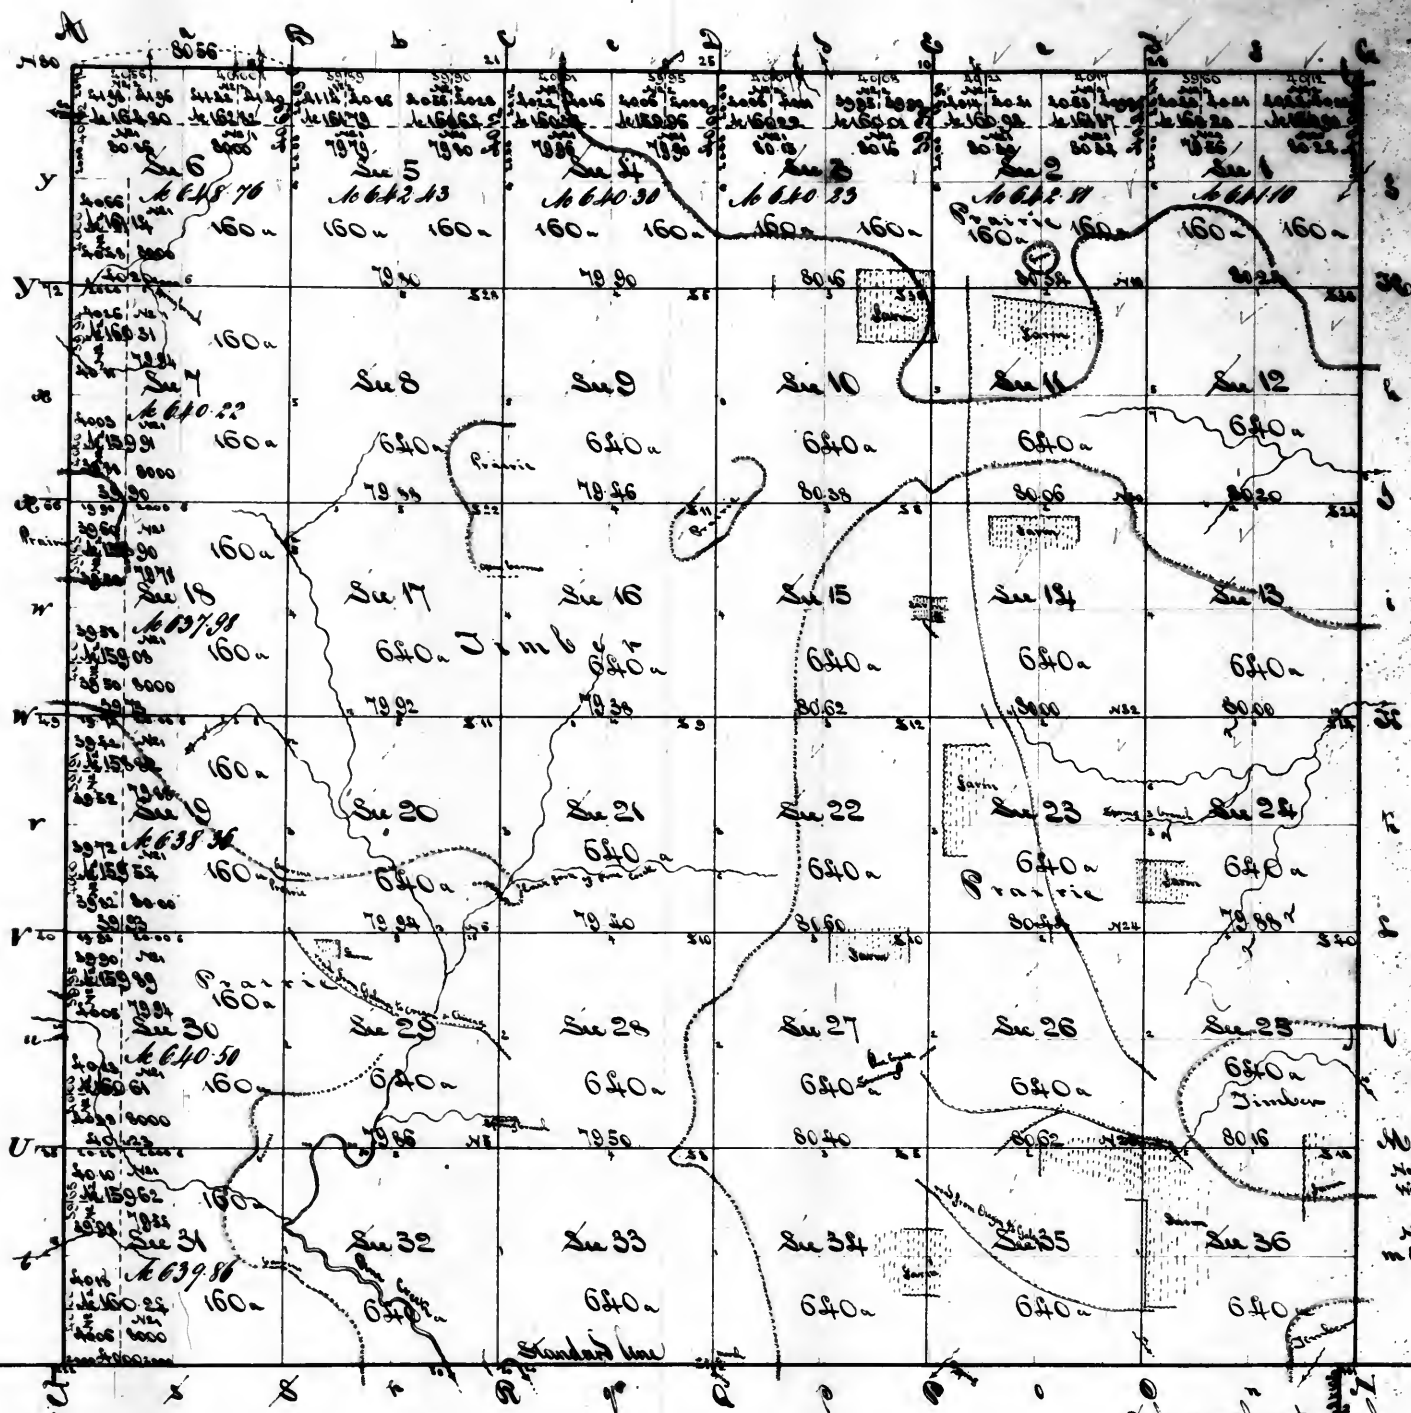

Plat of sec. 5, sent to the Register on 20th Nov. 1839.
Surveyor's Office
Saint Louis 30th November 1839

The North east and North west quarters of fractional section 5 of this township have this day been laid down as a plat according to the field notes of the survey being on file in this office which have been examined and approved - The said notes and lines of the original survey of the township as specified and designated in the above certificate except of the measurement of the township line on the north boundary of this section which was executed by Charles R. Edmest in the present quarter being the 2^d of 1839.

Surveyor's Office
St. Louis 5th of April 1845.
This day sent one copy of the North 1st half of Sec. 5. to the Commissioner of the General Land Office.

Silas Reece
Surveyor General

Township 18 North of the base line Range 10 East of the 4th principal Meridian.
(North of the Old Indian boundary line.)

36

Surveyor's Office. Saint Louis 3rd of November 1843.

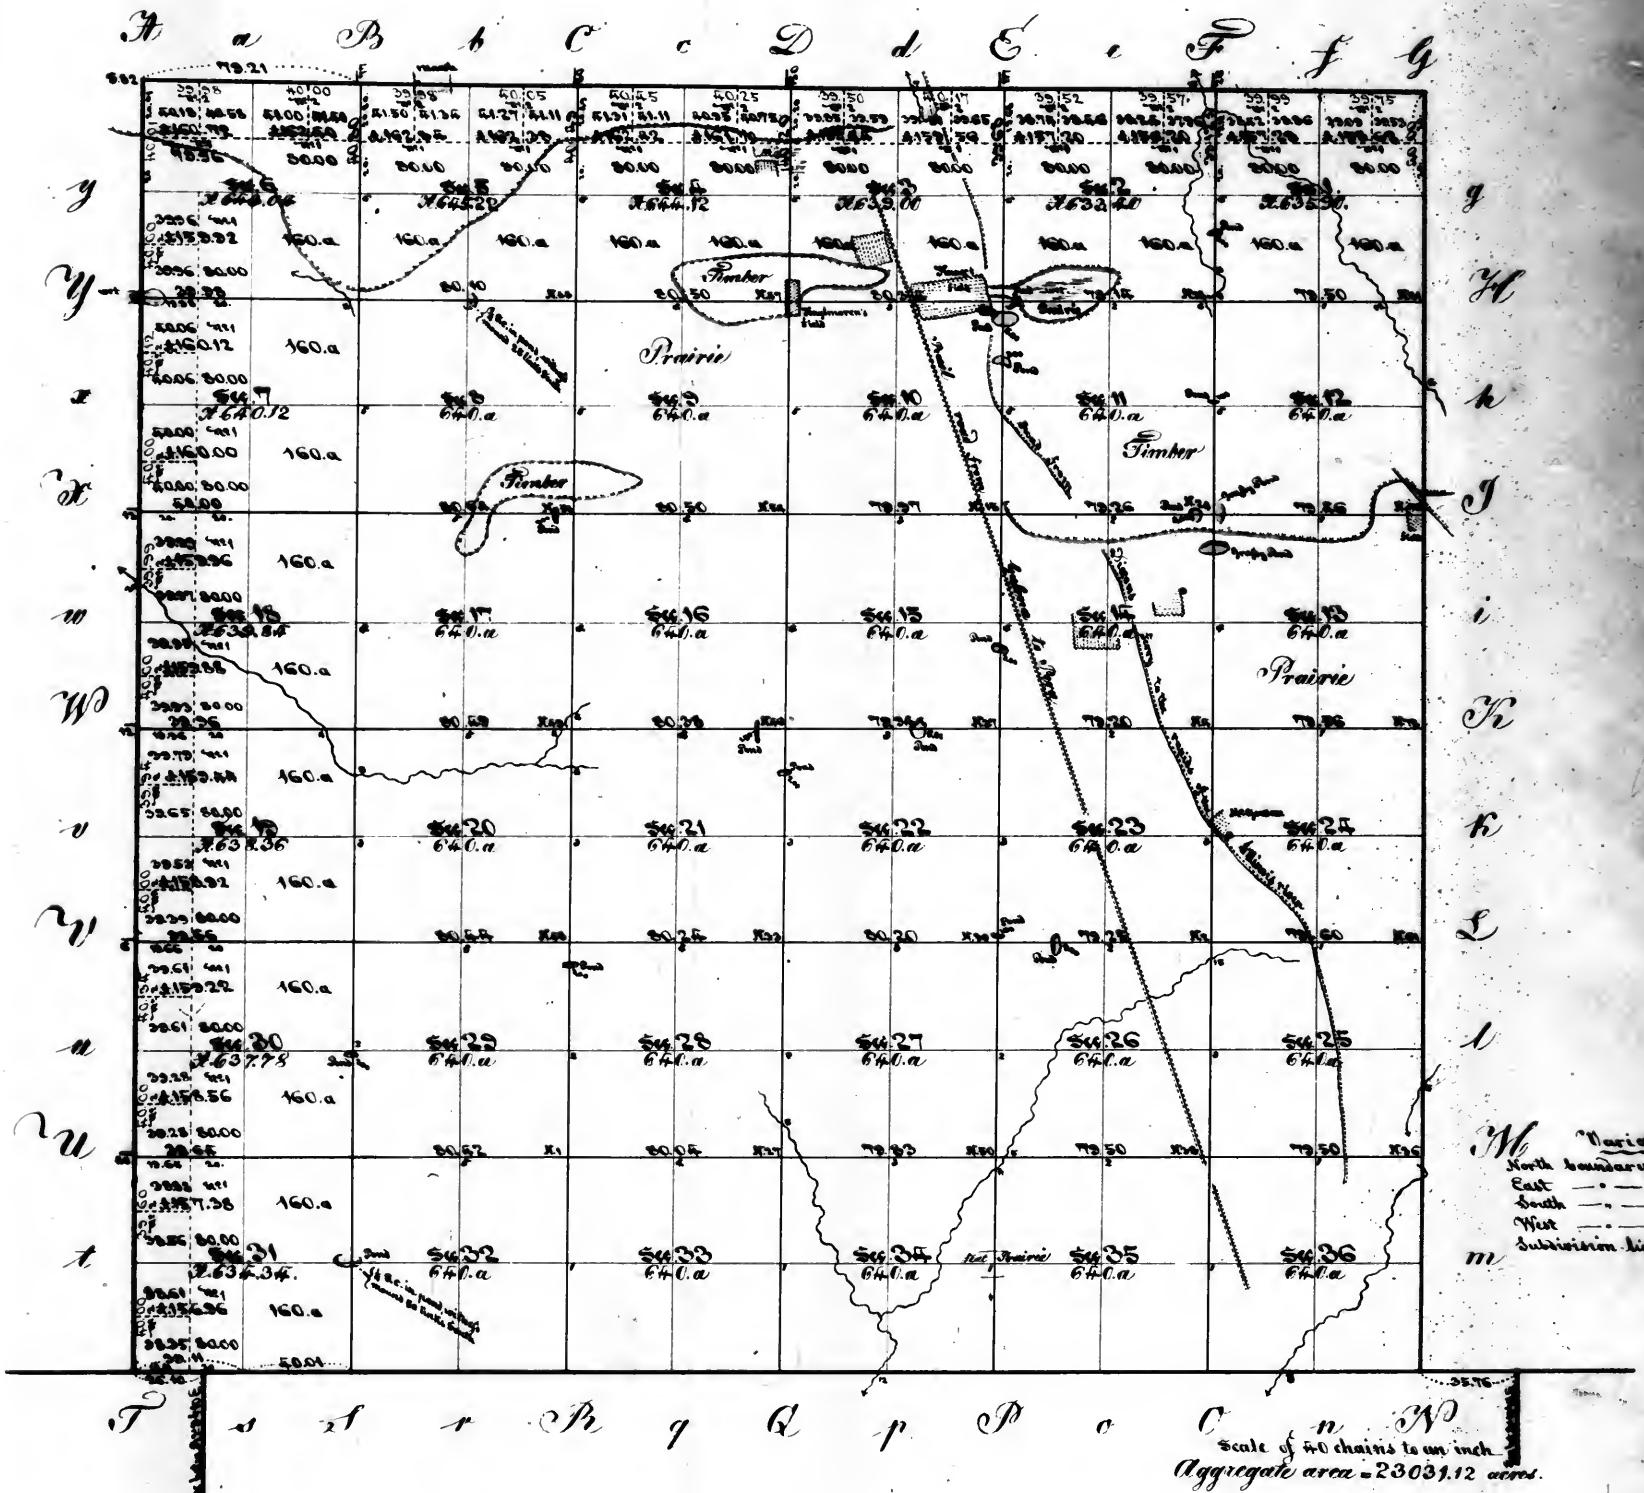

The above plat of Township 18 North of the base line, range 10 East of the 4th principal meridian, north of the old Indian boundary line, is strictly conformable to the field notes of the survey thereof, on file in this office, which have been examined and approved. The line designated "Old Indian boundary line" was surveyed in the 1st quarter of 1813, by John C. Sullivan, assisted by James M. Duncan, under the authority of a letter of appointment from W^m. Recker, Surveyor of the lands of the United States in Illinois and Missouri, dated October 18-1813, authorizing them to survey certain Indian boundaries under the direction of Commissioner Graham & Phelps, appointed by the President of the United States to run out the lines of the lands ceded by the Treaty of St. Louis of the 24th of August 1804, between the United States and the United Tribes of Ottawa, Chippewa, and Ojibwa Indians - this being the line agreed to be run due West from the southern extremity of Lake Michigan to the Mississippi river (p. 173 L.C. 1813-1815.) The west boundary 65.65 chains, and the east boundary 3 miles 51.50 chains, were surveyed in the 2nd quarter of 1820, by W^m. J. Hamilton, under contract of the 19th of July 1823; but owing to some discrepancies, they were rejected in his account under the said contract, and the subdivision lines on the west thereof, having been closed there, they were adopted without a survey, except that the east boundary of sec. 1 of this township was in part remeasured, in the 1st quarter of 1843, by Duncan Ferguson, under his contract of the 29th of October 1842, for the purpose of re-establishing the corner at its intersection with the south boundary of sec. 1 of this township. The north boundary was surveyed in the 2nd quarter of 1826, by W^m. J. Hamilton, under contract of the 19th of July 1823 - it was paid for in the 3rd quarter of 1829, and charged on the account current of the Surveyor General during said quarter. Voucher N^o. 4 - That part of the south boundary of section 31 & 32, which is on the south of sec. 6 of this township, 53.02 chains, was remeasured in the 3rd quarter of 1843, by John A. Johnson and John W. Russell, under their joint contract of the 31st of October 1842 - it was paid for in the 3rd quarter of 1843, and charged on the account current of the Surveyor General during the said quarter. Voucher N^o. 20. The south boundary of section 31 & 32, 19.21, was remeasured by Duncan Ferguson, as detailed in his remeasurement of a part of the E. boundary of sec. 1 of this township. The subdivision lines 36 miles 60.70 chains, were surveyed in the 2nd and 3rd quarters of 1843, by John A. Johnson and John W. Russell under their joint contract of the 31st of October 1842 - they were paid for in the 3rd quarter of 1843, and charged on the account current of the Surveyor General during the said quarter, under the general appropriation for surveying the public land under N^o. 20.

Township 22 North of the base line Range 10 East of the 4th principal Meridian

40

Surveyor's Office.
Saint Louis 26th of December 1840.

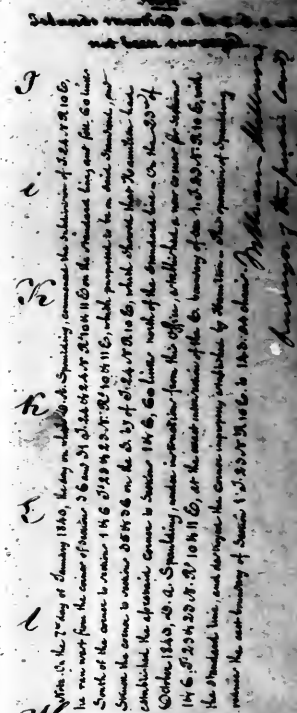

Scale of 40 chains to an inch
Aggregate area of public land = 22587.41 acres
estimated area of river = 294.60 acres
Total 22292.81 acres

The above plat of township 22 North of the base line range 10 East of the 4th principal meridian is strictly conformable to the first notes of the survey thereof on file in this office which have been examined and approved. The South boundary extends to 6 miles 3.20 chains; the north boundary extends to 6 miles 78.48 chains; the West boundary extends to 6 miles, were all surveyed in the 3rd quarter of 1834, by W. S. Kean, then under contract of the 19th July 1833. They were paid for in the 3rd quarter of 1839, and charged in the account current of the Surveyor General during the said quarter, Voucher N° 18. On the 3rd quarter of 1839, D. B. Spaulding, under the joint contract of John B. Whitman and David July of the 23rd of September 1839, resurveyed from the corner to section 12 to 13 to 14 to 15 to 16 to 17 to 18 to 19 to 20 to 21 to 22 to 23 to 24 to 25 to 26 to 27 to 28 to 29 to 30 to 31 to 32 to 33 to 34 to 35 to 36, and charged in the account current of the Surveyor General, during the said quarter, Voucher N° 11. On the 4th quarter of 1839, he resurveyed the South boundary of section 31, of this township and found its length, as set down on the plat: he also resurveyed the 4th quarter of 1839, and the 4th quarter of 1840, the South boundaries of sections 35 & 36, in order to establish new corners thereon: the 1/4 section corner on the S. E. of section 35, and the corner to sections 35 & 36, not having been found; and the 1/4 section corner on the S. boundary of section 36, not being in its proper place: this resurvey of the S. E. of sections 35 & 36, 1 mile 78.42 chains is not yet paid for: The subdivision lines 39 miles 27.70 chains, and the meanders of both banks of Rock river, and of that part of an island which lies in section 7, 4 miles 37.90 chains, were surveyed in the 4th quarter of 1839, by D. B. Spaulding under his contract of the 21st of September 1839. They were paid for in the 3rd quarter of 1840, and charged in the account current of the Surveyor General, during the said quarter, Voucher N° 11.

William Milward
Surveyor of the public lands in
the States of Illinois & Missouri.

Surveyor's Office, St Louis 14th December 1841.
Note: The 1/4 mile 78.42 chains, appears on the South boundary of sections 35 & 36, as surveyed by D. B. Spaulding, and which are shown on the plat as not yet paid for. It was paid for in the 4th quarter of 1841, and charged in the account current of the Surveyor General during the same quarter, under the General appropriation for surveying the public lands, Voucher N° 11.
D. B. Spaulding
Surveyor of the public lands for the
States of Illinois & Missouri.

W. M.

Township 29 North of the base line Range 10 East of the 4th principal Meridian

Surveyor's Office.

Saint Louis 14th December 1841.

The above plat of township 29 north of the base line, range 10 east of the 4th principal meridian is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The north boundary was surveyed in 1832 & 1833, by Lewis J. Spaulding, Commissioner on the part of the United States, as certified to this office, by W. C. Williams, Surveyor General of Ohio, Indiana & Michigan. In the 1st quarter of 1841, D. A. Spaulding, who has subdivided the township, under instructions of 15th February 1840, re-surveyed the said north boundary from the quarter section corner on the S. by of section 32. Township land range 10 east of Wisconsin Survey, S. 87th & 78.24 chains to the quarter section corner on the South boundary of section 32, for the purpose of re-establishing the corner to said sections 32 & 33 - the 78.24 chains were paid for in this 4th quarter of 1841; and they will be charged in the account current of the Surveyor General, during the same quarter, under the general surveying appropriation, Voucher N^o 13. - The South boundary 5 miles 16.50 chains - the east boundary 2 miles 41.10 chains - and the west boundary 2 miles 56.75 chains, were surveyed in the 2nd quarter of 1841, by William S. Hamilton, under contract of the 19th of July 1833 - they were paid for in the 3rd quarter of 1839, and charged in the account current of the Surveyor General, during that quarter, Voucher N^o 4. - The subdivision lines, were surveyed in the 1st quarter of 1841, by D. A. Spaulding, under instructions of the 15th February 1840 - they amount to 24 miles 66.12 chains which were paid for in this 4th quarter of 1841; and they will be charged in the account current of the Surveyor General, during the same quarter, under the general surveying appropriation for surveying the public lands, Voucher N^o 13.

Los C. Brown
Surveyor of the public lands for
the District of Illinois & Missouri.

48

The above plat of township 18 north of the base line, range 11 east of the 4th principal meridian, north of the old Indian boundary line, is strictly conformable to the first notes of the survey thereof on file in this office, which have been examined and approved. The line designated "Old Indian boundary line" was surveyed in the 1st quarter of 1819, by John C. Sullivan, assisted by James M. Bennett, under the authority of a letter of appointment from William Reden, Surveyor of the lands of the United States in Illinois and Missouri, dated October 18, 1818, authorizing them to survey certain Indian boundaries under the direction of Commissioner Graham and Phelps, appointed by the President of the United States to run out the line of the treaty ceded by the treaty of chest town of the 24th of August 1816, between the United States and the chiefs of Osage, Chickasaw and Pottawattamie Indians - This being the line agreed to be run due west from the Troughs extremity of Lake Michigan to the Mississippi river (p. 178 L. L. Vol. 1328) - The town boundary, was run 3 miles 51.50 chains, in the 3rd quarter of 1824, by N^o. S. Hamilton, under contract of the 10th of July 1823 - but owing to some discrepancies, it was rejected in his account under the said contract; but the Indian line of 3.18.10, having been closed thereto, it was adopted without a remedy, except that the S. boundary of sec. 4. 1. 18.10 was resurveyed, as shown on the plat, in the 1st quarter of 1840, by Duncan Ferguson, under his contract of the 24th of October 1842, for the purpose of re-establishing the corner at its intersection with the South boundary of 1.18.10. The east boundary, 3 miles 36.58 chains, was surveyed in the 1st q^r of 1825 by D. A. Spaulding, under contract of the 3rd of June 1825, and with the limitation noted in the margin, it was paid for in the 3rd quarter of 1827, and 2nd quarter of 1829, and charged to the accounts of the Surveyor General for those quarters, Voucher 51. 5th of 1827. The north boundary, 5 miles 37.55 chains, was surveyed in the 1st quarter of 1840 - the subdivision lines 34 miles 71.91 chains, and the wrongs shown on the plat, south of the Indian line tract to 65.16 chains were surveyed by Duncan Ferguson, under his contract of the 24th of October 1842. They were paid for in the 3rd q^r of 1842, and charged to the account current of the Surveyor General during the said quarter Voucher 51.

NOTICE OF FILING OF PLATS OF SURVEY

The plats of survey of lands in secs. 11, 14, 15, 20, 29 and 31, T. 25 N., R. 11 E., fourth principal meridian, Illinois, accepted on July 21, 1966, will be officially filed in this Office effective at 10 a.m., on October 26, 1966.

The lands are described as:

T. 25 N., R. 11 E., fourth principal meridian, Illinois,
sec. 11, lot 2 (3.15 acres)
sec. 14, lot 1 (0.33 acre)
sec. 15, lot 1 (5.40 acres), lot 2 (3.99 acres)
sec. 20, lot 1 (4.47 acres)
sec. 29, lot 1 (1.07 acres), lot 2 (0.53 acre), lot 3 (0.23 acre)
sec. 31, lot 2 (0.43 acre), lot 3 (1.64 acres), lot 4 (0.36 acre).

The survey was made to accommodate an application filed on some of these lands not reported on the original survey of this township. Lot 2 sec. 29 is more than 50% swampy in character within the meaning of the swamp land laws, and is subject to selection only by the State of Illinois under those laws.

Subject to valid existing rights, the remaining lands will be open to the filing of petition-applications under the public-land laws on and after the effective date of the filing of the plats. All inquiries relating to these lands should be sent to the Manager, Eastern States Land Office, Bureau of Land Management, Washington, D. C. 20240.

Dear Sir:

This office is reviewing title to various lands under out jurisdiction; the results of our examination require confirmation from your records.

A preliminary search of our records has failed to disclose any patent or entry for the lands described below:

Fourth Principal Meridian, Illinois

T. 25 N., R. 11 E.,
Sec. 11, Lot 2;
Sec. 14, Lot 1;
Sec. 15, Lots 1 & 2;
Sec. 20, Lot 1;
Sec. 29, Lots 1, 2 and 3;
Sec. 31, Lots 1, 2, 3, and 4.

Legal title, therefore, would appear to be still vested in the United States.

Please provide this office, at no expense to the government, the following information regarding the above lots:

Name of original entryman:
Number of entry:
Date of entry:
Name of Land Office:
Date of Patent:

Thank you very much for your assistance.

CERTIFIED NO. P 213 976 024

Mr. Donald R. Vonnahme
Director, Illinois Department of
Transportation
Division of Water Resources
2300 South Dirksen Parkway
Springfield, Illinois 62764

Dear Mr. Vonnahme:

This is in response to your letter of August 8, 1983, to Mr. Robert Burford, Director of the Bureau of Land Management, and your letter of August 23, 1983, to this office. The issue you present is the ownership status of 10 river islands in Ogle County, Illinois.

With regard to the points raised in those letters, we would like to suggest the following:

1. Eleven lots comprising nine of the islands in question were surveyed by Devitt A. Crain in November and December of 1964 under Special Instructions for Group 13, Illinois, dated November 6, 1964. Based upon existing physical evidence, Mr. Crain determined the islands existed on December 3, 1818, when Illinois entered the Union. The plats of the survey were accepted by this Bureau on July 21, 1966, and the survey returning the said islands as public land of the United States became official at 10 a.m. October 26, 1966, when it was filed in this office.
2. The State of Illinois and other interested parties were duly notified of these actions by registered mail. Enclosed are copies of this correspondence. There is no evidence of record that anyone, including the State of Illinois, challenged the Bureau's determination that the islands in question were public land for the reason that any or all of them did not exist on December 3, 1818, when Illinois was admitted to the Union. The fact that these islands do not appear on the original plat of survey dated December 26, 1840, has no bearing on their public land status. This is a well settled principle of law enunciated in Scott v. Lattig, 227 U.S. 229.

3. Another survey was conducted and a plat approved on July 26, 1929, for the remaining island described as Lot 1 of Sec. 31, T. 25 N., R. 11 E., Fourth Principal Meridian, Illinois. Here too, it was concluded that the island existed prior to statehood.

Given the above points, the Bureau of Land Management maintains that the islands are public domain lands subject to operation under the general land laws including disposal. Thus, we will proceed with processing the results of the sale conducted on August 26, 1983.

I appreciate your interest in ensuring the legal disposal of the subject public domain land. Should you have any questions or comments, please call me at (703) 235-2833.

Sincerely,

G. Curtis Jones, Jr.

RE: 2700 (962) EC
ES 32194
Illinois

Dear Mr. Jones:

My last letter to your office concerning the ownership of 10 river islands in Rock River, Ogle County, Illinois, indicated that my staff would pursue an examination of historical evidence to factually determine whether these islands existed continually in the Rock River since 1818.

My review of available historical evidence is now complete and the historical facts show that the island described as Lot 2, Section 15 (T. 25N., R. 11E.) did not exist in the Rock River during the first part of this century. Due to this fact, this island cannot be assumed to have been a parcel of public domain land and subject to sale under the general land laws.

The historical facts pertinent to determining the existence and emergence of this island are as follows:

1. ASCS air photo number BXE-1-63 taken on July 27, 1939 clearly shows the existence of young vegetation on three separate sand bars during a period of low flow in the river. ASCS air photo BXE-2H-5 taken on August 23, 1951 shows two separate islands with maturing vegetation. ASCS air photo BXE-5V-50 taken on May 7, 1958 shows the final formation of one island.
2. U.S. Army Corps of Engineers map titled "Rock River from Janesville, Wisconsin to Sterling, Illinois Surveyed and Platted Under the Direction of Major Chas. Keller, Corps of Engineers, U.S.A. and L.L. Wheeler, U.S. Assistant Engineer by H.E. Reeves, U.S. Assistant Engineer, 1912-1913, sheet no. 17" does not show the existence of any island in the Rock River at the current location of Lot 2, Section 15. In addition, this map shows specific river cross-section measurements at the location of the now existent island. This cross-section information clearly shows that this island did not exist in the period of 1912-1913.

Mr. G. Curtis Jones, Jr.
Page two
May 14, 1984

3. While many islands smaller than Lot 2, Section 15 are shown on the original 1840 plat, the island in question clearly does not appear. The principle of law enunciated in Scott v. Lattig, 227 U.S. 229 does not apply in this situation since the facts pertinent to this case are not applicable to this island in the Rock River.

The existence of islands on Lot 2, Section 29 and Lot 3, Section 29 during the period of 1818 to 1964 was questioned by a local landowner, Mr. Clyde W. James, in correspondence to my office. My investigation has not been able to conclusively prove the claims of Mr. James. I will, therefore, not challenge federal claim to initial title at this time.

Given the existence of the above factual information, I, hereby, again assert that the proper title of Lot 2, Section 15 is in the State of Illinois. I, therefore, request that your office take action to correct the title of this emerged island and file the corrected records in the Illinois State Archives.

Please keep me informed of actions taken to resolve this mistake.

Sincerely,

Donald R. Vonnahme
Director

Mr. Merrill Anderson
Page 2
August 23, 1983

We know of no legal principle by which the United States can assert title to islands in a navigable stream which emerged subsequent to statehood and the original government survey. I am enclosing a letter to Mr. Robert Burford which further discusses this issue. As you can see, we assert title in the State of Illinois. Therefore, no entry can be accepted nor patent issued by the United States.

If you have further questions regarding this matter, please let me know. Also, please correct your address for the state archives to show James Edgar as Secretary of State.

Sincerely,

Donald R. Vonnahme
Director

Mr. Merrill Anderson
Acting Chief, Lands Adjudication Section
Bureau of Land Management
350 S. Pickett St.
Alexandria, Virginia 22304

Dear Mr. Anderson:

Reference is made to your letter of August 15, 1983 (P 212 094 052) to the Illinois State Archives your file: 1813(962)AMF, ES 32194, Illinois. The letter involves islands in Rock River and has been referred to me for reply.

Rock River is a navigable stream within the meaning of the constitution and laws of the United States and the State of Illinois. The bed of Rock River is held in trust by the state for the people. It is a public water under the administrative jurisdiction of this agency pursuant to Illinois Revised Statutes, Ch. 19, Par. 52-78.

Our investigation reveals the following:

1. The lots in T.25N., R.11E., Fourth Principal Meridian, Illinois are all islands in Rock River.
2. The islands and lot designations are the direct result of a BLM survey of 1966.
3. The islands did not exist at the time of the original township survey of 1840.
4. The islands have emerged on lands held by the state in trust for the people.

Illinois Department of Transportation

Division of Water Resources
2300 South Dirksen Parkway/Springfield, Illinois/62764

August 8, 1983

Mr. Robert F. Burford, Director
Bureau of Land Management
5660 Interior Building
Washington, D. C. 20240

Dear Mr. Burford:

This July the Eastern States Office of BLM offered for public sale a number of islands in Rock River in Ogle and Winnebago Counties, Illinois. I thought this unusual, because original public domain is practically nonexistent in Illinois.

We began searching the government land surveys and sales records in our State Archives. This search is not complete. But we found that BLM had conducted a new survey in 1966 titled: Township 25 North, Range 11 East, Fourth Principal Meridian, Illinois, Survey of Islands in Sections 20, 29, and 31. This survey was transmitted to the Illinois State Archives on December 8, 1966.

A comparison of the island survey with the original township plat shows that most of the islands surveyed in 1966 did not exist in 1840. Islands meandered in the 1840 survey were not re-surveyed. So it appears that BLM has offered for sale islands which came into existence after the original survey and original federal land sales.

Rock River is navigable in law within the meaning of the Constitution of the United States, federal laws pertaining to navigable waters, and state laws pertaining to public waters. Rock River was meandered in the original government surveys and the fractional sections were subdivided and specially designated as is proper with lands abutting navigable water. The bed and banks of Rock River are publici juris, and public trust jurisdiction passed to Illinois at statehood. State jurisdiction was affirmed by the Submerged Lands Act of 1953.

Robert F. Burford
Page two
August 8, 1983

We know of no legal principle by which the United States can assert title to islands which have appeared in the bed of a navigable water subsequent to statehood and the original government township surveys. The 1966 island survey is not even roughly contemporary. It was made 148 years after statehood and 126 years after the original township survey. The emerged islands do not belong to the United States, and BLM has no right to offer them for public sale.

I request the following actions be taken to correct the problem. A careful examination should be made of the original township plats and land sales records to determine if any islands existed in 1840 and remained unsold. Only these islands may be properly sold by BLM. The sale of subsequently emerged islands should be aborted and any monies paid should be returned. Land records of the subsequently surveyed, emerged islands should be corrected to show title in the State of Illinois. A copy of the corrected records should be filed in the Illinois State Archives.

Please keep me informed of actions taken to resolve this problem.

Sincerely,

Donald R. Vonnahme
Director

TOWNSHIP 25 NORTH, RANGE 11 EAST, FOURTH PRINCIPAL MERIDIAN, ILLINOIS

CHAINS

The north and west boundaries of this township were surveyed by W.S. Hamilton, Deputy Surveyor, in 1834. In 1835-9, D.A. Spaulding, Deputy Surveyor, surveyed the south and east boundaries, subdivisional lines, meander lines of the Stillman and Rock Rivers and two islands located in secs. 11 and 12. In 1927 G.R. Veal, Cadastral Engineer, and W.W. Handy, U.S. Surveyor, surveyed an island located in sec. 31. The following field note record describes the survey of islands in the Rock River, secs. 11, 14, 15, 20, 29, and 31.

The field work was undertaken as an administrative measure to complete the survey of islands not returned in the original survey, following an application for survey submitted by Howard H. Lindroth of Rockford, Illinois.

The survey was executed in accordance with the specifications as set forth in the Manual of Instructions, 1947, and the Special Instructions dated November 6, 1954.

The township and range have been omitted from the markings on the corner monuments because of the very limited space on the brass caps of the monuments used in this survey.

Directions of all lines refer to the true meridian and were determined by prolongation of celestial observations.

The geographic position of the southeast cor. of sec. 31, as scaled from the U.S. Geological Survey Quadrangle Map, CHENON, ILLINOIS, 1950, is as follows:

Latitude 42° 07.0' N., Longitude 89° 15.6' W.

The mean magnetic declination is 4½° East.

Survey of Islands within Secs.
11, 14, 15, 20, 29, and 31.

Survey of an Island Designated Lot 2, Sec. 11.

The cor. of secs. 1, 2, 11, and 12, is marked by a steel rod, 3/4 in. diam., flush with the surface and at the center of a road extending E. and W., and in line with a fence extending S. Not monumented.

The true point for the auxiliary meander cor. of sec. 11, on the easterly point of the island, falls in area subject to erosion, not suitable for monumentation.

From this true point the cor. of secs. 1, 2, 11, and 12, bears N. 13° 23' E., 55.62 chs. dist., previously described.

From the same true point the point for the witness auxiliary meander cor. of sec. 11, bears S. 68° 30' W., 5.00 chs. dist.

Set a copper coated steel stake, 36 ins. long, 5/8 in. diam., 28 ins. in the ground and in concrete, with brass cap and.

CERTIFICATE OF SURVEY

I, **DeWitt A. Crain**, HEREBY CERTIFY upon honor that,
 in pursuance of special instructions bearing date of the **6th** day of **November**, 19**64**,
 I have made the survey of islands in the Rock River in sections 11, 14, 15,
 20, 29, and 31, Township 25 North, Range 11 East,

of the **Fourth Principal** Meridian, in the State of **Illinois**, which
 are represented in the foregoing field notes as having been executed by me and under my direction;
 and that said survey has been made in strict conformity with said special instructions, the Manual
 of Instructions for the Survey of the Public Lands of the United States, and in specific manner
 described in the foregoing field notes.

July 21, 1965
 (Date)

DeWitt A. Crain

TOWNSHIP 25 NORTH, RANGE 11 EAST, FOURTH PRINCIPAL MERIDIAN, ILLINOIS
SURVEY OF ISLANDS IN SECTIONS 11, 14, AND 15

This plat in two sheets represents the survey of nine islands situated in the Rock River which were not previously included in the original survey of T. 25 N., R. 11 E., as represented upon the plat approved December 26, 1840.

Surveyed by DeWitt A. Crain, Cadastral Surveyor, from November 16 to December 17, 1964, under Special Instructions for Group No. 13, Illinois, dated November 6, 1964.

Sheet 1 - Sections 11, 14, and 15 12.87 Acres
Sheet 2 - Sections 20, 23, and 31 8.73 Acres

Total 21.60 Acres

Reference should be made to the original survey plat approved December 26, 1840, and the plat of section 31 accepted July 25, 1929, for areas and survey information not shown hereon.

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
Washington, D. C. July 21, 1966

This plat is strictly conformable to the approved field notes, and the survey, having been correctly executed in accordance with the requirements of law and the regulations of this Bureau, is hereby accepted.

Islands numbered 1 and 2 have been surveyed.
Islands numbered 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36 have not been surveyed.

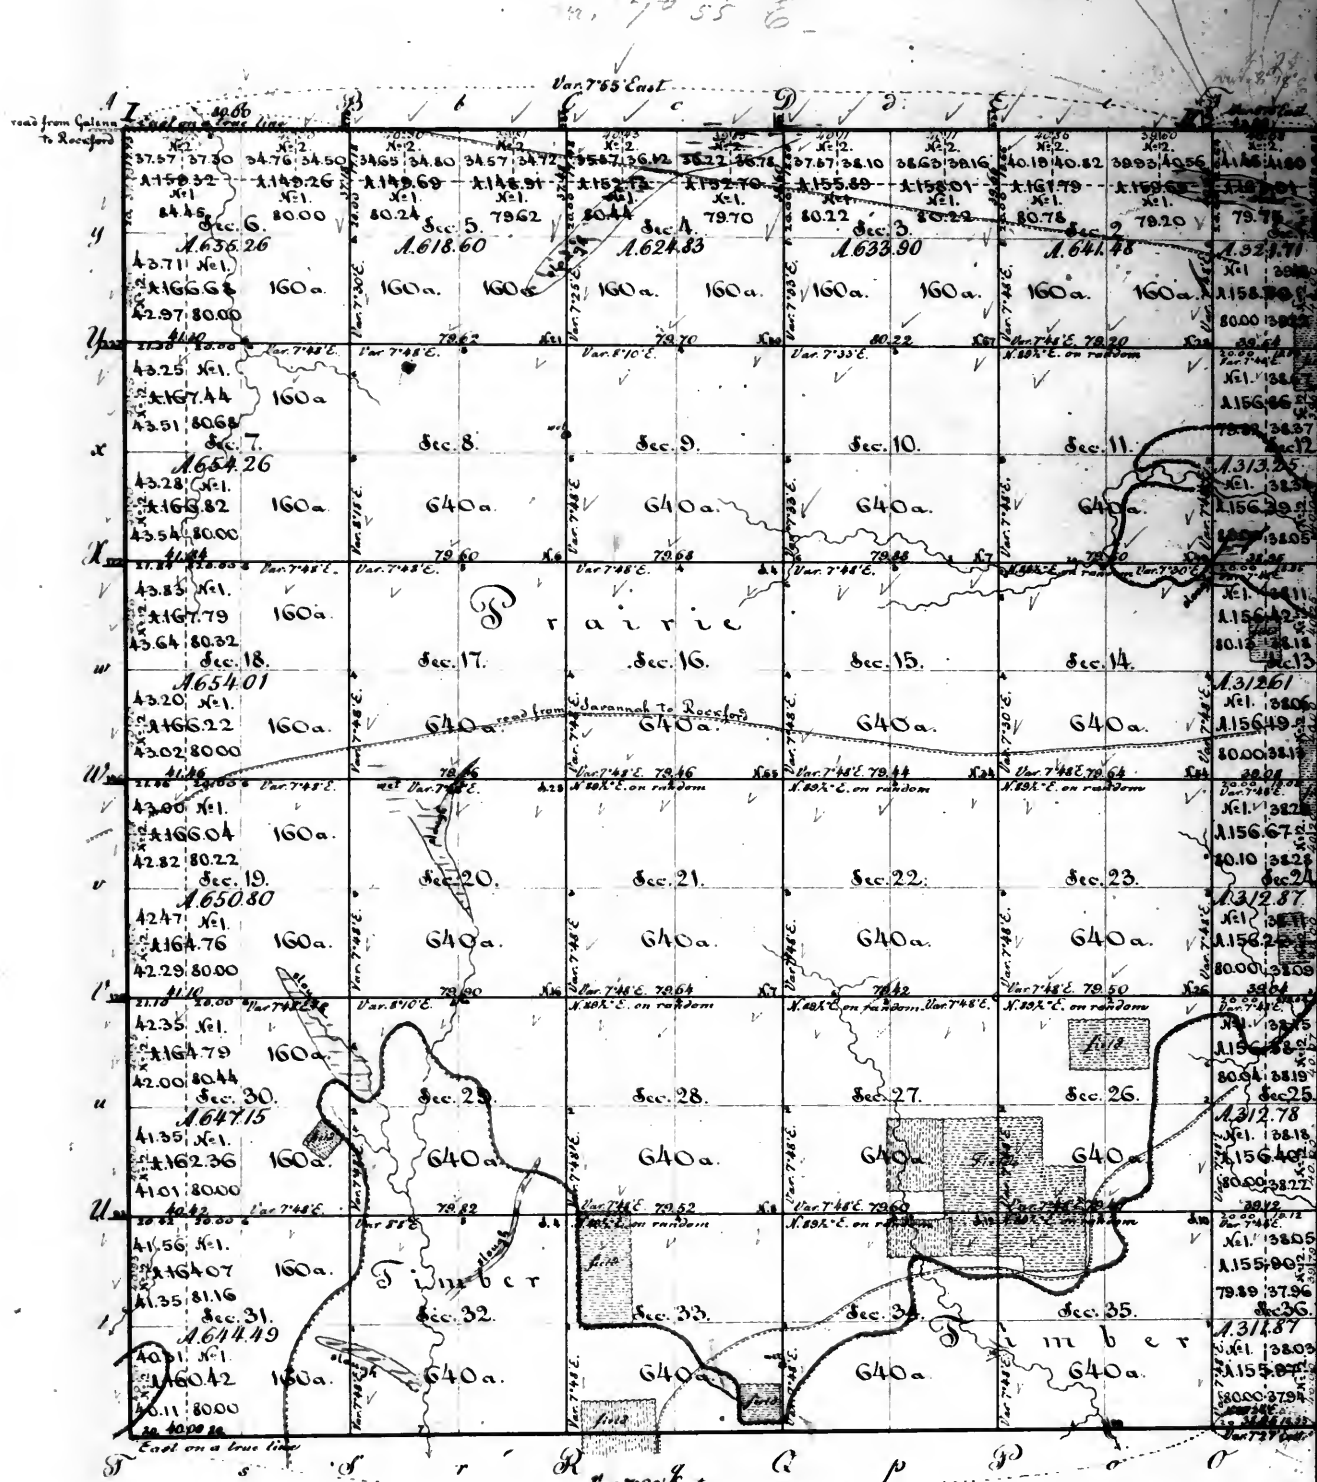

Surveyors Office, St. Louis 14th of December 1840.
The East boundary of section 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

Surveyors Office.
St. Louis 20th of December 1840.

The above plat of Township 25 North of the base line, range 11 East of the 4th principal meridian, is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The west boundary of the township was surveyed in the 2^d quarter of 1834 by William Milburn, under contract of the 1st of July 1833. It was paid for in the 3^d quarter of 1835 and charged in the account current of the surveyors general, during the said quarter, voucher 1st 11. The north boundary was also surveyed in the 2^d quarter of 1834 by Mr. Milburn under the same contract, but as the account current of the surveyors general, during the said quarter, voucher 1st 11, the north boundary was not surveyed, it was not therefor paid for said line; however his survey was subject to the point I & II on his plat - on the 4th quarter of 1835, 2^d of September 1835, under his contract of the 1st of July 1833, connected said north boundary with the 4th quarter of 1835 and charged in the account current of the surveyors general, during the said quarter, voucher 1st 11. The south boundary was surveyed in the 4th quarter of 1835 and charged in the account current of the surveyors general, during the said quarter, voucher 1st 11. The east boundary was surveyed in the 4th quarter of 1835 and charged in the account current of the surveyors general, during the said quarter, voucher 1st 11. The subdivisions lines 36 miles 56.77 chains in length, which were surveyed in the 4th quarter of 1835 and charged in the account current of the surveyors general, during the said quarter, voucher 1st 11. The members of both banks of Rock River and both banks of Arkansas River from the mouth to its most western intersection with the south boundary of the township - the members of an island in section 11 and the line connecting this island with the survey on the 5th quarter of 1835 for N of Rock River - and the members of 16 miles of an island in section 12 - together 2 miles 1.68 chains were surveyed in the 4th quarter of 1835 for S of Rock River under his contract of the 1st of July 1833, during the said quarter, voucher 1st 11. They were paid for in the 3^d quarter of 1835 and charged in the account current of the surveyors general, during the said quarter, voucher 1st 11.

Township N° 26 North of the Base line in Range N° 11 East of the 4th principal Meridian

Surveyor's Office.
 dated Nov. 26th of December 1840.

Scale of 40 chains to one inch.

Aggregate area 21089.57 acres

The above plat of Township N° 26 North of the 4th principal meridian is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The west boundary 6 miles was surveyed in the 2^d quarter of 1824, by W^m S. Hamilton, under contract of the 15th of July 1823 - it was paid for in the 3^d quarter of 1829, and charged in the account current of the Surveyor General. During the said quarter, Voucher N° 4 - The south boundary was surveyed in the 2^d quarter of 1824 by W^m S. Hamilton, under the same contract; but as the survey of the 3^d principal meridian was not then properly executed, he could not connect said boundary therewith, and was not therefore paid for this line. - However the survey of W^m S. Hamilton has been adopted on the south boundaries of sections 21, 22, 23, 24 & 25. - In the 4th quarter of 1829, D. A. Spaulding, whilst settling S. 25 T. 26 N., under his contract of the 21st of September 1829, connected said south boundary with the 3^d principal meridian 35.95 chains - The north boundary was surveyed in the 2^d quarter of 1830, by the said Hamilton, under his above mentioned contract, but as the survey of the 3^d principal meridian was not then properly executed, he could not connect said boundary therewith, and was not therefore paid for said line; - but his survey was adopted from the point I to II. - In the 1st quarter of 1840, D. A. Spaulding, under his contract of the 21st of September 1829, connected said north boundary with the 3^d principal meridian, 43.88 chains, which with the 35.95 chains above were paid for in the 3^d quarter of 1840, and charged in the account current of the Surveyor General, during the said quarter, Voucher N° 11. - The east boundary was surveyed in the 4th quarter of 1825, by D. A. Spaulding, under his contract of the 3^d of June of that year; - it was paid for in the 3^d quarter of 1829, and the 2^d quarter of 1829, with the variation noted in the margin - and charged in the account current of the Surveyor General during those quarters, Voucher N° 6 & 7. - In the 1st quarter of 1840, D. A. Spaulding, under instructions of the 15th of February of that year, measured along the said East boundary or 3^d principal meridian, from the intersection of the south boundary of the township, and the several intersections of the subdivisional lines therewith, north to the nearest corners and mile points on said meridian, the distances set down on the plat, together 1 mile 45.43 chains, which were paid for in the 3^d quarter of 1840, and charged in the account current of the Surveyor General during said quarter - Voucher N° 11. - The subdivisional lines 37 miles 23.13 chains, were surveyed in the 1st quarter of 1840, by D. A. Spaulding, under instructions of the 15th of February of the same year; they were paid for in the 3^d quarter of 1840, and charged in the account current of the Surveyor General, during the said quarter, Voucher N° 11.

Township N^o 27 North of the Base line in Range N^o 11 East of the 4th principal meridian

Var. 7° 55' E

57

Surveyors Office.
East Louis 26th of December 1880.

Scale of 40 chains to one inch.
Area of public lands 20956.59 acres
estimated area of river 102.24 acres
aggregate area of Township 21058.83 acres.

The above plat of township 27 North of the base line, range 11 East of the 4th principal meridian, is strictly conformable to the first notes of the survey thereof on file in this office which have been examined and approved. The west boundary line, was surveyed in the 2^d quarter of 1836 by W^m S. Hamilton, under contract of the 19th of July 1835. It was paid for in the 3^d quarter of 1839, and charged in the account current of the Surveyor General, during that quarter, voucher N^o 4. The south boundary was surveyed in the 2^d quarter of 1839, by the said W^m S. Hamilton, under the above contract; but as the survey of the 3^d principal meridian, was not then properly executed, he could not connect this line therewith, and was not therefore paid for it. In the 1st quarter of 1840, D. A. Spaulding, under contract of the 21st of September 1839, connected said south boundary with the 3^d principal meridian, 40.88 chains, which were paid in the 3^d quarter of 1840, and charged in the account current of the Surveyor General during that quarter, voucher N^o 11. The north boundary was surveyed in the 2^d quarter of 1834, by the said W^m S. Hamilton, under his above mentioned contract; but as the survey of the 3^d principal meridian was not then properly executed, he could not connect said north boundary therewith, and was not therefore paid for it. In the 1st quarter of 1840, D. A. Spaulding, under his above contract of the 21st of September 1839, connected this north boundary with the 3^d principal meridian, 40.00 chains, which were paid in the 3^d quarter of 1840, and charged in the account current of the Surveyor General during that quarter, voucher N^o 11. He also surveyed in the 3^d quarter of 1840, the south boundary of section 31, T. 27 N. R. 11 E., 71.90 chains; as represented on the plat. The east boundary was surveyed in the 4th quarter of 1838, by D. A. Spaulding, under contract of the 3rd of June of that year; it was, with the limitation noted in the margin paid for in the 2^d quarter of 1837, and charged in the account of the Surveyor General, during those quarters, vouchers N^o 6 & 7. In the 1st quarter of 1840, D. A. Spaulding, under his contract of the 21st of September 1839, measured along the 3^d principal meridian, from the intersection of the south boundary of the township, and the several intersections of the Subdivisional lines therewith, north to the nearest corners and mile points on said meridian, the distances set down on the plat, together with 40.26 chains, which were paid for in the 3^d quarter of 1840, and charged in the account current of the Surveyor General during that quarter, voucher N^o 11. The Subdivisional lines 57 miles 17.20 chains, and the measurements of both banks of Little river 8 miles 25.77 chains, were surveyed in the 1st and 2^d quarters of 1840, by D. A. Spaulding, under contract of the 3rd of June 1839. They were paid for in the 3^d quarter of 1840, and charged in the account current of the Surveyor General during the 3^d quarter, voucher N^o 11.

Wm. M. Milburn
Surveyor of the public lands in
the States of Illinois & Missouri.

Surveyors Office, Illinois 14th of November 1881. The 71.90 chains represented on this plat on the S. E. of Section 31, T. 27 N. R. 11 E., were paid for in the 3^d quarter of 1840, and charged in the account current of the Surveyor General during that quarter, voucher N^o 11. The 40.00 chains represented on this plat on the S. E. of Section 31, T. 27 N. R. 11 E., were paid for in the 3^d quarter of 1840, and charged in the account current of the Surveyor General during that quarter, voucher N^o 11. The 40.88 chains represented on this plat on the S. E. of Section 31, T. 27 N. R. 11 E., were paid for in the 3^d quarter of 1840, and charged in the account current of the Surveyor General during that quarter, voucher N^o 11.

Township No 29 North of the Base line in Range No 11 East of the 4th principal Meridian.

Scale of 40 chains to one inch.

Quantity of public lands - 8498.25 acres

estimated area of river - 82.03

Aggregate area of Township 8580.37 acres.

Surveyor's office. Saint Louis 14th of December 1841.

The above plat of Township 29 north of the base line, range 11 east of the 4th principal meridian is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved - The north boundary was surveyed in 1834 & 1835, by Charles Rippe, Commissioner on the part of the United States, as certified to this office by Mr. J. Williams, Surveyor General of Ohio, Indiana & Michigan - The said line being a part of the boundary between Illinois and Michigan, now Wisconsin - In the 1st quarter of 1831, D. A. Spaulding while subdividing the township, surveyed and re-established the proper corner thereon, the South boundaries of sections 35 and 36 3/4 of Wisconsin survey - 2 miles which were paid for in this 4th quarter of 1841, and will be charged in the account current of the Surveyor General during the same quarter. Voucher No 13 - The West boundary 2 miles 41.100 chains was surveyed in the 2nd quarter of 1834, by Wm. S. Hamilton under contract of the 19th of May 1833 - It was paid for in the 2nd quarter of 1839, and charged in the account current of the Surveyor General during that quarter, Voucher No 4 - The South boundary, was also surveyed in the 2nd quarter of 1834, by Wm. S. Hamilton, under the same contract; but as the survey of the 3rd principal meridian was not then properly executed, he could not connect said boundary thereon, and was not therefore paid for said line: however his survey of the South boundaries of sections 31, 32, 33, 34, 35 was accepted. In the 1st quarter of 1840, D. A. Spaulding, under contract of the 21st of September 1839, connected the South boundary of Sec. 36 with the 3rd principal meridian 50.31 chains, which were paid for in the 3rd quarter of 1840 - and charged in the account current of the Surveyor General, during the said quarter, Voucher No 11 - The east boundary was surveyed in the 4th quarter of 1835, by D. A. Spaulding, under contract of the 3rd June of that year: it was, with the limitation noted in the margin, paid for in the 3rd quarter of 1837, and 2nd quarter of 1839, and charged in the account of the Surveyor General, during those quarters, Vouchers No 6 and 7 - In the 1st quarter of 1840, D. A. Spaulding, under contract of the 21st of September 1839, measured along the 3rd principal meridian, from the intersection of the South boundary of the Township therewith 25.13 chains, which were paid for in the 3rd quarter of 1840, and charged in the account current of the Surveyor General, during the said quarter, Voucher No 11 - This subdivisional line 8.3 miles 8.23 chains, and the main line 12 miles 9.14 chains, were surveyed in the 1st quarter of 1840, by D. A. Spaulding, under contract of the 21st of September 1839 - They were paid for in this 4th quarter of 1841, and they will be charged in the account current of the Surveyor General during that quarter under the General appropriation for charging the public lands Voucher No 1.

Geo. C. Brown
Surveyor of the public lands for
the District of Illinois & Wisconsin.

(Note: The amount which the land boundary is charged against is \$1,440.00 of which \$1,440.00 was paid in the 2nd quarter of 1837, and \$1,440.00 in the 2nd quarter of 1839 - The rest of the amount was paid by Ohio & Indiana from Surveyor General. See Voucher No 6 of the Surveyor General's account for the 2nd quarter of 1839.)

Variation = 7° 32' East
 Scale of 40 chains to an inch
 The dotted lines from O to M represent the line of old meanders of the Illinois river.
 The distances set down in red ink are those of the former survey of the Township.

Surveyors' office,
Saint Louis 22 of June 1846.

The above plat of fractional sections 1-3-7-8-9-10-11-12-18-20-29 & 30 - and of sections 13-14-15-16-17-19-21-22-24 & 25, in Township 24 north of the base line, range 6 west of the 3^d principal meridian, is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. In February and March 1846, I, A. Spaulding under instructions of the 29th of January 1844, surveyed & measured the lines detailed in the above statement 45 miles 37.5 chains - This surveying is included in an account certified by me, received by the Spaulding, and transmitted on this day to the Commissioner of the General Land office, under his general instructions to this office of the 20th September 1844, for a direct settlement at the Treasury Department with the Deputy, out of the appropriation of \$3000. of the 17th June 1844, for the survey of detached and unlocated lands in Illinois and Missouri - page 75 Acts 1st session 2^d Congress.

Surveyor's Office. Saint Louis 22nd of June 1846.

The above plat of township 24 north of the base line, range 7 west of the 3rd principal meridian, is hereby confirmed to the field notes of the survey thereof on file in this office which have been examined and approved. Under instructions of the 29th January 1844, B. A. Spaulding, in February & March 1846, surveyed or resurveyed the lines detailed above; in all 25 miles 16.29 chains, which are included in an account certified by me, received by B. A. Spaulding and transmitted on this day to the Commissioner of the General Land Office, in compliance with his general instructions to the Surveyor General of the 20th September 1844, for a direct settlement at the Treasury Department with the Deputy, out of the appropriation of \$3000 of the 17th June 1844, for the survey of detached lines in Illinois & Missouri. See page 75 act of the 1st Session of the 24th Congress.

Variation 7-23 East.
Scale of 40 chains to one inch.

Surveyors Office. Saint Louis 22^d of January 1845

The above plot of a part of Township 2 south of the base line of range 9 west of the 3^d principal meridian, is fairly comparable to the old acts of the survey, as far as it is in this office, which have been examined & approved. In the months of February and March 1844, D. C. Spearman, under instructions of the 2^d of February of the same year, surveys the line between the adjoining Hobbs, 39 miles, D. C. Spearman, shall now be for the 1st quarter of 1844, and charged to the United States, is the nearest current of the survey made, under the appropriation of \$5000, of the 3^d of March 1843, (page 35 acts of Congress 27th Congress) for the survey of ungranted and settled lands in Illinois by McIlwaine, at a rate not exceeding six dollars a mile.

Trewayson's office. Saint Louis 22^d June 1846.

The above plat of sections 3, 4, 5, 7, 8, 9, 10, 15, 16, 17, 18, 19, 20, 21, 22, 27, 28, 29, 30, 31, 32, 33, 34 Township 12 north of the base line, range 13 west of the 5th principal meridian is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. My instructions of the 2d January 1844, to J. A. Spaulding in January 1846, surveyed the lines detailed in the above statement, 24 miles 71-97 chains, which are included in an account certified by me, receipted by M. Spaulding, and transmitted in his day to the Commissioner of the General Land Office, for a direct settlement at the Treasury Department, out of the appropriation of \$2000. of the 17th June 1844, for the survey of unfinished and detached lines in Illinois and Missouri, at a rate not exceeding fifty dollars a mile. See page 75 this Division of the 2d Congress.

J. R. Brown

J. R. Bomgard
 Surveyor of the public lands in
 the State of Illinois & Missouri.

T¹⁵ R¹⁶ W. 13. W. of the 3^d pt. Mo.

Note: the areas set down as 160 a. are those of the tract square as being from 1840. The areas written in this ink, are those of the tract square as set down. The contents of the 3^d of the 1st quarter sec. 26, and the 3^d of the 1st of 16 R. 13, have been recalculated, on account of the error found by Mr. Spaulding in the length of the north and south boundaries of these sections.

The distances written in black ink show the lines measured by Mr. Spaulding & his assistants on his survey of 27 Dec. 1845. The distances in red ink are those of the original survey.

T¹⁵ R¹⁶ W. 13. W.

Sec. 31

Variation = 8° East
Scale of 60 chains to an inch.

Note: In running the line between Sect 24 1/2 (T¹⁵ R¹⁶ W. 13. W.) by Milton Moore in 1841, no falling was given in the field notes, therefore the falling of the line between Sect 24 1/2 = 26.25 chains East from the corner to Sect 24 1/2 in T¹⁵ R¹⁶ W. 13. W. of the 3^d pt. Mo., is adopted as the falling of the line between Sect 24 1/2 - 26.25 chains East from the corner to Sect 24 1/2 on the Standard line - for calculating the areas of the North half of Sect. 24.

Surveyor's Office St. Louis Oct. 1852
Subdivided this day the North half of Sect. 24 and sent a copy to the Commissioner of the Genl Land Office and an other copy to the Register.

Surveyor's Office. St. Louis 25th July 1846.

The above plat of T¹⁵ R¹⁶ W. 13. W. and of sections 13, 14, 21, 22, 23, 24, 26, 27, 28, 34, 35, 43, 46 Township 16 north of the base line, range 13 west of the 3^d principal meridian, is strictly conformable to the first note of the survey and survey thereof on file in this office which have been examined & approved. In March 1845, B. A. Spaulding, under instructions of the 31st of March 1842, and of 29th of January 1844, resurveyed the lines described in the marginal Statement 24 miles 3 1/2 miles. This surveying was ordered in an account certified by the Surveyor Genl, and received by Mr. Spaulding on the 27th December 1845, and transmitted on the 31st of the same month, to the Commissioner of the General Land Office, in compliance with his general instructions to this office dated the 20th of September 1844, to be paid directly from the Treasury Department, out of the appropriation of \$3000, made on the 17th of June 1844, for the survey of unfinished and detached lines in Missouri & Arkansas, at a rate not exceeding Six Dollars a mile. The page 75 of acts and resolutions of the 28th Congress.

B. A. Spaulding
Surveyor of the public lands
in the State of Missouri &c.

Township 6 South of the base line Range 8 West of the 3^d principal Meridian

[illegible]

Sucrayon's office.
Saint Louis 5 May 1848.

The above plot of Fractional Township 6 South of the base line, range 8 east of the 3 principal meridian is strictly conformable to the field notes of the public and private surveys thereof, which have been examined and approved; and it is this day adopted in lieu of the former plot of said fractional township, page 42, of volume II of Illinois plots, all on this office. The areas of the tracts of public land are laid down on the above as they stand on the said former plot. J. R. Bowman

A copy of this plat was sent to the
Register on the 5 May 1848.

A. R. Bonney
Sergeant of the Court
in the State of Missouri

Reference to the field notes used in the construction of this plat of the West boundary in exhibit A 22, of the Subdivision on book 266.
 States: The field notes of the North East & South boundaries of this Township could not be found, the said boundaries were therefore constructed according to the Township plat on file.
 It is not stated in the field notes, that on the line between Sect 9 & 10 a quarter Section corner was established.
 The falling of the line between Sect 22 & 27 from the post corner to Sect 23 123, 25 & 27, - and also of the line between Sect 28 & 33 from the post corner to Sect 27 & 28, 33 & 34 are not distinctly given in the field notes.

The above plat of Township 21 South of the baseline in Range 23 East of the 3rd principal Meridian is conformable to the field notes of the survey thereof on file in this Office.

Note. This Township is bounded on the North by the Standard line which was surveyed due East from the 3rd principal Meridian. Therefore in surveying the lines North between the Sections 112, 212, 312, 412 and 512 sectional corners were established at their intersections with the Standard line without taking the distances to the feet corners, which were previously established for the Sections North of the Standard line. The calculation of the contents of the Northtier of quarter Sections in this Township have been made on the presumption, that their lengths from East to West are the same with the South boundaries of the quarter Sections South of and adjoining to them.

East & West sides 10° 25' East

Surveyor's Office. Saint Louis 24 November 1846.

The above plat of Township 13 north of the base line, range 2 east of the 4th principal meridian, is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The township had been subdivided in February and March 1817, by J. Castleman for C. M. Theron, under contract of the 26th of September 1816; but this office having been informed that the corner on the sectional lines of the township, had never been established, the fact was reported on the 26th of June 1846, to the acting Commissioner of the General Land office, who directed the Surveyor General, on the 11th of June of the same year, to have the township resurveyed; and in conformity therewith, instructions were issued to D. A. Spaulding, on the 17th September 1846, to make the survey; this was executed in September and October of same year. Besides the lines of subdivisions (33 miles 77.78 chains) Mr. Spaulding, for the purpose of re-establishing missing corners, and closing his sectional lines, resurveyed the interior lines detailed in the marginal statement (29 miles 43.23 chains) making together 62 miles 21.01 chains; which are inclosed in an account, certified by me, signed by Mr. Spaulding, and transmitted on this day to the General Land office, in compliance with the instructions of the Commissioner of the 20th September 1846, for a direct settlement at the Treasury Department with the Deputy, out of the General appropriation for surveying the public land.

J. B. Morrison
Surveyor of the public lands
in the State of Mo. 1846.

See for the payment of this work, the account current

drawn the 1st quarter 1852, under the appropriation

of \$ 2000 of 3rd March 1851, for the Survey of corners

and definition lines.

11 May 1852.

W. Lewis Clark

Surveyor General

A copy of the plat was filed on the 13th February 1845

was transmitted to the Comm. on the 25 Feb 1845

A copy of the plat of sec. 36 showing the Survey by

Follick was sent to the Commissioner and the Register at St. Louis

on the 11 May 1852.

Surveyor's Office. Saint Louis 13th of February 1845.

The above plat of a part of township 23 north of the base line range 3 east of the 4th principal meridian is hereby confirmed to the

field notes of the survey thereof on file in this office which have been examined & approved. Under instructions of the 3rd of February 1844, Rep. C. Deak & Geo. D. Sargent, surveyed the lines described in

the first part of the above statement, 35 miles 70. 11 chains - and in September 1844, Geo. D. Sargent, under instructions of the 15th of August of the same year, ran the line described in the last part of the said statement,

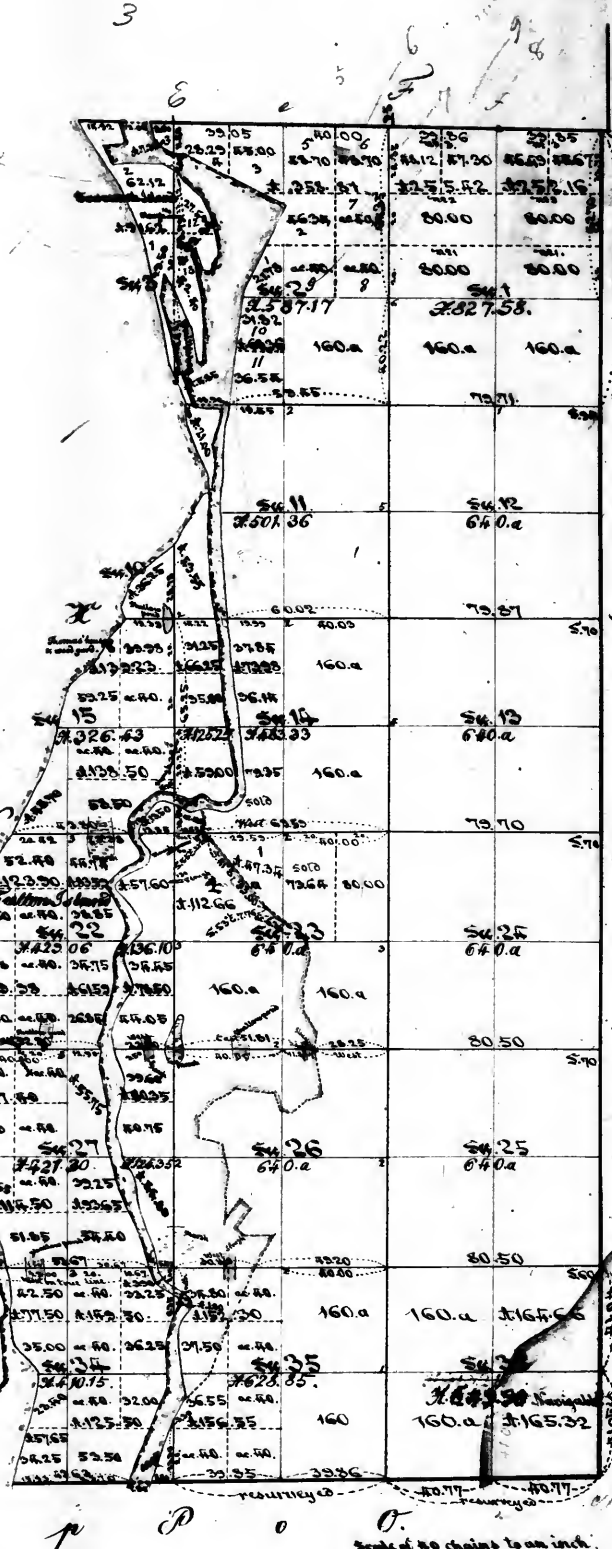

2 miles 47. 27 chains - this surveying by Sargent, was paid for in the 3rd quarter of 1844, and charged to the account current of the Surveyor General. During the said quarter, under the appropriation of \$ 2000 of

the 3rd of March 1843 (see page 35 of acts of the 3rd session of the 27 Congress) for surveying unfinished & detached lines in Illinois & Missouri, at a rate not exceeding the value of a mile & a half & the

Surveying by Deak & Sargent, was paid for in the said 3rd quarter of 1844, under the appropriation, before mentioned. See voucher A. 2 of the account current referred to.

Silas Reed

Surveyor of the public land in the State of Illinois & Missouri.

5 May 1854

See a plat of sec. 28 & 3, with 65 numbers to the Sec. & Register

St. Louis, March 22nd 1853
This day submitted the N. W. 1/4 of Sec. 23, so as to conform to previous sales, and sent a copy to the Commissioner & another copy to the Register. (See Comm. 4th letter dated 22nd March 1853 transmitted with Regt's letter from Bureau March 15th 1853.)

Variation 8° 45' E.

Fractional Township 8 North of the base line Range 8 East 2d Sp. Mo.

Surveyor's Office.

Saint Louis, 11th of February 1846.

Note. The areas of the N.E. S.W. fractional quarters of fractional section 3, are set down on this plat, in conformity with the sales of said tracts, as reported by the Register of the Land Office at Quincy, in his letter to this office, bearing date, December 15. 1845.

The said areas, together with the N.W. quarter, stated in the said letter, to be a military bounty tract, make the aggregate area of 478.28 acres; whereas the original township plat, shows the aggregate area only, which is set down as 466.31 acres. The sale of the three fractional quarters in fractional sec. 3, as well as the N.W. quarter thereof, as a bounty tract, and the three fractional quarters of section and its N.W. quarter, appear to have been made without regard to the confirmed claims in the village of Bond.

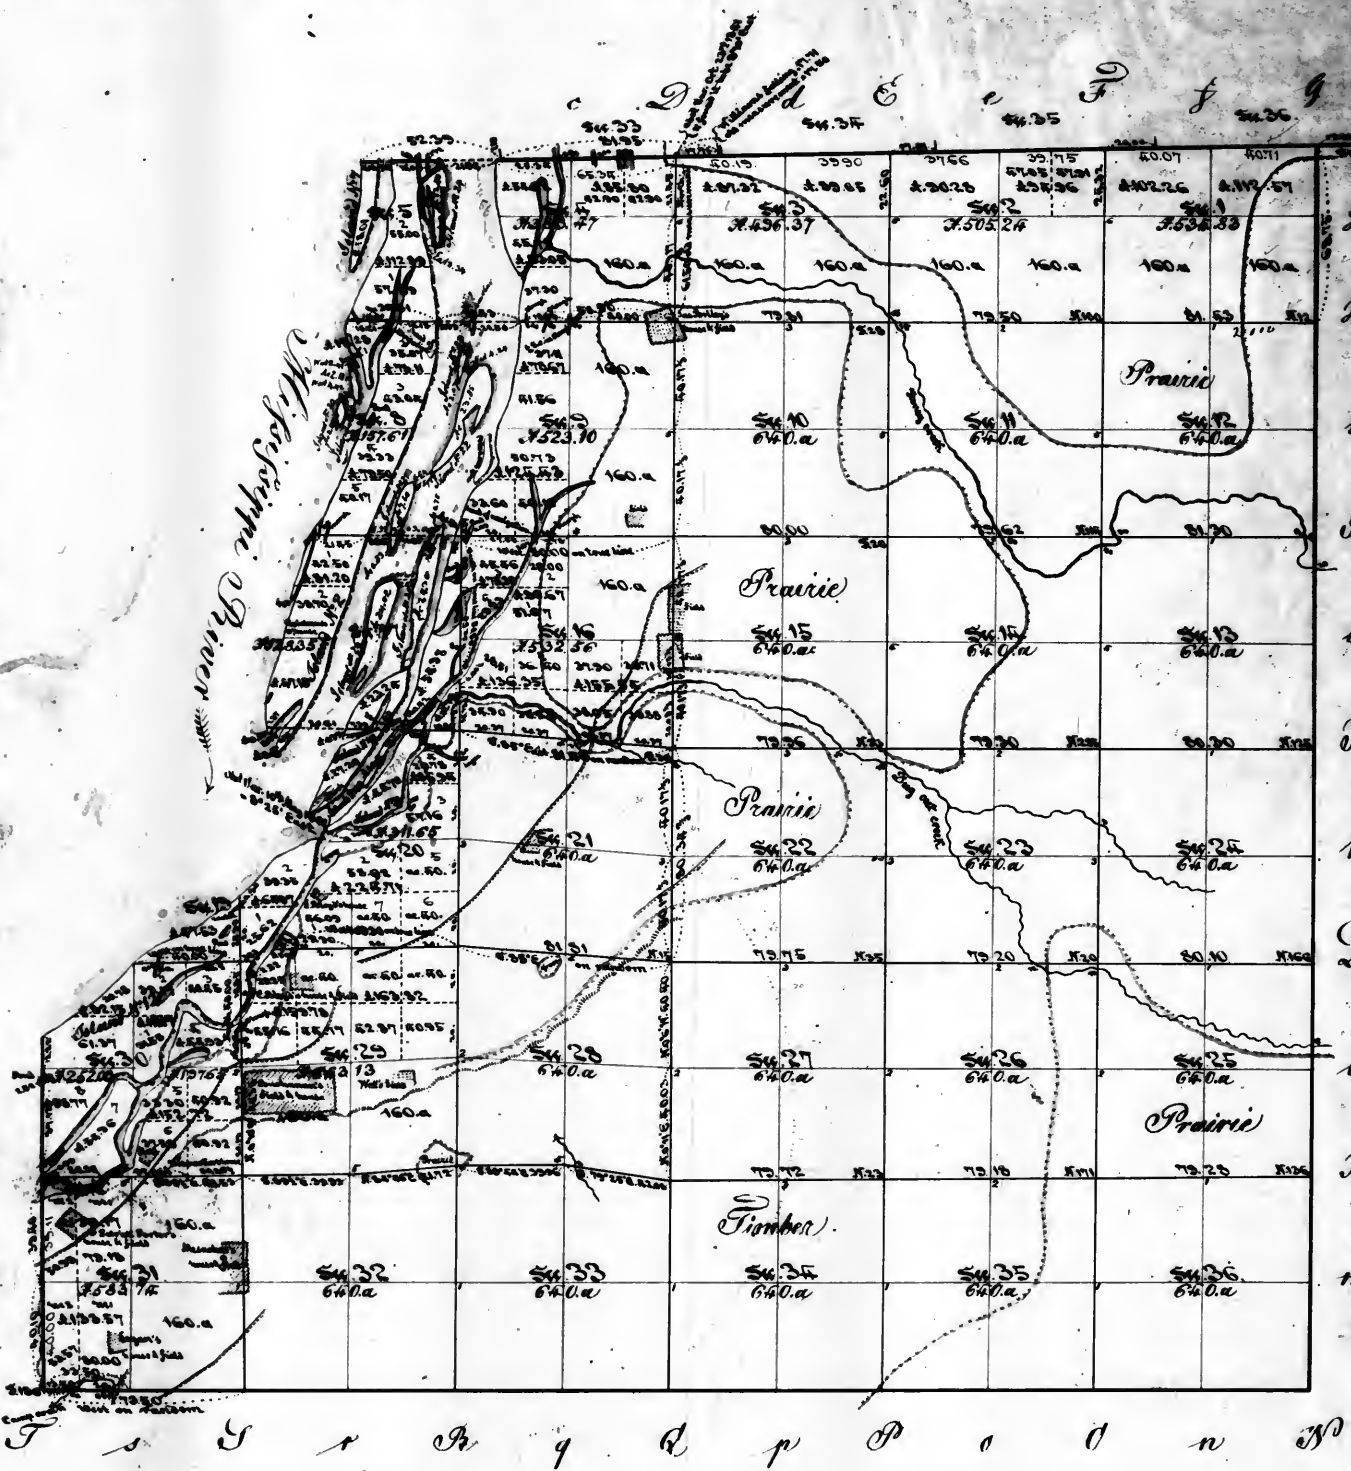

J. R. Conway
Surveyor General.

Surveyor's Office. Saint Louis, 11th of February 1846.

The above plat of fractional township 8 north of the base line, range 8 east of the 4th principal meridian, is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The north boundary was surveyed in August and September 1816, by Amos Wheeler - The south boundary, and the west boundary were surveyed in February 1817, and the subdivision lines in March 1817, by Thomas Willis, under contract of 11th November 1816 - The cut lines of the "old" and "new" villages of Bond, the lots therein, and the cut lots (colored with red on the plat) were surveyed in the 2nd quarter of 1837, by Joseph C. Brown, under instructions of the 11th of April 1837; the survey was paid for in the 4th of October 1837, and charged to the United States, during the 4th quarter of that year, under the appropriation of \$500, made by the act of Congress of the 3rd of March 1835 "for surveying the lots in the town of Bond, in the State of Illinois" - page 34 acts of the 2nd session of the 23rd Congress. In March 1842 - D. A. Spaulding, under instructions of the 31st of March 1842, ran the following lines, the survey of which was defective or incomplete; to wit: - between sections 29 & 32 - 13.00 chains - Between sections 29 & 30, south of 30 section corner 40 chains; - the meander of Illinois river along section 29, 91.88 chains; and the line between sections 31 & 32, 12.47 chains - or all twelve 75.35 chains, which were paid for in the 3rd quarter of 1842, under the appropriation of \$3000, of the 3rd of March 1841, for employing 500 miles of unfinished and detached lines in Illinois & Missouri, at a rate not exceeding six dollars a mile (p. 29 acts 2nd session 26 Congress.

J. R. Conway

Designation of Lines

17th April '844. Sent a copy of this plat to the Commissioner and the Register.

Alms. 81. This we had done on the 1st since I arrived in May 1816.
 Had a Memoir sent containing the 5th & 6th of the above by authority of the latter from the
 instructions of the General and signed on the 17th 1816. The foregoing amounts to 10000 of 27 1/2 chains
 which is charged for at 1300 per Acre with the acc. rent after we by me received for by said
 Memoir in the way of Commission to said Commissioners for a direct settlement at the
 same Department with the 1st of the above with the general conclusion of 20th
 of the 1816. The 1st of said also as we had by from the General and
 at same time.

Note: The true bearing of the South-eastern, and north-western boundary lines of survey 41st 33rd 42nd 43rd 44th 45th 46th 47th 48th 49th 50th 51st 52nd 53rd 54th 55th 56th 57th 58th 59th 60th 61st 62nd 63rd 64th 65th 66th 67th 68th 69th 70th 71st 72nd 73rd 74th 75th 76th 77th 78th 79th 80th 81st 82nd 83rd 84th 85th 86th 87th 88th 89th 90th 91st 92nd 93rd 94th 95th 96th 97th 98th 99th 100th 101st 102nd 103rd 104th 105th 106th 107th 108th 109th 110th 111st 112nd 113rd 114th 115th 116th 117th 118th 119th 120th 121st 122nd 123rd 124th 125th 126th 127th 128th 129th 130th 131st 132nd 133rd 134th 135th 136th 137th 138th 139th 140th 141st 142nd 143rd 144th 145th 146th 147th 148th 149th 150th 151st 152nd 153rd 154th 155th 156th 157th 158th 159th 160th 161st 162nd 163rd 164th 165th 166th 167th 168th 169th 170th 171st 172nd 173rd 174th 175th 176th 177th 178th 179th 180th 181st 182nd 183rd 184th 185th 186th 187th 188th 189th 190th 191st 192nd 193rd 194th 195th 196th 197th 198th 199th 200th 201st 202nd 203rd 204th 205th 206th 207th 208th 209th 210th 211st 212nd 213rd 214th 215th 216th 217th 218th 219th 220th 221st 222nd 223rd 224th 225th 226th 227th 228th 229th 230th 231st 232nd 233rd 234th 235th 236th 237th 238th 239th 240th 241st 242nd 243rd 244th 245th 246th 247th 248th 249th 250th 251st 252nd 253rd 254th 255th 256th 257th 258th 259th 260th 261st 262nd 263rd 264th 265th 266th 267th 268th 269th 270th 271st 272nd 273rd 274th 275th 276th 277th 278th 279th 280th 281st 282nd 283rd 284th 285th 286th 287th 288th 289th 290th 291st 292nd 293rd 294th 295th 296th 297th 298th 299th 300th 301st 302nd 303rd 304th 305th 306th 307th 308th 309th 310th 311st 312nd 313rd 314th 315th 316th 317th 318th 319th 320th 321st 322nd 323rd 324th 325th 326th 327th 328th 329th 330th 331st 332nd 333rd 334th 335th 336th 337th 338th 339th 340th 341st 342nd 343rd 344th 345th 346th 347th 348th 349th 350th 351st 352nd 353rd 354th 355th 356th 357th 358th 359th 360th 361st 362nd 363rd 364th 365th 366th 367th 368th 369th 370th 371st 372nd 373rd 374th 375th 376th 377th 378th 379th 380th 381st 382nd 383rd 384th 385th 386th 387th 388th 389th 390th 391st 392nd 393rd 394th 395th 396th 397th 398th 399th 400th 401st 402nd 403rd 404th 405th 406th 407th 408th 409th 410th 411st 412nd 413rd 414th 415th

The above is a copy of the Photo
D, which accompanies the Surgeon
Genl's report to the Genl & Officer
dated Oct. 9th 1868

Township 4 South of the base line Range 10 West of the 3^d principal Meridian

Office of the Surveyor General
for Illinois and Missouri
Saint Louis February 12th 1866

The above plat of Township 4 South of the base line Range 10 West of the 3^d principal Meridian, is correctly constructed from the original field notes thereof, and the areas set down thereon are in conformity with those of the original plat, on file in this office.

Thos. Cady
Surveyor General.

Township 16 South of the base line Range 2 West of the 3rd principal meridian

which was sold before the lake was made

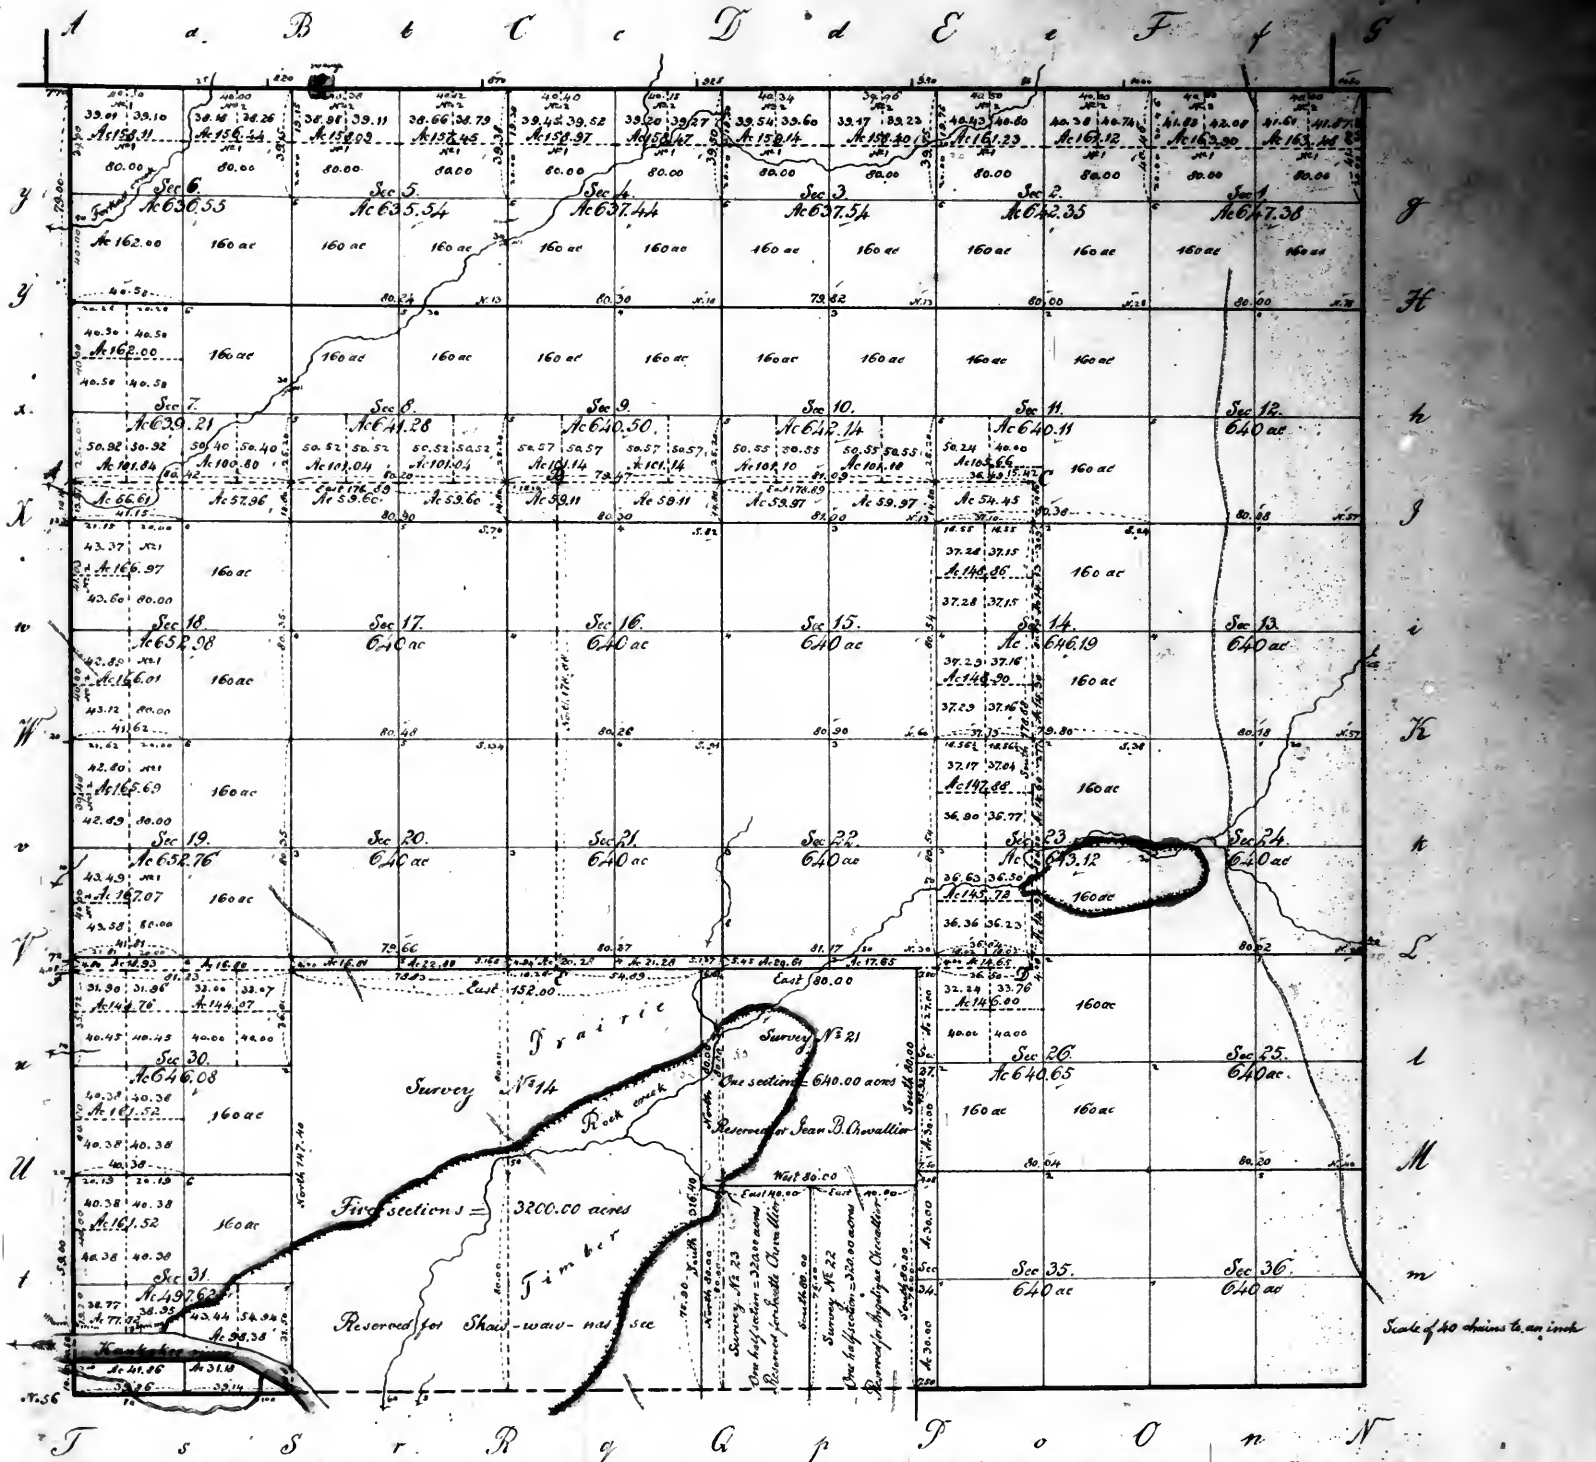

Office of the Surveyor General for Illinois and Missouri.
St. Louis 24th December 1850.

The above plat of Township 16 South of the base line, and range 2 west of the 3rd principal meridian is strictly conformable to the first act of the Survey thereof on file in this office, which have been examined and approved. The north, the east, and the West boundaries were surveyed in 1807; the South boundary and the Subdivision lines were surveyed in 1809. The notes of private surveys No 528, 529 and 604, on record. William Reicher, and dated in the year 1842. Many of the above lines having being found either interrupted or defective, Henry Claiborne was entrusted on the 27th April 1850, to put them in proper order. He surveyed in May and October, the lines detached in a statement which accompanies his account of this day; and measured the north banks of the Mississippi river along sec 25 435 on one shore; the sections around the lake, and here around the island; in all this within 5-11 chains; they are paid for this day to the United States and will be charged for to the United States in my account current for the 4th quarter of 1850, under the appropriation of \$15000 of the 3rd March 1849, for the correction of erroneous and defective lines in small detached portions in Illinois and Missouri, at a rate not exceeding \$6.00 per mile. See page 65, acts of the 30th Congress.

M. Seyers Claiborne
Surveyor General

Township 32 North of the base line Range 11 East of the 3^d principal Meridian

Note The lines A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z represent the out boundaries of the survey of Sections of land reserved for Indian use by the 2^d article of a treaty made and concluded at Camp Tippecanoe on the 20th of October 1832 between the Commissioners of the United States and the Chiefs & Headmen of the Delaware, Shawnee, Kickapoo, and the lines B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z represent the out boundaries of the survey of Sections of land reserved by the same treaty for Agriculture. The Section 16 to these reservations having subsequently been extinguished, the lines of the public survey were extended through the same in September 1843; the dotted lines A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z stand now as the boundaries or division lines between the several tracts in the quarter sections through which they run.

Office of the Surveyor General
for Missouri & Wisconsin.

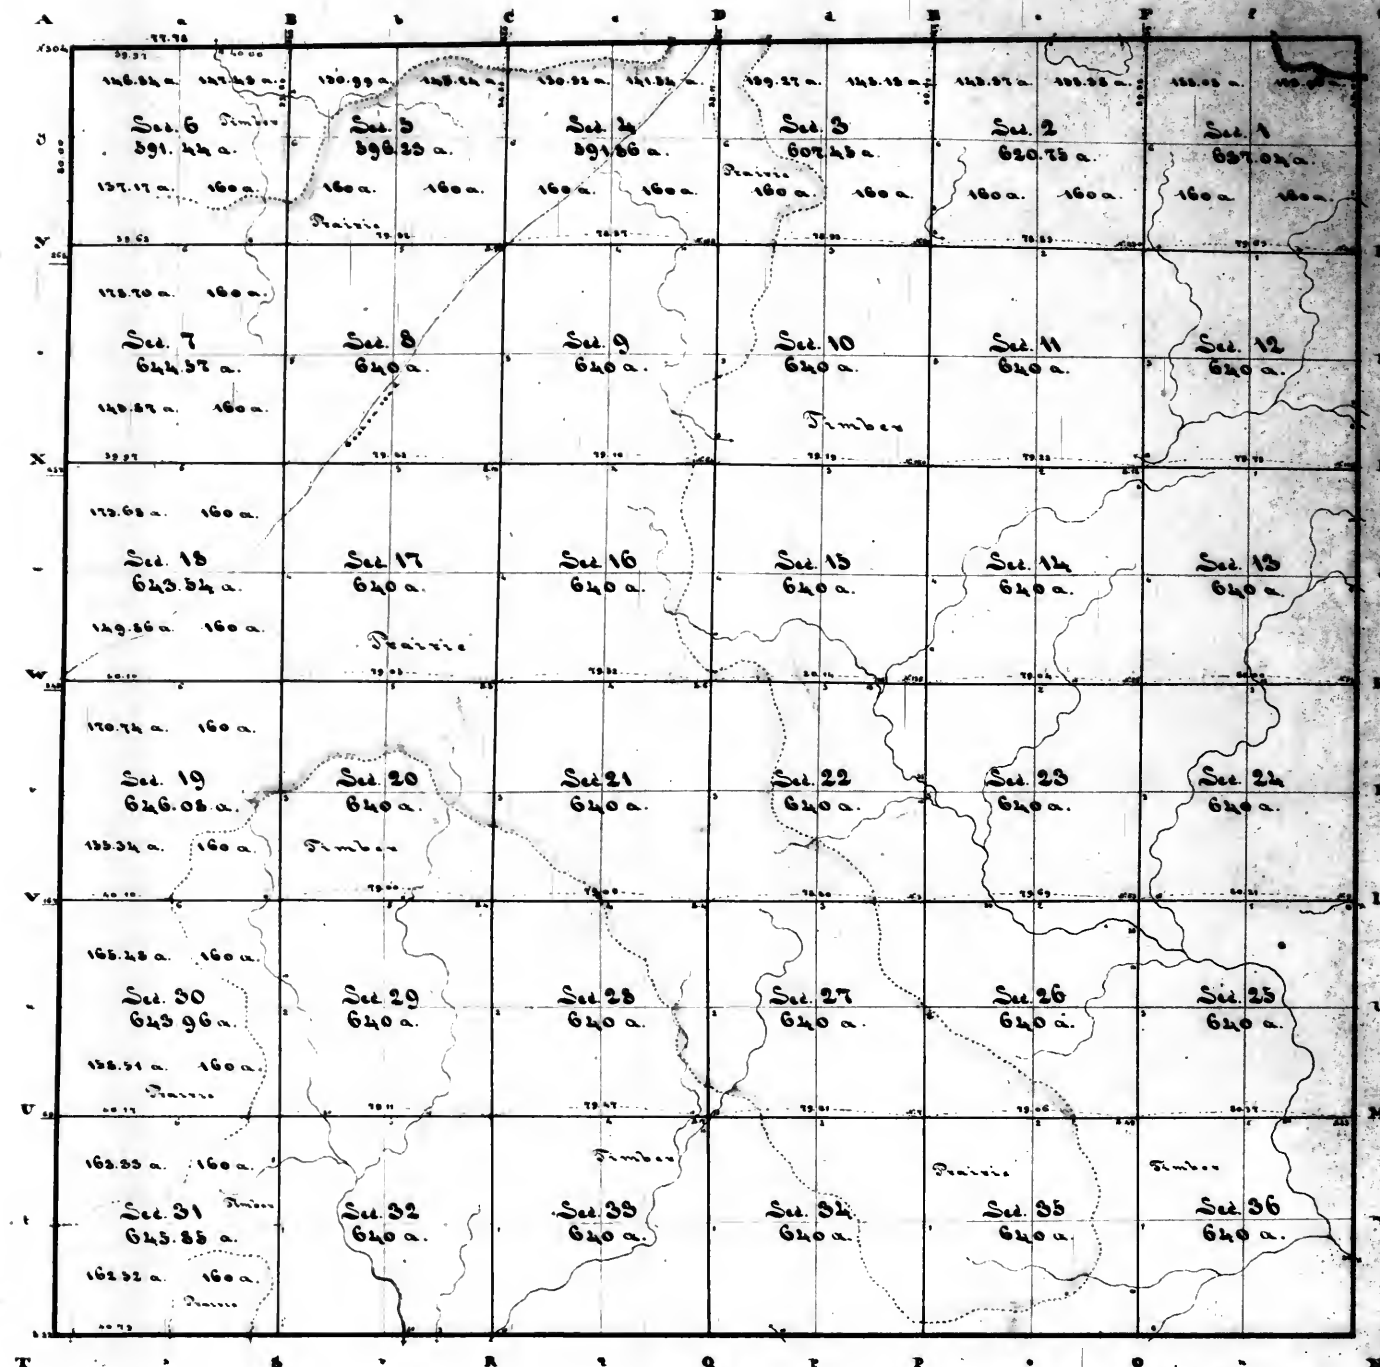

St. Louis January 8th 1863.

The above plat of Township 32 North of the base line Range 11 East of the 3^d principal Meridian is strictly conformable to the field Notes of the Survey thereof on file in this Office which have been examined and approved;

The Surveyor General.

C. L. O.

Subdivisions

Aggregate area: 25215.54 acres

Scale of 40 chains to one inch

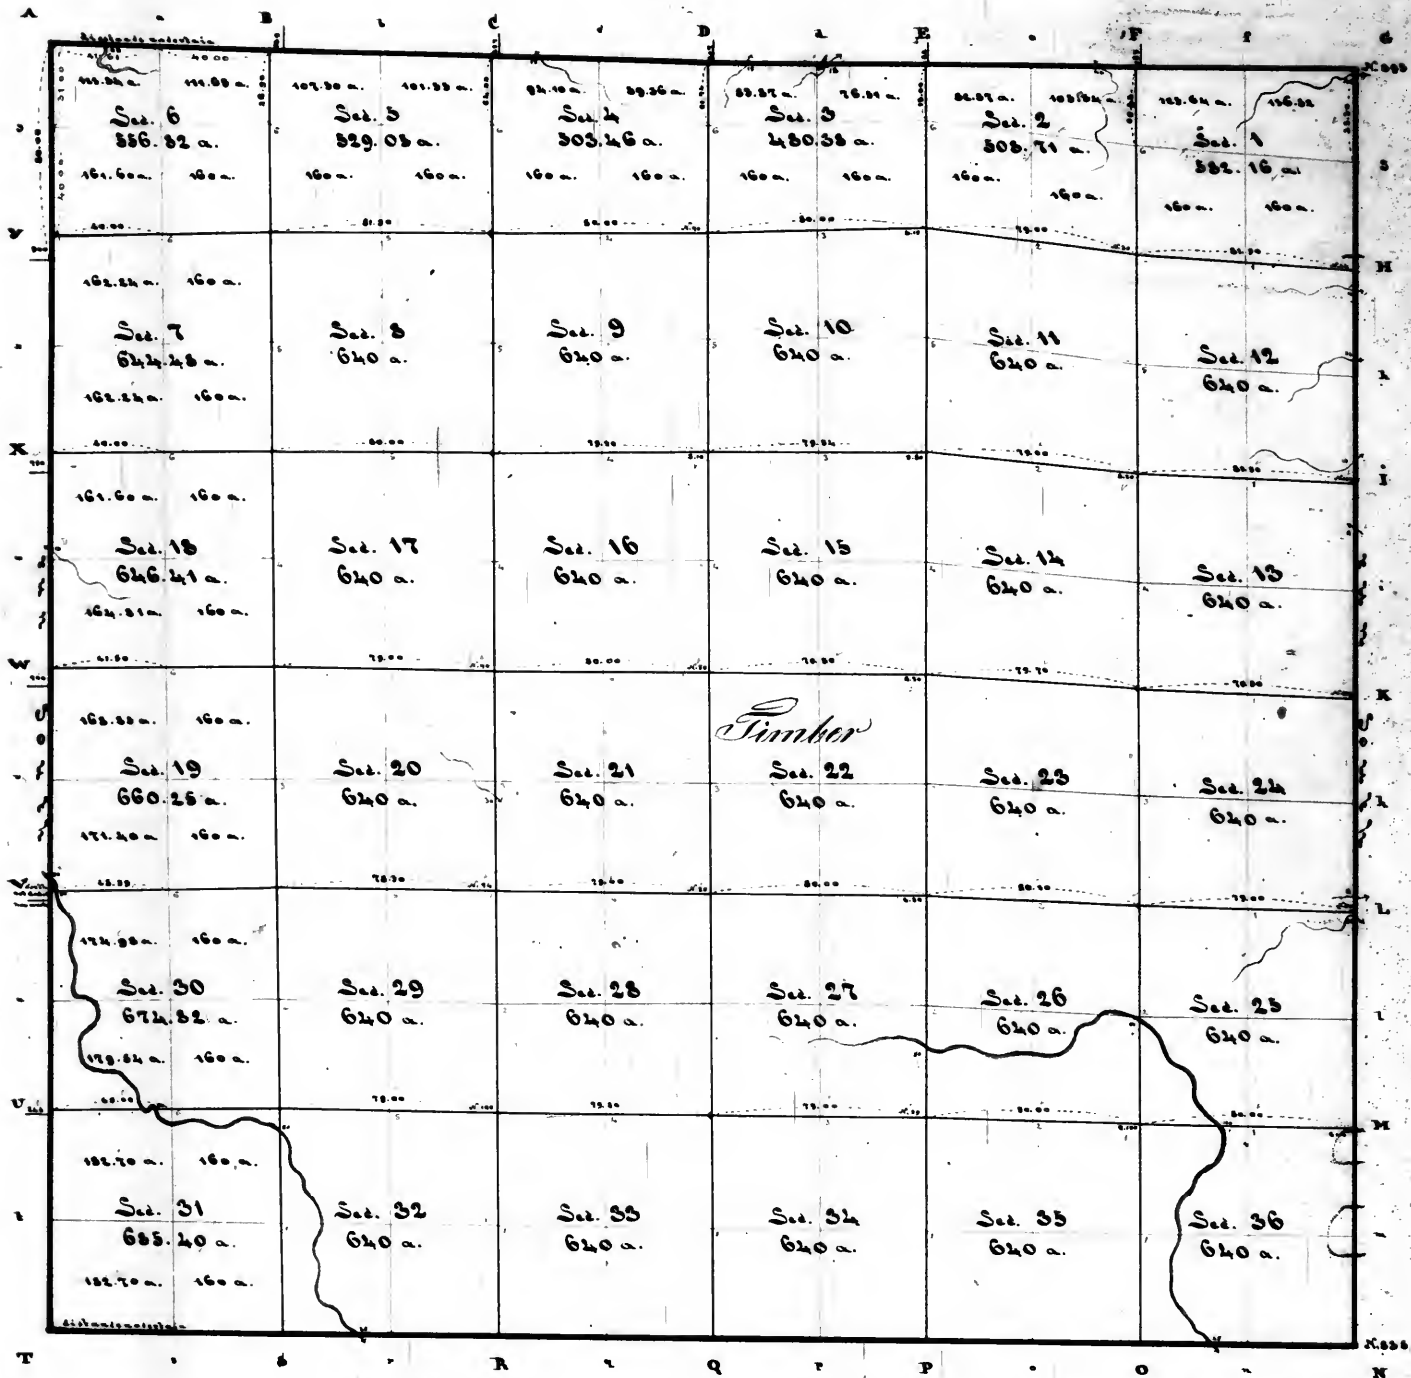

Surveyor's Office
St. Louis January 17th 1881

The above plat, of Township 10 N. Range 1 E. East of the 3rd principal Meridian, is hereby certified from the Original field notes thereof, to be correct, and the distances along the South boundary of Sec. 31, being evidently erroneous, and the distances along South boundary of Sec. 31 E. 9 S. R. 1 E. not having been noted, Sections 31 & 6 of this Township, are each laid down, so as to conform to their other lines.

M. Edwin Clark

Surveyor of public lands
in the States of Illinois and Missouri.

Township 14 South of the Baseline Range 1 East of the 3rd principal Meridian

Aggregate area: 22471.94 acres
 Scale of 1/4 inch = 40 chains

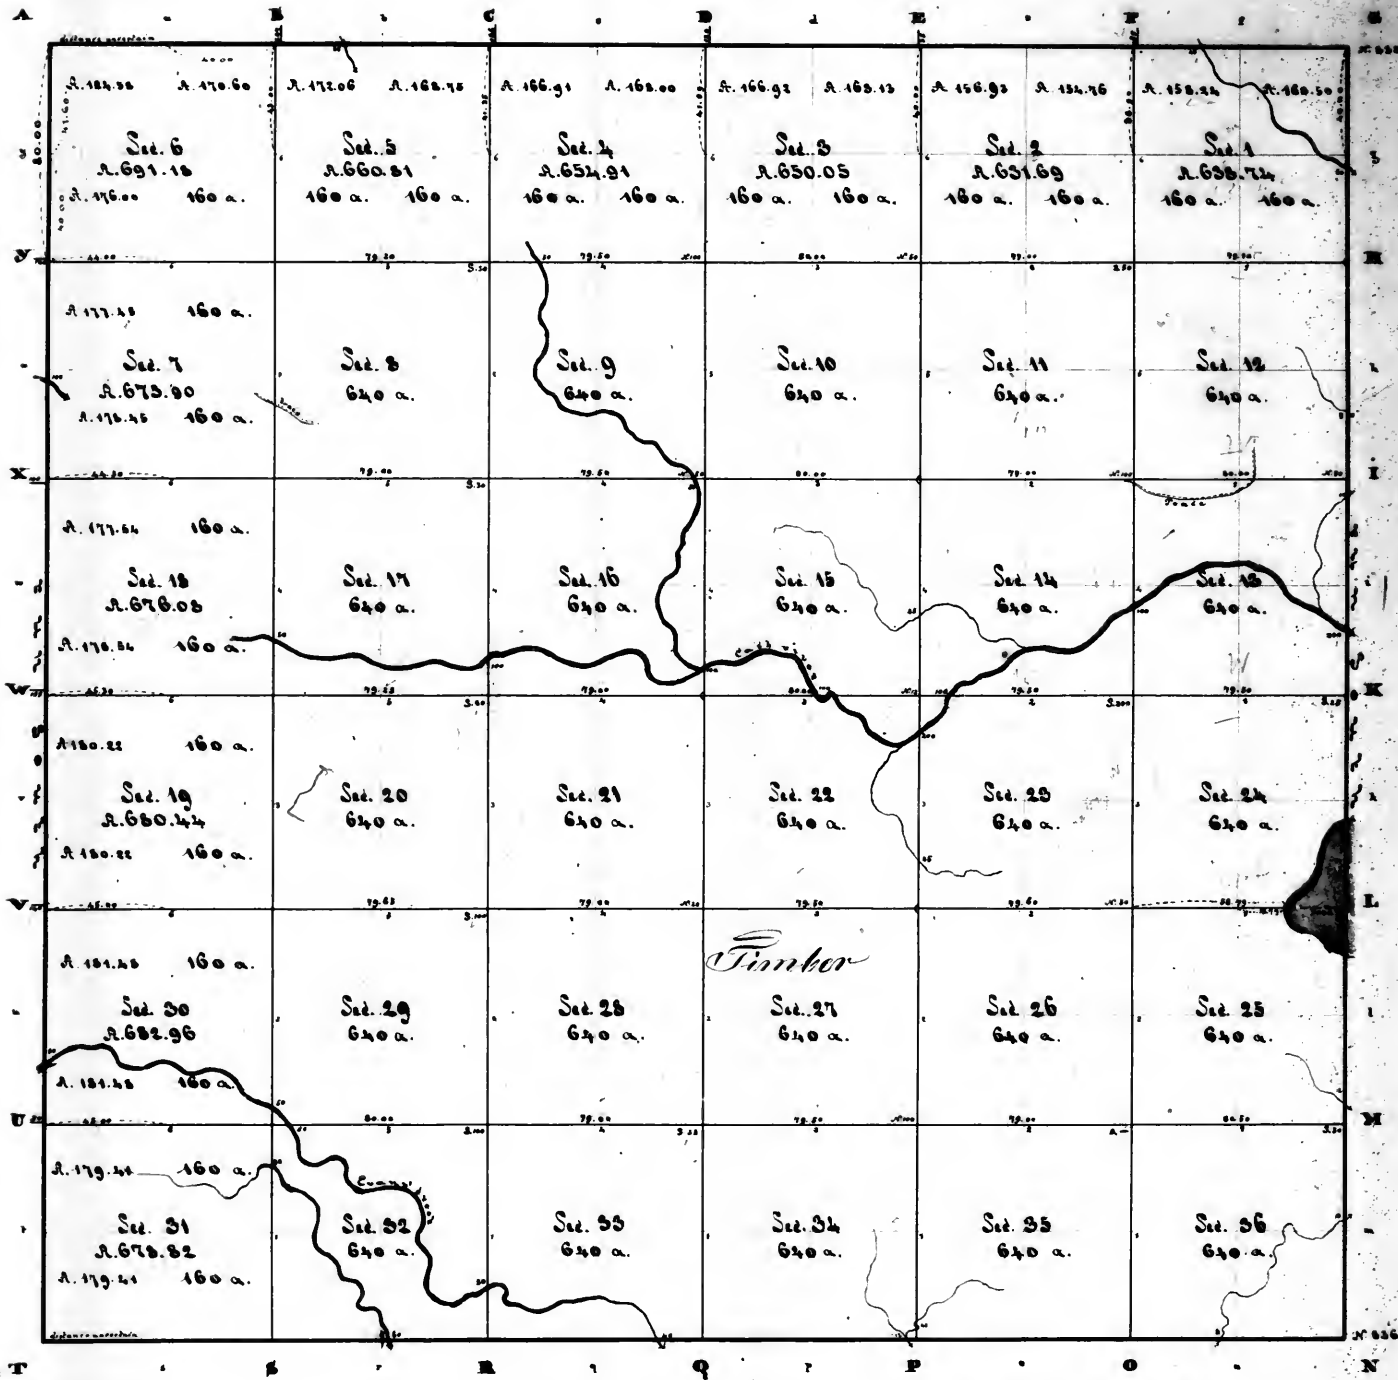

Surveyor's Office
 St. Louis January 17th 1857

The above plat of Township 14 South of the Baseline, of Range 1 East of the 3rd principal Meridian is a copy of the original
 field notes thereof, and the original length of the South boundary of Sec. 31 and North of Sec. 6, being equally erroneous, the distances have been omitted,
 and West boundary of the Township drawn so as to conform to the East & West lines of the most western tier of sections, the areas set down agree with those
 on original plat.

M. Lewis Clark

Surveyor of public lands
 in the States of Illinois and Missouri

Pat. Township 12 South, Range 14 East of principal Meridian.

Aggregate area: 23621.53 acres

Scale of 40 chains to an inch

Surveyor's Office
 St. Louis January 17th 1857

The above plat of Township 12 South of the Baseline of Range 14 East of the 1st principal Meridian, is hereby certified from the original records, except that the distances noted along the South boundary of Sec. 31, and the South boundary of Sec. 31 T. 12 S. R. 14 E. being evidently erroneous, are omitted, and Sec. 31 & 6 of this Township, have each been partitioned according to their other lines.

M. Lewis Clark

Surveyor of public lands
 in the State of Missouri

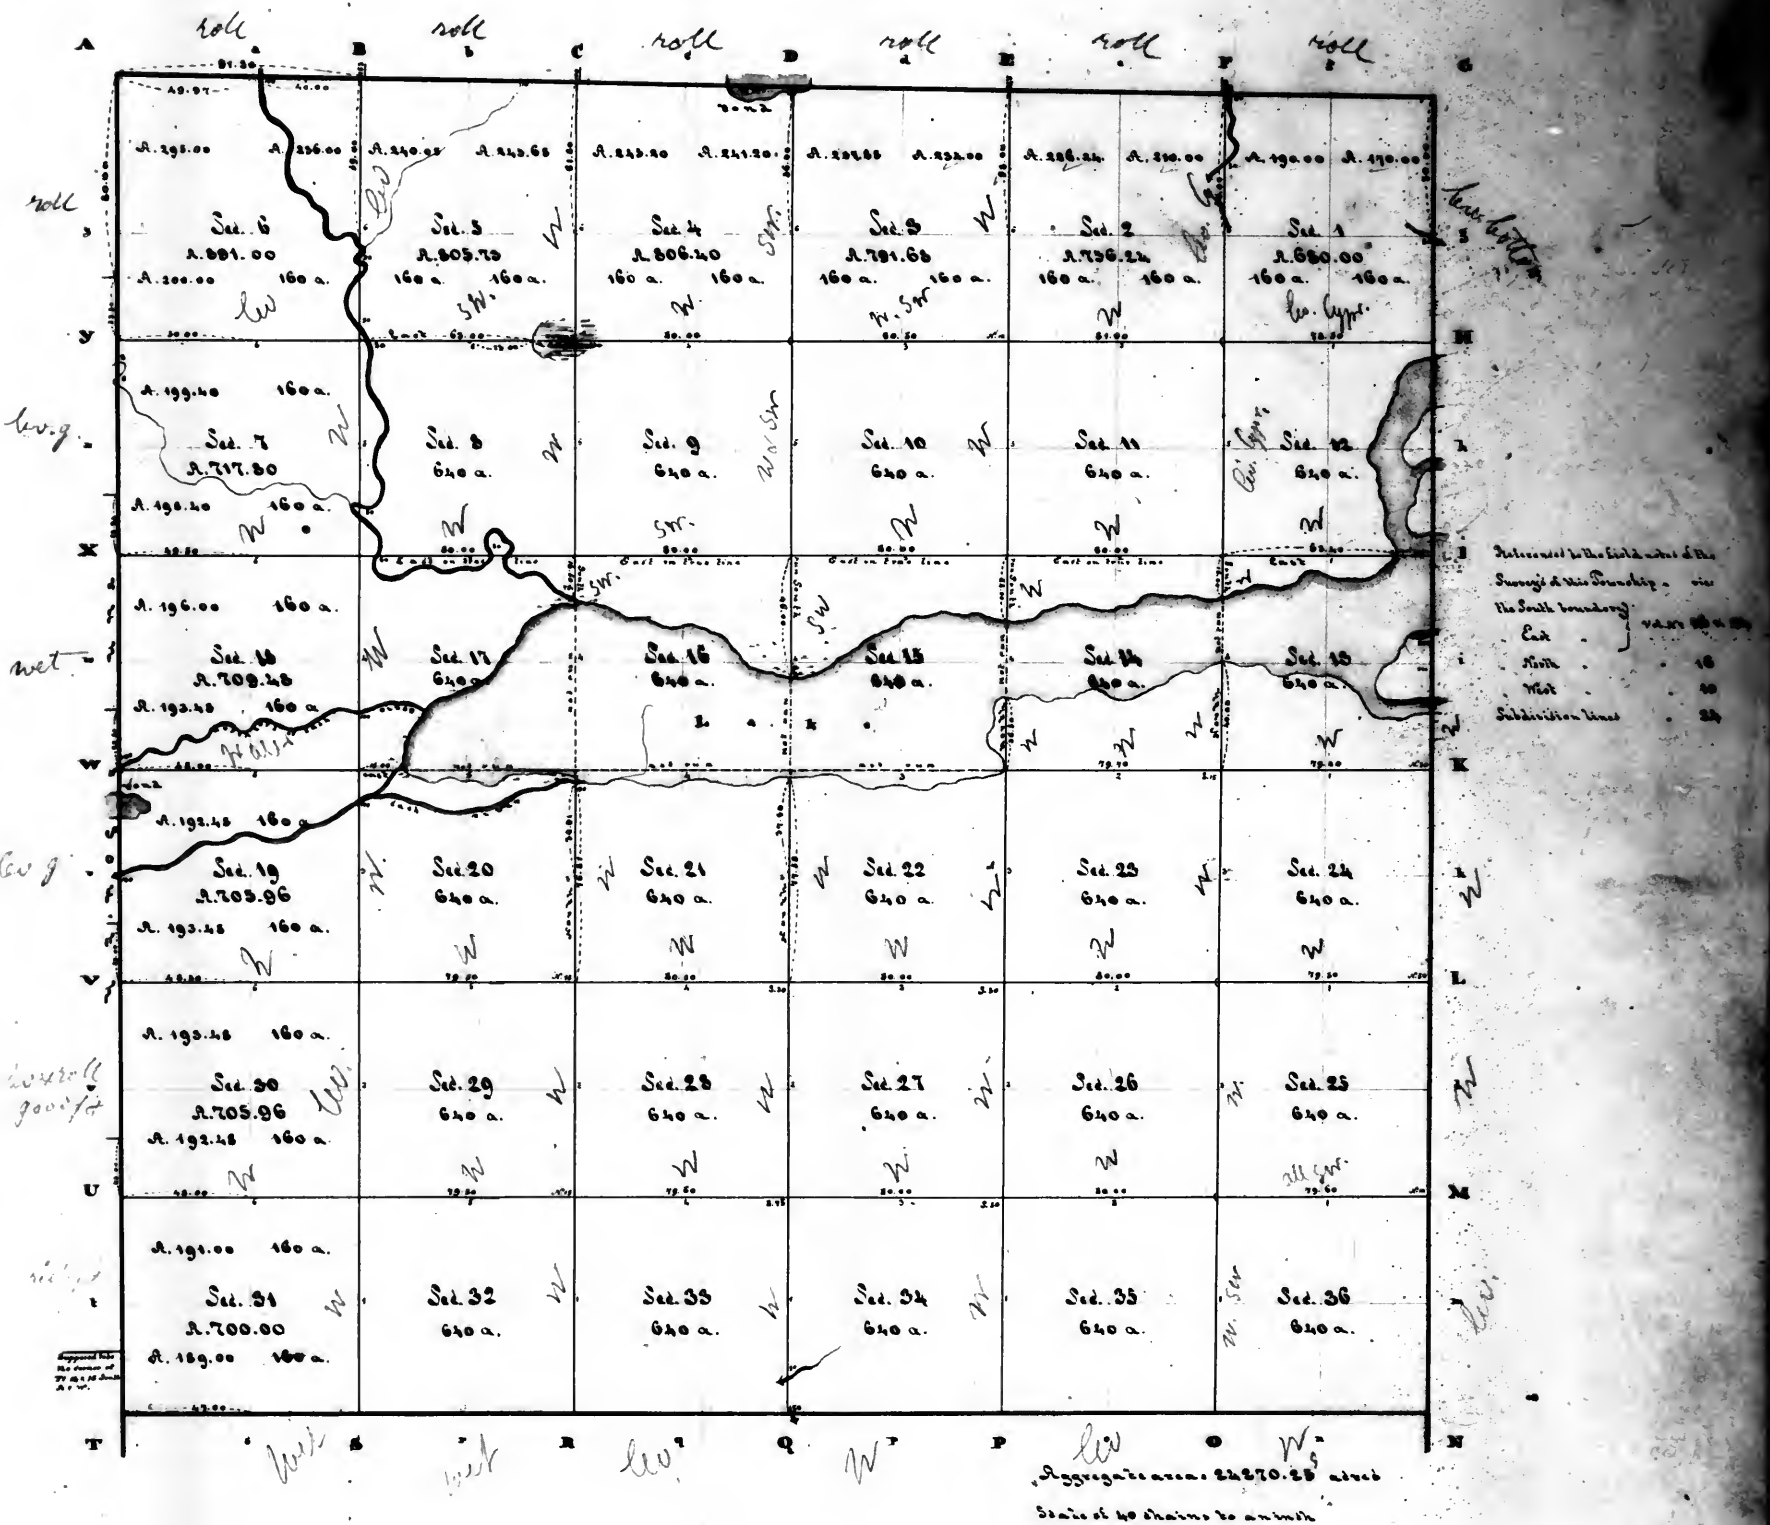

St. Louis - January 17th 1851.

The above plat of Township No. 15 South of the Dominion of Range No. 1 East of the 2^d principal Meridian is carefully compared with the original field notes thereof, except that the noted along the South boundary of Sec. 31 T. 15 S. Range 1 E. being evidently erroneous, section 6 of this Township has been graduated according to the courses and distances of its other lines - The areas set down are in conformity with those of the original plat of the Township, on file in this Office.

Plat of Township N. 11 South of the Baseline Range N. 2 East of the 3rd principal Meridian.

Aggregate area: 23277.42 acres

Scale of 40 chains to an inch

Surveyor's Office

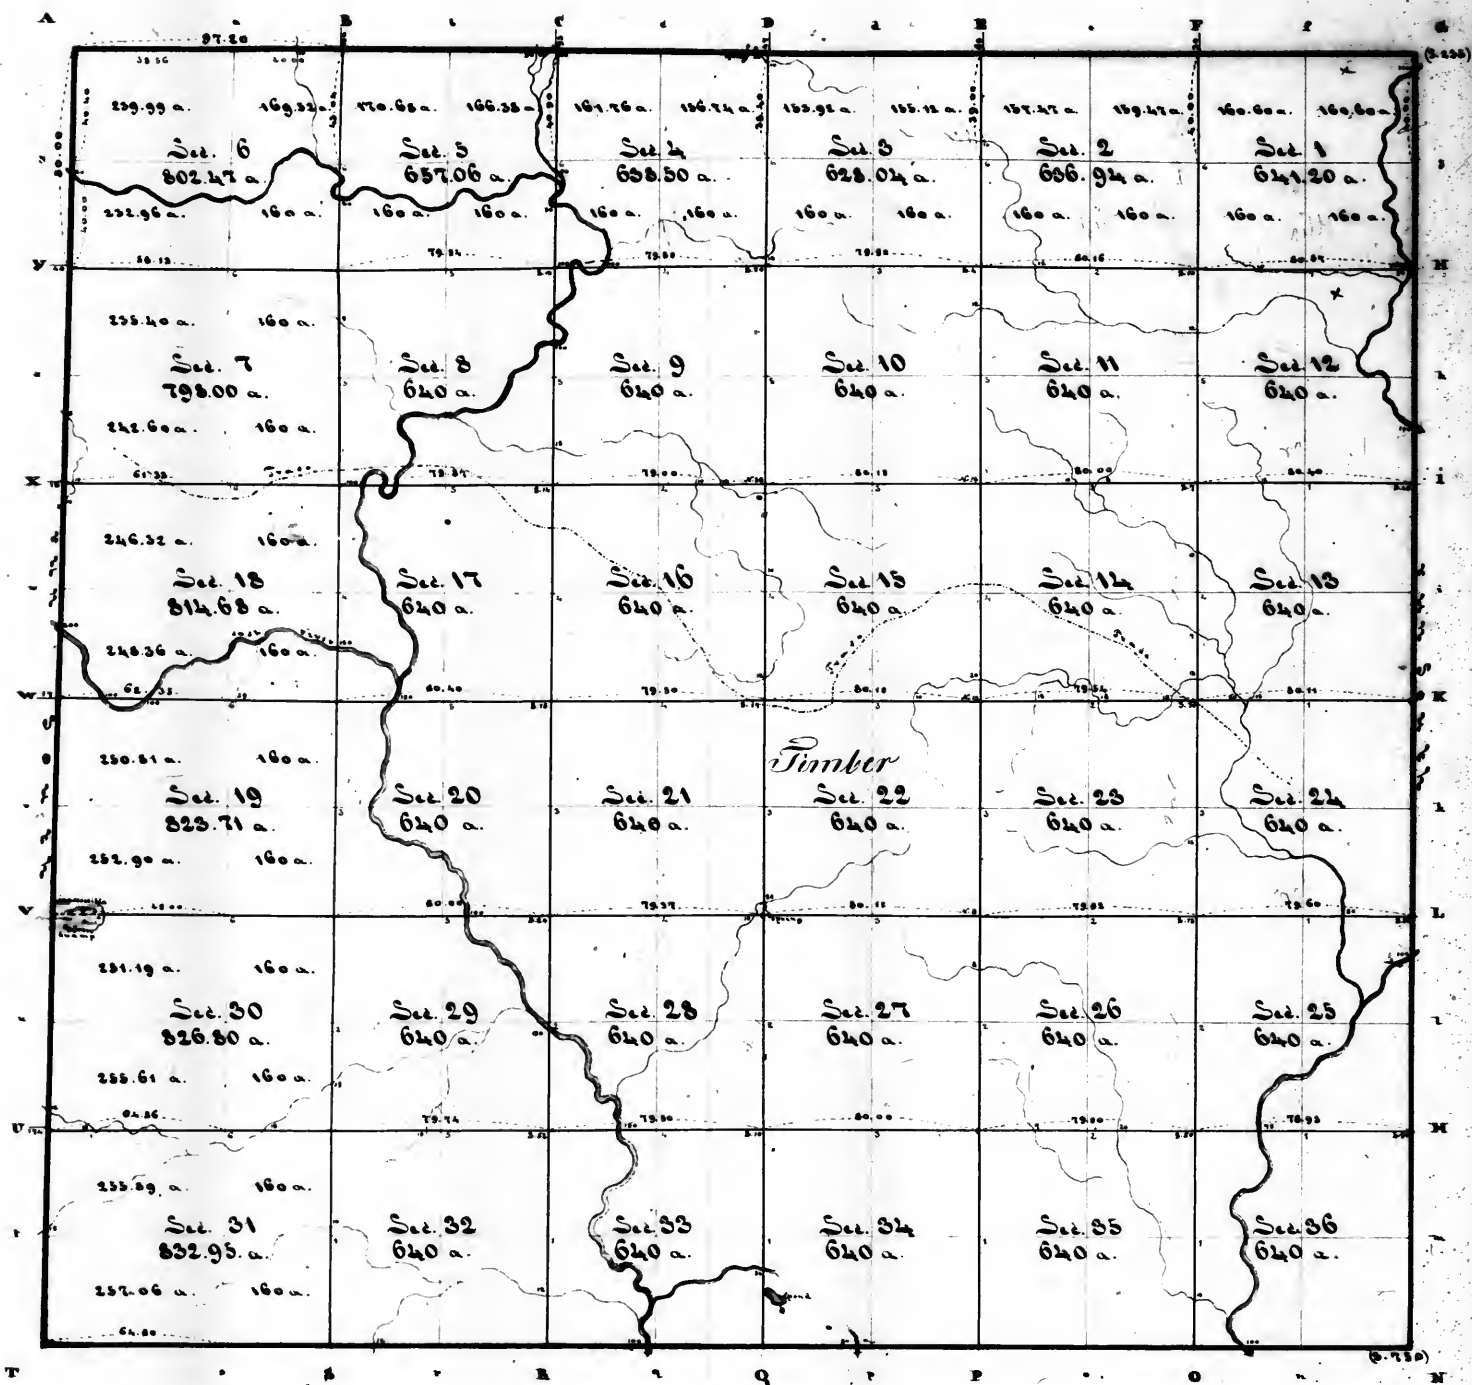

St. Louis January 17th 1857.

The above plat of Township N. 11 South of the Baseline of Range N. 2 East of the 3rd principal Meridian is correctly and lawfully derived from the original records of the Survey and the areas set down thereon are in conformity with those of the original plat of said Township on file in this Office.

M. Lewis Clark

Surveyor of public lands
in the States of Illinois and Missouri

Map of Township 31 1/2 South of the Baseline Range 2 East of the 3rd Principal Meridian.

Aggregate area - 24,100.55 acres
Scale of 40 chains to an inch

Surveyor's Office
St. Louis January 17th 1857

The above plat of Township 31 1/2 South of the Baseline of Range 2 East of the 3rd Principal Meridian is correctly construed from the original field notes thereof and the same set down thereon, are in conformity with those of the original plat of said Township on file in this Office.

M. Lewis Clark

Surveyor of public lands
in the States of Illinois and Missouri

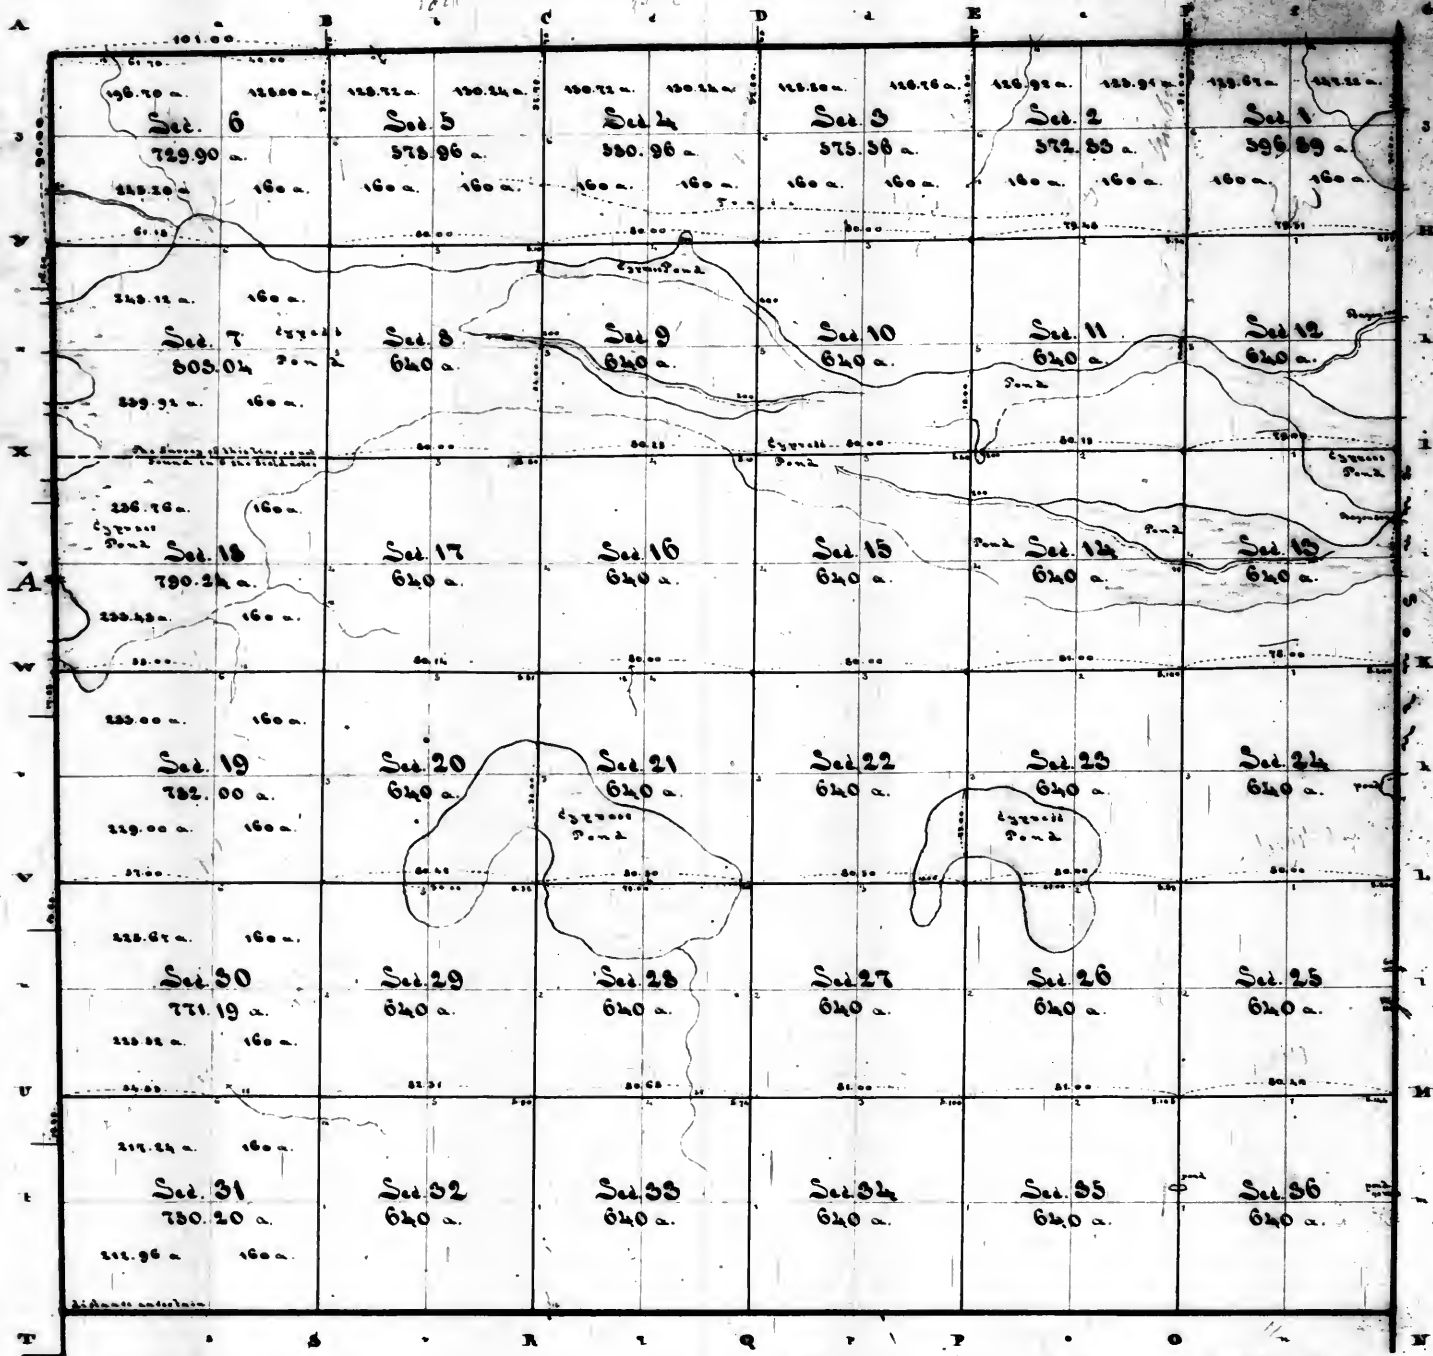

Surveyors Office
St. Louis January 17th 1857.

The above plat of Township 31st South of the Baseline, of Range 1st East of the 1st principal Meridian, is correctly constructed from the original field notes thereof, and the areas set down thereon, are in conformity with those of the original plat of said Township, in the this Office.

M. Lewis Clark

Surveyor of public lands
in the States of Illinois and Missouri

Plat of Township 14 South of the Baseline Range 2 East of the 5th principal Meridian.

Aggregate area. 25551.77 acres

Scale of 40 chains to an inch

Surveyor's Office

 St. Louis, *January 17th 1851*

The above plat of Township 14 South of the Baseline, of Range 2 East of the 5th principal Meridian, is hereby confirmed from the original field notes of the Survey of the North East boundaries and subdivisions lines, and the areas set down are in conformity with those on the original plat of said Township on file in this Office. The West boundary having been irregularly surveyed, by running one part of it North, and the other part South to about the point marked A, and no connection or explanation given in the notes as to how the two parts would come together, it is not known whether the said West boundary forms a straight line, or whether there is an offset about the said point A. The South boundary was run East on a random, but as it can not be understood from the notes at what point it was started, it has been drawn so as to correspond with the old plat.

M. Davis Clark

Surveyor of public lands

in the States of Illinois and Missouri

Plat of Township No. 15 South of the Baseline Range No. 2 East of the 8th principal Meridian.

Surveyor's Office.

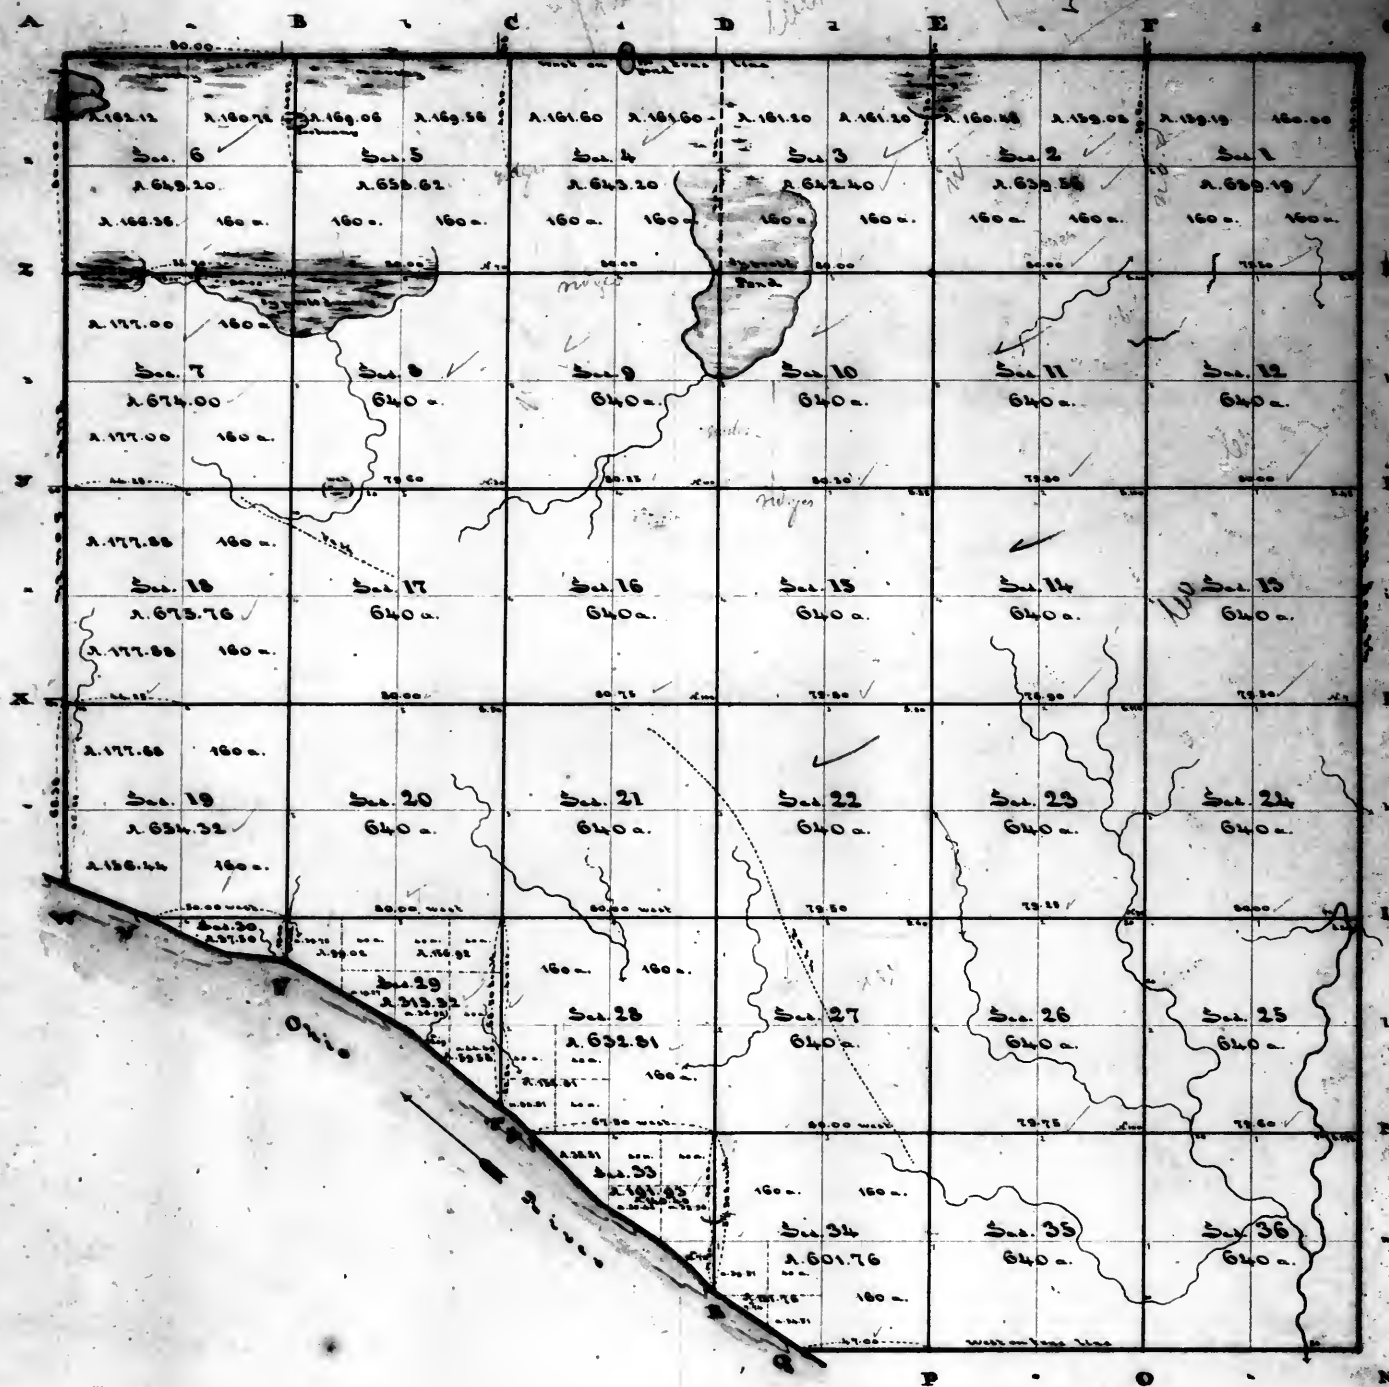

St. Louis, Missouri, 17th 1857.

Whereas, that the fractional Township No. 15 South of the Baseline, Range No. 2 East of the 8th principal Meridian, is hereby
is bounded from the original field notes of the Survey of the East and West boundaries and subdivisions, and the amount of land, as is shown
with those of the original plat, on file in this Office. The North boundary was run East in a random, but as it cannot be ascertained from the notes,
at what point it was started, it has been drawn as to intersect with the old plat.

M. Lewis Clark

Surveyor of public lands
in the States of Illinois and Missouri.

SUPPLEMENTAL PLAT OF SECTION 1.
Scale: 10 Chains to an inch.

MEMORANDUM

THIS SUPPLEMENTAL PLAT DELINEATES THE DEPENDENT RESURVEY OF THE BOUNDARIES OF SEC. 1, T. 13 S., R. 5 E., AND THE SUB-DIVISION OF THE SECTION, WITH METES-AND-BOUNDS SURVEY OF LANDS HELD UNDER COLORADO TITLE IN THE NW 1/4, DERIVING LOTTING AND AREAS TO ACCOMMODATE APPLICATION G.L.O. 07221. REFERENCE WILL BE MADE TO THE ORIGINAL PLAT FOR THE SHOWING OF AREAS AND MORE DETAILED DESCRIPTIONS OF THE OTHER SUBDIVISIONS.

THE SURVEY WAS EXECUTED PURSUANT TO AUTHORITY CONTAINED IN GENERAL LAND OFFICE LETTER G.L.O. 07221 "E" DATED FEBRUARY 4, 1941.

OFFICE OF SUPERVISION OF SURVEYS
DENVER, COLORADO, AUGUST 9, 1941.

THE ABOVE SUPPLEMENTAL PLAT OF SECTION 1, TOWNSHIP NO. 13 SOUTH, RANGE NO. 5 EAST, OF THE THIRD PRINCIPAL MERIDIAN, ILLINOIS, IS STRICTLY CONFORMABLE TO THE FIELD NOTES OF THE SURVEY THEREOF, WHICH HAVE BEEN EXAMINED AND APPROVED.

Samuel J. Pomeroy
SUPERVISOR OF SURVEYS.

Dependent Resurvey and Subdivision of Section 1, T. 13 S., R. 5 E.,
Third Principal Meridian, Illinois.

Township 13 South, Range 5 East of the Third Principal Meridian, Illinois, is located within the Eastern Standard Forest. The boundaries of the township are believed to have been surveyed by William Reuter, Deputy Surveyor, and the township established by Ross Outler, Deputy Surveyor, in 1806 and 1807. The official plat of the township, on file with the General Land Office, bears no date of approval. The following field notes are those of the dependent resurvey or reestablishment of the boundaries of Sec. 1, the subdivision of Sec. 1 to define the boundaries of the NW 1/4 thereof, and the subdivision of the NW 1/4 to define the boundaries of three parcels of public land therein, one of which are claimed under color of title.

The rules of proportionate measurement were applied in order to ascertain the positions of lost corners, after completing the necessary retracements to connect with identified corner positions, but not until exhausting every reasonable possibility of finding direct evidence for the control of each particular corner. The true lines, thus adjusted to the identified evidence, were then duly run and marked through the timber.

In order to simplify the record, the true line notes only are supplied herewith, which refer to the completed survey.

Survey commenced April 25, 1910, and equipped with light mountain solar transit made by Barr and Barr, Serial No. 12107, constructed in accordance with the standard specifications of the General Land Office. The horizontal circle has a diameter of 12 inches, with two double opposite verniers reading to single minutes; the vertical circle has a diameter of 4 inches, with one double vernier reading to single minutes. The instrument is equipped with the improved Smith polar attachment, radius of latitude arc, 3 inches, and of declination arc 3 1/2 inches, each with verniers reading to single minutes. The instrument was in good condition and in satisfactory adjustment prior to the beginning of the survey.

The direction of all lines were determined by the solar transit method, and the measurements were made with a Galilei steel tape, 5 chains in length, graduated every link for the first 100 links, and thereafter at intervals of 10 links. The tape was tested in comparison with a 1. and 2. standard tape and found correct. The measurements were made on the slope, and the vertical angle of each interval was ascertained by a clinometer in good adjustment; the horizontal equivalents only are entered in this field note record.

For the result of the test of this transit, see the record of the dependent resurvey of T. 2 N., R. 15 E., of the Fifth Principal Meridian, under group 50, Arkansas. The transit was checked daily by noon observations on the sun, and remained in good adjustment throughout the survey.

Dependent Resurvey of a Portion of the South Boundary of T. 12 S., R. 5 E., of the Third Principal Meridian, Illinois, as Originally Surveyed by William Reuter, Deputy Surveyor.

Beginning at the cor. of Tps. 12 and 13 S., Rds. 5 and 6 E., which is marked by a stone 12 x 14 x 3 inches, set on edge, extending 10 inches above ground. It is stated by local residents that this stone has long been recognized and accepted by adjacent land owners as marking the corner position; and I accept it as the best evidence now available of the original corner.

In place of stone,

FIELD ASSISTANTS

[illegible]

CERTIFICATE OF SURVEYOR

I, George W. Johnson, HEREBY CERTIFY upon honor that, in
pursuance of special instructions bearing date of the Third day of April, 1941,
received from the district cadastral engineer for Eastern Surveying District, with assignment
instructions dated April 14, 1941, I have ~~surveyed~~ executed the
Dependent Resurvey and Subdivision
of Section 1,
Township 13 South, Range 5 East,
of the Third Principal Meridian, in the State of Illinois, which are
represented in the foregoing field notes as having been executed by me and under my direction; and that said
survey has been made in strict conformity with said instructions, the Manual of Instructions for the Survey
of the Public Lands of the United States, and in the specific manner described in the foregoing field notes.
Washington, D.C., George W. Johnson
May 22, 1941 Assistant Cadastral Engineer

CERTIFICATE OF APPROVAL

OFFICE OF SUPERVISOR OF SURVEYS,
Denver, Colorado, August 9, 1941.

The foregoing field notes of the ~~transcript~~
Dependent Resurvey and Subdivision of Section 1,
Township 13 South, Range 5 East,
Third Principal Meridian, Illinois,
executed by George W. Johnson, Assistant Cadastral Engineer,
under special instructions dated April 3, 1941, and assignment
instructions dated April 14, 1941, having been critically examined, and
the necessary corrections made prior to their certification by the engineer, the said field notes, and the survey
therein described, are hereby approved.

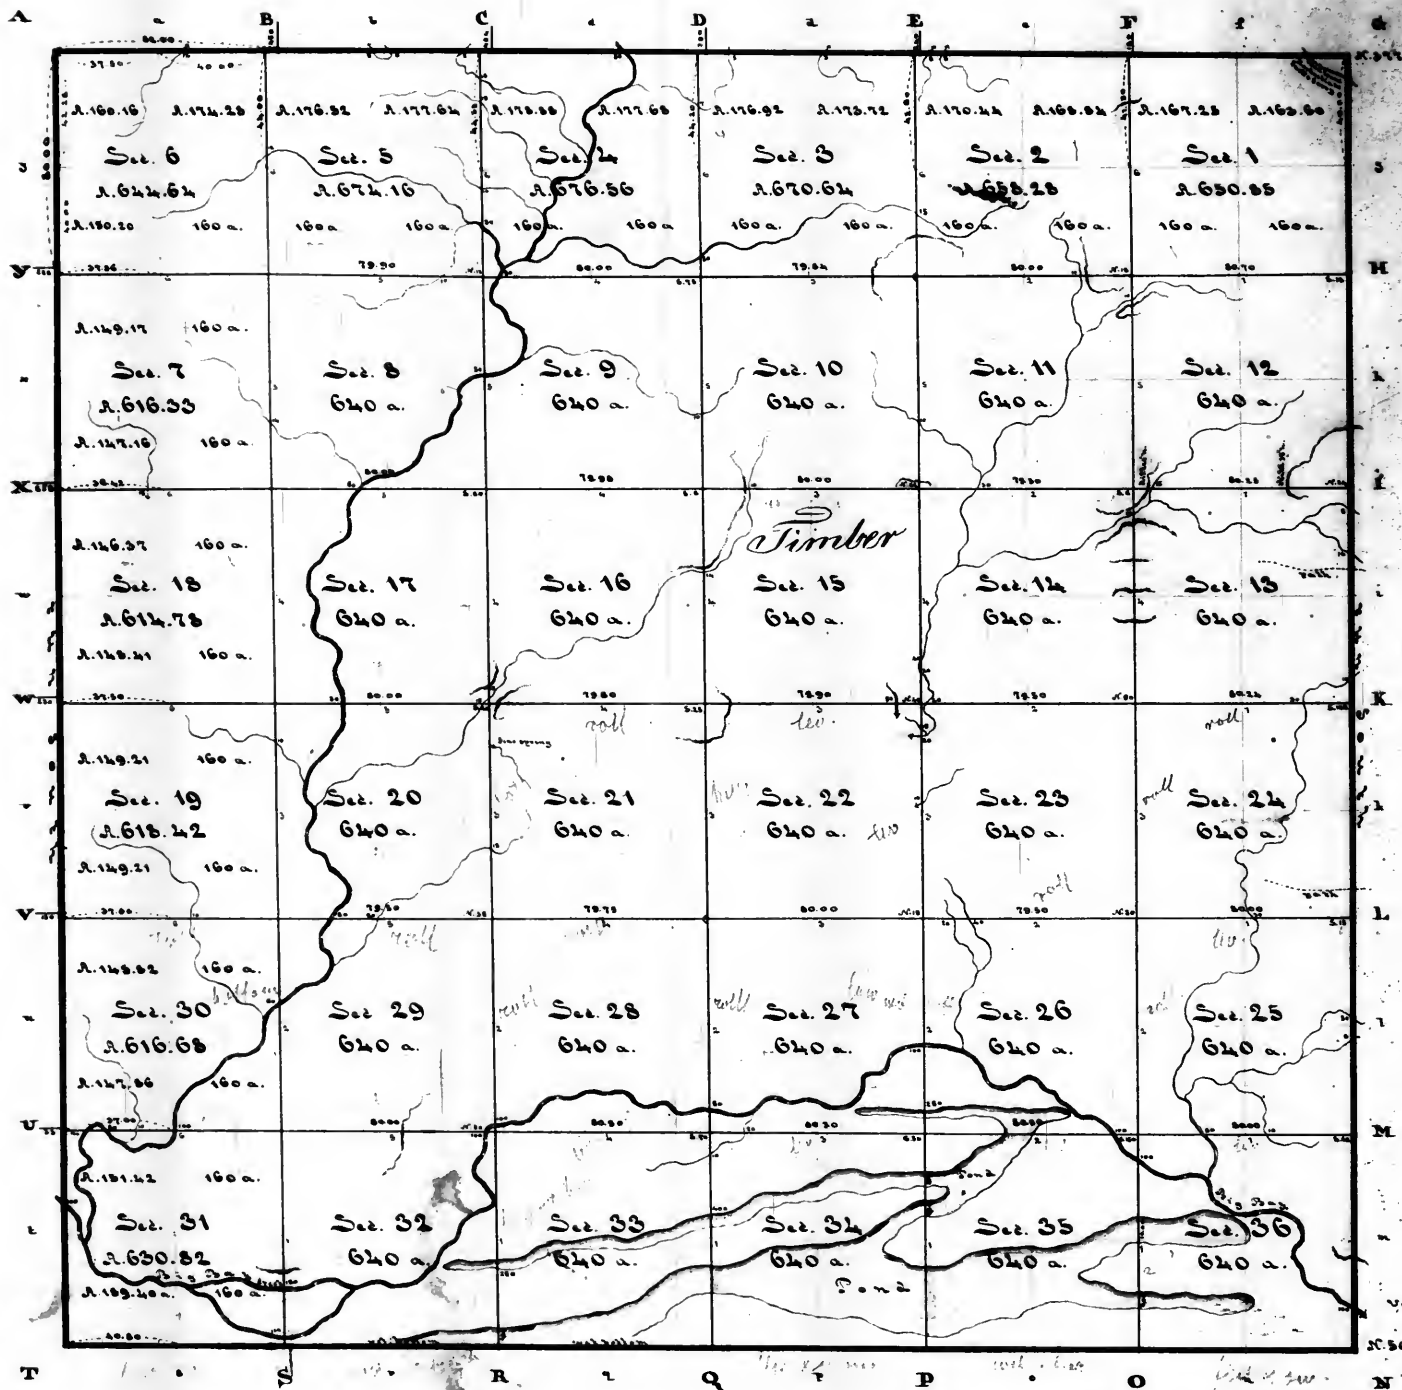

Donald P. Johnson
Supervisor of Surveys.

CERTIFICATE OF TRANSCRIPT

I CERTIFY that the foregoing transcript of the field notes of the above-described surveys in
Illinois, is a true copy of the original field notes filed in the General Land Office.
in file in the public survey office.

Donald P. Johnson
Supervisor of Surveys.

Plat Township 13 South of the Baseline Range 5 East of the 3rd Principal Meridian.

Aggregate area: 23072.16 acres

Scale of 40 chains to one inch.

Surveyor's Office

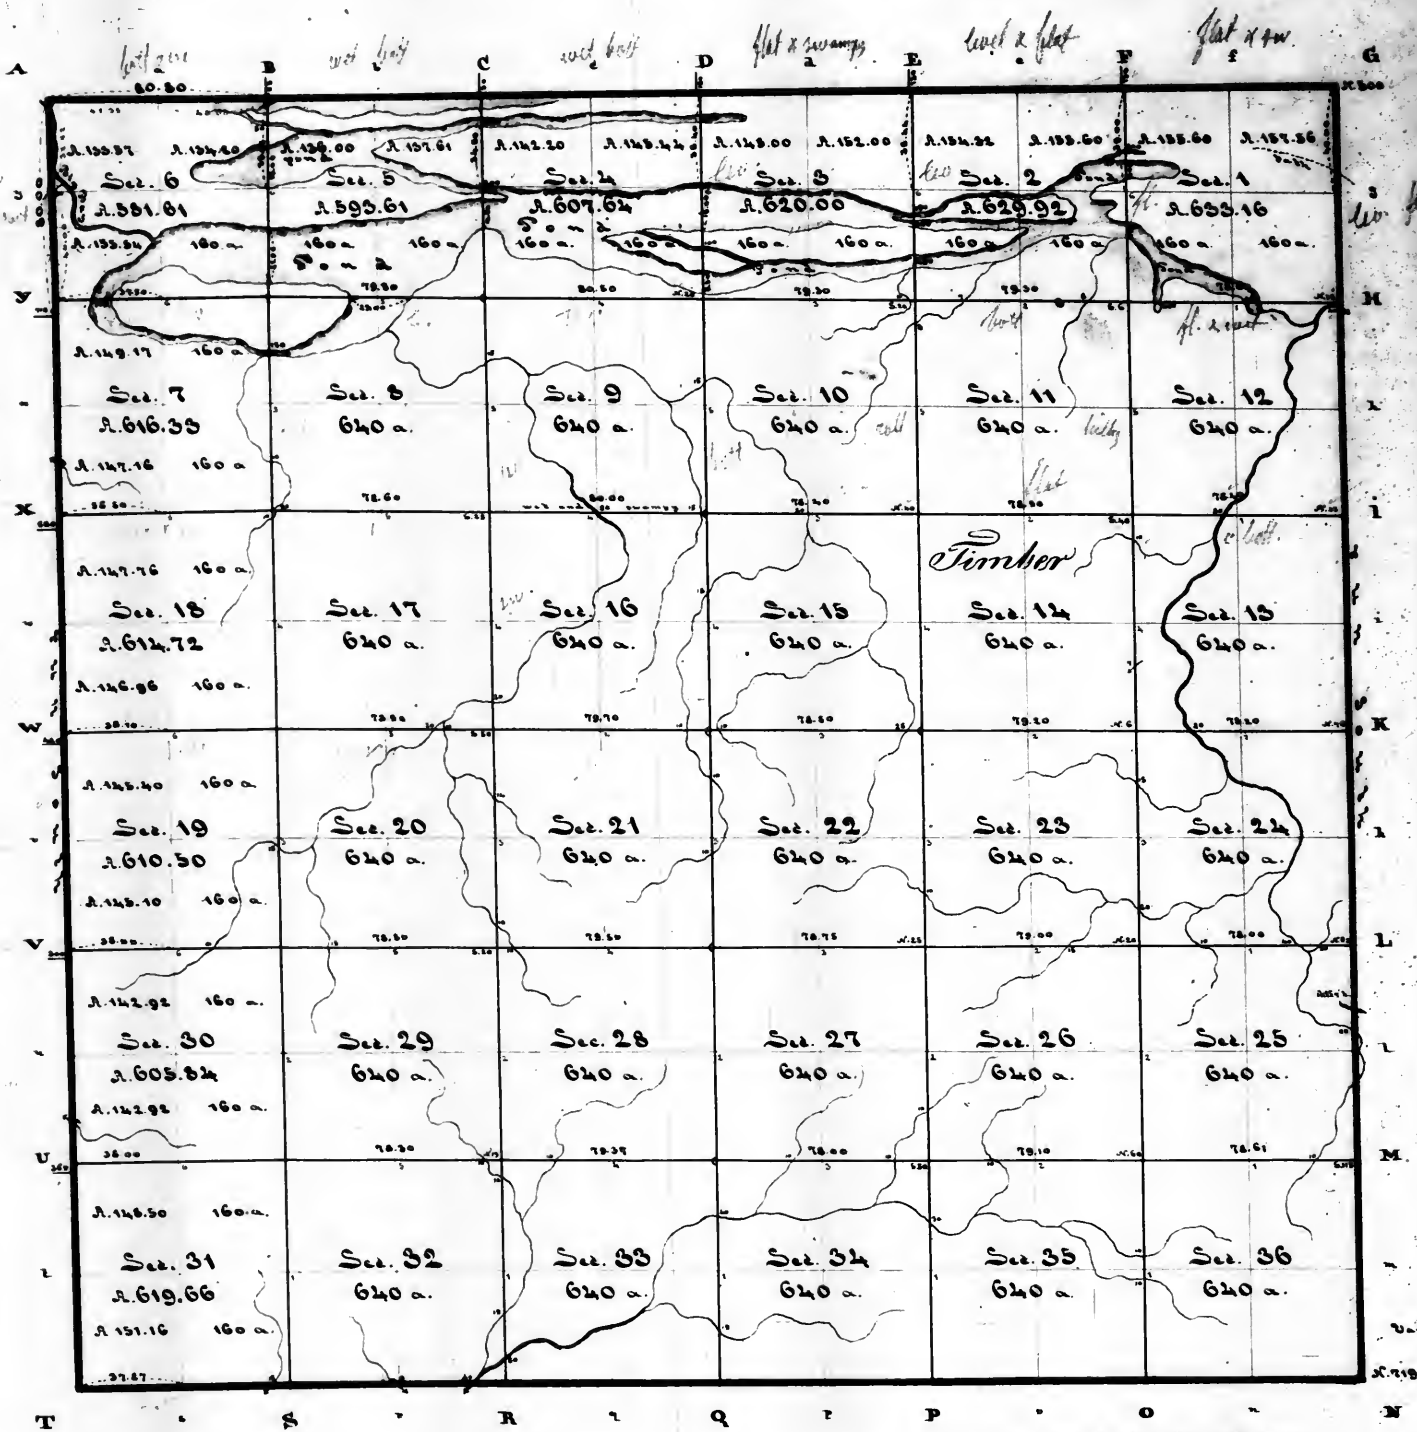

St. Louis January 17th 1851

The above plat of Township 13 South of the Baseline, of Range 5 East of the 3rd Principal Meridian is correctly constructed from the Original field notes thereof, and the same set down thereon, are in conformity with those of the original plat of said Township on file in this Office.

M. Lewis Clark
Surveyor of public lands

in the States of Illinois and Missouri.

Plat of Township 21:14 South of the Baseline Range 2:5 East of the principal Meridian.

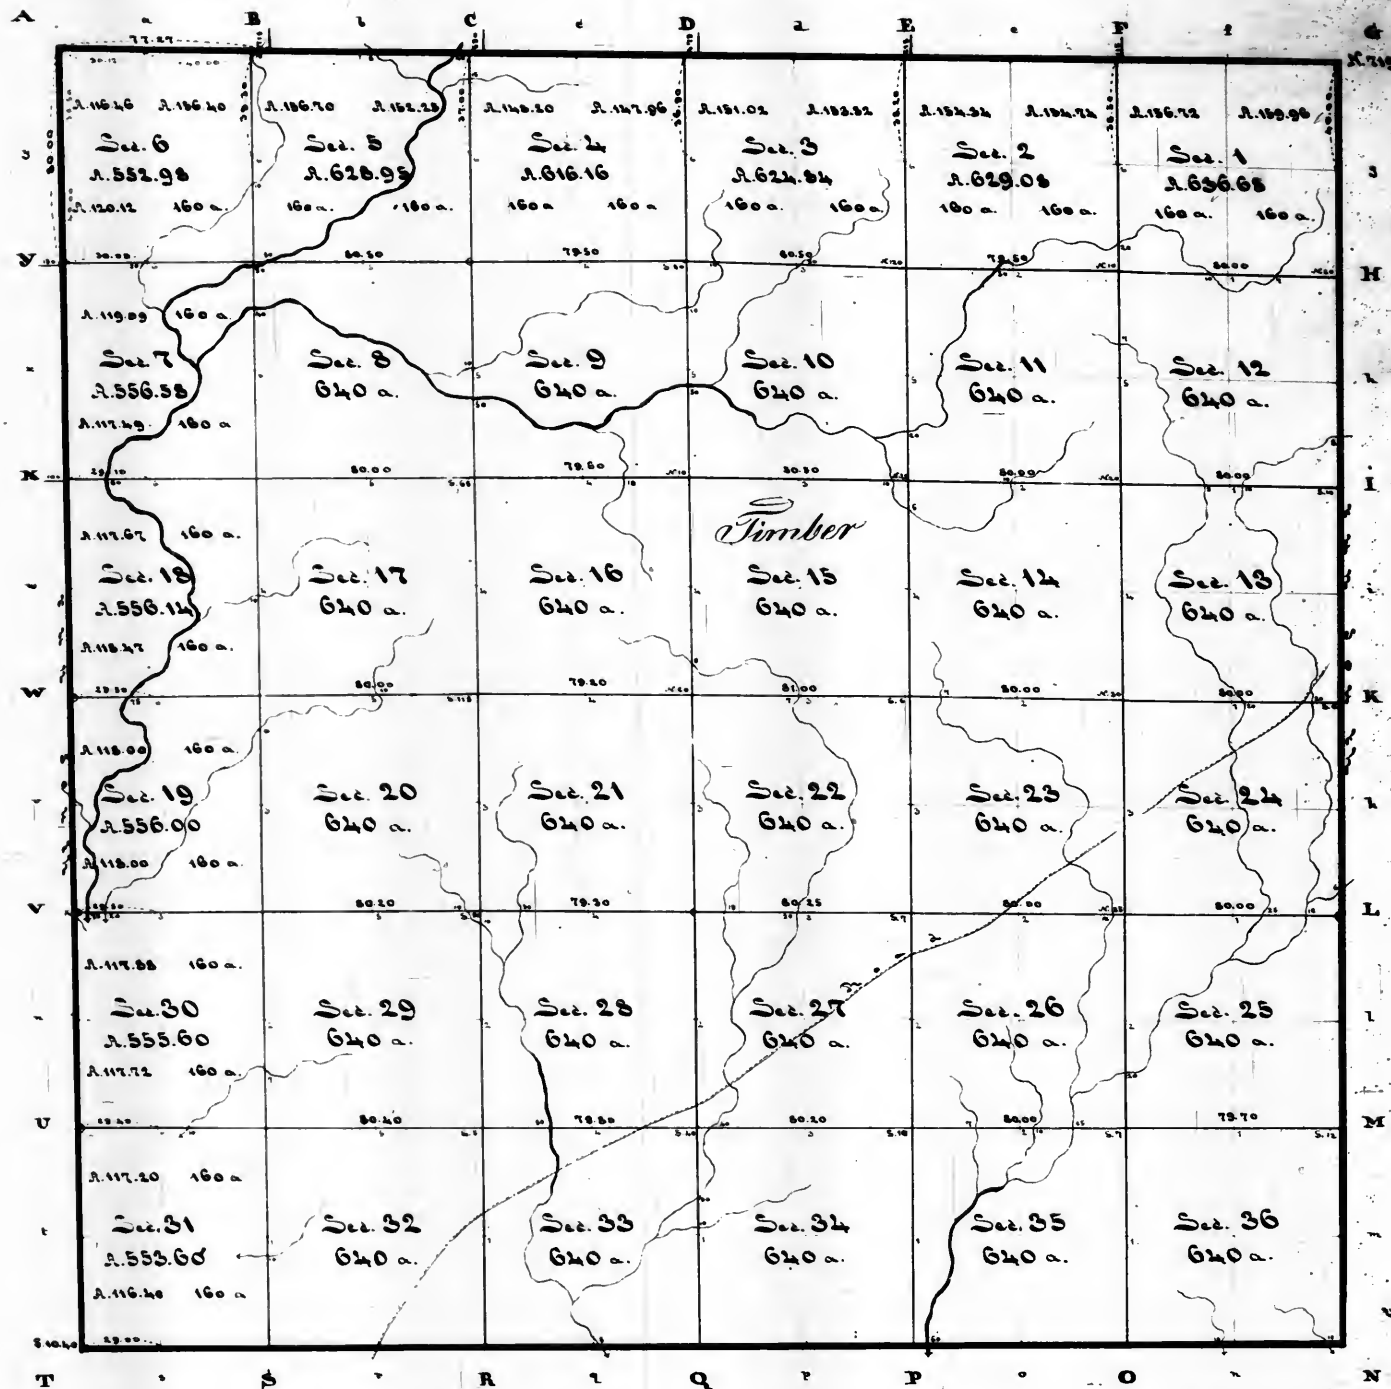

Surveyor's Office
St. Louis January 17th 1857.

The above plat of Township 21:14 South of the Baseline, of Range 2:5 East of the principal Meridian is correctly constructed from the original field notes thereof, and the areas set down thereon are in conformity with those of the original plat of said Township on file in this Office.

M. Lewis Clark
Surveyor of public lands
in the States of Illinois and Missouri.

Plat of Township No. 15 South of the Base Line Range No. 5 East of the 3rd Principal Meridian

Aggregate area, 22466.61 acres

Scale of 40 chains to one inch.

Surveyor's Office

St. Louis, January 17th 1857.

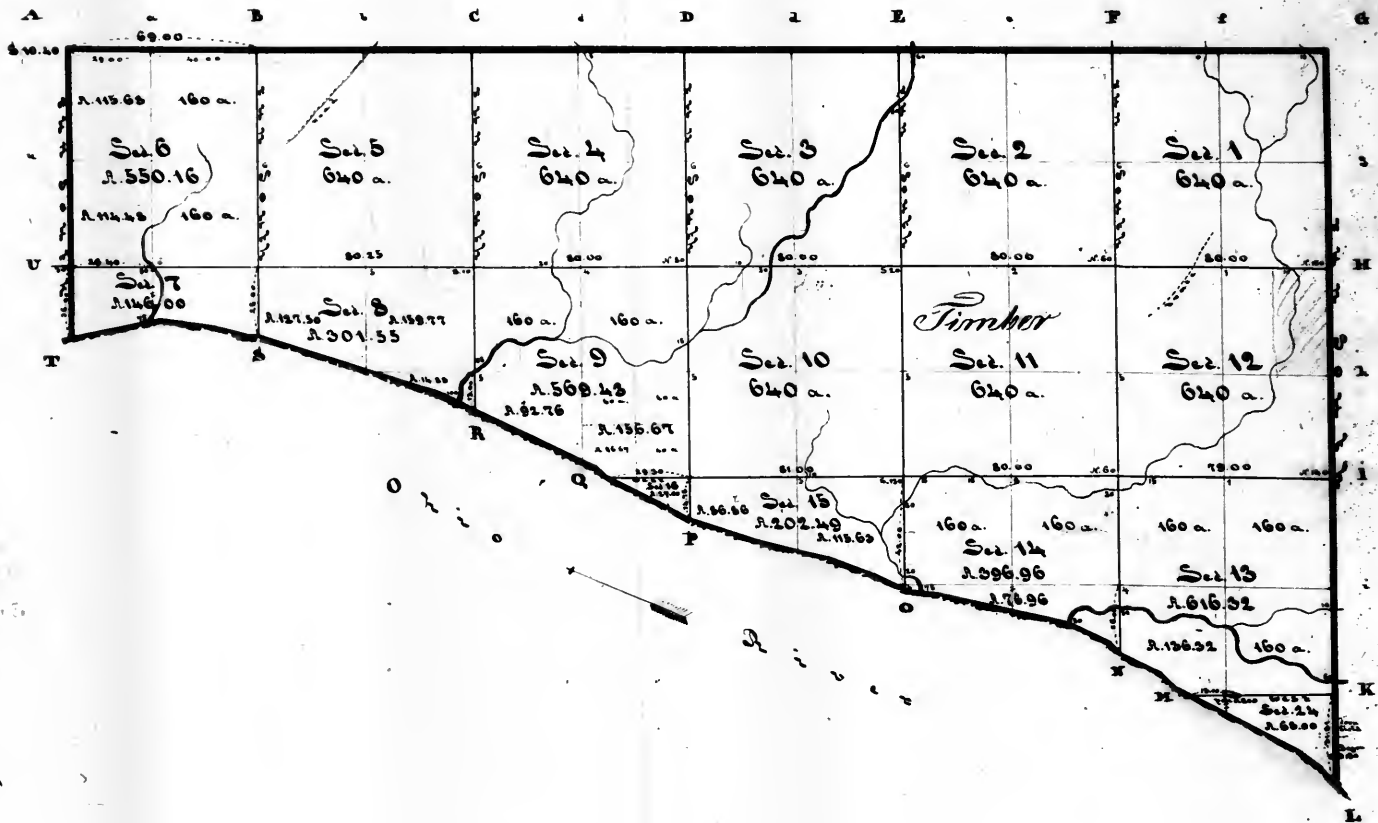

The above plat of Township No. 15 South of the Base Line, of Range No. 5 East of the 3rd Principal Meridian is hereby certified to be a true and correct copy of the original plat of said Township, as the same is on file in this Office.

M. Lewis Clark

Surveyor of public lands

in the States of Illinois and Missouri.

Plat of Township No. 16 South of the Baseline Range No. 5 East of the 3rd principal Meridian.

Aggregate area, 7997.91 acres.
Scale of 40 chains to an inch.

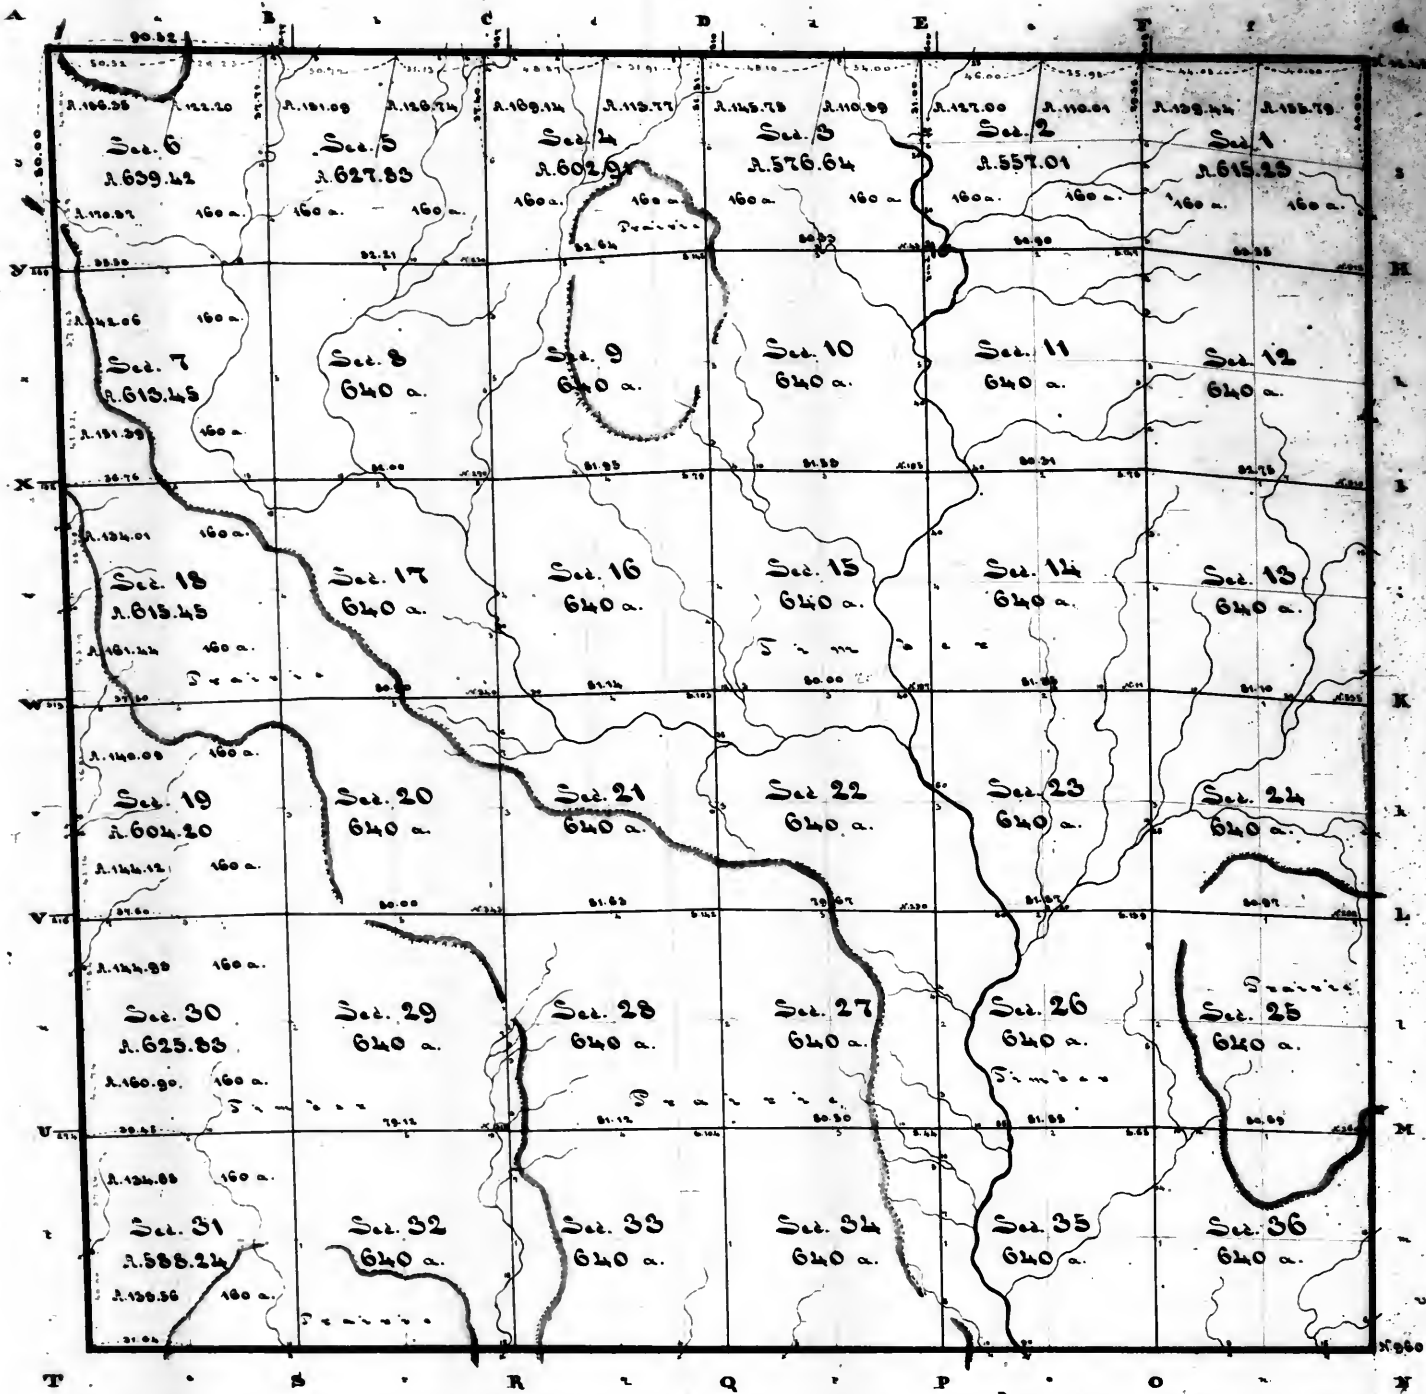

Surveyor's Office
St. Louis January 17th 1857

The above plat of Township No. 16 South of the Baseline, of Range No. 5 East of the 3rd principal Meridian, is correctly
indicated from the original field notes thereof, and the acres set down thereon, are in conformity with those of the original plat of said Township on file in this Office.

M. Lewis Clark
Surveyor of public Lands
in the States of Illinois and Missouri.

Plat of Township 33 South of the Baseline Range 16 East of the 3rd principal Meridian.

Aggregate area: 22251.46 acres

Scale of 40 chains to an inch

Surveyor's Office

St. Louis January 17th 1857

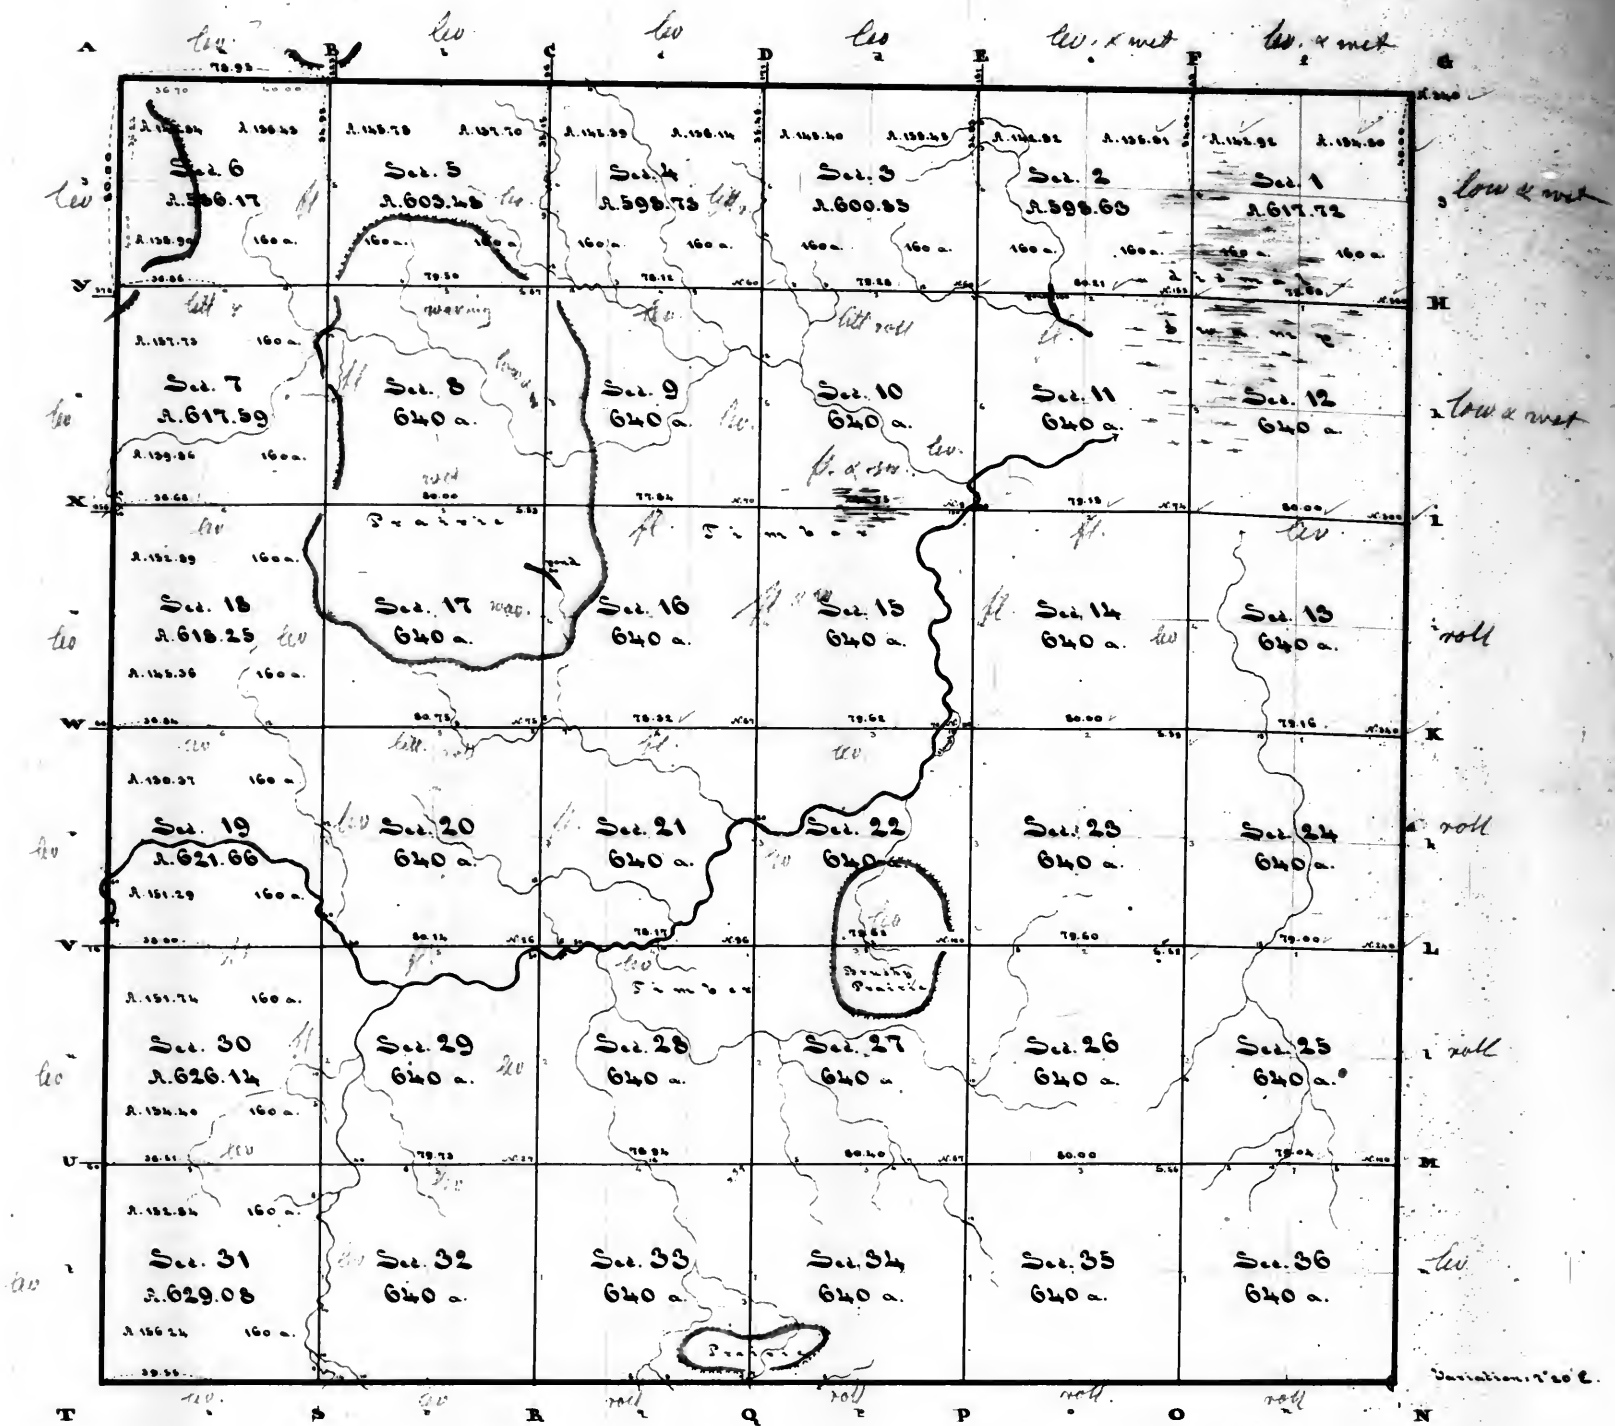

The above plat of Township 33 South of the Baseline of Range 16 East of the 3rd principal Meridian is lawfully constructed from the original field notes thereof and the areas set down thereon are in conformity with those of the original plat of said Township on file in this Office.

M. Lewis Clark

Surveyor of public lands

in the States of Illinois and Missouri

Plat of Township 14 South of the Baseline, Range 16 East of the 5th principal Meridian.

Aggregate area, 22718.30 acres

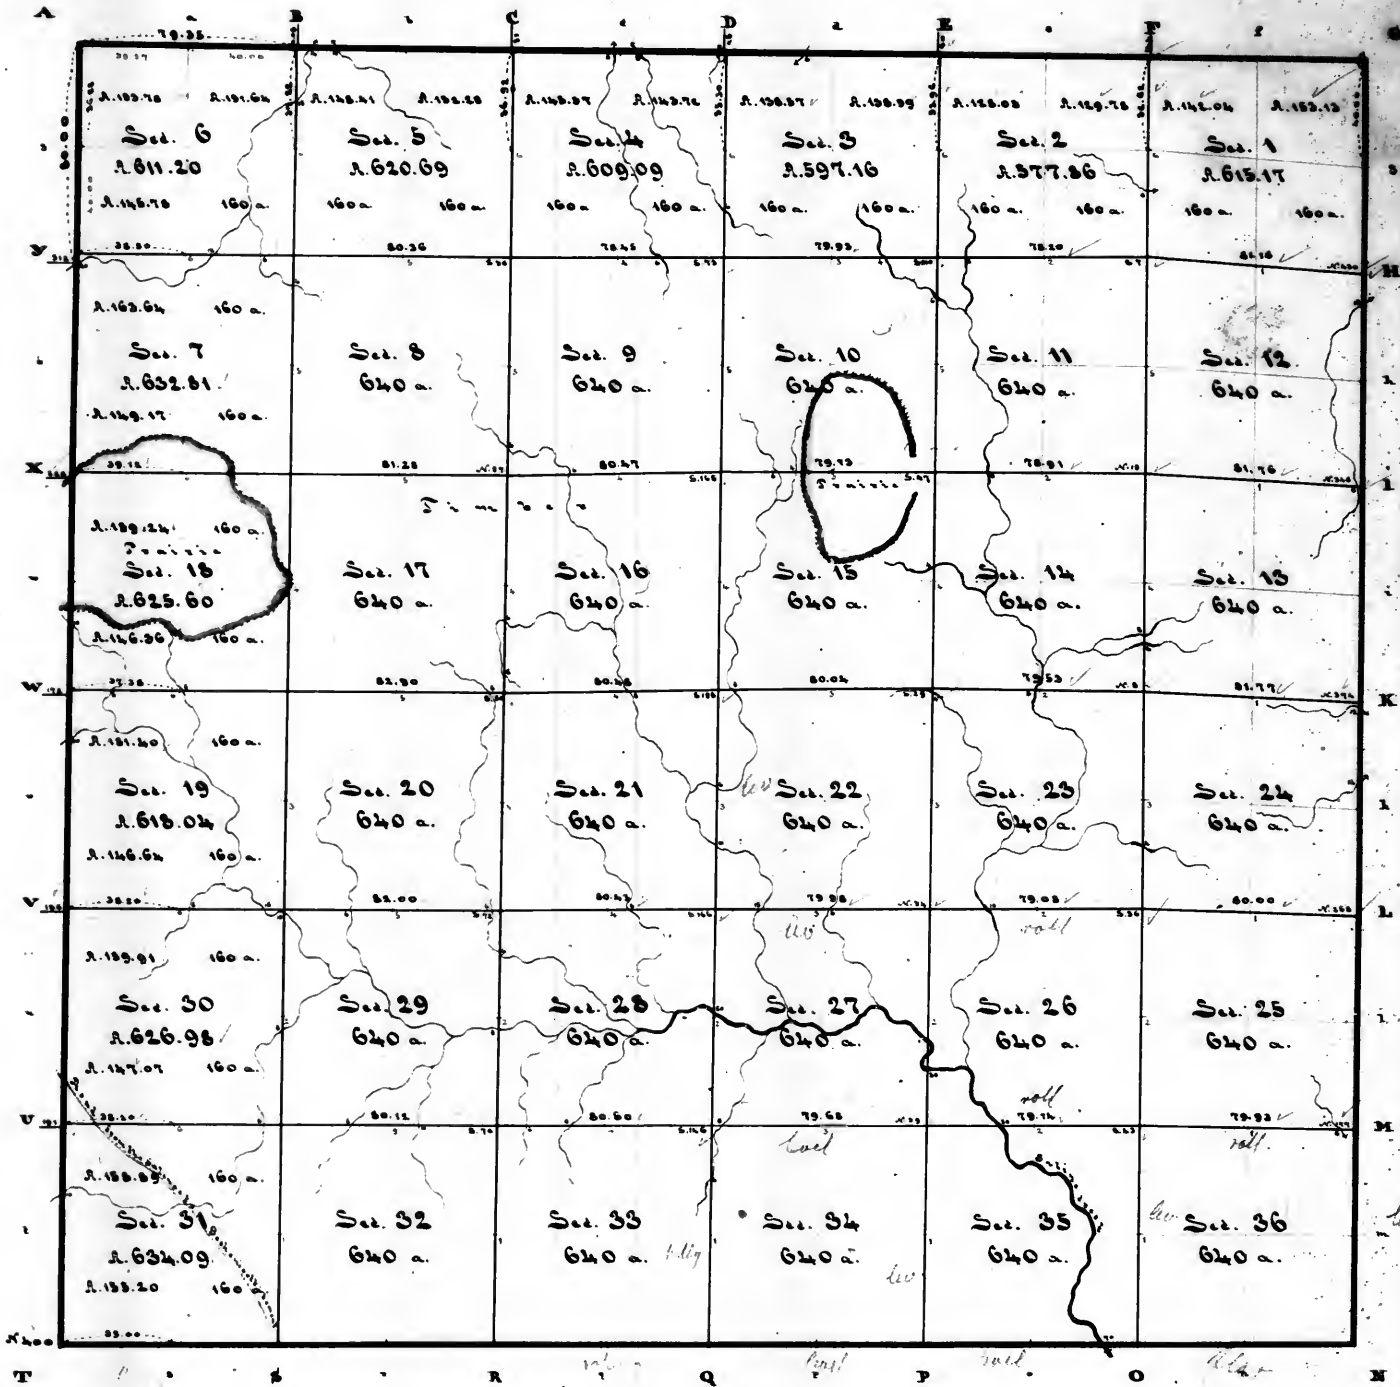

Scale of 40 chains to an inch.

Surveyor's Office
St. Louis January 17th 1857

The above plat of Township 14 South of the Baseline, of Range 16 East of the 5th principal Meridian is hereby conducted from the original field notes thereof and the areas set down thereon are in conformity with those of the original plat of said Township on file in this Office.

U. Lewis Clark
Surveyor of public lands
in the States of Illinois and Missouri.

Flat Township 18 South of the Base Line Range 16 East of the 3rd principal Meridian.

Aggregate area, 22768.69 acres.
Scale of 40 chains to an inch.

Surveyor's Office

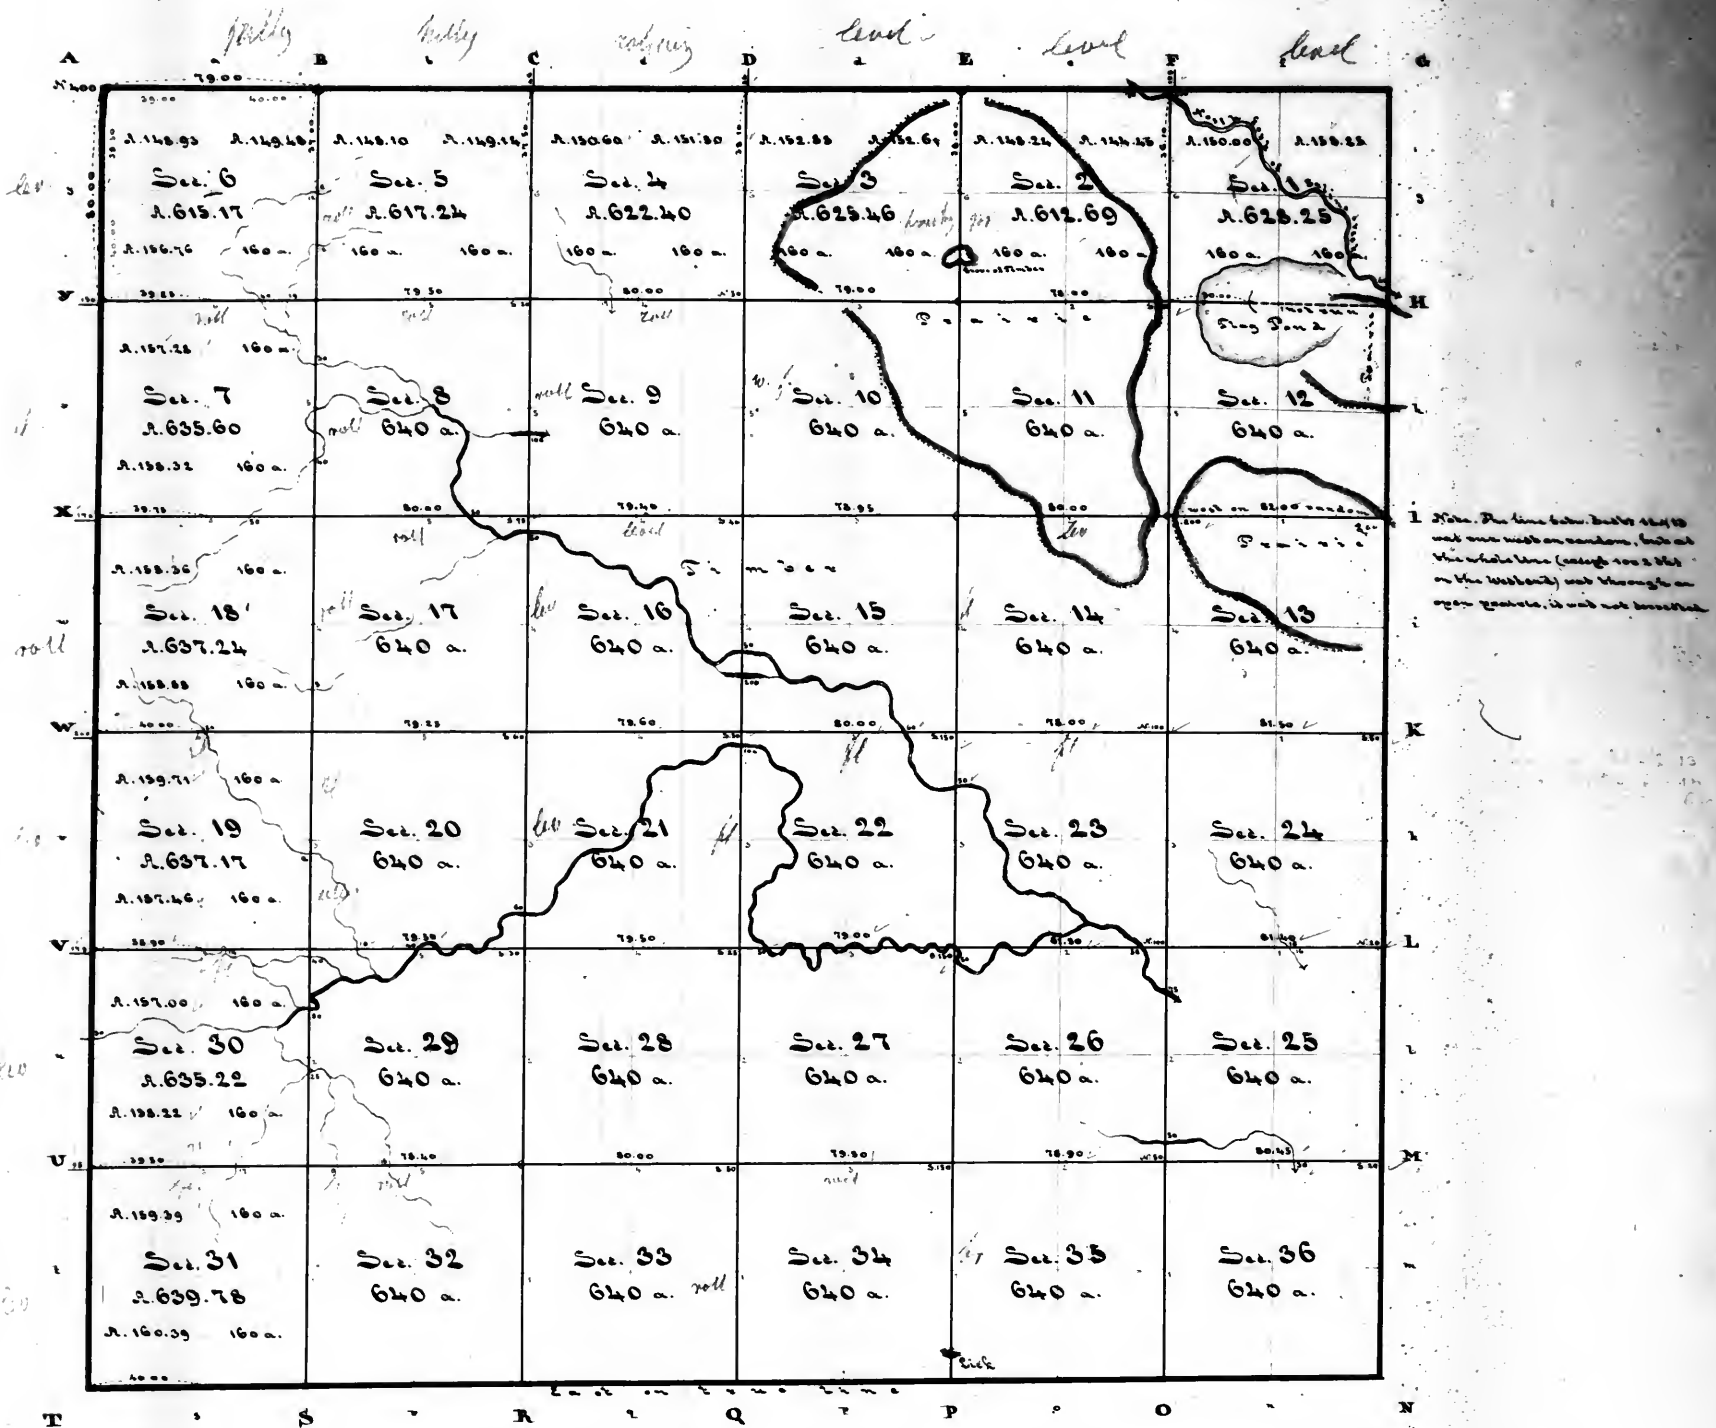

St. Louis, Missouri, 17th 1854.

The above plat of Township 18 South of the Base Line of Range 16 East of the 3rd principal Meridian is correctly constructed from the Original Indian Survey, and the areas set down thereon, are in conformity with those of the original plat of said Township, on file in this Office.

M. Lewis Clark

Surveyor of public lands,
in the States of Illinois and Missouri.

Plat of Township 26 South of the Baseline Range 26 East of the 3rd principal Meridian.

Aggregate area .22906.22 acres.
Scale of 40 chains to an inch.

Surveyor's Office

St. Louis January 17th 1857.

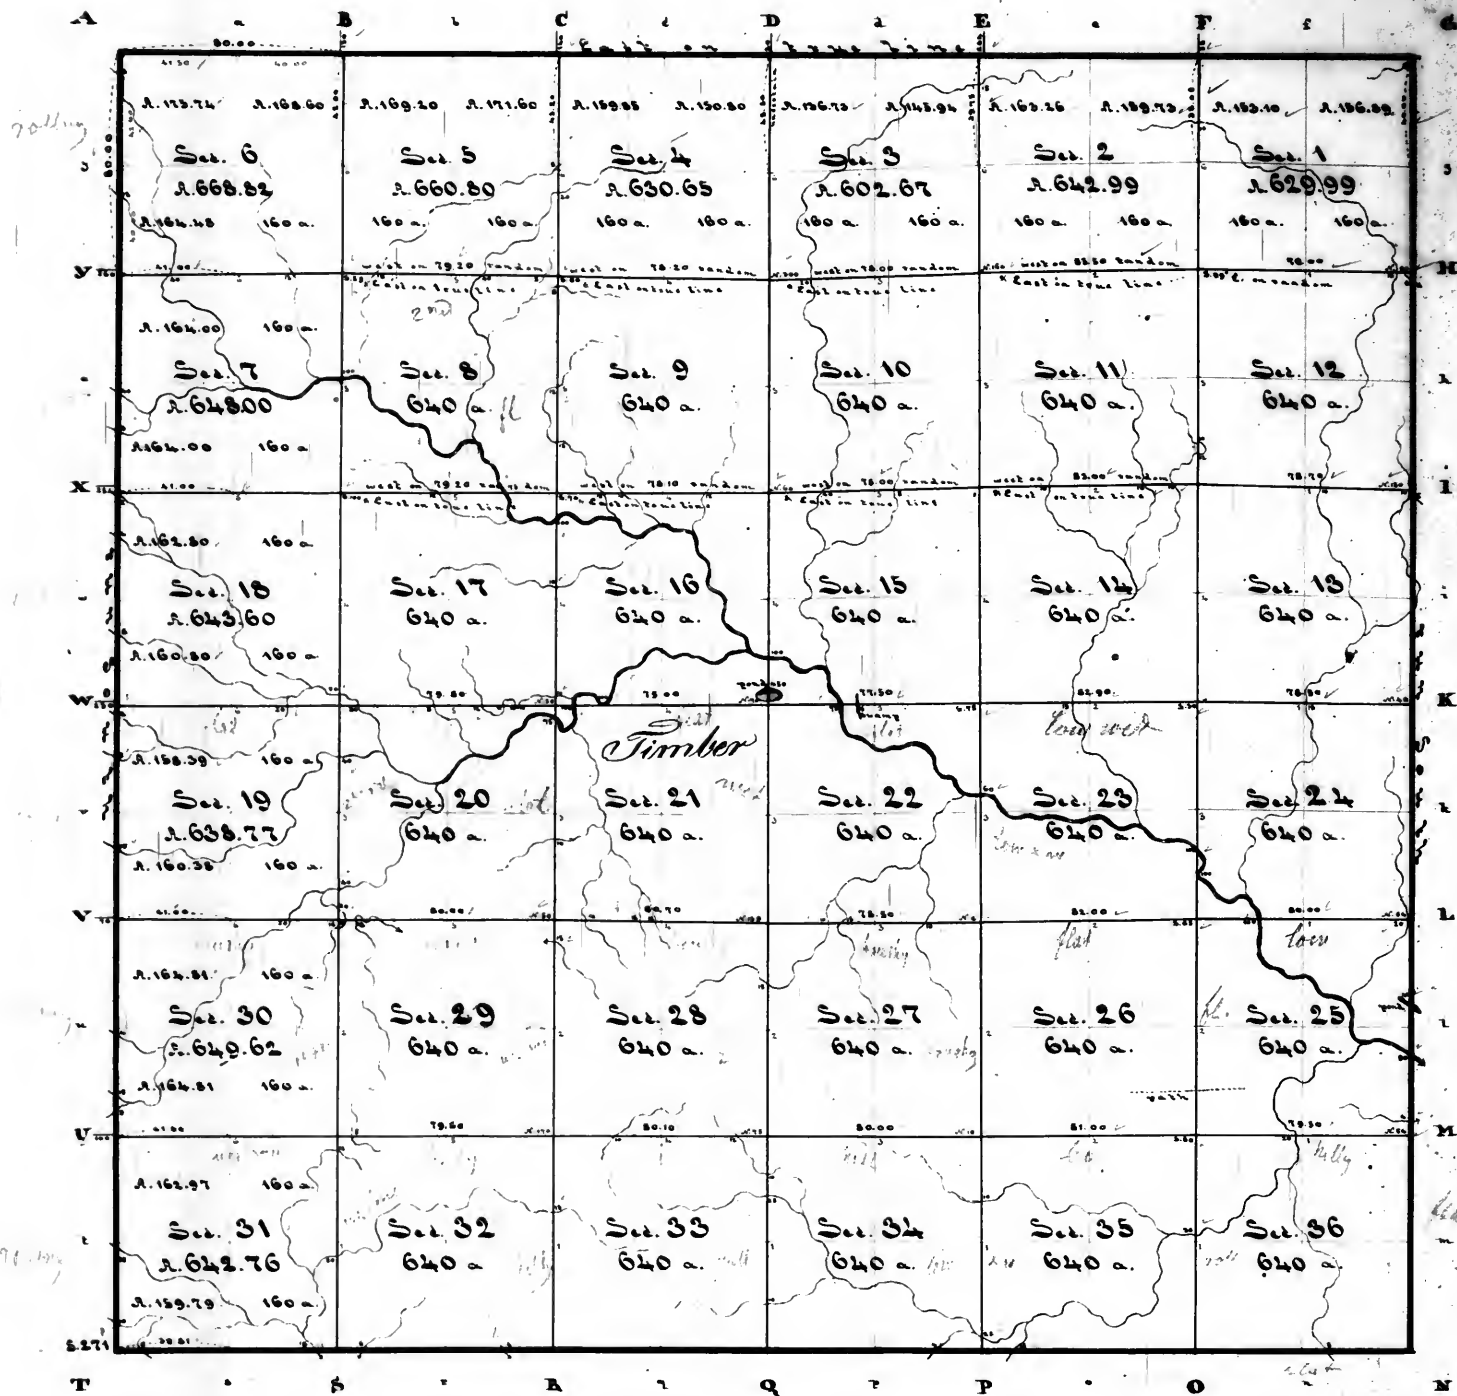

The above plat of Township 26 South of the Baseline, Range 26 East of the 3rd principal Meridian, is hereby certified from the Original Records thereof, and the areas set down thereon are in conformity with those of the original plat of said Township filed in this Office.

M. Lewis Clark

Surveyor of public lands

in the States of Illinois and Missouri

Plat of Township 27 South of the Baseline Range 16 East of the 2nd Principal Meridian.

Aggregate area, 25058.67 acres

Scale of 20 chains to an inch.

Surveyor's Office

St. Louis January 17th 1857

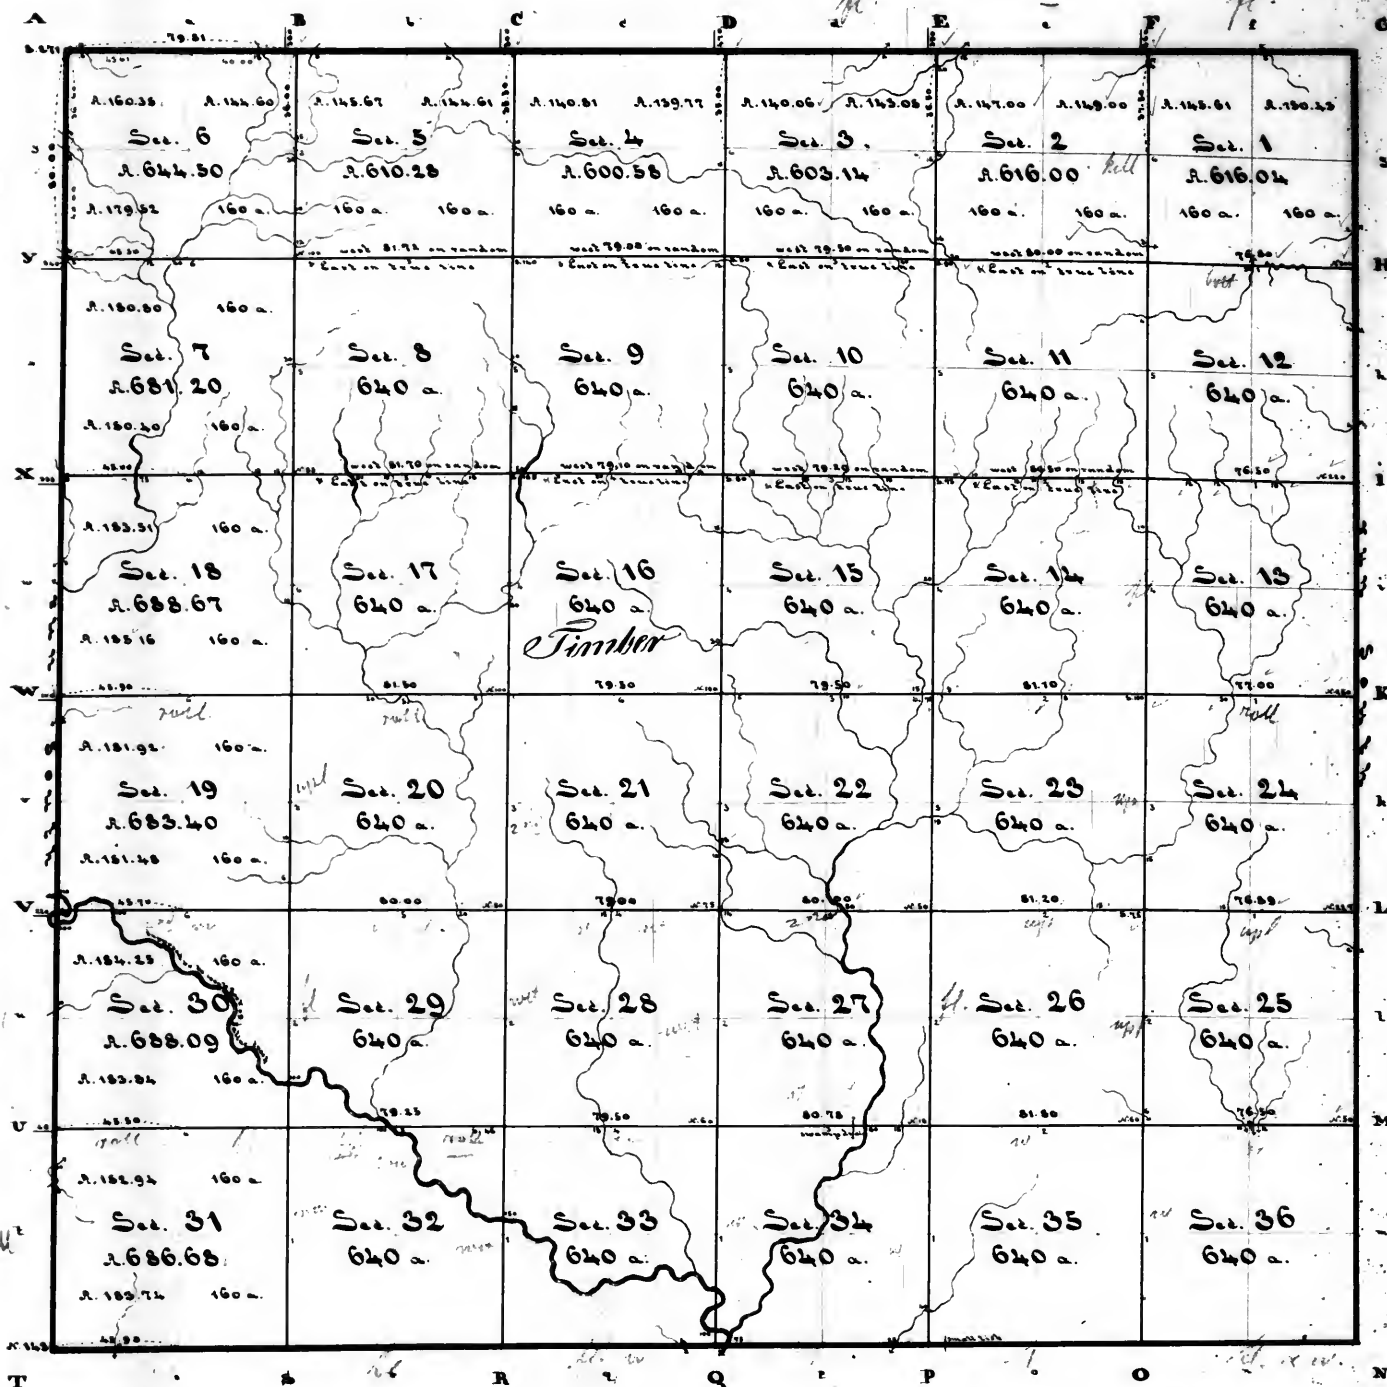

The above plat of Township 27 South of the Baseline of Range 16 East of the 2nd Principal Meridian, is hereby constructed from the Original field notes thereof, and the same set down thereon as in conformity with those of the original plat of said Township, made in this Office.

M. Lewis Clark

Surveyor of public lands

in the States of Illinois and Missouri.

Tat. Township No. 8 South of the Baseline Range No. 6 East of the 3rd principal Meridian.

I have, in the notes at the bottom of the plat, described the boundaries of this Township. It is said in writing South the East. By line of Sec. 36 at 79.50 chains, but a part, because to Sec. 36 and 37 in Range 6 East. It there was no section line, not making said line of the actual length, the given length of 79.50 it is considered to be an error in writing, and in bookkeeping this plat it was presumed that the corner of Sec. 36 and 37 in Range 6 East would be on the given date, and the length of Sec. 36 in this Township will make 80.00 this.

Aggregate area 23118.56 acres.
Scale of 40 chains to an inch.

Surveyor's Office
St. Louis January 17th 1851

The above plat of Township No. 8 South of the Baseline, Range No. 6 East of the 3rd principal Meridian is correctly conducted from the Original Field Notes thereof, and the same set down thereon are in conformity with those of the original plat of said Township, on file in this Office.

H. Lewis Clark
Surveyor of public lands
in the States of Illinois and Missouri.

The map is a 6x6 grid of sections, numbered 1 to 36. Each section contains handwritten acreage and area measurements. A winding line, likely a river or road, runs through the grid, separating sections 1-12 from 13-36. The map includes various annotations such as 'Timber' in section 22, 'low flat w.' in section 15, and 'low flat' in section 16. The grid is labeled with letters A through T along the top and bottom, and numbers 1 through 6 along the left and right sides. The top of the map has handwritten labels 'fl. w.' and 'fl. : w.'

Section	Handwritten Acreage	Handwritten Area
Sec. 1	2,649.03	160 a.
Sec. 2	2,651.61	160 a.
Sec. 3	2,675.06	160 a.
Sec. 4	2,638.80	160 a.
Sec. 5	2,643.00	160 a.

Size of 40 chains to an inch.

St. Louis January 17th 1851.

The above plat of Township #19 South of the baseline, of Range #6 East of the 3^d principal Meridian, is correctly constructed & com-

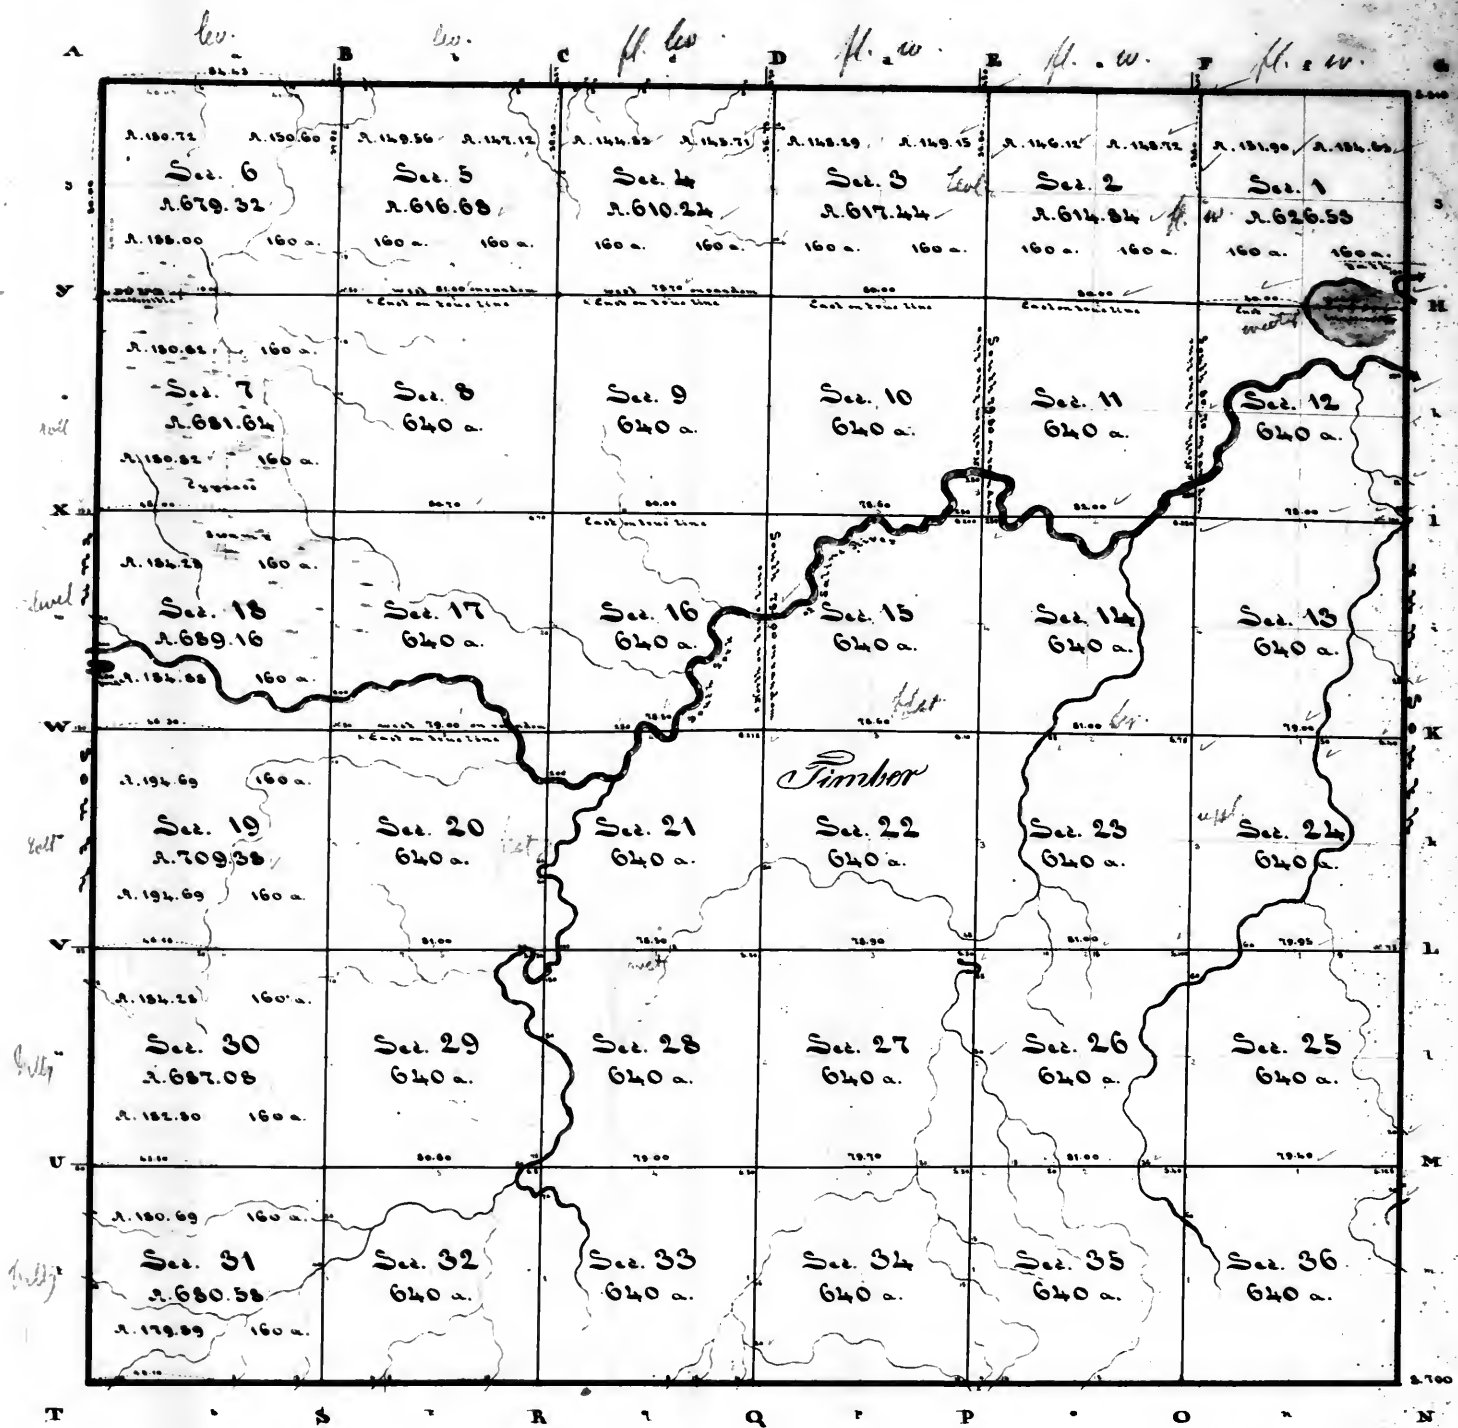

the Original Field notes thereof, and the areas set down thereon are in conformity with those of the original plat of said Township, on file in this Office.

M. Lewis Clark

Surveyor of public lands.

in the States of Illinois and Missouri.

Plat of Township No. 10 South of the Baseline Range No. 6 East of the 2nd principal Meridian

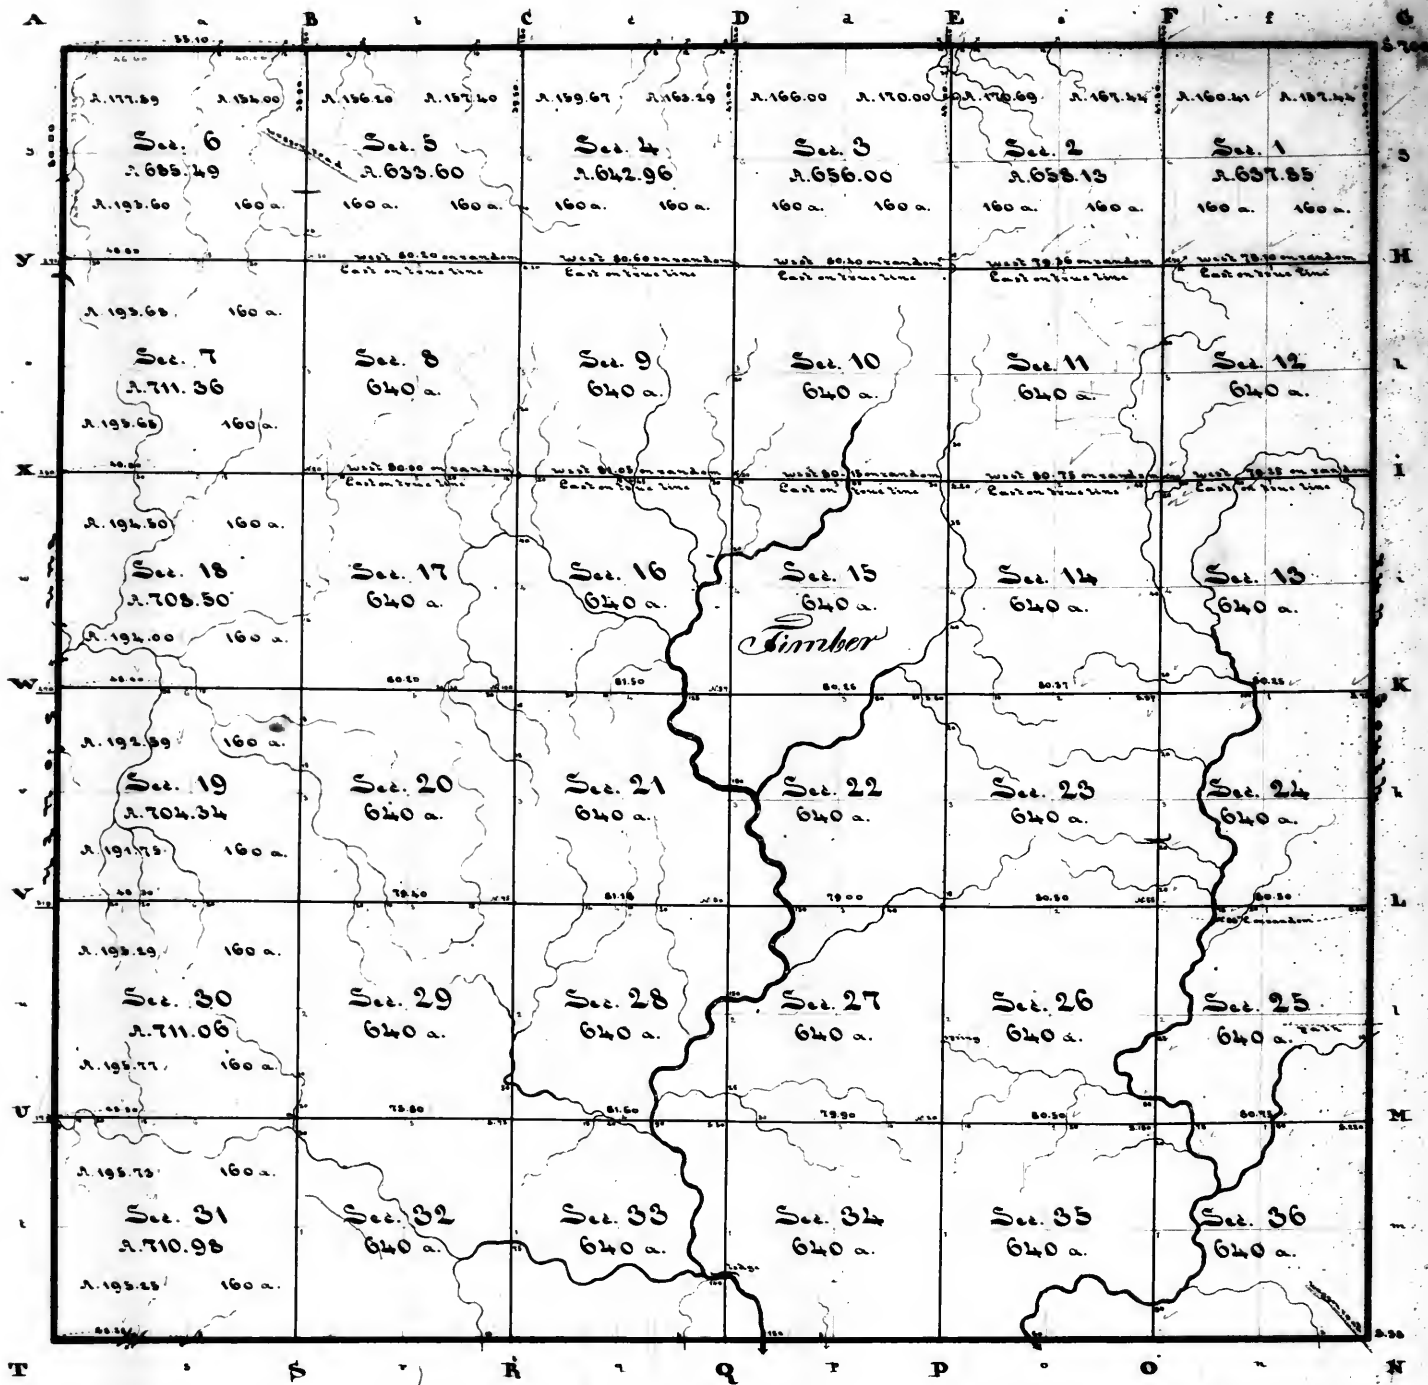

Aggregate area: 23212.89 acres
Scale of 40 chains to an inch

Surveyor's Office
St. Louis January 17th 1851

The above plat of Township No. 10 South of the Baseline, of Range No. 6 East of the 2nd principal Meridian is lawfully conducted from the Original Platbook thereof, and the areas set down thereon, are in conformity with those of the original plat of said Township on file in this Office.

M. Lewis Clark
Surveyor of public lands
in the States of Illinois and Missouri.

Map of Township No. 11 South of the Baseline Range No. 6 East of the 3d principal Meridian

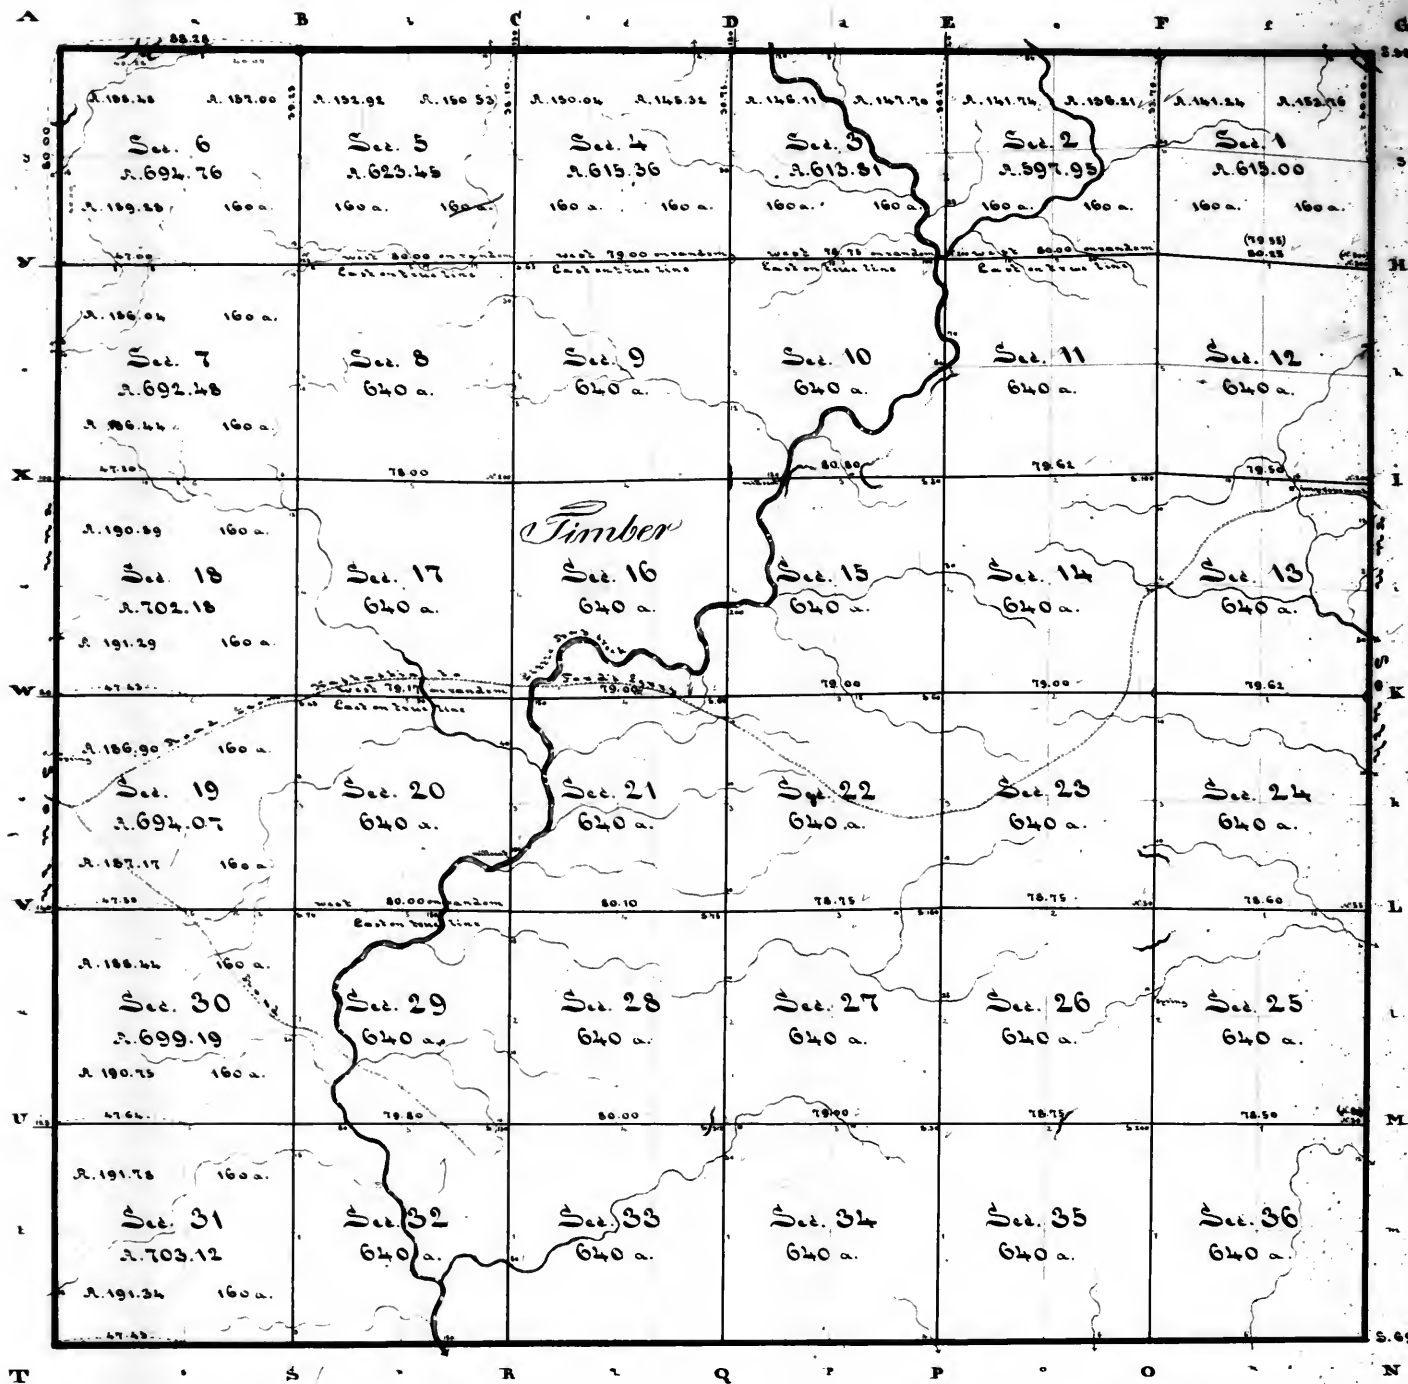

Aggregate area: 23460.27 acres.
Scale of 40 chains to an inch.

Surveyor's Office
St. Louis, January 17th 1851.

The above plat of Township No. 11 South of the Baseline, of Range No. 6 East of the 3d principal Meridian, is lawfully conducted from the Original field notes thereof, and the areas set down thereon are in conformity with those of the original plat of said Township on file in this Office.

M. Lewis Clark
Surveyor of public lands
in the States of Illinois and Missouri.

Plat of Township 12 South of the Prairie Range 6 East of the 3rd principal Meridian.

Note: The selling of the line between Sec. 6 & 7 from the plat on Range line was 160 a. but the amount there of is not the same in the plat.

The subdivision of this Township has been surveyed of the line between Sec. 15 & 16, but does not show which of them is the boundary. In both said line and one half on random down at least to the length there of found to be 78.50 a. but in the former survey and the plat, they 30 miles N, and in the other 65 miles S from the plat on Range line.

There are also two bearings of the line between Sec. 15 & 16. In the 1st bearing said line was run East on random, but not corrected, the length is stated to be 80.25 a. and the selling contains 160 a. from the plat.

It appears from the subdivision of the subdivision of this Township, that the line between Sec. 24 & 25 was surveyed, but it is not regularly entered in the fieldbook. The only notice there, is being only a subdivision of the 160 a. there.

Aggregate area: 23251.37 acres.
Scale of 40 chains to an inch.

Surveyor's Office
St. Louis January 17th 1854

The above plat of Township 12 South of the Prairie Range 6 East of the 3rd principal Meridian is correctly conducted from the Original Standards thereat, and the areas set down thereon are in conformity with those of the original plat of said Township on file in this Office.

Surveyor's Office

St. Louis January 17th 1857.

The above plat of fractional Township #12 South of the Tropic, of Range #9 East of the 3rd principal Meridian, is correctly located from the Original Subdivided Township, and the areas of these sections, are in conformity with those of the original plat of said Township on file in this Office.

M. Lewis Clark

Surveyor of public lands
in the States of Illinois and Missouri.

Plat of Township No. 1 South of the Baseline, Range No. 10 East of the 2d principal Meridian.

Surveyor's Office
St. Louis January 17th 1851.

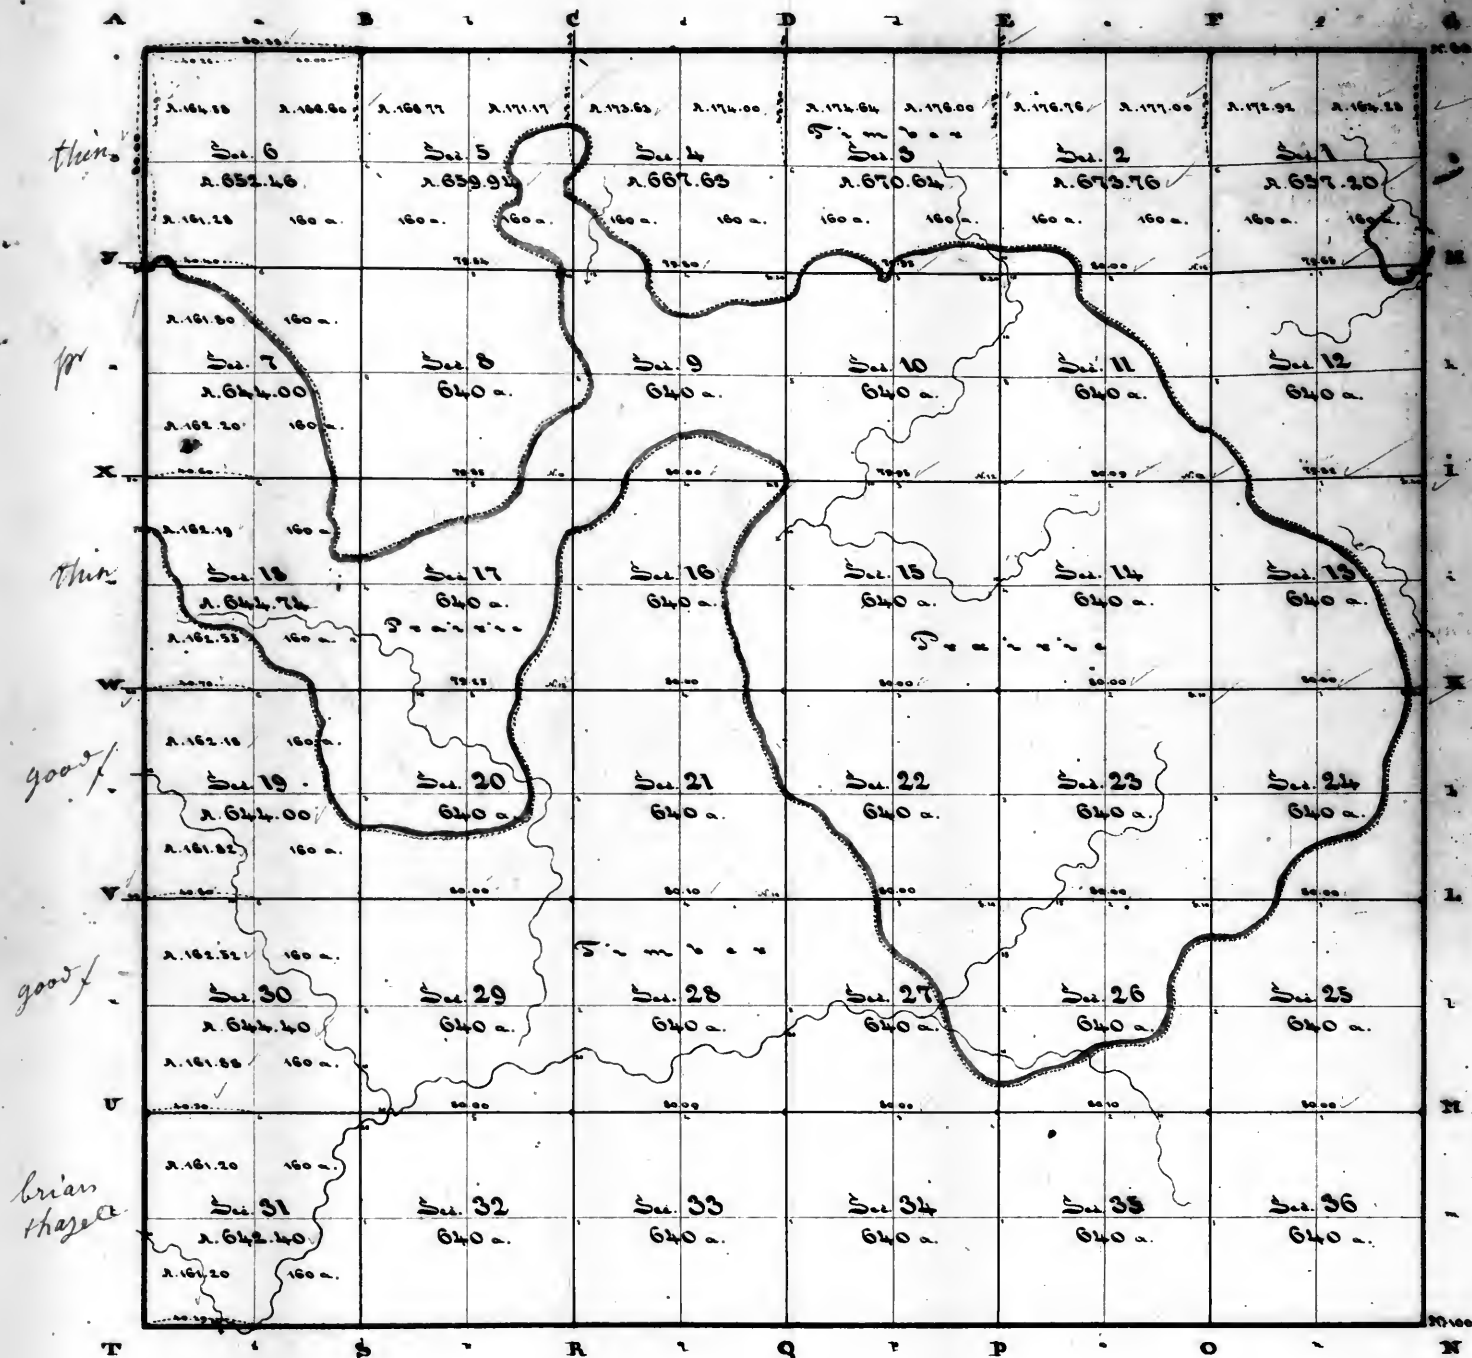

The above Plat of Township No. 1 South of the Baseline, of Range No. 10 East of the 2d principal Meridian, is hereby certified from the Original Subdivided Map, and the assessed Town-Master, as corresponding with those of the original plat of said Township on file in this Office.

M. Lewis Clarke

Surveyor of public lands
in the States of Illinois and Missouri.

Geo. J. A. ...

Plat of Township 2 South of the Baseline, Range 10 East of the 3rd Principal Meridian

Aggregate area, 23201.17 acres

State of 40 chains to an inch

Surveyor's Office

St. Louis January 17th 1857

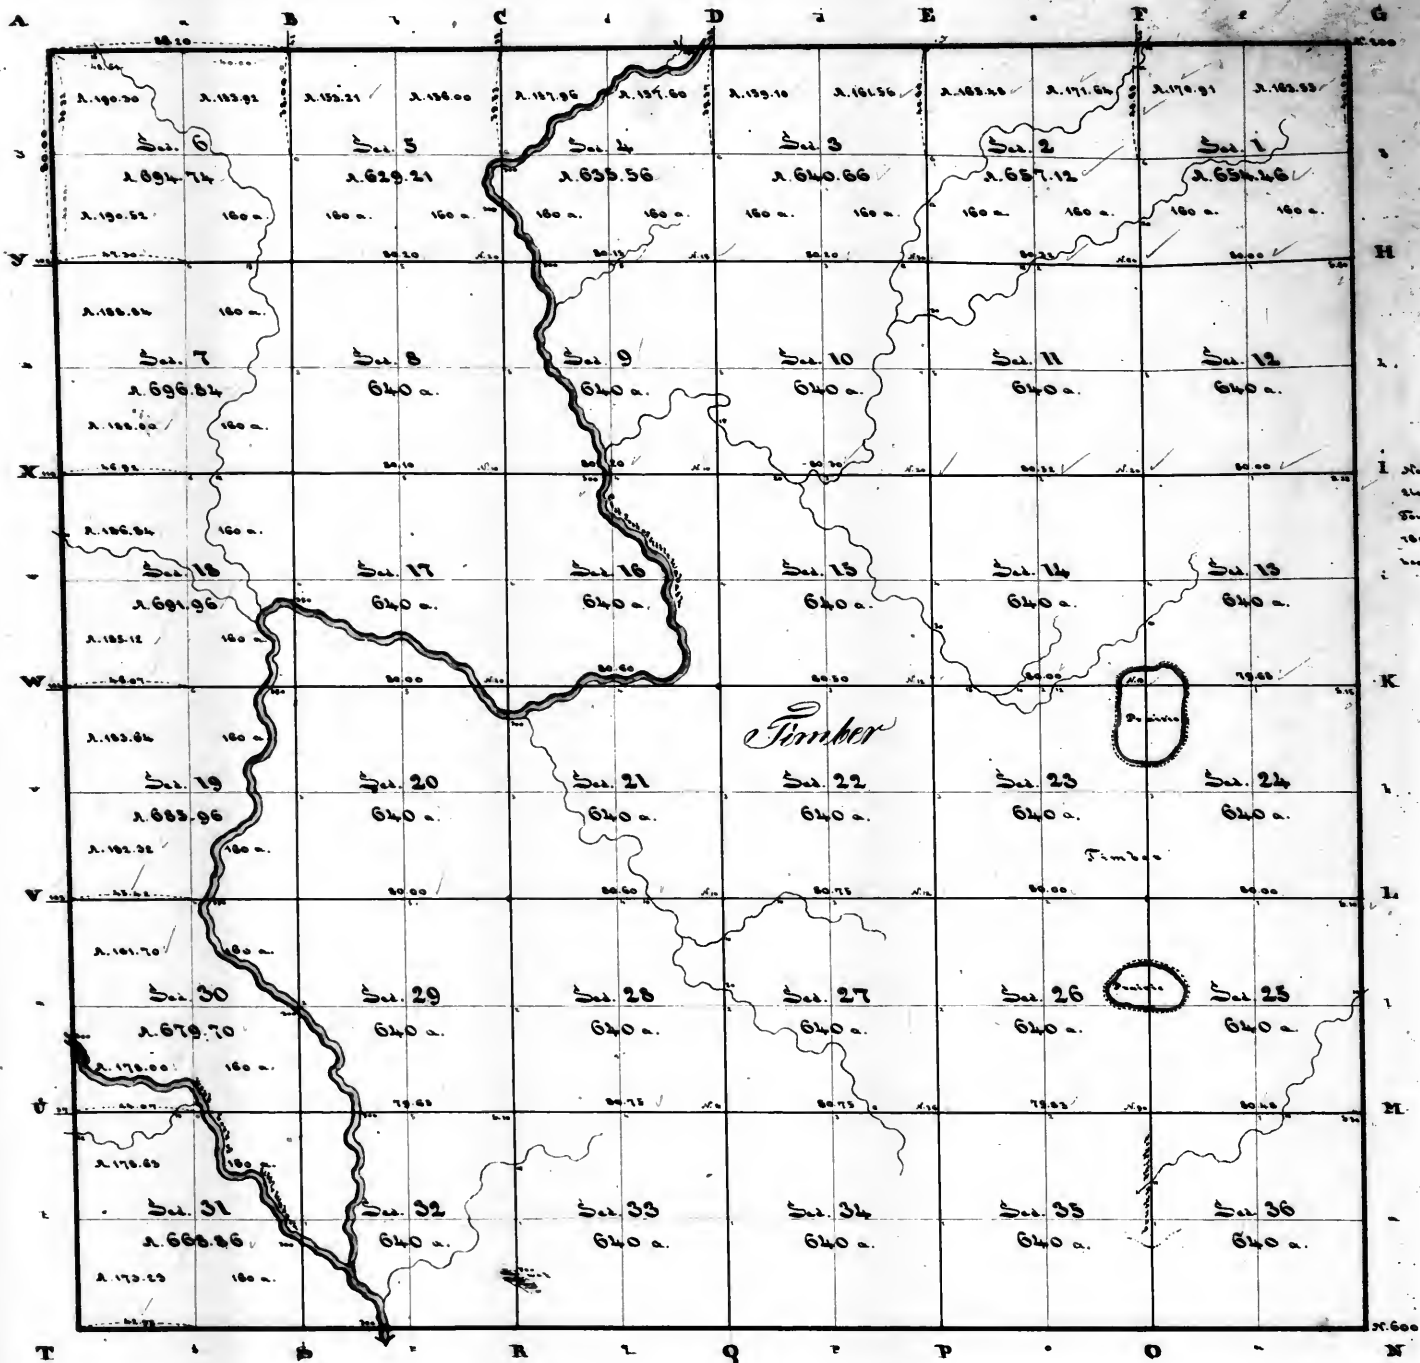

The above plat of Township 2 South of the Baseline, Range 10 East of the 3rd Principal Meridian, is hereby certified to be the original plat of said Township, and the area and acreage, as indicated with those of the original plat of said Township, as in this Office.

M. Lewis Clark

Surveyor of public lands

in the States of Illinois and Missouri

Plat of Township 24 South of the Baseline, Range 110 East of the 3rd principal Meridian.

I Note: It does not appear from the field notes of the survey of this Township, that the line between the 18th and 19th sections, at the corner of the 18th section, is not correct, as the boundary between the 18th and 19th sections is not correct.

Aggregate area, 23335.07 acres

Scale of 40 chains to an inch.

Surveyor's Office

St. Louis January 17th 1857.

The above Plat of Township 24 South of the Baseline, of Range 110 East of the 3rd principal Meridian is correctly laid out from the Original field notes.

Thereof, and the areas set down thereon, are in conformity with them of the original Plat of said Township on file in this Office.

M. Lewis Clark

Surveyor of public lands

in the States of Illinois and Missouri.

Map of Township 18 S. of the Tenth Range N. 10 E. of the 2nd principal Meridian

37.52

Plat of Sectional Township N. 1 South of the Baseline, Range N. 11 East of the 3rd Principal Meridian

Surveyor's Office
St. Louis, August 23rd 1852.
A Copy of Sect 6 sent this day to the
Register at Shawnee town, and an
other copy to the Commissioner of the
General Land Office.
St. Louis April 3rd 1854
Sent this day another copy of Sect 6
to the Register (See his letter from the
1st of April 1854)

Note. The field notes of the survey of the South boundary of Section 31, and of the line between sections 30 & 31, 19 & 20, 18 & 19, and 6 & 7 call for running said lines East and at the intersection thereof with the range line corners were made for the proper sections, without making any connection with the corners on said range line. For this reason, in the calculation of the areas of said sections 6, 7, 18, 19, 30 & 31, the east boundaries are taken and considered as being of the same lengths as their west boundaries.

Scale of 40 chains to an inch
Aggregate area - 2689.16 acres

Surveyor's Office
St. Louis January 17th 1854

2

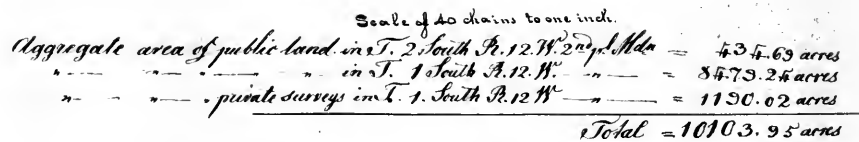

St. Louis January 17th 1851.

M. Lewis Black

Surveyor of public lands
in the States of Illinois and Missouri.

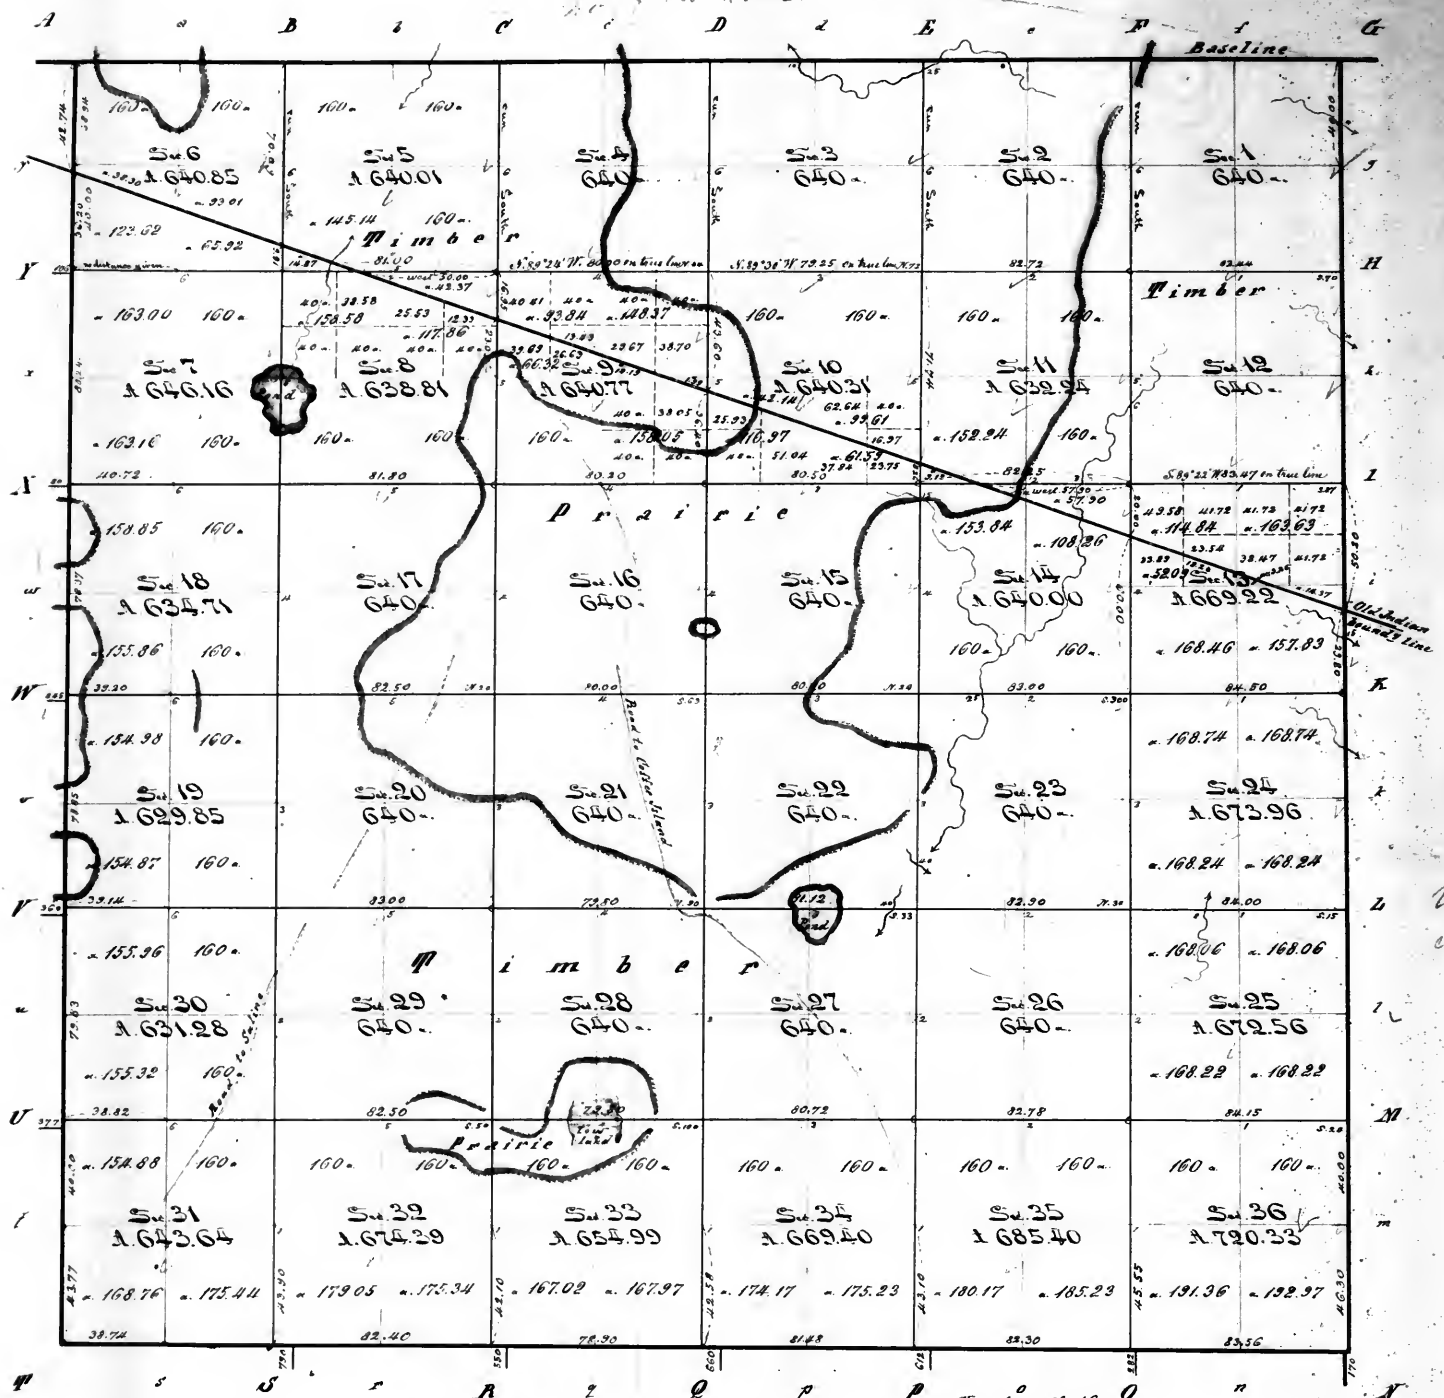

Note. The point of intersection of the line between Sec 17 & 20 on the N & S line, and also of the line between Secs 17 & 18 on the Rangeline is not stated in the field notes.

St. Louis January 17 1851

W. Lewis Clark
Surveyor General

Township 1 South, Range 13 West of the 2^d P. Meridian:

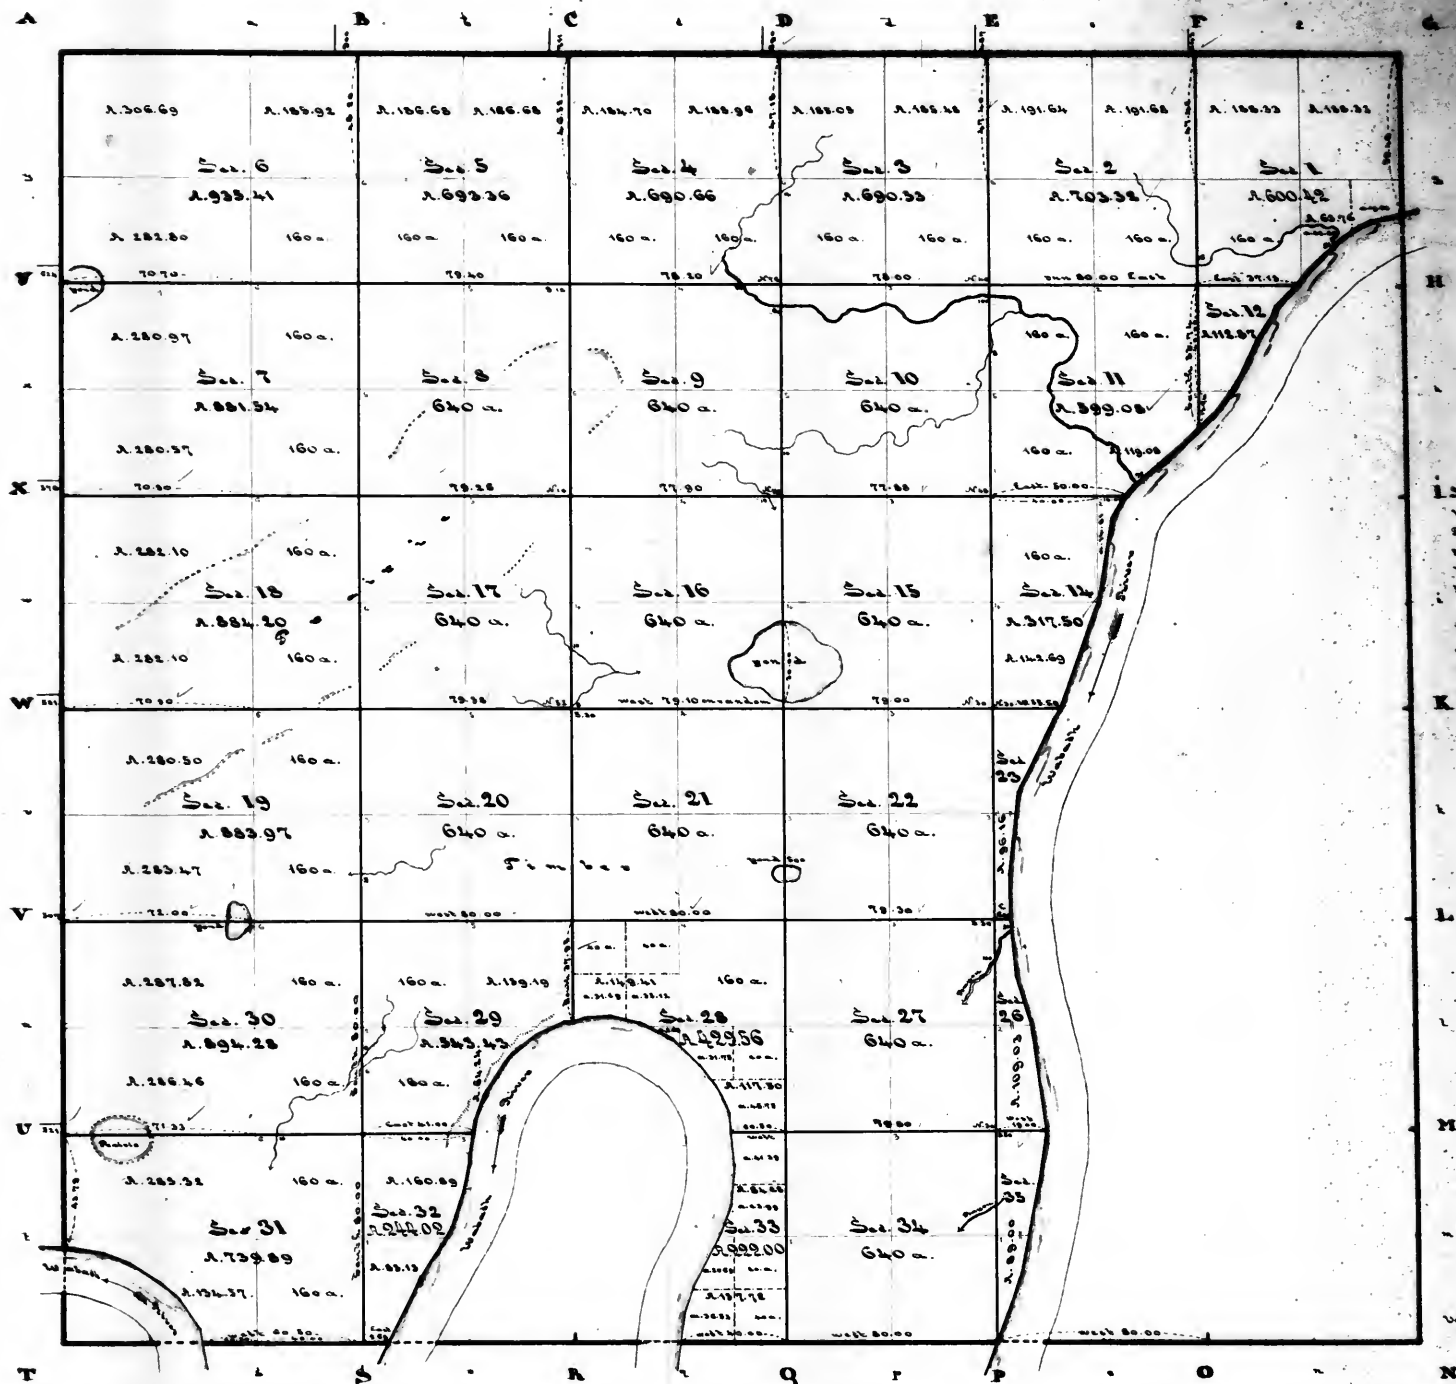

Office of the Surveyor General for Missouri and Wisconsin
St. Louis 1857.

Variation = 6° 30' East
Scale of 40 Chains to an inch
Acreage area 23518.88 acres

The above plat of Township 1 South of the base line, Range 13 West of the 2^d principal Meridian is strictly conformable to the field notes of the survey thereof on file in this Office, which have been examined and approved. There are no field notes existing of the North boundary. The East boundary was surveyed in December 1804 by Daniel Sullivan; the South boundary in December 1806, the West boundary in January 1807; the Indian boundary line in February 1819 by John C. Sullivan under instructions from Surveyor General William H. Rorer; dated the 18th October 1818, the subdivision lines North of the Indian boundary were surveyed in December 1804 by Richard Brown & Son; and those South thereof in October and November 1806 by Daniel Sullivan.

No Longborough
Surveyor General

Plat of East Township No. 2 South of the Baseline, Range No. 13 West of the 2^d principal Meridian.

Variation of 6' 30" East
 Scale of 40 chains to an inch
 Aggregate area, 18850.20 acres

Surveyor's Office,
 St. Louis January 17th 1857

The above plat of East Township No. 2 South of the Baseline Range No. 13 West of the 2^d principal Meridian, is correctly constructed from the Original field notes thereof, and the acres set down thereon, are in conformity with those of the Original plat of said Township on file in this Office.

M. Lewis Clark
 Surveyor General
 in the States of Illinois and Missouri

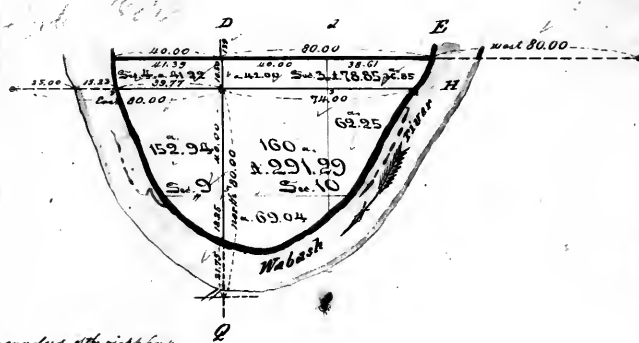

Township 3 South of the Baseline, Range 13 West of the 2^d P. Meridian.

Note. There are no field notes of the meanders of the right bank of the Wabash river along the East half of fractional section 7, nor is it stated in the notes the length of the line between sections 7 & 18 in the bend of the river. The area of the East half of fractional 7 is obtained by deducting from the area of the whole section 1,494.84 acres given on the original plat in the office the aggregate area of the several lots in the West half of the section.

St. Louis November 2^d 1857.
The West half of fractional section 7 in the bend of Wabash river is recalculated and subdivided, and a copy of the section and of the above note sent to the Register at Springfield, and another copy to the Commissioner of the General Land Office. See Register's letter dated October 27th 1857.

Office of the Surveyor General for Illinois and Missouri
Clair's Lewis

Variation 6° 45' East
Scale of 40 chains to an inch
Aggregate area = 1228.53 acres

The above plat of Fractional township 3^d South of the base line, Range 13 West of the 2^d principal Meridian is strictly conformable to the field notes of the Survey thereof on file in this Office, which have been examined and approved. The north boundary, and the subdivision lines were surveyed in December 1806.

Jno Loughborough
Surveyor General

Township 1 South of the Baseline, Range 14 West of the 2^d P. Mer.

Office of the Surveyor General for Illinois and Missouri
St. Louis March 13th 1857

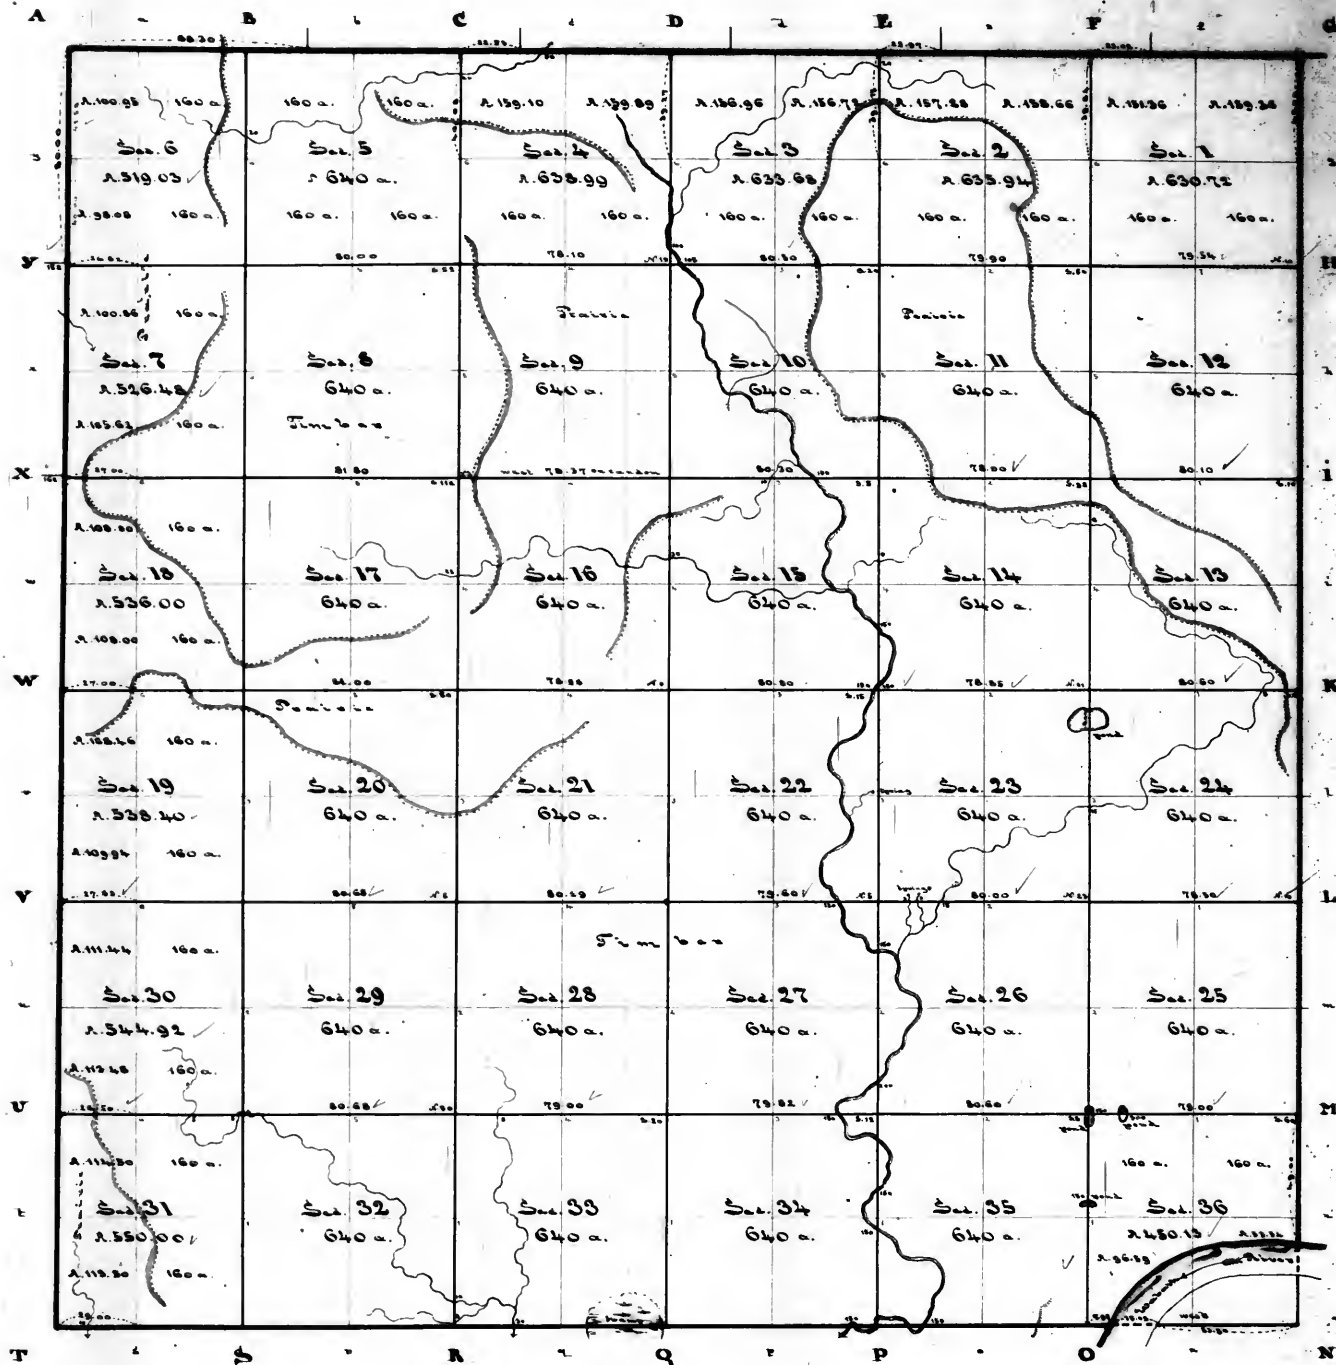

Variation = 6° 45' East
